INSTALLATION OF LAMBDA OF PHI PI PHI

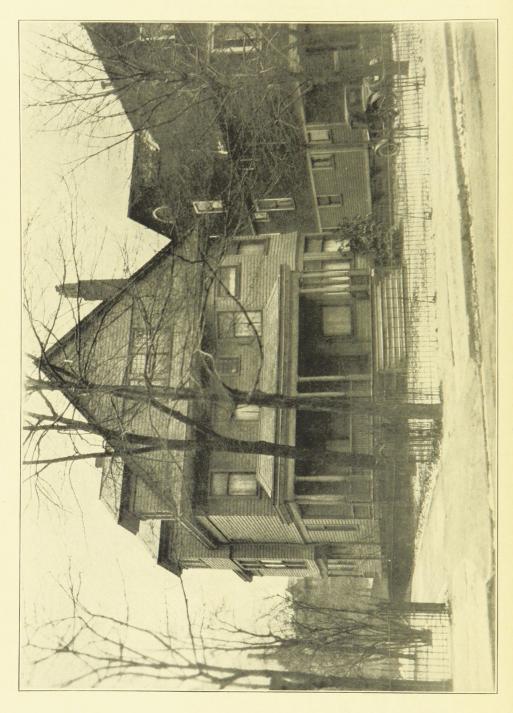

THE installation of Lambda Chapter of Phi Pi Phi Fraternity, at Case School of Applied Science, Cleveland, Ohio, took place January 30, 1926. It was first thought that the chapter house would be large enough to accommodate the initiates, but this plan was abandoned when about twenty-five alumni arrived.

Brothers Clarke, Van Zandt, and Scott arrived Saturday morning, January 30, to take charge of the ceremonies. After breakfast at the Fenway Hall Hotel, the delegation visited Mr. W. S. Anderson, national president of Theta Kappa Nu Fraternity. An interesting discussion of fraternity policies followed.

Dinner at the chapter house ensued. Brothers Bright, of Zeta '25, Gaylord, Gamma '25, and Anderson, Beta '27, now a student at the medical school of Western Reserve University, were also present.

After luncheon, the actives and alumni of Tau Delta Tau assembled at the Criterion Hall to be installed in Phi Pi Phi. Brothers Clarke, Van Zandt, and Scott performed the ceremonies, assisted by the visiting brothers and three of the new members who had been previously obligated and instructed. The charter was presented to the chapter and the ritual was performed in a very impressive manner. Upon returning to the chapter house a bronze name plate and a beautiful banner, gifts of the national officers, were presented.

In the evening, a banquet was held at the Park Lane Villa. The toastmaster, Melville W. Vickery, Case '09, performed his duties nobly. Brothers Clarke and Van Zandt spoke first and told what was expected of Lambda Chapter. They also gave the Chapter some brotherly advice. Brother Scott outlined the history of Phi Pi Phi Fraternity. Brother Bayne, representing

LAMBDA CHAPTER HOUSE 11439 Mayfield Road, Cleveland. Case School of Applied Science

the Case faculty, gave the visiting brothers an insight into the important part played by fraternities on the Case campus. Brothers Bright, Gaylord, and Anderson, the visiting brothers, Brother Stevens representing the alumni, of Lambda Chapter, and Brother Brooks, president of the active chapter, also spoke. Entertainment was furnished by a radio set supplied by Brother Tompkins.

On Sunday, dinner and supper were served at the chapter house, and informal discussions, an inspection of the house, high bridge, and low stories occupied the afternoon and evening. Brothers Clarke and Van Zandt proved to be superior bridge players to Brothers Scott and Brooks. The National Officers left for Chicago late Sunday evening.

The active chapter consists of the following:

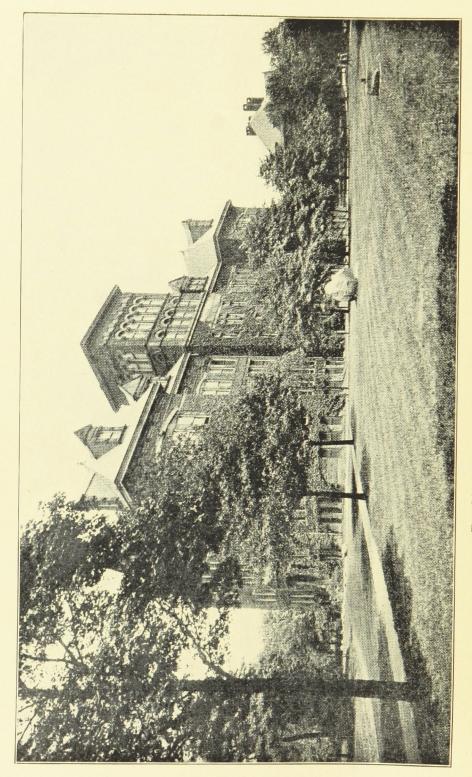

The alumni included:

Frederick W. Bayne
Paul F. Pfau
Howard J. Fahrney
Russel D. Squibb
Glenn N. Davis
Thomas R. Willson
Robert W. Cermak
John R. Boyton
Morris L. Rask

George R. MacInnes George P. Binder Hoy Stevens Leo W. Hebeler Walter M. Stenberg Carl E. David H. B. Wherry Charles J. Brown Neff T. Dietrich

THE MAIN BUILDING AND CLASS OF '23 BOULDER Case School of Applied Science

A BRIEF HISTORY OF CASE SCHOOL OF APPLIED SCIENCE

CASE SCHOOL of Applied Science was founded on February 24, 1877. Although Mr. Leonard Case, the founder, executed the trust deeds which set aside lands to establish and endow the college in 1877, there were no legal proceedings for incorporation until after his death in 1880.

In this year, instruction was begun in the old Case homestead, while plans were made for the construction of a building on Euclid Avenue opposite Wade Park, the present location of Case.

This first building was ill-fated and twice destroyed by fire entailing huge financial losses.

In 1885 five students were graduated at the first commencement. By this time the enrollment had reached fifty-one and plans for expansion were put in motion. Mr. Cady Staley, a civil engineer of note, was elected as first president of Case.

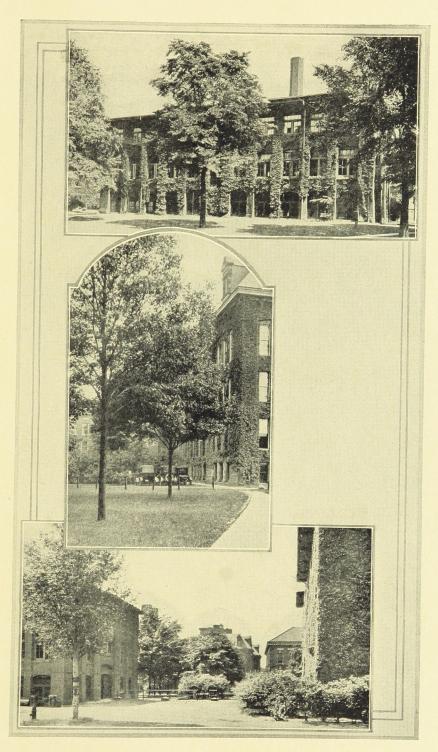

From that time on Case has advanced rapidly. Its student body has sprung from fifty-one to seven hundred and now has six modern buildings and a gymnasium and club house combined.

The intensive development is even more marked, for in its comparatively short period of existence it has risen to the foremost rank among engineering schools.

The student body is entirely male. Courses are offered in the following branches of engineering: Civil, Mechanical, Electrical, Mining, Metallurgical and Chemical, and also Physics. The degree conferred on the graduates of the regular four-year courses is that of Bachelor of Science. Higher degrees are conferred for post-graduate work.

The school is supported by the interest from the endowment made by Leonard Case plus the tuition fees collected from each student. The total value of buildings, equipment and endowment is \$3,908,000. It is estimated by the Real Estate Board that the land occupied by the school is worth \$1,200,000.

A BIT OF THE CAMPUS IN SUMMER Case School of Applied Science

CAMPUS SCENES AT CASE
Top—Mechanical Laboratory
Middle—East Walk—Main and Physics Buildings
Lower—Four of the Laboratories

The total registration at Case for the past fifteen years is as follows:

1910–11503	1918–19887
1911–12524	1919–20
1912–13505	1920–21
1913–14531	1921–22688
1914–15549	1922–23
1915–16557	1923–24544
1916–17551	1924–25577
1917–18457	1925–26611

From these figures it is seen that the registration has been very constant. The only reason that the number has not increased is that the equipment and number of buildings prevents a larger registration and the number of applications always exceeds the number accepted.

At Case, Phi Pi Phi meets the following national social fraternities: Zeta Psi, Phi Delta Theta, Kappa Sigma, Sigma Alpha Epsilon, Beta Theta Pi, Phi Kappa Psi, Sigma Nu, Sigma Chi, Phi Kappa Tau and Zeta Beta Tau. Sigma Tau Delta and Pi Sigma Phi are the local fraternity organizations.

The honorary fraternities are Tau Beta Pi and Sigma Xi, while Alpha Chi Sigma, Theta Tau and Eta Kappa Nu are the professional fraternities that have established chapters at Case.

A GROUP OF ACTIVE AND ALUMNI MEMBERS ATTENDING THE INSTALLATION OF LAMBDA CHAPTER

HISTORY OF TAU DELTA TAU

THE pioneering fraternal spirit was particularly virile at Case School of Applied Science during the ten-year period beginning about 1905. During this decade, numerous groups of students, drawn together by various ideals and associations, organized themselves after the pattern of the two national organizations already well established on the campus. Certain of these groups were collected by pioneering members of expanding national fraternities and charters were sometimes granted these groups before they were well internally consolidated. However, due to the helpful and guiding hands of their parent nationals they are now well established on the Case campus. The field for these fraternities at Case is excellent and nearly all of these numerous groups have prospered.

A few of these groups, however, had even more of the pioneering and independent spirit and elected to go their way alone. They probably all had a far off idea of combining with similar minded groups in other schools in the formation of national fraternities. The fraternity of Tau Delta Tau, whose history is recorded here, is the outgrowth of one such group as is described immediately above.

In the month of December of the year 1908, several individuals of our alumni group conceived ideas relative to the benefits of forming a society based upon fellowship growing from the classroom contacts. It so happened that the progenitors of our present organization were following the mining and metallurgical courses and contemplated limiting the membership to students following these courses. And so the formation of Mu Sigma on January 21, 1909, was based upon these ideals. The membership, small at first grew as time passed, and in the following year a chapter residence was taken up near the Case campus.

Shortly after this time these pioneers attempted to interest several apparently similar groups at other schools in the formation of a national organization. Considerable endeavor along this line brought no satisfactory results and the chapter decided to operate as a local organization where their own precepts could be followed.

From this point on the chapter led a normal fraternity life on the Case campus, retaining, however, the initial restriction of membership to students following the mining and metallurgical course. During the later years, considerable feeling and agitation grew among certain elements of the group for the adoption of a policy permitting the initiation of students following any of the engineering courses offered at Case School of Applied Science. Thus during the years previous to 1919 the policy and organization was changing so that ultimately the membership was drawn from the students of all courses.

The chapter was formally reorganized along these lines into the present fraternity of Tau Delta Tau on January 21, 1919.

The alumni body at the same time organized and incorporated the Alpha House Company which had the extremely concrete and desirable purpose of providing a house for the active chapter. It also permitted those interested alumni to express their gratitude for the benefits of fraternal bond by the subscription of funds to the company which was incidentally made compulsory on the part of all members of the active chapter. At the present time the house company handles the legal transactions pertaining to the leasing of the dwelling serving as the chapter residence. The outright purchase of a chapter house is contemplated and will eventually come about when definite plans are laid for the expansion and development of Case School of Applied Science, or the University of Cleveland.

PROMINENT IN PHI PI PHI

FRED M. CLARKE, President of the Fraternity and member of the National Council, was born in Bronson, Michigan, in 1870. His family were among the first settlers to reach Michigan after the War of 1812, and had formerly lived in Pennsylvania and Massachusetts. Some of his ancestors were officers in the Revolutionary Army.

Fred spent the first eleven years of his life in Bronson and then came the death of his father, who had been a close companion to his young son. It was his father's greatest wish to have Fred go to college but a partner's defalcation almost defeated this desire. Fred "carried on" by going to school at Bronson and Coldwater and in January, 1888, he applied for admission at Yankton College, Yankton, South Dakota. A five dollar bill represented all of Fred's worldly assets, but his courage more than made up for the lack of funds. Here he remained six years and after receiving his degree entered the office of Gamble Brothers, one of whom afterward became congressman and the other a U.S. senator.

Brother Clarke came to Chicago in 1895 and at once engaged actively in the real estate business for himself. His first office was at Lincoln and Wilson Avenues, then almost a wilderness. In 1899 he formed a partnership with George Hipple under the name of Hippel & Clarke, and the firm has been in business ever since. It is one of the oldest partnerships in Chicago.

Having an ambition for a degree in law, Fred entered the Chicago Kent College of Law, and received his degree in 1911, being admitted to the bar in the same year. While at Kent, Fred was president of his class.

To Brother Clarke belongs the honor of having organized the first course in real estate salesmanship in this country. It is given at the Chicago Central College of Commerce under the auspices of the Central Y.M.C.A. and the Chicago Real Estate Board. Fred is now at work putting his lecture notes in book form.

Photo by Mabel Sykes

FRED M. CLARKE President of the Fraternity

Brother Clarke has been a very active citizen and during the War he was a Four Minute Man and a member of the Liberty Speakers Bureau, which carried on the work of Americanization of our foreign born population. In 1920 and 1921, he was President of the Rogers Park Improvement Association. His extensive traveling has given Fred an unusual insight into economic and political affairs and he has many demands made for his talks.

Brother Clarke has always shown interest in the welfare of others and especially with young men. In Michigan he organized a Young Men's Association, whose activities were modeled after the Y.M.C.A. but before the latter was known. In 1914, he became scoutmaster and later deputy commissioner. He has been identified with Y.M.C.A. work ever since he came to Chicago and it was in this field that he first met Brother Scott.

As a culmination of Fred's interest in young men and his desire to render a service to them and through them to society, he became one of the Founders of Phi Pi Phi, and now as President he is devoting himself wholeheartedly and without limit in the service of the Fraternity.

Fred is married and has two sons, Frederick and Mason, who are members of Delta Chapter. He lives at 6712 Greenview Avenue, Chicago.

WILLIAM BYRON KINNEY, member of the National Council, enjoys the honor of having been the first national president of the Fraternity. He was born at L'Anse, Michigan in 1887, the son of Sylvester Kinney, who was twice elected to the Michigan legislature. The father was a prominent newspaper publisher and a political power in the upper Peninsula.

His father died when Will was 10 years of age, leaving the widow with six sons and three daughters. The family moved to Green Bay, Wisconsin, where the children were educated in the public schools, and a few years later came to Chicago.

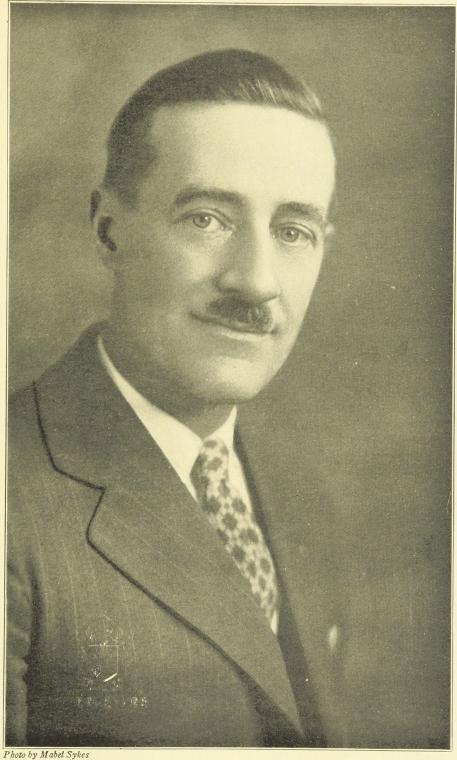

Photo by Mabel Sykes

WILLIAM BYRON KINNEY Vice-President of the Fraternity

Will's mother, Estelle Morse Kinney, was a woman of remarkable executive ability and great personal charm. She was a leader in many charitable and civic organizations, and was president of the Coeducational Club of Chicago until her death in 1922.

The Kinney brothers were prominent athletes in the Chicago high schools, taking their college work at Lewis and Wisconsin. Will eventually entered the engineering department of the Chicago Street Railways, and after several years in business became interested in dentistry. He graduated from Chicago College of Dental Surgery in 1916, and moved to Austin where he has since resided and practiced.

Perhaps nothing else can better illustrate the character of the man than his war record. He was offered a commission in the Dental corps. He preferred action in place of safety and enlisted as a buck private in the Tank corps, coming back a Lieutenant.

"Doc" is quite an active member in the following organizations: American Dental Society, Illinois Dental Society, Chicago Dental Society, West Town Chamber of Commerce, Austin Business Men's Association, Austin Lions Club, and numerous Masonic bodies including the Knights Templar.

Brother Kinney married Elizabeth Harrison in 1919 and they have one son, William Byron, II.

ARNOLD C. VAN ZANDT, member of the National Council and Executive Secretary, was born in 1888, in Illinois, the son of Mr. and Mrs. Cyrus Van Zandt. He is a direct descendant of General Rufus Putnam of Revolutionary War fame. Another forefather was General Benjamin Tupper, also a soldier in the Continental Army. Both were pioneers of the Northwest Territory.

Van received his preparatory schooling in the Champaign, Illinois, public schools and entered the University of Illinois in 1906. He was out of school for a year or two, but reëntered in

Arnold C. Van Zandt Secretary-Treasurer of the Fraternity

1911 and graduated with the class of 1912. After graduation he entered the employ of the Chicago, Milwaukee and St. Paul Railway at Chicago, and was later transferred to the staff of the Vice-President of Operation, Baltimore & Ohio Railroad with headquarters at Baltimore, being appointed shortly thereafter to Chief of the Bureau of Terminal Facilities of the entire system.

At the beginning of the Great War, Brother Van Zandt entered the officers training camp at Fort Meyer, Virginia, and was commissioned First Lieutenant in 1917. Without further ado he was ordered abroad and served two years in France on the staff of the Commanding General of the Intermediate Section, S.O.S., and later on the staff of the 15th Transportation Corps, returning to the U.S. in late 1919 with a commission as Captain of Engineers.

After leaving the Service Brother Van Zandt left the railroad work and entered the field of professional engineering and accounting, and for five years thereafter he was a staff member of a nationally known firm of industrial engineers and accountants. Recently Van has been elected as Vice President of the Sani-Corn Manufacturing Company, who manufacture a new electric popcorn machine.

Van is a bookworm by habit, a traveler by instinct and a bridge player (and "golfer") by association. He is a 32 degree Mason, a member of the Army and Navy Club, the Sons of the American Revolution, Society of Military Engineers, and a Captain in the Engineers Reserve Corps. His principal hobby, however, is working for the Fraternity, and he has the warm appreciation of all of us for his untiring efforts.

Brother Van was married in September, 1925, to Miss Mabel Rohe. They reside at 7010 Greenview Avenue, Chicago, where all members of the Fraternity are heartily welcome.

BROTHER VICTOR B. SCOTT, member of the National Council and Counselor of the Fraternity, was born in Chicago on May 23, 1882. He is descended from one of the earliest colonial families, the original head of the family settling in Connecticut about 1650. His forefathers later went to Kentucky, about 1798, where the major portion of the family now resides. Despite the fact that Vic was born in Chicago, he is claimed as a good Kentuckian.

Victor received his early education in the public schools of Chicago and during those years developed a desire to study law. He entered the Law School of the University of Michigan in 1906 and was graduated in 1909. In order to accomplish his ambition, Brother Scott was obliged to borrow the sum of \$103.00 to pay his expenses to Ann Arbor and to enroll. With no other assistance he completed his university work and at the time of graduation brought home from Ann Arbor the sum of \$2,000.00. We are told that Brother Scott established the first motion picture theater at Ann Arbor.

After graduation, Brother Scott came to Chicago and began the practice of law, later becoming a partner of the law firm of Meads and Scott. This partnership still continues, with offices now in the new Burnham Building, 160 N. LaSalle Street, Chicago. We are indeed proud to have Brother Scott as our Counselor. It will be interesting to the members to know that Brother Scott's firm is counsel for the National Cash Register Company, Toledo Scale Company, Burroughs Adding Machine Company, B. F. Goodrich Rubber Company, and Kellogg Switchboard Company.

In November 1913 Brother Scott married Miss Josephine M. Collyer of Evanston, Illinois, a graduate of Northwestern University. They have one daughter, Margaret, born in 1918. Mrs. Scott is a member of Pi Beta Phi and there is considerable difficulty at times to keep Pi Phi and Phi Pi from becoming transposed.

The state of the s

Victor B. Scott Counselor of the Fraternity

Brother Scott is a member of the Chicago Bar Association and of the Blue Lodge and Chapter in Masonry. Golf has been his hobby and for five years he was member champion of the North Shore Golf Club, his score during that time seldom being more than 80 for eighteen holes. When his golf club built their new \$250,000 club house, Brother Scott was chosen as chairman of the building committee and recently was elected to the presidency of the club.

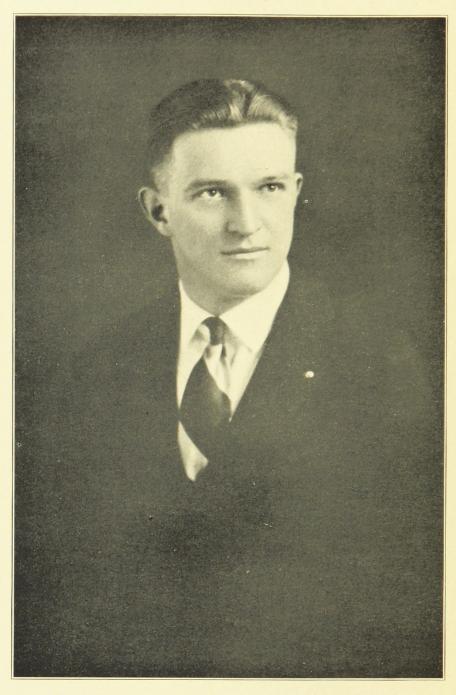

AMBDA'S faculty member, Brother F. W. Bayne, was born August 14, 1899 in Lakewood, Ohio. He received his elementary and high school training in the Lakewood Public Schools. He entered Case School of Applied Science in 1918. While at Case he had a brilliant career in campus activities and was awarded a Case Honor Key for his activities. His scholarship was also excellent as indicated by the fact that he made Tau Beta Pi and Sigma Xi.

After graduating from Case he received a scholarship from the Yale Graduate School and the next two years were spent in the Mechanical Department of that institution. During his four years at Case and the two at Yale he spent considerable time particularly in the summers in the Service and Experimental Departments of the White Motor Car Company.

The first year at Yale was devoted mainly to a study of Gasoline Engine Carburetion and he submitted a thesis on this subject at the end of the year for which he was given a Masters Degree.

The second year was spent in a study of The Use of Oil as a High Speed Internal Combustion Engine Fuel. For his work in this field he received a degree of Mechanical Engineer.

The next year he returned to Case to become an instructor of Thermodynamics and Heat Engines in the Mechanical Department. He still occupies this position and is one of the best liked instructors in the college. He is still an active worker for the fraternity too. He was sent as a delegate to the Inter-

Frederick W. Bayne, Lambda
Instructor in Mechanical Engineering—Case School of Applied
Science

Local Fraternity Conference in New York and because of his work there is in a large degree responsible for the existence of Lambda Chapter of Phi Pi Phi.

He is now one of the hardest workers for the good of Phi Pi Phi in the Lambda Alumnus Chapter. We predict great things in store for "Freddie."

BROTHER FREEMAN was born at Topeka, Kansas, in 1876 and graduated from the Kansas State Agricultural College in 1895, receiving the degree of Bachelor of Science. In 1897 he graduated from the Kansas State Normal and for

Photo by Mabel Sykes

Ernest H. Freeman, Gamma,
Professor of Electrical Engineering, Armour Institute of
Technology

the following two years taught in the Kansas public schools. His first affiliation with Armour Institute came in 1900, when he enrolled for the electrical engineering course, graduating two years later, in 1902, with a B.S. degree. Upon graduation he was appointed instructor and was later advanced to the professorship which he now holds.

Brother Freeman, in addition to his class room work, engaged in consulting engineering, specializing mainly in experimental and development work. The technical press proclaims his articles and the archives of the patent office contains many records of many electrical devices with which he has enriched the electrical world.

Brother Freeman's affiliation with and memberships in industrial and honorary societies is indicative of the interest and time invested in mastering his own branch of engineering. He is a member of the American Institute of Electrical Engineers, the Illuminating Engineering Association; and has been elected to membership in Tau Beta Pi, honorary fraternity in engineering; Eta Kappa Nu, honorary fraternity in electrical engineering and Phi Kappa Phi, honorary fraternity in graduate research work.

J. H. FAIRBANKS

BROTHER ROESCH was born May 7, 1882, at Aurora, Illinois, some thirty miles west of Chicago. He attended and graduated from the Aurora High School in 1900, entering Armour Institute the following autumn, where he enrolled in the mechanical engineering course. Brother Roesch was graduated from Armour in 1904, receiving the degree of Bachelor of Science in Mechanical Engineering.

After graduating, Brother Roesch spent four years with the Westinghouse Machine Company, where he experimented with gas engines. From 1908 to 1911 he served the Citizens Gas and Electric Company of Lorain, Ohio, in the capacity of Chief Engineer. However, in 1911, Brother Roesch returned to his Alma Mater to accept the appointment of Associate Professor of Gas Engineering.

Brother Roesch is a member of the Society of American Engineers, formerly being a member of it's Research Committee, and for six years was Chairman of the Publication Committee. He is also a member of Tau Beta Pi, honorary

Photo by Mabel Sykes

Daniel Roesch, Gamma, Associate Professor of Gas Engineering, Armour Institute of Technology

engineering fraternity and of Pi Tau Sigma, honorary fraternity in mechanical engineering.

To know Brother Roesch is to like him. He visits the chapter house frequently and has endeared himself to those who know him. He is a valued friend and Gamma is proud that he is among the roll of brothers.

J. H. FAIRBANKS

Frederick M. Evans, Zeta, University of Wisconsin

BROTHER FREDERICK M. EVANS was born in Radnor, Ohio, on January 20, 1895. Very shortly thereafter Brother Fred, as he is generally named, moved to Wisconsin and settled at Sparta where the elder Evans became a lumberman. Fred graduated from the Sparta High School and entered the College of Commerce at the University of Wisconsin in 1922, graduated in June 1925. Last autumn Fred entered the Law School and so he will be with Zeta another two years.

Fred was one of the most active men in the College of Commerce as is shown by the fact that he was elected president of the Commerce Club and was also an executive of Alpha Kappa Psi, the commerce fraternity. As chairman of Admissions of the University of Wisconsin Exposition, Fred contributed to the success of the exhibit in no little measure. He was elected as circulation manager of the *Commerce Magazine* and at the same time was member of the Advisory Commission.

Beginning with the autumn semester Brother Evans has

been on the staff of the Athletic Department as an instructor and also he is connected with its publicity.

There has never been a harder worker for the success of Zeta Chapter than Fred and for the last two years he has been the chapter steward. His greatest ambition has been to have a part in the work of purchasing a new chapter home for Zeta. This wish will be realized when the Chapter will move into their new home about March 15. Brother Evans was chairman of the House Committee and has arranged for the finances.

JAMES V. ROOT, Beta

BROTHER JAMES V. ROOT, Beta Chapter, of which he is also the president, has contributed the cartoon and other sketches to be found elsewhere in the QUARTERLY. In Brother Root we have an unusually active and versatile

member for in addition to his art work he has composed the Loyalty Song of the Fraternity. Also he has considerable ability as an actor.

Since his sojourn at the University of Chicago, and this is his junior year, Jimmy has been given the leading rôles in the Blackfriar productions. Acting as a coed he can fool the best of them, and he is a pretty good dancer too.

Just this year Brother Root was recognized as the most capable artist on the campus and was elected art editor of the Cap and Gown, the yearbook published by the Junior class. His cartoons have been of such character that for the past three years he has contributed largely to the *Phoenix*, the humorous magazine of the University. For the past two years he has been art editor of this publication.

Jimmy is enrolled in the College of Commerce and Adminitration and last year was elected as the Junior representative on the Student Council. Besides all of his various activities, he maintains a very high average of scholarship and, as a reward, has been elected to Alpha Sigma Delta, the honorary C. & A. fraternity.

Further evidence of Brother Root's art work will appear very shortly for the cover design of the new Phi Pi Phi Songbook is his creation.

BROTHER WALTER GREEN, who was the first president of Eta Chapter, was born at Draper, Utah, in 1899. He received his early education at Draper and attended the Jordan High School and graduated from the L.D.S. High School of Salt Lake City. Just prior to his graduation he enlisted in the U.S. Army but the signing of the Armistice, occurring one month later, interrupted this new career.

Entering the University of Utah in 1919, Brother Green entered upon a very brilliant university record. He graduated in 1923 with Honors and an A.B. degree. The following year

he was granted a fellowship in psychology and in June, 1924, received his Masters Degree.

Brother Green has had a penchant for mathematics and he now switched over to the study of actuarian mathematics and entering the University of Michigan in 1924, where he was appointed part time instructor in mathematics, which enabled

Walter C. Green, Eta University of Utah

him to continue his specialized study. In June 1925, he received the degree of Master of Science. Thereupon he returned to Salt Lake City and became the actuary for the Intermountain Life Insurance Company.

There are well defined rumors that Brother Green has become the head of a family but so far we have not been acquainted with the details.

Photo by Mabel Sykes

Edward H. Marhoefer, Jr., Gamma, Armour Institute of Technology

BROTHER "ED", as he is known by all at Armour, was born in Chicago in 1904, and entered Armour in the autumn of 1922, enrolling in the civil engineering course.

Ed was one of the charter members of Gamma Chapter and has always been one of the most active in chapter activities. For the past two years he has been the Dean of the Pledges, which has kept him pretty busy, especially so this year for he has a class of seventeen pledges to prepare for initiation.

Early in his freshman year Brother Marhoefer started out to gather in most of the activities on the campus and as a result he has carried the colors of the Fraternity into most every

THE QUARTERLY OF PHI PI PHI

organization. His activities are listed herewith: Freshman Frolics; Captain of the Swimming Team for two seasons; treasurer, Sophomore class; business manager of the "Cycle" (the Junior Year Book); elected to Sphinx, honorary literary society; One of the Founders of the Press Club; president of Sphinx; president of Chi Epsilon, honorary civil engineering fraternity; manager of varsity baseball team member of senior social and picture committees; member; Western Society of Engineers; member American Society of Civil Engineers; member of Dramatic Club; member of Glee Club, and member of the Paulist Choir of international fame.

In spite of all his chapter and outside activities Brother Marhoefer has maintained a splendid scholastic average. HIS AVERAGE FOR THE FOUR YEARS IS 92.1.

Brother Marhoefer will graduate with the class of 1926 and he will be greatly missed by Gamma, but Gamma will have the satisfaction that he is working just as diligently for Phi Pi Phi, as a member of the alumni as he did during his undergraduate years.

W. E. Downs

Floyd Δ

THE MULLERS

Thurman A

Donald A

THE MULLER BROTHERS

THE Editor takes a great deal of pleasure in presenting to to the readers of the QUARTERLY the photograph on the opposite page, for it is not often that we have three brothers members of the same fraternity and of two chapters. We are told that we may expect another brother to enter Northwestern University within the next two years.

The activities of each are as follows:

Floyd Muller, Delta Chapter, University of Illinois: Alumni Reunion Committee, Homecoming Stamp Committee, Union Smoker Committee, Homecoming Registration Committee, Panhellenic Formal Dance Committee, Bachelor of Arts, College of Commerce, Class of 1924.

Thurman Muller, Alpha Chapter: Northwestern University, School of Commerce '27, Member of Phi Sigma Chi (commerce), President of Freshman Class '24, Northwestern Commerce staff '24, Secretary-Treasurer of the Student Council '25, Lydian Reception chairman '25, Washington Birthday Dance chairman '25, Northwestern Commerce staff '25, Daily Northwestern staff '25, Member of the Board of Publication '26, Vice-President of Student Council '26, Financial Secretary of the Commerce Club '26, President of Society of Industrial Engineers '26, Associate Business Manager of the Syllabus '26, Professional Interfraternity Basketball Manager '26, Commerce Business Manager of the Daily Northwestern '26, Commerce Business Manager of the Purple Parrot '26, Chairman of Greater Interfraternity Council smoker '26, Easter Dance Chairman '26.

Donald Muller, Alpha Chapter, Northwestern University, School of Commerce '29: Member of Phi Sigma Chi, President of Freshman Class '26, Northwestern Commerce staff '26.

THE QUARTERLY OF PHI PI PHI

ACTIVE IN COLLEGIATE AFFAIRS

Lawrence Wilcox, Delta: Member of Agricultural Club, Hoof and Horn Club, Captain of the University of Illinois Stock Judging Team, which has had notable success during the present season at the most important live stock show exhibits.

Howard Parker, Theta: Member of Circle C Society, Member American Institute of Electrical Engineers, Captain Reserve Officers Corps, Member of Aviation Association, Member of Staff, "California Engineer," Member of the Varsity Boxing Team.

Harold G. Mabry, Lambda: Lambda's Three "C" representative, Member of Varsity Football Team, Member of Varsity Basketball Team, Member of Varsity Track Team.

HOWARD PARKER

ZETA PURCHASES A HOME REPRESENTS AN INVESTMENT OF \$65,000

OUR NEW ADDRESS IS 250 LANGDON—WELCOME!

A T LAST our ambitions to own a chapter home have met with success and by the time that this issue of the "Quarterly" is in the reader's hands we will be at home in our new chapter home, on the same street but considerably nearer the campus.

Early last semester Zeta entered into a contract to purchase the former home of Dr. Richard Ely, who for a number of years was the head of the Economics Department of the University. This house was located on University Heights and in a district which was zoned against fraternity homes. Rather than fight a long drawn out legal controversy, we have purchased our new home in the fraternity district.

We regret that we are unable to secure the artist's sketch of our new chapter house in time to be shown in this issue of the QUARTERLY but it will be sent in for the next issue. While the house was built originally for fraternity use the interior will not require very much remodeling. Active work altering the exterior is to be commenced at once and all the work contracted for will be completed prior to June 1.

Our present house was quite inadequate and the location was not as near the campus as was desired so we all have been putting our shoulders to the wheel to accomplish the change. The new house will comfortably accommodate forty men and an equal number can be seated in the dining room, and the former house could accommodate but twenty-four men and only seated thirty-two in the dining room.

The cost of the property will exceed \$65,000 and a considerable amount will be spent in refurnishing the house. With this change, it has been necessary to place our finances on the budget basis.

YOU HAVE YOUR CHOICE

By WILLIAM C. LEVERE

Fraternity men, you have your choice. You can go out from your college life and leave behind you every vestige of your fraternity allegiance. You can forget the memories of chapter house life and of the comradeship of brothers. You can devote your lives to gain and gain alone, and your soul will warp and wither into mean ways and low selfishness—or, you can cherish those ideals of fraternity life and love, and live and give all the best of youselves to others. You can serve and live on the heights of friendship. You can renew the happiest and most gracious hours of your youth. Hold to these ideals and though the years go by you will never grow old. There is the flame and fire of fraternity inspiration and of fraternity memory that will burn in your heart like a light on an altar.

THEY MUST GO

The Convention Minutes for 1925 is a volume rich in values to Beta Theta Pi. No part of it has received more favorable comment than the paragraphs in the Report of the Board of Trustees which tell of expulsions from the fraternity.

Beta Theta Pi was founded as a close-knit brotherhood. Each member was selected with scrutinizing care after much observation. Mistakes were few during the first forty years of our history. The ideal for membership was set high and a cherished expression included the words, "worthy to wear the badge and bear the name of Beta Theta Pi."

Modern fraternity life has brought many changes. The chapter house has come, a compound and complex of home, hotel, club and lodge. Against the fraternity account are charged room rent, board, house dues, community entertainment outlays. The financial side of fraternity life has become of prime importance. Elections to membership are attended by greater competition and less scrutiny than in the earlier years. Some chapters even resort to "fillers" to keep rooms occupied and earning. In only a relatively few is there most rigid examination of credentials.

With these changes unworthy and undesirable members are admitted at times. They soon show their characteristics and become liabilities instead of assets. Some of them quickly suggest the thought that the fraternity would gain rather than lose by removing them from its rolls. The testimony of experience is all in favor of the decision in certain instances: "They must go!"

1. They must go! Members who live in our chapter houses, enjoy the privileges of chapter life, gain recognition or preferment because of member-

ship in our fraternity, have room, bath, board, and then fail to pay or to provide for the charges necessary to maintain such an establishment, sometimes graduating or leaving college without a settlement, leaving others to meet the indebtedness they themselves created for food, for service, for rent. They must go! They are not worthy to wear the badge and bear the name of Beta Theta Pi.

2. They must go! Members who sign notes to help finance chapter houses which they use and enjoy while in college and then refuse to honor such contractual obligations when they have left college. They must go! They are not worthy to wear the badge and bear the name of Beta Theta Pi.

3. They must go! Members who use their fraternity connection to borrow money from trusting brothers whom they never intend to repay. The dead-beats. They must go! They are not worthy to wear the badge and bear the name of Beta Theta Pi.

4. They must go! Members who return to the chapter house after graduation or dropping out and bring liquor with them, in spite of college plea, of chapter regulation, and of earnest desire of the active chapter, and particularly those who tempt younger members to break rules against liquor on fraternity property. They must go! They are not worthy to wear the badge and bear the name of Beta ThetaPi.

5. They must go! Members who are convicted of crime; members who steal from their chapter fellows; members who violate their obligations to Beta Theta Pi by joining "hell-raising" inter-fraternity and inter-collegiate organizations absolutely barred by our laws; members in business who seek to break down contracts made by the fraternity as a national organization; all members who lack the instincts of high-minded gentlemen. They must go! They are not worthy to wear the badge and bear the name of Beta Theta Pi.

They must go!

-From Beta Theta Pi

PHI PI PHI AGAIN TAKES SCHOLARSHIP HONORS FOR SEMESTER; NON-FRATS, LAMBDA CHIS NEXT

A CCORDING to figures given out this week at the office of the Dean, the Phi Pi Phi fraternity carried off the honors for high scholarship among the fraternity groups and non-fraternity men, with an average grade of 2.453 for the first semester of this year. The non-fraternity men ran second with an average grade of 2.507. This is the second time in succession

that the Phi Pis have grabbed the first honors, having been the highest in scholarship the second semester of last year with anaverage of 2.339. Phi Pi Phi also leads the list for the second time with the smallest number of cuts. Lambda Chi Alpha takes third place with 2.595.

Fraternity and Non-Fraternity Groups				
	Av. Grade	Av. Hours	Av. Absences	
Phi Pi Phi	2.453	16.2	6.6	
Non-Fraternity	2.507	16.1	7.6	
Lambda Chi Alpha	2.595	16.4	7.4	
Beta Theta Pi	2.6339	15.7	7.1	
Delta Tau Delta	2.7008	16.3	11.8	
Kappa Sigma	2.793	16.4	8.0	
Phi Delta Theta	2.769	16.4	12.6	
Phi Gamma Delta	2.849	16.2	9.3	
Phi Kappa Psi	2.9005	16.0	10.1	
Theta Kappa Nu	2.975	1519	8.7	
Phi Kappa Sigma	3.1746	16.1	8.2	
Alpha Tau Omega	3.195	16.2	9.7	
Average for Student Body				
Student average	2.774	16.2	8.74	
	ad Black, Washington and		Jefferson	

THETA CHAPTER HEADS THE LIST

The following letter from Secretary of Theta Alumni Chapter indicates that Theta Chapter has made a splendid record at the University of California.:

I have good news for you.

Theta was *first* in scholarship on the Berkeley campus last semester!

This means something in a large university where practically every national fraternity in the country is represented—there are sixty-four fraternities here.

This news is not official as yet, but will be released by the dean of men sometime this week. Fraternally,

WITT

EDITOR'S NOTE: The dean's report since received shows Theta to stand FIRST among the national social fraternities.

WITH THE CHAPTERS

ALPHA—NORTHWESTERN UNIVERSITY

Our loss of men this semester, both from graduation and from dropping out of school, is great. Byron Taylor is graduating from the commerce school. Fred McMillen has taken a job with the Roxana Oil Company. Russel Allen is leaving school to assist his father in his campaign for county judge.

Alpha has been doing exceedingly well at inter-fraternity basketball this year. We have gone half way through our schedule and so far we have not lost a game. Some hard games are ahead of us but nevertheless we have confidence that our team will come out with a one hundred percent record. tournament will not be over till about the first of March.

Ted Ross and Bus Enright have been appointed sophomore and junior track managers respectively. Bus is quite busy now since he is column conductor on the Daily Northwestern, is on the Purple Parot staff and is captain in the R.O.T.C., besides conducting a class in military science.

Jack Priest and Heinie DeVry both made their numerals at freshman football this year. Heinie is on the freshman wrestling team at present. In the all-university meet he took second place in the heavy weight class. Next year he will be practically assured of a place on the team since his only competitor is graduating this June. Joe Desert is also out for wrestling. Although he is much less in size he holds a more advanced position. Joe holds down a position on the varsity in the hundred fifteen pound class. He made his letter last year wrestling in the same class.

Alpha was well represented at the interfraternity banquet held at the Drake Hotel on February 11. We were all proud to hear our fraternity announced among the trophy winners.

WILLIAM R. MCMILLEN

BETA—UNIVERSITY OF CHICAGO

Beta Chapter returned to school after the Christmas holidays with renewed pep and vigor. The chapter lost one of its active members with the graduation of Brother Arthur Droegmueller at the Autumn Con-Brother Droegmueller vocation. had been very active both in the chapter and on campus, giving us especially helpful advice about our finances and our house. Brother Droegmueller will be missed by the active chapter.

Beta has made considerable improvements in its furnishings; a new Orthophonic Victrola has been purchased as well as new rugs for the entire first floor.

Brother John McDonald received honorable mention in the Daily Maroon, the campus paper, for his scholastic record. Brother McDonald has consistently rated Phi Beta

Pen Scratchings of E

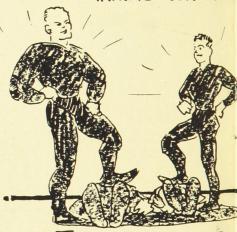

OUR NEW ORTHOPHONIC IS KEPT BUSY ALL DAY - EVEN THE PLEDGES GET TIRED OF WINDING IT UP

Events at BETA

Kappa averages and upheld his record last quarter.

Six of our pledges were initiated into the Fraternity. The new brothers are: James J. Ryan, Herbert C. Wahl, Kenneth Stott, Milford Rice, Bernard Petrie and Merriman Smith. Taylor Scott. William May and Charles Bury are the hold-over pledges. Clyde Sisson was pledged at the beginning of the Winter Quarter; Clyde finds things a little colder here at Chicago than in his home in Alabama. We hope. however, to warm things up for him before long.

Beta's annual formal dinner dance was given on January 30 at the Hotel Sisson Roof Garden. About forty couples of brothers alumni and pledges danced to the syncopating tunes of Herbie Mintz's orchestra of K.Y.W. fame. After about two hours of dancing "Herbie" in his own inimitable way, suggested that we all play games. No, the games didn't spoil the formal; they made it a success. With the women, however, the success of the party depended on the boudoir lamps, which they received as favors.

Brother Walter Kincaid, associate editor of the Cap and Gown, was elected vice-president of the Y.M. C.A. at its annual election. Brother Kincaid's victory can be attributed to the political genius and sagacity of his campaign manager, Martin Carlson. Brother Kenneth Stott has been appointed to first Y.M.C.A. cabinet.

Brother Daugherty, a member of

the fencing team, defeated both of his opponents at Chicago-Illinois dual tournament. "Al" is also engaged in exhibition matches nearly every week-end. Brother Daugherty is anxious to add to his collection of medals. Brother Stoehr is a member of the varsity wrestling team. Brothers Davidson and Moore under the tutelage of Tom Eck, famous Maroon coach, won medals in the inter-class track meet.

Brothers Root and Smith, both members of Walter Sargent's art class have created many distinctive designs for the *Cap and Gown*, the annual year book.

Brother James Cooksey surprised the chapter by getting married. Congratulations Mr. and Mrs. Cooksey! Mrs. Cooksey was formerly Miss Helen Reuther of Effingham, Illinois. "Jimmie" is the first alumnus to be married, however, before long other of the alumni will join the ranks of the newly weds. Mr. and Mrs. Cooksey are at home at 6246 Dorchester Avenue.

Beta is using the new chapter meeting ritual and is well satisfied with it. We feel that it adds to the impressiveness of the chapter meetings.

ROBERT H. JACKSON

Gamma—Armour Institute of Technology

With the beginning of the second semester the interfraternity basketball season has opened. To date, Gamma played only one game and that was won by a heavy score. The outlook for another championship is good considering the results of other games played among the other fraternities of the campus.

In the inter-class basketball tournament recently held, Gamma contributed her usual quota of men as shown from the following comment of *Armour Engineer*:

ALL-STAR INTER-CLASS TEAM!

The Armour Engineer gives to its readers the following all-star basket-ball teams, picked from the participants in the annual inter-class tournament. The selections were made by a committee consisting of the officials and spectators at the games, assisted by W. C. Krafft. Chuck ("Eckersall") Plocar acted as chairman of the committee.

First Team

- R. F. HALL, Seniors, ФПФ
- L. F. REIFLER, Sophomores
 - C. BRUMMUND, Sophomores
- R. G. CASSIDY, Freshmen, $\Phi \Pi \Phi$
- L. G. Downes, Seniors (Captain) ΦΠΦ

Second Team

- R. F. HUBEN, Seniors
- L. F. EISENBERG, Juniors
 - C. COFFEY, Seniors
- R. G. BENSEN, Sophomores
- L. G. Tracy, Sophomores (Captain)
 Brother Kuffel, who is business
 manager of the Cycle has been
 initiated into Sphinx, honorary
 fraternity for the staffs of the
 Engineers and Cycle.

We regret to say that Brothers Kliest and Scholz, both exponents of the electrical engineering course, have discontinued school for this semester but promise to return to the active fold in September next. In the meantime we may see "Pee Wee" Scholz dangling from any of the poles of the Illinois Telephone Company or buried in a manhole of said company endeavoring to locate the bone of contention. Brother Kliest is attending Lewis Institute for a drawing course.

However, we have returning to us Brother Gustafson, embryo electrical engineer, who has been absent for a year; and lastly, Brothers Larson and Lindeberg who will pursue the Fire Protection course to the end during this term.

On Monday night, February 15, the house was thrown open for a Dad's Smoker. Every man whose Dad was accessible, had him at the house for dinner. After dinner speeches were delivered by the most loquacious brethren. The dinner over, entertainment was rendered in the form of music embellished by jigs and exhibitions of the Charleston by the more adept brothers. The "dads" thoroughly enjoyed the evening as well as the fellows. Our only regret is that we can't have this kind of thing oftener.

J. H. FAIRBANKS

Delta—University of Illinois

Delta Chapter of Phi Pi Phi is rapidly attaining a place in the sun in the activity lists at Illinois. Larry Willcox has broken forth as captain of the University Stock Judging team and this fall he was also manager of the Little International Stock Show. Larry placed first in the horse judging contest at Kansas City, third in the hog judging contest at Chicago and sixth in the sheep judging in Chicago.

Larry led his team to Springfield, Chicago, Peoria, Kansas City, Madison, Wisconsin, and Layfette, Indiana. The University of Illinois team placed second in a field of 25 at the Chicago show.

Another captain from Delta this year is Frank Powers. He is doing his best to aid Coach Manley in developing a championship water polo team. "Bevo" is also the possessor of a watch chain well loaded with keys of various honorary fraternities. He is stunts manager of the Electrical Engineering Show, which show, so "Bevo" claims, is going to be the talk of the campus.

Additional brothers from the chapter were taken into honorary fraternities this year. "Torchy" Cannon made Theta Tau, professional engineering fraternity; Fred Clarke wears a Scabbard and Blade pin, honorary military organization; E. W. Pfeiffer rates a badge of Phi Eta Sigma, honorary freshman scholastic fraternity and "Herc" Kimmel was warmly (in some spots) received into the Tribe of Illini, honorary letter men's fraternity.

"Torthy" spends his time as a senior politican. Fred Clarke, in addition to being a lieutenant in the R.O.T.C. is also a junior politican. Ed Pfeiffer is a sophomore football manager and Harry Blixen is a sophomore intramural manager. Kimmel is still the regular Varsity shot putter.

Joe Lewis, senior interscholastic manager, and also the possessor of an overloaded vest and watch chain, plans to make this years interscholastic the biggest and best yet. Joe is also a member of the dance supervisions committee of the University and a member of the University Athletic Board of Control.

Don Kirsch is a member of so many Illinois Union Committees that he can't remember them all. He is also the conductor at large of a column eulogizing the campus dancers. Lew Bond is a member of the Board of Directors of the Engineers' Cooperative Society.

Delta has been doing a good deal of experimenting in the field of pledge education this year. education does not stress the use of the paddle very heavily and so far the results have been most gratifying for this years crop of neophytes bids fair to be the best that we have ever had. The pledges, ten in number at the present time, were selected with extreme care. The chapter has worked out a definite schedule to teach the pledges the characteristics most desired in fraternity men. It was not deemed advisable to urge the freshmen to participate in a campus activity the first semester unless the scholastic standards warranted it. However, Johnny Piper holds down a berth on the freshman varsity swimming team and placed first in the intermediate division of the all-University diving contest. Johnny also plays a right mean cornet in the Second Regimental Band. Ed Krebaum is a sharp-shooter on both the infantry and varsity rifle teams.

DON KIRSCH

Epsilon—Washburn College NO LETTER RECEIVED

ZETA—UNIVERSITY OF WISCONSIN

Since our last letter Zeta has lost two men and recovered one. Brothers Bawden and Niebuhr have finished their college work and are now numbered in our alumni. Brother Nelson has returned to us after spending the first semester at his home in Iowa.

The "Prom of the New Wisconsin" was held in the state capitol building with a greater success than ever before. This year Brother McCutcheon had charge of the decorations and he received much praise for his work. Zeta furnished eleven members, who, with representatives from two other fraternities, gave a number of pre and post prom parties.

Some of Zeta's men have been rewarded by several of the societies and others have been honored. Brother Neal Taylor has won sophomore honors and Brother Bernard Smith has been elected to Tau Beta Pi and Chi Epsilon, honorary engineering fraternities.

Brother Edwards, an R.O.T.C. major, is now a member of Pi Tau Pi Sigma, honorary signal corps fraternity. We have also as members, Brothers Neal Thayer and Edward Tollner. Brother Earl Bell has been elected to the honorary physics fraternity, Phi Sigma Phi.

George Houdek is out again for a berth in the Varsity crew and it is expected that he will accompany the crew on its eastern invasion at Poughkeepsie in June. "Mike" O'Laughlin, lately pledged, is one of the Varsity wrestlers. He competes in the 135 pound class in Big Ten circles.

Carl Reinhold is now playing first violin in the University Orchestra, and Pledge Atwood is assistant editor of the Agricultural Magazine.

The Wisconsin Glee Club was adjudged the best glee club in the west at the intercollegiate competitive sing recently held in Chicago. The club is making a tour through several states and will go to New York to defend the West against the East. In the last four years the Wisconsin singers have thrice placed first at the Chicago meet. Brothers Hendrickson and Dimmick are members of the Club and are making the trip.

The Bell Telephone Company is reaping a large revenue since Brother Einfelt has changed the objective of his daily phone calls from Evanston to some place in the Gulf region, Engagements of Brothers Nelson. Prochaska and Bawden are rumored but have not been verified.

Brothers Hetzel and Groth revealed unusual patience in a snipe hunt. Armed with sacks and lanterns, they sought the elusive birds in the dead of night, but after several hours of waiting, returned, sans game.

ZETA'S ANNUAL FROLIC

The group of huskies that are pictured on the next page are not inmates of a T.B. sanitarium out for their health exercises in the snow. Nay, not so. This is the beef, brains, and brawn of Zeta Chapter which lugged, tugged, "fit" and fought and maimed themselves generally in a terrific struggle against the burly gridiron men of Wisconsin Chapter of Theta Chi.

The day was cold and bitter. The referee's whistle froze after the first minute of play and an auto horn was substituted. Through fifty minutes and a foot of snow, the two teams struggled to a moral victory apiece. Final score: Phi Pi Phi, 0, Theta Chi, 0. What could be more fair?

The Game

Theta Chi won the toss and after a hasty consultation decided to protect the south goal. The coin was a casualty. Theta Chi kicked off and the panic was on. Evans caught the ball in a bushel basket and headed toward the opponents goal because he happened to face that direction. His progress was impeded. Humm feinted to the right and the Theta Chis fainted to the left. After another play or two

Evans kicked to Theta Chi, who failed to gain. Time out. Raettig breaks right arm.

Play is resumed. Theta Chi is unable to advance the ball by guile, treachery, argument or force. Signals were called in German and Nelson gained ten yards before the opposing team could translate. The snow is still falling and the players look like klansmen. Scott hides in a snow bank. Evans passes for several yards. Time out. Raettig breaks left arm.

Play resumed. Evans fumbles. The ball struck his stomach, out of reach. Half up. Score 0-0.

Between halves the combined bands play "Kneedeep in the Daisies." Brother Meyer is found asleep in a snow drift. Both teams are digging ice from their ears.

Scott, the blond Minnesota Finn, takes a fresh chew of snoose. Play begins. Evans kicks to Theta Chi, but it is of no use. Theta Chi engage Schlosstein in a legal argument and distract his attention. He lets Theta Chi through for ten yards. Time out. Raettig's left leg is broken. He is revived and play is resumed.

The wind blows both teams down the field, seven yards for Theta Chi. Reinhold loses his headgear. Theta Chi fumbles and Reinhold mistakes the ball for his headgear and falls on it. Nelson gets two yards, a broken nose and the referee's watch. Time out. Raettig breaks right leg and has to be shot. Smith substitutes. The Phi Pi Phi rooters are completely submerged in snow.

ZETA'S WRECKING CREW

Score: Phi Pi Phi Nothing, Theta Chi just as much.

ETA—UNIVERSITY OF UTAH

Eta has again managed to add to the furnishings of the chapter house through the medium of sales contests conducted by various University organizations. The chapter sold the most year book subscriptions in competition with eight other fraternities winning a handsome mahogany library table, and also won second prize in a Union building subscription contest, securing a gas log for the fireplace. Last year Eta won the year book subscription contest and was presented with a walnut armchair. If such contests are continued Eta should have one of the best furnished houses on the campus.

Socially Eta has also been active entertaining at two informal dancing parties and holding open house. A party was held at the house at the close of the winter quarter and a second one during the second week of February. Christmas decorations were used at the first party while the Valentine motif was carried out in the decorations at the second. During the week before the junior prom. Eta, as well as the other fraternities, entertained at open house, which was attended by members of other fraternities, sorority members, the faculty, and non-organization men and women. The fraternity colors were used in the decoration scheme for open house and about three hundred guests

were received. The chapter is now making plans for a formal dinnerdance to be held on the anniversary of Eta's founding, May 12.

Alumni-active dinners held at the house every six weeks have done a great deal toward cementing ties between the grads and the actives. Brother Theodore W. Long was toastmaster at the last banquet.

Brother William Cecil Ockey, who will receive his degree from the school of commerce in June, was adjudged among the sixteen best students in the senior class and was elected to membership in Phi Kappa Phi, honorary scholastic fraternity. Eta also has a good percentage of men in the other honorary and professional clubs and fraternities, having four men in Theta Tau; one in Alpha Chi Sigma; one in Alpha Kappa Psi; one in Sigma Upsilon; one in Pi Delta Epsilon; two in Owl and Key; one in Theta Alpha Phi; two in Scabbard and Blade; and one in Delta Sigma Pi.

Eta gained and lost one man during the winter quarter, Samuel L. Wheeler withdrawing to work on his father's farm at Springville, Utah, and Thorvald Johnson returning to school after an absence of more than a year.

This year the University Engineering society will present a musical comedy, in which all the parts are taken by men, and a number of the brothers are included in the cast. Among them are Brother Kenneth Greene, who will play the feminine lead, and Brother George Halton,

who plays one of the leading male parts. I am making efforts to secure a photograph of Brothers Greene and Halton which I will mail together with a short descriptive article next week for publication in the QUARTERLY. Brother Greene makes a very passionate heroine, if you will pardon my college slang. I will also mail the photograph of Brother Allen Astin, which you requested of him, at the same time.

Brother Merrill Bennion and myself are working on a fraternity song, Brother Bennion supplying the music and I the words, but there is no telling when it will be ready as Bennion is a very busy man having the direction of the engineers' musical comedy on his hands. We hope to have it ready in about a month.

THEODORE W. LONG

THETA—UNIVERSITY OF CALIFORNIA

Very soon I will have the pleasure of mailing the initiation blanks of a dozen of the finest young fellows that have ever been taken into any chapter at any time. Most of these men are out for activities and those who are not are rapidly lining themselves up with some useful campus work other than their studies. Another important fact about these men is that several of these men have already moved into the house, a fact in itself which makes them especially welcome at this time since many of the brothers live near the Bay with their parents.

banquet was held at the Commercial Club in San Francisco. It was attended by thirty-nine members and alumni. This is the time when an attempt is made by all of our alumni to return to the old house and recall their old friendships with their brothers. It was one of the most enjoyable of Theta's festivities and it truly accomplished its purpose in uniting the old and new brothers in firmer companionship.

Among the older members I might mention a few who have come more or less into the campus lime-light of late. Alumnus Brother Ralph Cassady, who has a fellowship in economics and is an instructor in economics eleven, has been elected to "Artus" the National Economics Honor Society. Emil Hansen, our sturdy gymnast, has been elected president of the "Circle C" society. Several of our men belong to this society: Winham, Follet, Baumeister, and Howard Parker already have their circle C's and a few more are on their way toward the letter. Millett is out for baseball and Needham for crew. We hope they will each earn their big C's.

We have had a slight change in our officers for the new year. President Stone Crane has resigned and Brother Groesinger is taking his place for the rest of the semester. Stone gave as his reasons that his position as educational director of the Epworth Church required so much of his time that both jobs were undermining his health. Former Secretary Wm. Gardener is not

in college this semester so Burgess is trying to hold down his job. Ed. Cassady and Howard Parker. treasurer and house-manager respectively, found it impossible to live in the house so the two offices have been combined and given to George Bennitt. Alva Johnson has been appointed Dean of the house, in accordance with the wish of National Council that that office be created. Having been lucky in not having had any more fires and having recruited a number of new men to live in the house, Theta is on a much better financial footing than we were last semester. We look forward to an era of prosperity and influence for our chapter on the campus of the University of California.

The most enjoyable of Theta's social events during the fall semester was the formal held at the chapter house. It was very well attended and the decorations were unique indeed. The services of an oriental importer and decorator were secured and the entire house was transformed into a Chinese tea garden. The materials were imported directly from the orient and several Chinese maids were obtained to lend color to the scene. The dance was held from 9 to 2 and then a four The course dinner was served. favors consisted of a pair of bronze book ends in the form of Chinese iunks with ΦΠΦ engraved upon them. It was but one of the many fine social events arranged for us by our Brother Lee Groesinger.

The first dance of the spring

semester was held at the chapter house in honor of the pledges. It was so well attended that we were impressed by the lack of available dancing room even in our new house. About forty couples attended and the affair was a huge success to be sure. Theta has always prided herself upon her dances and this was in no manner inferior to any of our former affairs.

In closing Theta sends the best of luck and wishes to our brother chapters and a hearty welcome to our new brothers of Lambda chapter.

HERTERT & BURGESS

Iota—Washington and Jefferson College

The semester examinations have just ceased and after many days of tribulation we are happy to report that all the brothers have weathered the storm and that Iota's record of never losing a man has not yet been broken. A great many grades have not yet been heard from and so we are not yet able to report what our standing will be for the coming semester.

We are very proud of our boys who are on the Combined Musical Clubs. A number of the men on the club were mentioned in the last letter and since then George Hoke has been added to the personnel. George is very proficient in various stringed instruments and plays solo numbers with his mouth organ, mandolin and guitar.

At present the house has a miniature orchestra with Ralph Hummell and his saxophone, Bert Norris and his banjo, George Hoke and his guitar, Harold Doudna and his cornet and George Schweigert at the piano.

We are proud of the fact that Pledge Francis Clay is on the regular lineup of the freshman basketball squad and that Pledge John Graham is also a member of the squad.

The Interfraternity Basketball League has just finished its contests and Iota showed much improvement over last year's record. While we did not stand very high in the league our progress was such as to encourage us very much.

The chapter is following the example of some of the other chapters in inviting representatives of the other fraternities on the campus to dinner at various times. In pursuance of this custom we have had the pleasure of entertaining representatives of the Lambda Chi Alpha and the Phi Gamma Delta Fraternities.

A number of the members were at home during the mid-semesters and some were at the homes of the other brothers. Nearly all have returned at the time of writing, reporting a good time and ready for hard work.

Plans are now under way for our formal initiation to be held some time about the last of the month. We hope to have a number of our alumni back at that time.

Plans are also being made to send out a news bulletin to the alumni of the chapter, to keep them informed concerning our progress.

We are hoping to make a good showing in the interfraternity volleyball league which will soon be started.

In order to fulfill the requirements of the Pennsylvania educational program, several of the brothers are doing practice teaching in the East Washington High School so that they can become full-fledged teachers next year.

WM. HOWARD RYALL

KAPPA—UNIVERSITY OF PENNSYLVANIA

The members of Kappa Chapter have been very busy with the rushing program that they have planned. Rushing at the University of Pennsylvania begins at the beginning of the second semester and closes on February 20. A period of silence ensues so that the bids are offered on the following Wednesday night. During the rushing period we entertained at smokers, and expect to add a number of fine freshmen to the roll.

The semester examinations were held the latter part of January and we are thankful that they are over. Every one passed and very creditably too. Several of the brethren had grades sufficiently high to exempt them from taking examinations in a number of their courses.

Brother Olson has been ill for a week but is around again. Brother Hoffman is very busy these days putting his musical talent to useful purposes. He is associated with the University Quakers. We have another musician who has earned a regular place in the university band, this is Brother Schmickly.

BENTON B. SEEMAN

Lambda—Case School of Applied Science

Lambda Chapter sends fraternal greetings to all chapters and members of the Fraternity on the occasion of their first letter to the QUARTERLY.

We are off to a splendid start for the beginning of the last semester of the year and everyone is determined to rise to greater efforts, both in the classroom and in the school actitivies. We came through the last semester with but the loss of one freshman and considering that there were some sixty freshmen dropped we had a small percentage.

We have just inaugurated the custom of having Sunday afternoon open house. We gather at the chapter house about five o'clock and remain until about seven or later. At six o'clock we are served with a light supper. The idea being to afford a definite time when we can all gather, active and alumni, and have nothing to do but to talk and really associate with one another.

The semi-annual Fathers and Mothers night will be held on Friday, February 26, and at this time it is planned to form an active auxiliary for our Mothers. This plan has been tried by other chapters and by several of the fraternities on

Case campus with considerable success.

While we have a number of fine pledges we have been devoting some energy toward rushing newcomers who appeared at the beginning of the spring semester. We have been entertaining several promising men and will likely pledge one or two new men.

The first formal of Lambda Chapter will be held on February 24 at the Park Lane Villa. For this occasion we have secured Harry Draper's Colored Syncopators and we are told that a pleasant surprise will be given us when the programs and favors are distributed.

It is planned to hold an initiation ceremony on February 15, at which time those of the alumni who were unable to be present at the installation will be initiated.

F. WARREN BROOKS

San Francisco, California, February 15, 1926.

Mr. Arnold C. Van Zandt,
Dear Sir and Brother:

* * * * * * * *

Will you please at this time change my address on your books to 730 Elizabeth Street, San Francisco, California. This is my home and mail addressed to me here will be received earlier than two months after postmarked.

It has been my pleasure to spend several lunch hours at the chapter house during the past week. Things are going along nicely. Brother Bennitt, treasurer and house manager of Theta, is certainly a worker and he certainly deserves all the praise and encouragement possible for the effort he is putting forth to make Theta a chapter to be proud of.

In my moments at the house, I have been greatly impressed with the rapidity with which the chapter membership turns over. Faces that were long familiar to me are gone and new ones have taken their place. The character of the boys wearing the badge of Phi Pi Phi has changed greatly within the last few years. The older men who were to a large degree Overseas Men and who founded the Alkamoi Club, afterward Theta of Phi Pi Phi, are all gone. These older men have

given the house a heritage of patriotism, democracy and level-headedness. To these characteristics will now be added the youth and pep of the younger generation. More power to them! You will certainly hear a great deal from Theta in the years to come.

I suppose you know of the loss to California of Andy Smith, our beloved football coach. It was a hard blow to the Golden Bear and to Pacific Coast football in general. However, all loyal Californians believe that Andy's spirit will guide the destinies of California elevens in years to come and give them teams greatly feared.

Sincerely and fraternally, CLYDE B. GENTLE.

PHI PI PHI FRATERNITY CHICAGO ALUMNI ASSOCIATION WINS FIRST AWARD AT THE ANNUAL DINNER OF THE CHICAGO INTERFRATERNITY ASSOCIATION

At the annual dinner of the Chicago Interfraternity Association at which more than forty national fraternities were represented Phi Pi Phi Chicago Alumni Association won the first prize for having the largest percentage of members present. The Fraternity has an alumni membership of 55 in Chicago and there were forty seats occupied at the dinner. Last year we were close but a younger and smaller fraternity won the prize.

This was the largest dinner ever given by the Greek letter fraternities. More than 1600 men sat down to dinner in the Drake Hotel. The dinner was a great success from every standpoint but it is readily seen that they cannot be much larger unless a larger dining hall can be secured. Already there is talk that the next dinner will be given at the new Stevens, which will be able to accommodate as many as three thousand. Richard Henry Little

conductor of the "Line of Type or Two" column of the *Chicago Tribune* was the toastmaster. "Dick" has held down the job for the past three or four years and he cannot get away from it.

The three best orchestras in the Middle West assisted by Warings Pennsylvanians, and several actresses from productions now playing in Chicago furnished the music. The speakers were Major Mill, Coach Yost of Michigan, and Ex-Governor Lowden of Illinois.

Due to the fact that Phi Pi Phi three chapters within the environs of Chicago, it was only natural that her numerous alumni living there should feel the need of an organization such as the Alumni Association. In April, 1925, thirty alumni of the midwest chapters met at the City Club and formed the Phi Pi Phi Alumni Association of Chicago. Its purposes are essentially social, but since its inception it has been able to make itself very useful by co-operating with the National Council and the active chapters. It has made itself the means of continuing old friendships and of making new ones for its At the same time it members.

believes that it can be useful in acting as a clearing house for new material for the active chapters, and in helping them with their rushing. It will thus serve to keep up the interest of the alumni in their respective chapters. Out of this latter phase will come one of the greatest benefits of the organization.

The first social function, aside from the monthly meetings, was held last autumn, when the Association held its first annual rushing dance in the Pompeian Room of the Allerton Club. The monthly meetings which are essentially social in their nature have been held at the chapter houses and at various places in the "Loop."

At the first meeting this year the following officers were elected: President, Frank Roos, Beta; Vice-President, Rudolf Lowe, Gamma; Secretary, Harry Meislahn, Beta, and Treasurer, Albert LaBahn, Delta.

The Association invites all members of the Fraternity living near or in Chicago to get in on their fun. More detailed information can be obtained from Brother Meislahn, 923 E. 60th Street, Chicago.

ALUMNI NOTES

DELTA CHAPTER

C. B. Danielson is at Harvard studying for his Master's Degree.

C. J. Collins has deserted the profession of teaching, and at present is in South Bend, Indiana, telling Mr. Studebaker how to build his cars

Harry MacNamara is making good as a traveling salesman with Sprague, Warner and Company.

"Duck" Lehman has decided a little more knowledge won't hurt him any so he is back with us taking his Masters in Chemistry. Incidentally, he is also doing research work for the State Department in Municipal Sanitation.

Gordon Baird has left General Motors Research Corporation and is selling real estate in Detroit, Michigan.

Ralph Weston is with W. G. Bush and Company, Ceramists, in Nashville, Tennessee.

Dick Reamer is with the Warner Chemical Company in St. Louis. In his spare moments Dick blows the cornet in the "hottest" band in the city.

Maury Anderson is in the Drafting department of the I.C.R.R. in Chicago.

Al LaBahn is still in the advertising department of the *Chicago Daily News*.

ETA CHAPTER

Walter C. Green, '23, has been married and has moved to San Francisco to make his home. His permanent address is not yet known

Joseph T. Lindsey, '24, has gone to Schenectady, New York, to work for the General Electric Company. For the past year he was employed by the Utah Power and Light Company in Salt Lake City.

William H. Whimpey, ex-'27,has been married and is living at Harold, Utah.

Walter Kershaw, '25, has been married. His address is The Kimball Apartments, Salt Lake City, Utah. He is manager of the Walker Electric Company.

Zelph S. Calder has been elected president of the Utah Alumni club at Vernal, Utah, where he has an automobile agency.

THETA ALUMNI

All Chapters:

A Phi Pi Phi Alumni luncheon is held on the second and fourth Wednesdays of each month at the Bellevue Hotel in San Francisco. The time is 12:15 and we want, and invite, all alumni living in this vicinity to attend. Get in touch with Harry W. Witt, alumni secretary, 1824 Larkin Street, Graystone 861, if you are in this locality. Remember if you belong to the Fraternity anywhere, you belong to it everywhere and furthermore we may be able to ease your way in this big city of San Francisco.

Alwin Rosslow, '24, is an auditor for Ernst and Ernst in San Francisco, 670 28th Avenue. Walter N. Powell, ex-'25, is back in college majoring in bacteriology. Walt used to be an engineer, but a couple of years outside changed his mind. He was on the football squad in the days of yore. Chapter house.

Walter Petterson, '24, devotes his days to the Standard Oil and his evenings to the Players Guild productions. He's a handsome chap and the ladies tremble deliciously when Walt stalks onto the stage. 62 Sanchez Street, San Francisco.

Leanard King, ex-'26, and Bill Kessler, '23, live at 1510 Union Street, San Francisco. Leanard sells office systems and Bill is almost a barrister. Doc Wiese, '23, and Phil Silver, '23, also follow the law, both in Oakland. Leo MacMahon, '24, is now in the law school for three more years and Perry Morgan is getting his law degree this May, when he will practice in San Francisco.

Emil Sikora, '25, and George Blowers, ex-'25, work for the Shell and Standard Oil Companys, respectively, in Martinez, California. Needless to say, the subject of gasoline is a closed issue between them.

Leanard Stevenson, '24, 27 Monroe Street, and Harry W. Witt, '25, 1824 Larkin Street, are high pressure advertising men with Foster and Kleiser, San Francisco.

Wm. L. Montgomery, '25, erstwhile candidate for Student Body president, is working in San Francisco. "Monty" was married a short while ago to "Peggy" Lambert, '25. Apt. 208, 1086 Post Street, San Francisco.

Cecil Reichman, '26, is married and is living in Seattle.

Maurice Buckley, '23, is teaching in the Bakersfield High School. Mr. and Mrs. Buckley have a little Maurice to add a youthful touch to their home.

The Lloyds, Fisher and Wood, are teaching high school as is Ellerd King, all of the class of '24. John Murren, '23, Harvard, '25, is also directing the younger generation's education.

Ben Taylor, '23, is an internal revenue agent in Los Angeles.

Ernest Purcell, ex-'26, is working in San Francisco.

Les Graham, '24, and Bob Maclay, '23, are in the Forest Service in Idaho and Washington respectively.

Ralph Brown, '20, is traveling around the state in the interests of agricultural education.

Bill Gardner, ex-'26, plans to return to college next fall to finish his course in mining engineering.

Harold J. Ralph, ex-'25, is practicing public accounting in San Francisco. Care of Walther Wolf, United Bank and Trust Company Building.

We've lost Glen Sturdivant and Graham Hockett, both of '23. Will they write?

LAMBDA CHAPTER

Brother Zahour, '23, who is with the Westinghouse Lamp Company in New York made the journey to Cleveland for the installation.

THE QUARTERLY OF PHI PI PHI

Brother Wherry of Holdenville, Oklahoma, happened to be in Cleveland a few days before the thirtieth and stayed over to be initiated with us.

Mark Monaghan, '24, who is making a tour of the world, sent us a card the other day from Japan where he says he is having a fine time riding the rickshaws every day.

Oscar Torreson, '23, has one more year in Western Australia where he is taking observations on terrestrial magnetism for the Carnegie Foundation.

Brother Squibb is working for the Youghiogheny Coal Company near Wheeling, West, Virginia. He was up for the installation and says he will be back in school in September.

Brother Hebeler of the Bentz Automobile Corporation located at New Kensington, Pennsylvania, was another who came up for the installation ceremonies.

D. F. Pancoast, '15, who is now in Chicago, recently discovered a new process for welding aluminum which has materially increased his financial status.

Brothers Gaylord of Gamma and Anderson of Beta are frequent visitors at the house.

YOUR OWN PAGE TO EDIT

To the Reader:

The space below is for notes about yourself and other alumni you may know. Send us news about births, weddings, deaths, change of address, business changes, political and civic activities—and tips on things that The Quarterly should publish.

Write them down now, tear off this sheet and mail it immediately to the Secretary, A. C. Van Zandt, 15 E. Washington St., Chicago.
