THE QUARTERLY of Phi Pi Phi is the official publication of the Phi Pi Phi Fraternity, an organization of college men. It is edited and published under the direction of the National Council of the Fraternity and Trustees of the Endowment Fund. It is issued in September, December, March and June. Published by the Fraternity at 450 Ahnaip St., Menasha, Wisconsin.

The subscription price is \$2.00, life subscription \$15.00, single copies, 50 cents, payable in advance.

All material for publication should be in the office of the editor not later than one month before publication.

PHI PI PHI

Now At

“OLE MISS”

PHI PI PHI, in establishing Omicron chapter at the University of Mississippi on September 17, 1927, enters one of the most historic and well known institutions of learning in the South. Phi Pi Phi is the eleventh national fraternity to be represented by a chapter at the noted university. Pi Kappa Alpha followed two days later, so that there are now twelve chapters of national fraternities.

The year 1850 saw the first chapter of a Greek-letter society at Mississippi when Delta Kappa Epsilon installed their Chi chapter, and, prior to 1860, five other fraternities followed with chapters. Fraternity life carried on until 1911, when the legislature enacted a law abolishing the fraternity system from all colleges under state support. At the time of the suppression there were nine nationals on the campus. Due to the support given by the Interfraternity Conference and the loyalty of fraternity members within the state, the legislature, in the early part of 1926, repealed in part the anti-fraternity act. Subsequently, seven of the former national fraternities have re-established chapters and, in addition, four organizations have entered a new field. Under the provisions of the present act, fraternity organizations are prohibited from occupying chapter houses, but it is thought that at the end of the probationary period, which will expire in 1931, new fraternity homes will be built and most likely some arrangement will be made to utilize present university ground.

Many noted men have attended the University of Mississippi, among whom are: Dr. Thomas Adams, former president of Centenary College; Dr. Edward Mayes, former chancellor of the university; the Honorable Luke Wright, former Minister to Japan, Governor

General of the Philippines, and later Secretary of War; Dr. Burwell Fulton, former chancellor of the university; Dr. Andrew Kincannon, also a former chancellor of the university.

At the present time the university grants degrees in the Schools of Commerce and Business Administration, Law, Pharmacy, Education, Engineering, and Liberal Arts. In the School of Medicine, a bachelor's degree in science and a two-year certificate in medicine is granted to all who complete the course. There are approximately thirteen hundred students, of whom two hundred are young women. The enrollment of the university is based largely on the dormitory facilities, and, when the time arrives that fraternities will be permitted to occupy chapter houses, the enrollment will be increased.

The University of Mississippi was chartered on February 23, 1844, and on July 14, 1845, the trustees decided to accept a tract of land at Oxford, Mississippi, as the site of the proposed university. Subsequently plans were adopted for buildings and they were made ready for classes, which were first held on November 6, 1848. At this session there were fifty students. The university owes its origin to Congress, which gave to the state lands for the aid and support of an educational institution. The state has maintained the support of the university by appropriations and in recent years has provided several new buildings.

In the autumn of 1882, the doors of the university were thrown open to women upon the same terms and conditions as to men. Mississippi was the first of the Southern states to admit women to her university. There are now a number of well known sororities represented at "Ole Miss."

The following fraternities are represented by chapters at the University of Mississippi: Alpha Tau Omega, Delta Tau Delta, Delta Psi, Kappa Alpha (Southern), Kappa Sigma, Sigma Alpha Epsilon, Sigma Chi, Sigma Nu, Phi Delta Theta, Phi Pi Phi, and Pi Kappa Alpha. In addition there are a number of locals who are petitioning other well known fraternities.

INDUCTION OF OMICRON CHAPTER

Rumors of joy ran riot when the members of Pi Phi fraternity came back to "Ole Miss" on September 15. Word had been received by the officers of the petitioning fraternity, Pi Phi, that our hopes were to be gratified in the establishment of Omicron chapter of Phi Pi Phi. On the morning of the seventeenth, Brothers Clarke, Van Zandt, and Crane arrived on the "Ole Miss" campus to preside over the installation ceremonies.

A committee of senior members of Pi Phi fraternity met Brothers Clarke, Van Zandt and Crane, and definite plans were made for the formal ceremonies scheduled to take place in the afternoon. At one o'clock the members of the petitioning group met in a body in the old Chapel and were conducted to Phi Sigma Hall, where the formal ceremonies of initiation were carried out. The installation lasted until 4:30 P.M., when the chapter adjourned to meet again at the Colonial Hotel in Oxford.

At 7:00 P.M. the members assembled once more, but this time it was around the festal board, with Brother Percy Lee Rainwater acting as toastmaster. Just about the time the dinner had gained momentum and the feasting brethren were satisfying their appetites, Brother Rainwater broke in with a short opening address, in which he explained the program for the evening. Had it not been for the fact that Brother Rainwater is the possessor of one of the best stocks of negro yarns "'way down in Mississippi," the evening's program would have been far less revealing. The temptation was too great, and, Brother Clarke, too Irish to allow the opportunity of matching Mr. Rainwater's little yarns with one better to go neglected, and, to the surprise of the Southern boys, he was thoroughly capable of taking advantage of the situation. Talks of appreciation were made by the newly made members of Omicron chapter, in which each member expressed his joy in becoming a member of Phi Pi Phi fraternity. Following the talks by the members of Omicron chapter, each of the national officers made a talk on the purpose of a fraternity, the method of chapter conduction, and a general discussion of Phi Pi Phi and its brotherhood.

The members of Omicron chapter were very pleasantly disappointed

THE QUARTERLY OF PHI PI PHI

in the initiatory ceremonies of Phi Pi Phi, as the ritual is far more impressive than was ever conceived by the members of Pi Phi. For the first time, the members of the local petitioning group were made acquainted with the real aim of a Greek-letter fraternity.

Omicron chapter has the field and the material to accomplish the real aim of a fraternity, and is more than grateful to the brotherhood of Phi Pi Phi for making Omicron chapter a reality; and, on the afternoon of September 17, a strong resolution was made stronger when the cardinal principles of Phi Pi Phi were so beautifully and forcefully impressed upon the initiates. The establishment of Omicron chapter was one of a series of several installations of national fraternities on the University of Mississippi campus. For fourteen years Greek-letter organizations were outlawed by the Mississippi State Legislature, but, with the removal of this ban, national fraternities have been given a new field in which to work, and, to the joy of every member of Omicron chapter, Phi Pi Phi has been given an equal start in the era of re-establishment of the fraternity system at "Ole Miss."

Several of the local alumni were unable to return to the university for the installation of Omicron chapter because of urgent business which would not permit their being away even for the shortest period of time. These men will return to the university at a later period to share with the members of Omicron chapter the pleasure of being taken into the bond of brotherhood of Phi Pi Phi.

On Monday afternoon, shortly after the noon hour, Omicron chapter was formally opened for the dispatch of such unfinished business as demanded the advice of a national officer. With this meeting the final ceremonies of the installation of Omicron chapter were completed. Brother Crane left with us his promise to again visit us during the Thanksgiving holidays when the "mighty Mississippians" will serve plenty "bull dog" meat by defeating the Mississippi Agricultural and Mechanics College in the state championship game.

Omicron chapter will always keep good the name of southern hospitality by keeping an open house for the brothers from other chapters of the Fraternity, should they ever find themselves this far south, and it is sincerely hoped that we shall be visited by our northern and western brothers.

T. D. CLARK, *Omicron*

HISTORY OF PI PHI FRATERNITY

On February 27, 1927, twelve men, having numerous interests in common, assembled and organized a club to advance social interests and to elevate campus standards. Although the birthplace of the club was no colorful one, a genuinely earnest group of men with serious purposes imparted a decidedly business-like air to one of the boys' rooms. At this time the necessary offices of president, vice-president, secretary and treasurer were filled on a selective basis. A committee was appointed to formulate a constitution and by-laws, and, likewise, a committee was appointed to decide upon a pin with its accompanying design, if any, both committees being charged to submit a report at the following meeting. The name of the fraternity chosen was Pi Phi. The following week found the constitution and by-laws and pin design submitted and adopted.

Extension of the fraternity's purpose and growth of membership has been on the incline since that time. Admittance and successful entrance were gained to the Interfraternity Council upon petition, two capable members of our ranks being selected as representatives.

While the machinery of organization was gaining momentum, get-together meetings in the form of "smokers," and so forth, involved and secured a desired development of social interests. Communication with the national secretary of Phi Pi Phi was initiated, and discussion as to the probability of becoming initiates of that national was entered. This discussion eventually effected a visit to this place by the National Secretary, who gave us detailed information in regard to the Phi Pi Phi Fraternity.

Since organization, the membership of the club has increased until the roll embraces some twenty-odd members. In this group is a thoroughly representative group of typical college men, including a president-elect of the Junior class in the Liberal Arts School, president-elect of Phi Sigma Literary Society, ex-president of same, members have served as censor, secretary, and so forth, of the same society, historian-elect of Senior Law Class, a president and an ex-president of the Education Club, a member with a fellowship in the chemistry department as well as one in the department of philosophy, three members on the *Mississippian* staff, three honor roll students,

president of Blackstone Law Club, treasurer of the Phi Delta Phi Petitioners (professional), chairman of scholarship committee, member of the band, general director of intramural athletics, letter-man in football and basketball during his frosh year, and other participants in football, basketball, and tennis.

SKETCH OF THE UNIVERSITY OF UTAH

ONE hot summer afternoon during the latter part of July, 1847, the first white settlers entered Salt Lake Valley. Two and one-half years later the provisional legislature of the State of Deseret, as the pioneers termed the territory of Utah, founded the University of Deseret.

The University of Deseret was founded under the most trying of frontier conditions; food was scarce, money was almost non-existent, books were few, and teachers were still fewer. The university, however, opened its doors on November 11, 1850, and began its scholastic history with a class of some thirty students. The odds were too great, however, and, after struggling for four years, the university suspended activities.

Thirteen years later, in 1867, the university again opened, not as an institution of higher learning, but as a business college. It became a university in the true sense of the word one year later, however, in 1892, when its name was changed to that of the University of Utah, and Dr. John R. Park was named president. From the time of his appointment until his death in 1893, his was the guiding hand of the school, and it is to him that the university owes its present position in the ranks of American colleges.

During its seventy-seven years of existence the university has changed its location many times. Its first home was in a small adobe house; later it was moved to the council house of the city corporation, and, still later, to a business building in Salt Lake. It was not until the late '80's that the university secured a campus which it might call its own. This campus, located on the west side of Salt Lake, soon became too small, and, in 1900, the university moved to its present location, a level terrace cut by the waves of the ancient Lake Bonneville overlooking the city of Salt Lake.

SCENES OF THE UNIVERSITY OF UTAH

LIBERAL ARTS BUILDING
University of Utah

SCENES OF THE UNIVERSITY OF UTAH

THE QUARTERLY OF PHI PI PHI

The present university differs greatly from the pioneer school of 1850. Its enrollment is near the three thousand mark, its buildings and equipment are modern, its teaching staff is large and excellently trained. In addition, the students of the modern university engage in almost every known kind of student activity.

The university is composed of the following Schools: Arts and Sciences, Education, Mines and Engineering, Medicine, Law and Business Administration. The usual bachelors' degrees, as well as those of masters and doctors are conferred upon those who fulfill the requirements. The research departments include the Engineering Experimental Station, the Biological Survey of Utah, Geological and Resource Survey of Utah, and the Bureau of Economics and Sociological Research.

The university enjoys many traditions. Among the most interesting of these is the celebration known as "U" day. On the hills north of the university a large cement letter "U," nearly one hundred feet square, has been erected, which is visible from all parts of the valley. Each year the "U" is whitewashed by the students. Attendance at the whitewashing is not compulsory, but nearly all of the male students at the university take part in it. Following the whitewashing a carnival of intramural sports is held on the campus, climaxed by the annual freshman-sophomore tug-of-war.

Of late years the university has earned a prominent place for itself in the history of the Rocky Mountain Athletic Conference of which it is a member. The school's prowess has been most notable in football. Since the establishment of a recognized conference football championship in 1921, the university has been successful in gaining the honor twice, in 1922 and 1926. Last year the university team was particularly strong, and, in addition to winning the conference title, defeated the University of Hawaii team on its grounds, a feat which had not been accomplished for four years.

Public interest in the university's football teams has grown rapidly during the past six years with the result that the school's football field has become too small. Construction of a new stadium was, as a consequence, begun this spring. The new stadium will cost approximately \$138,000 and will have a seating capacity of twenty thousand. Arrangements for the addition of ten thousand more

SCENES OF THE UNIVERSITY OF UTAH

SCENES OF THE UNIVERSITY OF UTAH

A NEWLY PURCHASED HOME
Eta—University of Utah

THE QUARTERLY OF PHI PI PHI

seats at a future date will be made. The new stadium will be ready for the opening games of the 1927 season.

Fraternities were not permitted at the university until after 1900. In 1908, the first national, Sigma Chi, was established, and since then fraternal growth has been constant and satisfactory. Phi Pi Phi finds itself associated with the following ten fraternities at Utah: Sigma Chi, Pi Kappa Alpha, Beta Theta Pi, Phi Delta Theta, Sigma Pi, Sigma Alpha Mu, Sigma Nu, Phi Alpha Epsilon (local), Psi Rho Lambda (local), and Sigma Delta Theta (local).

THEO. W. LONG, *Eta '27*

ETA OF PHI PI PHI AT THE UNIVERSITY OF UTAH PURCHASES A CHAPTER HOME

The members of Eta chapter are very greatly elated to have achieved the purchase of their new chapter house, the culmination of many months of work, planning and negotiating with owners of available properties near the campus of the University of Utah. The site of the house is 1442 Federal Way, and is located on the crest of the hill, at the eastern part of Salt Lake City, on which is located the university, and, at the eastern edge, the U. S. Army post. The new home is only a few steps from the campus and obviates the long walk up-hill encountered when we lived at former houses.

Inasmuch as the majority of our members, as well as the students of the university, live in Salt Lake City, our needs did not call for a very large house; however, the new home will house comfortably fifteen men, and the lower floor is attractively arranged so that it takes care of our present and probable future needs.

The chapter held the formal house opening on the evening of November 19, a formal reception being held from nine until ten o'clock when dancing was continued until midnight. During the afternoon preceding open house was held. At all functions members of the faculty, fraternities, and sororities were invited as were also friends of the members. The guests in the evening were received by Brother Professor and Mrs. James Griffiths, Dean and Mrs. Raymond Harriman, Brother Professor and Mrs. Ernest Pearson, Brother and Mrs. Clair M. Senior, Dean Lucy Van Cott and Brother Richard Jones, president of Eta chapter. Among the prominent guests were His Excellency, Governor and Mrs. George Dern.

NEW EPSILON CHAPTER HOUSE
1728 W. Euclid Avenue, Topeka, Kansas

Epsilon began the present college year in a new home, which is a very great improvement over the houses previously occupied, both as to nearness to the campus and in interior facilities. The new house is just across from the campus and more space is available for members who desire to live in the house.

The lessor has presented a very attractive plan to sell the house to the chapter and the matter is being given careful consideration. The college, however, has offered financial assistance as well as a site for fraternity chapter houses to be located on the campus. It is likely that the chapter will purchase the present house for temporary use.

† Lambda ranked *first* for the first semester of last year.

THE EDITOR'S WORD OR TWO

PHI PI PHI joins with Sigma Alpha Epsilon in mourning the untimely death of Don R. Almy, which occurred at his country home at Redding, Connecticut, on October 23. The funeral was held in New York City and burial was at Rosehill Cemetery at Chicago.

Mr. Almy not alone devoted his skill and energy in the interest of his own fraternity, Sigma Alpha Epsilon, but to the Interfraternity Conference and the interest of the Greek-letter societies as a whole. Phi Pi Phi will always cherish his valuable counsel in our earlier years. Mr. Almy was a former chairman of the Interfraternity Conference, and, at the time of his death, was a member of the advisory committee. In the affairs of Sigma Alpha Epsilon, Mr. Almy's influence will be long felt. He served as Eminent Supreme Archon in earlier years. Later he was honored by being chosen as Honorary Eminent Supreme Archon.

* * * * *

BETA THETA PI has re-elected Dr. Francis W. Shepardson president for the fourth consecutive three-year term. We congratulate Beta Theta Pi in having Dr. Shepardson continue in his present capacity. Dr. Shepardson is doing great work for the entire college fraternity system, and we would be sorry, indeed, to have him withdraw his great influence at this time.

* * * * *

CHAPTER finances have been and always will be an extremely important subject for discussion when the affairs of the world of Greeks are aired. There are frequent discussions of unbusiness-like methods and serious situations arising from the non-payment of bills by active members and alumni.

The editor of the Phi Mu Delta *Triangle*, in order to get some accurate information regarding certain phases of fraternity finance, recently sent a questionnaire to the treasurers of thirteen chapters of his organization. Some of the results of this questionnaire showed that: At the beginning of the present college year the alumni of the thirteen chapters owed over seven thousand dollars

THE QUARTERLY OF PHI PI PHI

(no bill over five years old included); the alumni of three chapters owed the chapter treasuries over twelve hundred dollars each, with a total of about four thousand dollars; several chapters had allowed individual alumni to incur debts in amounts ranging from one hundred to two hundred twenty-five dollars each; the chapters reported that alumni owed nearly two thousand dollars that will never be paid; the treasurer's estimates showed that the fraternity has about forty alumni who might be classed as "dead-beats" and who probably never intend to pay their bills. Over one hundred alumni were reported to be owing debts at least one year old.

Phi Mu Delta is, in age and history, a brother to Phi Pi Phi. They are typical fraternities with but minor differences when taken hand in hand with any of the other national Greek collegiate organizations. Phi Pi Phi has the same financial difficulties that confront Phi Mu Delta and these difficulties must be corrected.

An analysis of the questionnaire reveals the truth that most of the difficulties are caused by the type of individual known as the "dead-beat." Most fraternity men are honest; most of them pay their bills. Some men who are working their way through school cannot always pay their bills exactly on the day that they are due, but it is not these men who are the problems. It is the indifferent member, the man who has not the basic element of honesty, who puts the chapter in hot water.

Some of the more workable suggestions that have been offered to relegate the "dead-beats" to the limbo of long-forgotten souls are as follows:

Allow no man to move into the house in the fall until every cent of his previous bills is paid.

Set a definite limit beyond which bills cannot go without suspension of the member from the chapter and removal from the house.

Provide a small discount for the prompt payment of bills. Bear in mind that every modern business offers at least 2 per cent cash discount.

Provide for alumni control, or at least frequent inspection of the finances of the chapter. Experience in the actual business world

has taught the alumni that they cannot be lenient with a delinquent because he is a "good fellow."

Whatever rules the chapter adopts must be enforced. They cannot be made and then disregarded. If a member objects to this discipline so strenuously that he threatens to quit when the pressure is brought to bear upon him, "beat him to the punch." Fire him before he can quit. The quitter is not wanted in Phi Pi Phi. The men of our Fraternity must be able to take their medicine like gentlemen.

There seems to be a growing belief among thinking fraternity men that expulsion best fits the crime of being a "dead-beat." The fraternity press of the country reflects the increasing demand for more drastic action. Witness the following excerpt from the magazine of Beta Theta Pi:

"They must go! Members who live in our chapter houses, enjoy the privileges of chapter life, gain recognition or preferment because of membership in our fraternity, have room, bath, board, and then fail to pay or provide for the charges necessary to maintain such an establishment, sometimes graduating or leaving college without a settlement, leaving the others to meet the indebtedness they themselves created for food, for service, for rent. They must go! They are not worthy to wear the badge and bear the name of Beta Theta Pi."

Phi Pi Phi should and must adopt a similar rule for remedying the evil of the "dead-beats." It is suggested that when the chapter has taken all the usual steps to collect old bills, the member still owing money should be cited for action as provided for under the constitution in the section entitled "Suspension and Expulsion."

THE QUARTERLY OF PHI PI PHI

HONOR ROLL OF PHI PI PHI FRATERNITY

DELTA RANKS FIRST IN SUBSCRIPTIONS TO THE ENDOWMENT FUND

THE increase in subscriptions to the magazine endowment fund for the last three months was the largest since the first list was given. A total of thirty-three new subscribers have added their names to the honor roll of the Fraternity.

Delta chapter continues to lead all chapters in total number of subscribers, but Theta is gradually gaining, having an increase in this report of six as compared to four for Delta. All active chapters showed an increase with the exception of Zeta and Omicron, who have hardly had an opportunity to get started.

Following is the number of subscribers by chapters:

<i>Chapter</i>	<i>Last Report</i>	<i>This Report</i>	<i>Increase</i>
Alpha	7	8	1
Beta	18	20	2
Gamma	11	13	2
Delta	34	38	4
Epsilon	6	8	2
Zeta	12	12	0
Eta	6	12	6
Theta	22	28	6
Iota	10	13	3

ALPHA—NORTHWESTERN UNIVERSITY

First semester work at Alpha chapter has been progressing rapidly and we have a number of men in activities. Pledges Gilby and Mills are out for freshman basketball, and both have a fine chance to make the team. Crossons has played on the freshman football team the whole year and we have in him a varsity man for next year. Bagwell has made his numeral in cross-country and we trust he will be on the varsity next year.

Brother "Bud" Smith will be out for track when the season opens and Brother Peters has been on the varsity cross-country team, coming in either second or third in every meet. Brother Regenberg is on the *Purple Parrot* staff, and Pledge Myers is on the staff of the *Daily Northwestern*.

Alpha has five men in the R.O.T.C. Brother Bissell is one of the captains of the unit.

On the last Monday of October, the active members of the chapter took the pledges to a movie. Thirty-two men attended and, after the show, the actives treated them to a feed.

Due to the success of this venture the actives have decided to give the pledges some sort of entertainment on the last Monday of every month.

Alpha is giving a house dance on December 2 and, if last year's dance is anything to judge by, we expect it to be a big success. Brother Ross, our social chairman, is taking charge of all the plans so its success is assured.

Alpha initiated Robert Loan on October 23. He has since become an

active worker in the chapter and plays on the fraternity football and basketball team.

Alpha has sixteen pledges this year and, as this is the largest number it has ever had, we expect the year 1928 to be our biggest and best year.

LEONARD H. BISSELL

BETA—UNIVERSITY OF CHICAGO

"It's a boom year for Beta chapter," said an alumnus in greeting a returning brother at the beginning of the school year. "Never before has Beta chapter given such promise of greatness."

Last May, at the regular election, the following officers were elected: Don Mack, president; Herbert Wahl, vice-president; Maurice Moore, treasurer; Herbert Beardsley, secretary; John Freeman, sentinel and pledge manager; Wallace Nelson, librarian and chaplain; Walter Puschel, sports manager; David Prosser, chairman of social committee; Bernard Petrie, house manager.

We have started off the year with fifteen pledges, every one chosen with care, that each may reflect honor to the Fraternity and at the same time be aided in every way by loyal brothers. Most of our pledges are "out for the Green Cap Club," the freshman honor society, and we have every reason to believe they will make it.

As we have sixteen active brothers, our present enrollment is thirty-one, although we believe we can increase this before the end of the quarter. Perhaps the most outstanding charac-

THE QUARTERLY OF PHI PI PHI

teristic of our present membership is our scholarship. We have eight men, who have been awarded scholarships by preparatory schools that rank exceedingly high scholastically, and the average of the whole fraternity compares well with that of the other fraternities on the campus.

Beta chapter has shown a great interest in athletics this year, and we have started well. Walter (Wallie) Puschel, varsity baseball man, is the sports manager for the chapter and is also captain of the touchball team. Out of the five games we have played, we won four and tied one. We beat the Dekes 18-0, and T.S.O. 12-0, Betas 18-0, Phi Kappa Sigma 18-0, and tied the Chi Phis 12-12. The play-off game decides the winner of the league title. Norman Root, high point man of the intramural winter carnival, is intramural manager of touchball this year, and is also a varsity dash man and high jumper. He is considered one of the fastest men in the school. John Freeman, sentinel and pledge manager, is a varsity miler and cross-country runner. He and Root won their numerals in track last year. One of our pledges, Bill Nash, a sophomore, is on the varsity fencing team. He won his numerals in fencing during his freshman year. Bill Jancius, a freshman pledge, is outstanding among the freshman varsity football players. So much for the serious sports. In the third annual cross-country run, Beta won fifth place. John Freeman was seventh in a field of seventy-some runners but was disqualified for being a varsity man. In horseshoes, Wallace (Wallie) Nelson and Charles

Ault are winning silver medallettes. Other titles are still undecided.

Athletics does not sum up the whole of our activities. Herbert Beardsley, Norman Root, and David Prosser were elected to the order of Blackfriars. We have four men in the university band, and two pledges, Mihlos Szlagyi and Lowell Warner, have their own orchestras. We are keeping our interests in publications. John Freeman is an associate editor on the *Cap and Gown*, our annual, and Herbert Beardsley and Bob Morrison are also working on the staff. Wallace Nelson is a junior manager on the *Maroon*, our daily.

We are fostering a club in the Settlement House, and the Y.M.C.A. Community and Welfare Service Committee, of which Bill Nash is chairman, has arranged a program for securing the co-operation of other large and progressive fraternities.

We must not forget an alumnus, Kay Stott, who is working on his master's degree and is head conference instructor in the geology department. There is one other activity worthy of mention, one in which we claim the record. In the month of October one of our pledges wrote and received eighty-six letters!

Already this year we have had some delightful social events at Beta house. After the Purdue, Michigan, and Wisconsin games we had tea dances, all being extremely well attended. Two alumni brothers, Milford Rice and Lawrence Post came down for the Michigan game. Probably more interesting than the game, which we lost, was the famous Beta chapter bridge tournament. Brothers Petrie

THE QUARTERLY OF PHI PI PHI

and Rice are now 4,837 points ahead of MacDonald and Moore. The losing team, however, hopes to catch up when they meet again in December. We had for our guest at the big house party, President and Mrs. Fred Clarke. His influence in our house has been felt by every member, and we hope we can have him with us again soon.

Eighteen attended the game between Chicago and Illinois, and, although we lost again, every one of us had a fine time.

There are many more things of interest that we could say, but we will save them for another time. We hope we will never need them, however, for our slogan this year is "a bigger and a better Beta chapter," and we are determined to fulfil the promise of the past. One look at "our boys" will show you why we can fulfill that promise.

BILL NASH

GAMMA—ARMOUR INSTITUTE

History repeated itself last spring when Gamma won the interfraternity baseball championship. Due not only to the ability of the players but also to the support of those who did not play, the opposition was more or less bewildered, and the final scores show that victory was never in doubt. However, at the time of this writing, we are looking forward to a "first leg" on the new interfraternity basketball cup. Enthusiasm is very intense and competition for a place on the house team is very keen, due to fifteen determined candidates.

The opening of school found almost all of last year's active members back

again, and also the return of several brothers who had dropped out of school temporarily. Those returning were Wallie Anderson, Bob Brown, and Ed Cremer, all of whom spent last year working. The only brother who did not return was Bob Mehaffy, who was affected by the romantic days of last spring and was married. With the return of thirty-six active members, all working with their usual zip and enthusiasm, we are looking forward to a very successful year and, judging what is to follow by what has happened from September 20 to the present, we certainly shall not be disappointed.

Our annual rushing dance, held on the evening of October 8, was, according to the alumni, of whom a large number were present, one of the most successful affairs in the history of the chapter. Ten promising men were pledged the following week and are at the present time traveling along the path that leads to brotherhood.

Gamma extends its greetings and best wishes for the coming year to all chapters.

J. A. BECHTOLD

DELTA—UNIVERSITY OF ILLINOIS NO LETTER

EPSILON CHAPTER—WASHBURN COLLEGE

Brothers of Epsilon chapter have been applying themselves to school activities with pleasing results. Walter Davis is still holding down his job as guard on the varsity football team, while Ernest Skinner, pledge, is out for the team and shows promise of being a valuable man within another year.

THE QUARTERLY OF PHI PI PHI

In Y.M.C.A. work the members of the chapter have also not been behind. Walter Deschner has been elected vice-president, and Harold McKay, secretary. Ray Hill is secretary for community service while Deschner is also secretary of the Chemistry Club.

Art Claussen has been named president of the Interfraternity Council, and Robert Martin, business manager of the school annual.

Rumors are flying about the campus that Washburn is to have a new field house. Such an addition is badly needed as the school is unable to accommodate crowds at its basketball games.

ZETA—UNIVERSITY OF WISCONSIN

The second and third weeks of September saw the return of nearly all the brothers of Zeta chapter. The house was redecorated and the first floor revarnished. Shortly the home on Langdon Street was ready for the new year.

After these preparations, rushing season was started. In spite of a late start, the results of the rushing have been highly gratifying. There may be seen on the campus a number of well-appearing young men wearing the pledge button of Phi Pi Phi.

In the evening of October 8, the house took on a gala air of festivity. The occasion was the pledge dance, of, by, and for, the pledges. The actives were also there, having decided that there would be too much fun to miss. The programs were very novel, being a picture of a frosh, proudly wearing a Phi Pi Phi pledge button. Decorations were pledge designed and executed. The popularity of the Phi Pi

Phi parties does not seem to have declined since that dance.

Close on the heels of the dance came initiation week.

A number of Zeta's men are in campus activities. Brother McKaskle suffered a fractured shoulder in the opening game with Cornell. In spite of this, he played against Minnesota. Pledge Glave has artistic propensities. He is working on the *Octopus*, the campus humor publication, and helped design the homecoming decorations for the front of the house. Brother Evans, national vice-president, is kept busy by his manifold duties in the athletic department. Brother Dimmick, '27, is living in Madison after his trip abroad with the glee club. Pledges Schneider and Larson are out for freshman football and their prospects as varsity timber seem good. Brothers Leicht, Gullord and Moore are playing in the university band. Brothers Edwards, Tratt, Maxham, and Moore left the day after homecoming on the visiting tour for senior electrical engineers. They will visit electrical plants in the East.

Zeta has a house intramural football team which averages 210 pounds from tackle to tackle. We anticipate having another cup on the mantel at the end of the season.

November 12-13 was the occasion of homecoming at Wisconsin. Many of the alumni of the chapter came home for the festivities which take place at this time. Zeta won third prize for the decorations on the house, which was no mean achievement considering the great effort in that direction displayed by fraternities everywhere on the campus. The dance

THE QUARTERLY OF PHI PI PHI

in the evening after the game gave the alumni another opportunity to renew old friendships.

On Sunday, after the annual housing corporation meeting, a dinner completed the homecoming ceremonies.

RANDALL WRIGHT

ETA—UNIVERSITY OF UTAH

The principal topic of conversation about the house has been, of course, the new house, in which the chapter has been installed since October 1. The house has proved popular with the actives, and also with the alumni. Most of the graduates living in Salt Lake or environs have paid calls. Some of the alumni who live somewhat outside the city limits have visited the house also—Lee “Papa” Johnson, who lives in Quincy, California, for instance.

The chapter held its first initiation of the year on October 14, when eight men were initiated. For the first time Eta attempted a midnight initiation which proved a complete success. The new brothers who went through a strenuous two weeks on “goathood” are: Frank Carman, Walter Dauncey, Byron Thurmond, Melvin Lundberg, Irving Alter, Edwin Burke, Edwin West and Paul Crismon.

The stock of pledges was not depleted by the initiation, however, and the chapter has plenty of men on hand to do the “hashing.” The following men have been decorated with the button: Charles Buell, Earl Bailey, Herman Green, Iver Nicholson, Elvin Hill, Edgar Barker, and Marvin Johnson, and Milton Oman.

Socially the chapter has also been active. The new initiates were the

honored guests at a dancing party at the chapter house October 15. Thirty-five couples attended.

The new house was given an official housewarming on November 11. Open house was held for all of the university during the afternoon, and in the evening a formal reception and dance was held which was attended by representatives of all of the university fraternities and sororities. Raymond D. Herriman, dean of men, and Richard V. Jones, chapter president, gave brief talks at the reception. Byron G. Jones, Mansfield Kirby and Dwight T. Gove were on the committee for the affair.

The chapter entered a float in the Homecoming day parade. It also was host to six Colorado A.T.O.’s who were in Salt Lake for the Utah-Colorado game.

Officers of the chapter for the year are: Richard V. Jones, president; William H. Whimpey, vice-president; D. Mansfield Kirby, secretary; Byron G. Jones, treasurer; Mavor Robertson, chaplain; Dwight T. Gove, reporter; William H. Ray, Jr., house manager.

DWIGHT T. GOVE

THETA—UNIVERSITY OF CALIFORNIA

With everybody hitting the ball from the word go, Theta started off this year to nine more innings of activity, and indications point to a score that no one need be ashamed of. As usual, some of the boys fattened the house treasury by forgetting the date of the first house meeting. Bitter disappointment was registered by the defaulters when they discovered that House Manager Sorg had saved a bit of work for them to

THE QUARTERLY OF PHI PI PHI

do despite the fact that their arrival was somewhat tardy.

Quite a reunion marked the first few days of the semester. Chet Millett, mighty mace wielder of the "Cal" varsity nine, was back from a summer spent in the land of "sake" and geisha girls. Heinie Karrer, Ray Hancock, and Don Batchman told with gusto the he-man occurrences of a summer engineering camp, while "Pee-wee" Bennitt and Hal Sorg had even stranger and more gory tales relative to an indefinite period in a military camp. Hal Sorg seemed also to have spent a good deal of time in being house papa to a bevy of southern beauties who occupied the house during the summer. George Daugherty seemed to have vague memories of several weeks spent in Canada.

Four new men toted eggs for a week previous to riding the goat over a rather tortuous road to fraternity membership. The boys who came in during the fall initiation are George Leckner, Bob Parfet, Lawrence Levansaler, and Fred Lawless. Four more boys are taking courses in sorority teas and bathtub navigation preparatory to next semester's initiation. They are Louis Albert, Odyth Butterfield, Sandy Hollingshead, and Steve Anderson. Sandy has already become prominent in the "Cal" Senate and both he and Steve are rating big in the committee appointments. Reports indicate that they are also rating big with the Kappas. Fred Lawless, entering "Cal" as a junior, grabbed off a junior sports editorship on the *Daily Californian*.

Notable success attended both the pledge dance and the initiation banquet. The guiding hand of Kenny

Messenger was felt in both affairs. Plans are now being laid for a novelty dance for November 11 to be held on an antiquated four-masted schooner which has come to final rest in the Oakland estuary.

Frank Misch, appointed last year to the A.S.U.C. store board, was further honored this year by election to Tau Beta Pi, engineering honor society. Hal Sorg and Misch were both initiated into Scabbard and Blade, military honor society. Al Wahl, Glan Heisch, and Hal Sorg are being kept busy on a number of committees.

Several of the boys who were active last semester have moved on to greener fields or have deferred their pursuance of higher education for a time. Irving McKee has transferred his activities to Yale. Bill Caulkins, Fran Blanchard, and Harold Butterfield are indulging in a period of financial recuperation but are hoping to be back in college next semester. Bob Burgess, '26, is here working for his master's degree, and has gained quite a local reputation as an authority on bugs. John Ironsides, '27, is still an active member in the house but is doing graduate work in law.

Work on the proposed addition to Theta's newly purchased home is all set to start next spring. The home association, composed of alumni and fathers of present members, has been incorporated and estimations, plans and specifications for the new wing are complete. Kenny Messenger, Mr. Needham, and Mr. Biggerstaff are largely responsible for strides which have been taken in this direction.

"Maud" Muller, Delta, came around to the house a good deal during the

THE QUARTERLY OF PHI PI PHI

first part of the semester while he was in the West on business. The boys speak of him often and want to be remembered to him. Max Taylor, Theta, ex-'27, is in the East at the present time, visiting chapters there when business will permit. Walter Green, Eta, '23, was over from Frisco the other day and gave some of the boys a chance to meet him.

You fellows from the other chapters when you are out this way don't fail to drop around and let us know you are here. Remember that there will always be a welcome.

LAMBDA—CASE SCHOOL OF APPLIED SCIENCE

The brothers of Lambda chapter spent a large amount of time this summer in redecorating the interior of the house. Everyone is pleased with the improved appearance.

A pledge dance was given at the College Club on the evening of October 21. Three of our brothers, J. R. Martin, C. D. England, H. G. Mabry, and their wives acted as chaperons. A number of the alumni appeared to join in the evening's pleasures.

The house men this year number seventeen and, as our capacity is eighteen, we are quite pleased. Every indication points to a successful year financially.

We are looking forward with pleasure to having the next convention at Cleveland. After hearing the interesting report of the last convention, as given by our representative, G. L. Davies, we all wished we could have been there.

W. E. SICHA

NU—WESTMINSTER COLLEGE PENNSYLVANIA

Nu started the year off right by defeating the Theta Upsilon Omega and Delta Phi Sigma teams in football games, 13 to 6 and 6 to 0, respectively. The chapter leads Westminster fraternities in intramural athletics as a result of these victories.

Nu also did some good work during the rushing season when seventeen men were decorated with the button. All of the men are from Pennsylvania towns, a delegation of eight being from the metropolis of New Castle.

In campus politics Nu has also had much success, with Brother McQuiston president of the Junior class, Brother McClure treasurer of the Senior class, Brother McClean treasurer of the Sophomore class and Robert Cooper president of the dramatic club.

The chapter held its first formal dance of the season at the Ohio Hotel in Youngstown, Ohio, on November 23. Many alumni attended.

XI—NORTH CAROLINA STATE COLLEGE

When we counted noses on the opening day of the fall semester we could only count up to six actives and one pledge. However, it must be remembered that at State the chapters seldom muster over a dozen or fifteen. Our rushing team soon became busy and we pledged thirteen of whom we recently initiated five, so, as we have our house filled, we are in good shape. Several members who did not return to college this year will be with us next year, and the beginning of next semester will see one or two back.

THE QUARTERLY OF PHI PI PHI

We have had some time for the lighter things and, on October 15, gave a rushing dance at the chapter house.

In order to stimulate our scholarship we have been strict in conforming to our study hour periods and the chapter has proposed to award a jeweled badge to the pledge making the highest scholastic average for the semester. Likewise a jeweled badge

will be awarded in the second semester under like conditions.

There is a great deal of interest being taken in the formation of plans for our new home which will be located on the campus and we propose to be among the first fraternities to build. Plans for the formation of the building corporation are being laid.

W. V. ELLER

ALUMNI NOTES

THE SALT LAKE CITY CLUB

Phi Pi Phi alumni living in Salt Lake and environs perfected an organization at a Founders' day dinner held at Shay's on November 15. The club was formally organized with Theodore W. Long, Eta, '27, president; Gene Laird, Eta, '26, secretary-treasurer; and J. Winston Alter, Eta, '26, social secretary. Monthly meetings will be held at the Eta chapter house.

The dinner was featured by an excellent address on fraternity ideals by Professor E. W. Pehrson. A toast to the active chapter was given by Gene Laird and was repounded to by Richard Jones, president of the actives.

Alumni of the Fraternity are cordially invited to look up the club when in Salt Lake. As Brother Laird lives at the Eta chapter house he is the most readily available officer.

ALPHA

Brother Joseph Desert, Alpha, '27, has reported progress since leaving college. Joe is a salesman with the Cyclone Fence Company. He appears frequently at the chapter house and may be addressed there.

Several of our recent graduates have

determined to follow the law. Fred McMillen is now attending the John Marshall Law School as well as working in an attorney's office in Chicago. Brother Kurt Kiesow is to complete his work in the Northwestern Law School this year. Kurt likewise does not have enough to do.

Brother Donald Muller has taken a position of cashier with a prominent securities firm and is now located at 231 South La Salle Street. He may be reached at room 1915. Don has been obliged to drop out of college on account of his new duties.

Charles Owings of Washington, D.C., visited the chapter early in the autumn and visited old comrades in Chicago. Brother Owings is engaged in an insurance and real estate bond firm in Washington.

BETA

Robert Jackson and John McDonald, both '27, have taken up higher finance. Bob is working at the Rose-land State Bank and John is with the Washington Park National Bank, both of Chicago.

Larry Post is managing partner of a wholesale produce house in Grand

THE QUARTERLY OF PHI PI PHI

Rapids, Michigan, and is reported to be getting along nicely. Larry came to Chicago to attend the Michigan game and visit the chapter.

Jimmy Root, '27, has recently returned from a vacation spent in the West and California.

Kenneth Stott is continuing his work for a doctor's degree in geology and may be reached at Beta chapter.

GAMMA

Elliot Youngberg is now located in Buffalo and is connected with the Union Carbide Company.

John Fairbanks writes from St. Louis to say that Larry Burke, '25, is now located in St. Louis, having been transferred from the New York office of the Permutit Company. His address was not given and so it cannot be passed on. Larry visited the chapter during the rushing season and met old friends.

DELTA

The homecoming game this year was the Michigan game and more alumni members returned than ever before. "Pinky" Pfeiffer came from Buffalo, and Louie Bond from the South. St. Louis was represented by Dick Reamer, and Detroit sent Maurry Anderson. Chicago, as usual, sent a good delegation, among whom were Brothers Wicox, Lebahn, Kirsch, Balbach, Lehman, Lewis, and Lang. Brothers Collins, of South Bend, and Flint, of Decatur, were on hand. Kley Miller, of Quincy, was present to preside over the house corporation meeting.

Frederick Lehman, M.A., '27, has taken a position with the Chicago

Sanitary District and at the same time is doing advanced work at the University of Chicago.

Larry Willcox is often a visitor at Delta as he is now connected with the farm loan department of the John Hancock Life Insurance Company, and his work calls him to Central Illinois.

"Torchy" Cannon, '26, has resigned his position with the Pennsylvania Railroad and has signed a contract with a development company in Honduras, leaving the States in the early part of September. "Torchy" may be reached at the Rosario Club, San Jacinto, Honduras.

GLENN THOMAS, *Epsilon*
A Successful Hunt

EPSILON

Carl Richardson is in the contracting business.

THE QUARTERLY OF PHI PI PHI

Langdon Morgan is practicing law at Hugoton, Kansas.

Dorr Pelton is employed by the Topeka water department.

Blair Branham is attending Harvard University, where he is majoring in economics.

Willard Gossett is employed by the Santa Fe Railroad as an engineer at Marceline, Kansas.

ZETA

The Iowa game brought back a larger number of alumni than we have had heretofore. The game was a disappointment, but the dance at the chapter house made everything seem rosy. On Sunday the annual meeting of the house corporation was held and the following were present: Jones, Smith, Freck, Malzahn, Reinhold, Atwood, Frank, Rossow, Kind, Marawally, Graham, Trainor, Fuller, Hetland, Hrubesky, and Evans. National Secretary Van Zandt was also present for the week-end.

Harold C. Smith has written in to say that his new address is 510 N. Humphrey Avenue, Oak Park, Illinois. He neglected to state if he has changed his position and we assume that he is still with the Western Electric Company.

Allen Hetzel, with two companions, has spent the last few months touring the West, spending considerable time in Washington and Oregon. As a matter of fact, they left for the West in May and expect to return during the early part of December. The Black Hills, Denver, Pike's Peak, Salt Lake City, Yellowstone, Yakima Valley, and Seattle had all been visited when the latest word was received.

ETA

George R. Halton, '27, is employed by the United States Smelting, Refining and Mining Company doing work in the exploration department. His address is apt to change without notice. At present he is located at Coppertown, Utah.

Allen V. Astin, '25, was instructor in physics at New York University during the summer session. He expects to receive his Ph.D. degree from the New York University in 1928.

Kenneth S. Greene, '27, together with seven other engineering graduates of the University of Utah, contracted to do the carpentry work on the new university stadium.

Walter C. Green, '23, paid the chapter house a visit just before the close of school in June. He is employed as an actuary by a San Francisco insurance company.

Albert Olson, ex-'29, is in Denmark as a missionary for the Latter Day Saints church.

Theodore W. Long, '27, is employed as reporter on the Salt Lake *Telegram*.

Alfred Miller Funk, '27, is employed by the Denver and Rio Grande Western Railroad at Thistle, Utah.

Gene Laird, '26, and J. Winston Alter, '26, are still in the employ of the Mountain States Telephone Company.

THETA

Sixteen alumni met at the chapter house September 1, and drew up preliminary plans for the reorganization of the chapter alumni association which proposes to take over certain obligations in connection with the recent purchase of the chapter house

THE QUARTERLY OF PHI PI PHI

and the completion of the addition.

Nine of the alumni stepped out into the field of matrimony this summer. Graham Hockett, '23, Bernhardt Baumeister, '26, Daniel Trussell, '25, Phil Silver, '23, Ralph Brown, '20, Alva Johnson, '26, Les Graham, '25, John Murrin, '23, and Doc (John E.) Wiese, '23, were the venturesome brothers. The latter two were married by Brother Stone Crane, '25.

Irving McKee, '30, joined the trek eastward this summer and is now attending Yale. Phil Silver had one of the greatest surprises of his life when he ran across him on the Yale campus.

After a trip around the world last summer, Lee Groezinger, '27, is now enrolled in the Harvard Law School. E. Knight Biggerstaff, '27, is also taking graduate work in political science at Harvard, while Ralph Cassady, '24, is now a full instructor in economics at Princeton, having passed his preliminary examinations for his Ph.D. degree.

Ed Cassady, '27, is now reporter on the San Francisco *Chronicle*.

Bill Gardiner, '27, has shipped out to the Orient before settling down to mining engineering.

Ellerd King, '24, gave his Marmon a summer trip to Minnesota from Los Angeles.

F. Harold Butterfield, '28, is out of school for a while and is reported to be keeping the roads hot between Riverside and Los Angeles in his Cadillac.

Bob Burgess, '26, expects his M.S. this fall in entomology, having completed a study of the habits of the gnat at Clear Lake, California. Bob

determined several habits of the gnat hitherto unknown to science.

Bernhardt Baumeister, ex-'27, is now selling furnaces and fuel oil in the bay cities.

Anson H. Morgan, '25, is practicing law in Sacramento, while Doc Wiese and Paul Silver are doing the same in Oakland. Another barrister, Bill Kessler, '23, is assistant traffic manager of the Portland Cement Company, Pacific Building, San Francisco.

Walt Petterson, '24, has been lured back from the South and is now in San Francisco.

Jimmy Smith, ex-'28, is somewhere in Texas exercising his Alabama drawl.

Karl Brenner, ex-'25, is also in Texas at Port Arthur, managing a hotel.

T. Max Taylor, ex-'26, is working out his Tennesseanese on patrons of the Western Auto Supply Company, Van Ness Avenue, San Francisco, where he is assistant manager.

Howard Parker, '26, has returned to San Francisco where he is with the Detroit Steel Products Company.

S. Tyler Eddy, '30, is no longer in college but plans to return at a later date.

Maurice Buckley, '23, is still teaching at the Bakersfield High School. Address 1717 Orange Street.

Elvery Lloyd, '25, is assistant manager of the Owl Drug Company, Berkeley, and was recently granted a licentiate in pharmacy by the state board.

John Ironsides, '26, is in the graduate school of jurisprudence at the Berkeley campus.

"Dutch" Sikora, '25, is still in Martinez with the Shell Oil Company,

THE QUARTERLY OF PHI PI PHI

but ventures down to the campus occasionally with George Blowers, ex-'25.

Stuart Carrier, '26, is back on the campus taking graduate work in education. "Stew" claims that high school profs get paid a lot.

Harry W. Witt, '25, and Harold Winham, '26, were up from San Diego and Texas, respectively, and attended the pledge dance. "Maud Muller," Delta's high-pressure brass hawker, was also there.

Fran Blanchard, '27, is surveying in the high Sierras for another semester.

Henry McFarland, '25, is still pursuing his search for a doctor's degree. It won't be long now. Chapter house.

Lloyd Fisher, '25, is now in San Francisco and drops around to the house occasionally.

Lucian Deane Hertert, '26, is doing research work at the University Hospi-

tal in San Francisco. Next year he plans to open a bacteriologist's laboratory in Los Angeles.

Xi

R. C. Brown, who, for the past year, has been living in the mountains of North Carolina for his health, has returned to his former home in Charlotte, North Carolina.

C. M. Cooper is now with the Carolina Power and Light Company, Asheville, North Carolina.

W. K. Enos has taken a position with the Kernersville Water Company, Kernersville, North Carolina.

J. L. Higgins is owner and manager of the Oakland and Pontiac Motor Company, Kinston, North Carolina.

G. F. Hackney, is at 138 East Chapel Hill Street, Durham, North Carolina.

George Everett is with the State Highway Commission at Woodruff, South Carolina.

ITEMS FROM THE GENERAL FRATERNITY WORLD

At the recent meeting of the Grand Chapter of Sigma Chi the topic of expansion was discussed. A preferred list was created to contain the names of not more than three institutions from whom petitions were to be received and acted upon during a biennial period. A third full time officer was elected.

Phi Kappa Tau has granted a charter to the Sigma Theta fraternity of Alabama Polytechnic Institute; and Alpha Kappa Delta, of Iowa State College, and Phi Alpha Pi, of Ohio Wesleyan, have been granted permission to present petitions.

Lambda Chi Alpha, at its recent convention, took a decided stand on chapter scholarship, adopting a law providing that if any chap-

THE QUARTERLY OF PHI PI PHI

ter fails to maintain a scholastic average equal to that required for graduation it shall be placed on probation with revocation of the charter as the ultimate penalty. A charter has been granted to the Pi Rho Chi of the University of North Dakota and, when installed, will become the seventy-sixth chapter.

Beta Kappa will soon install three chapters which will be located at the University of Virginia, Boston University, and Birmingham Southern College.

Sigma Alpha Epsilon has recently completed a beautiful chapter house at Indiana University. The design is English, after the Tudor period, and is built of Indiana limestone. The cost was \$85,000.

Kappa Sigma has granted a charter to the Omega Phi fraternity at Southern Methodist University and, when installed, this will be the one hundred fourth chapter of the fraternity.

Delta Upsilon held its convention at Minneapolis during the early part of September, at which time it considered twelve petitions from eleven institutions. Of these twelve, four were denied, and the remaining seven were ordered tabled, so that no charters were issued.

The nineteenth annual session of the Interfraternity Conference will be held at the Hotel Pennsylvania on November 25 and 26. Judge William R. Bayes, a member of Phi Delta Theta, is the chairman of the present session.

ANNOUNCEMENTS

Mr. and Mrs. A. G. Mackinzie, of Salt Lake City, announce the marriage of their daughter, Margaret, to Mr. Allen V. Astin of New York City. The ceremony was performed at the home of the bride. Brother Theodore Long served as best man. Brother Astin was charter vice-president of Eta chapter and, since graduating from the University of Utah in 1925, he has attended New York University and is now an instructor of physics. Mrs. Astin also graduated from the University of Utah and is a member of the Delta Epsilon sorority.

Alan H. Olin of Salt Lake City, was married on June 13 to Miss Pearl Burge, also of Salt Lake City. Mr. and Mrs. Olin will continue to reside in Salt Lake City, where Brother Olin is associated with the Utah Music Company.

Mr. and Mrs. Henry J. Esin announce the marriage of their daughter, Catherine, to Mr. Otto S. Peterson, member of Gamma chapter. The ceremony took place at Chicago, and Mr. and Mrs. Peterson will make their home in Covington, Kentucky, where Brother Peterson is connected with the Kentucky Actuarial Bureau.

Mrs. August C. Meyer announces the marriage of her daughter, Katherine, to Arthur C. Droegemueller which occurred at Chicago on November 19, at Bond Chapel of the University of Chicago. A reception was held at the Ida Noyes Hall. Brother Droegemueller is a graduate of the University of Chicago and is a member of Beta chapter. He is associated with Arthur Andersen and Company of Chicago.

Earl Johnson, Beta '26, was married to Miss Margaret Fisher on October 8 at Bond Chapel of the University of Chicago. A reception followed at Ida Noyes Hall. Mrs. Johnson is a former resident of Salt Lake City and also a graduate of the University of Chicago. Brother and Mrs. Johnson are now at home at 852 East Eighty-second Street, Chicago.

THE QUARTERLY OF PHI PI PHI

Mr. and Mrs. John Albert Matthewman announce the marriage of their daughter, Helen Bird, to Mr. Philip Silver, Friday, June 17, at New Haven, Connecticut. Brother Silver is a member of Theta chapter and is practicing law in Oakland, California.

Mr. and Mrs. Arthur Wilson Voorhies announce the marriage of their daughter, Blanche Holbrook, to Mr. Daniel Franklin Trussell, Thursday evening, June 30, at Del Monte, California. Brother Trussell is a member of Theta chapter and Alpha Tau Alpha, agricultural society.

Mr. and Mrs. Fred G. Matthieson announce the marriage of their daughter, Mathilde Emile, to Mr. John Henry Murrin on Tuesday, July 26, at Berkeley, California. Brother Murrin is a graduate of California and has an M.A. in English from Harvard.

Mr. and Mrs. William W. Fleming announce the marriage of their daughter, Kathryn, to Perry C. Hall on July 14, at Chicago. Brother Hall is a graduate of Armour Institute with the class of '27, and formerly was president of Gamma chapter. Mr. and Mrs. Hall will continue to make their home in Chicago, where Brother Hall is employed in the engineering department of the Illinois Central Railroad.

George L. Cloward, Eta, ex-'28, was married in March to Miss Anna Lou Tucker. His home address is Payson, Utah.

The marriage of Miss Ina Glenn Lucius, of Orlando, Florida, to Morgan J. Polk on September 1, 1927, has been announced. Brother Polk is a member of Xi chapter.

Eleventh (1927) Edition

BAIRD'S MANUAL of American College Fraternities

Edited by FRANCIS W. SHEPARDSON

FIRST published in 1879 by William Raimond Baird, the eleventh edition is revised and enlarged so that it is complete and up-to-date.

The page size is larger and the book is in better proportion than previous editions. It contains histories of all of the fraternities, a general story of the Greek letter movement, constitutions of the various interfraternity organizations and many statistics and features of great interest.

Price \$4.00 per copy, postage prepaid.

Send Orders Through This Publication

In "The Gossip of the Greeks" department of the Delta Upsilon *Quarterly* the writer recently said in a review of the various fraternity magazines: "Now let us turn to the finest magazine of them all: *Banta's Greek Exchange*. We wonder what has happened to this sheet. It used to be good, but the October issue seems like a real honest-to-goodness magazine that ought to compete with the *North American Review* as well as *College Humor*. Any chapter house library that has not this issue on the table is really missing the best thing out, not even excepting our own *Quarterly*." And then he goes on to devote two pages to an outline of its contents.
