The Tomahawk

Alpha Sigma Phi

G.S.P. Robert E. Miller's Inauguration

SPRING

THE TOMAHAWK of Alpha Sigma Phi VOL. 69 NO. 1

The Tomahawk is the oldest college fraternity magazine. It first appeared in November 1847 at Yale College and continued until the College suspended it in 1852. Since its revival in April 1909, it has been published continuously.

COVER

Dr. Robert E. Miller, Grand Senior President, Connecticut '49, is invested with the mantle of his office as President of Quinebaug Valley Community College by Lt. Governor, State of Connecticut, T. Clark Hull, Brother initiated at Yale in 1940; and Henry E. Fagan, Chairman, Board of Trustees for Community Colleges of the State.

> RALPH F. BURNS Editor

Published by Alpha Sigma Phi Fraternity, Inc.

Executive Offices 24 West William Street Delaware, Ohio 43015

THE TOMAHAWK is published quarterly by the Lawhead Press, Inc., Athens, Ohio, U.S.A. for Alpha Sigma Phi Fraternity. Fifty cents a copy. Life subscription, \$15.00. All remittances payable to Alpha Sigma Phi Fraternity, 24 West William St., Delaware, Ohio. Second-class postage paid at Athens, Ohio, and at additional mailing offices. POSTMASTER: Change of Address Form No. 3579 should be sent to 24 West William Street, Delaware, Ohio 43015

To The Editor!

Dear Brother Ralph:

I received the summer issue of the "Tomahawk" and am quite intrigued by the cover since it features the Serenity Prayer and apparently gives credit for its composition to Brother Reinhold Niebuhr. Every other reference to this prayer I have ever seen has indicated that its authorship was unknown.

I would greatly appreciate substantiation of authorship if this is what is indicated and also the basis for such information.

> Victor A. Cranston —Wagner

Dear Ralph:

I have been meaning to write you for some time, but have just been so busy with work that I have not gotten to it. I thought the TOMAHAWK's eulogy of Reinhold Niebuhr was most impressive. If I look as much better in my eulogy when I die as he did in his, I will undoubtedly go to heaven and replace God himself!

At any rate, I was much surprised to learn that Reinhold was a fraternity brother of mine, and I thought you would be sincerely interested in some additional facts about his career from the BIOGRAPHICAL DICTIONARY OF THE LEFT, Volume I, by Dr. Francis Gannon, published by Western X. Islands, Belmont, Massachusetts, 02178. To fully appreciate the significance of the things said about Mr. Niebuhr, you should obtain the "Dictionary" and read the introductory material on the organizations of the left in its first 200 pages. Also, you might find biographical material for other brothers. The parentheses carrying quotationed descriptions of various organizations are taken from various official government reports. This book is available from the publisher for \$2.00.

> Joe Mehrten Sacramento State

Dear Ralph:

This is just a short note to again thank you for the great experience of our fraternity educational conference. I not only had a good time, but I learned quite a bit. Keep up the good work.

Also, thanks for the commemorative seal! It's my new, memory-laden paperweight.

> Rev. Richard Byrne The Paulist Fathers Stanford

Dear Mr. Burns:

The prayer about which you inquired is one my husband wrote and used at the country church in a little hill village in Western Massachusetts, about fifty miles from here. It was many years ago, in the early days of the Second World War, probably in 1943.

His good friend and neighbor, the late Harold Chandler Robbins, who used to be Dean of the Cathedral of St. John the Divine, asked him for the prayer to print in the publication of the Worship Commission of the then Federal Council of Churches. Later, the USO — or some such organization — copied the prayer on cards and distributed them by the thousands. It was then that it was much used by commanding officers, and as a result, was often attributed to Admiral so and so, or General somebody else.

It was adopted later on by Alcoholics Anonymous, and although some of the people in the organization who get out the magazines, knew of my husband's authorship, it was used generally without such ascription. However, occasionally, their journal has repeated the story of its origin because there had been so many inquiries about it.

Yours sincerely,

Mrs. Reinhold Niebuhr P.S. Incidentally, the prayer often has been used and reprinted not in the original form my husband wrote, so I have added below a more or less correct version:

"God, give us grace to accept with serenity the things that cannot be changed, courage to change the things that should be changed, and the wisdom to distinguish the one from the other."

Dear Mr. Burns:

Thank you very much for your letter and for your interest in the background of the Serenity Prayer. Our international monthly magazine published an article on the historical background of that prayer several years ago.

Whereas the authorship is generally attributed to Reinhold Niebuhr, I believe the *Grapevine* found additional information. In any case, the accounts that I read right after Dr. Niebuhr's death, I don't believe that he wrote it for a doctor friend. He simply wrote the prayer for a church service, and many people asked for copies of it afterward.

Sincerely yours, Cora Louise Belford General Service Staff Alcoholics Anonymous, Inc.

Our President-A President

April 8, 1972 our Grand Senior President, Dr. Robert E. Miller, was inaugurated as the first president of Quinebaug Valley Community College, Danielson, Connecticut.

Brother Miller began his career in education with his Alma Mater, the University of Connecticut, as Administrative Assistant for Men's Affairs and Foreign Student Advisor.

Dr. Miller joined the Community College System in 1969, and served as Associate Academic Officer of the Connecticut Community College System where he was responsible for program planning and evaluation of the community colleges in the State.

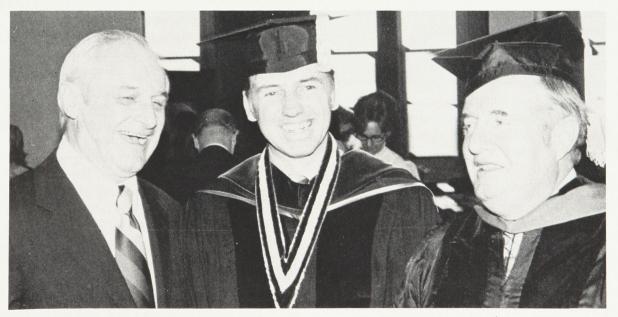

From January to June, 1971, Dr. Miller had been Dean and Acting President of South Central Community College in New Haven.

Brother Miller in his Inaugural Address stated:

"Society has looked to education for solutions to its problems, only to find educators and their institutions reacting to change in much the same way that molecules in gases react to heat. It is a time of confusion and of deep disagreement as to directions of change within education. It is a time of disappointment on the part of many who have depended upon education to lead them away from deprivation, drudgery, and despair. It is a time when traditionalism is vilified by some and when innovation and experimentation are deplored by others. And yet, we know that as educators we must continually seek improvements in the ways in which we teach. We must develop a deeper understanding of how people learn. We must find the ways and the means to reach, through education, those who have been overlooked, shunted aside, or turned off by the elitists, traditionalists, or those who are simply incompetent as teachers and counselors. We must develop a keen sense of what should be taught at this point in time and for the years ahead."

Dr. Sidney P. Marland, Jr., U. S. Education Commissioner, in his address at the inauguration remarked: "I believe that Robert Miller will be an inventor as well as a practical man, and that he will not always wait until the evidence is in before he decides what to do. Men like Robert Miller, over the years, will hammer out an increasing definition of what education for all the people is and what it should be."

Also present at the inauguration was Lt. Governor, and Fraternity Brother, T. Clark Hull (Yale '40) who invested Dr. Miller with the mantle of his office as President of Quinebaug Valley Community College.

L. to R.—Executive Secretary Burns, Ohio Wesleyan '32; Grand Senior President Miller, Connecticut '49; and the Honorable T. Clark Hull, Yale '40. Picture was taken by Adriaan R. J. Herklots, Editor and Publisher of Windham County Transcript, Danielson, Connecticut, father of Brother A. Richard Herklots, Tulane '69.

It's Finally Ours!

Above left, Joseph Creazzo, H.S.P. of Alpha Tau Chapter welcomes Brothers, wives and sweethearts. Above right, L. to R.: John Lidstrom, one of the moving forces in the purchase of the house in 1960; John DePaola, President of the Alumni Association; Joseph Creazzo, H.S.P. and Joseph Malik, Treasurer of the Alumni Association.

A Long-Awaited Fire At Stevens

April 15, 1972 was a "red letter" day for Alpha Tau Chapter, Stevens Institute of Technology. "Red Letter" in a literal sense as it was the occasion of the Chapter House mortgage-burning dinner dance. Over 150 Brothers, wives and sweethearts enjoyed a full day of festivities. Province Chief and Mrs. George Dinsmore, Lehigh '59, and Executive Secretary Burns represented the Province and the Grand Council.

From the printed program we quote: "In 1960, the Alpha Tau Chapter House was purchased through the efforts of the Brotherhood, and in particular, Joe Giovanolli and John Lidstrom. The venture was financed by Stevens, our National Office, and the Hudson Trust Company.

The building was originally a four-family apartment house and certain renovations necessary to fraternity life were made. These included a party room, a centralized kitchen (financed by our National Office), a Chapter room, and additional living facilities.

More recently, Bob Mahan, our Grand Chapter Adviser, has been busy holding the aging house together. Corroded plumbing, a leaky roof, a temperamental boiler and various other problems have kept Bob and the Brotherhood on the go.

Although the physical framework of the house is weak, the spirit of our Brotherhood is as strong as ever."

The "National Office" referred to above is you, the Fraternity undergraduates and alumni who have given and invested monies in the A-S-P Corporation (the national housing corporation) and the Reserve Fund to assist chapters and alumni housing corporations.

For twelve years there was a lot of work and sacrifice on the part of many. From "The Red and Gray," the alumni association newsletter of November 18, 1965, we quote in part:

"Communications are the lifeline of our Alumni Association. Our stated purpose is 'to aid and advise the Active Chapter.' This purpose can be attained only by active and informed alumni. In order that you may be kept abreast of the progress of Alpha Sigma Phi, the Alumni Association will publish an 'Alumni Association Newsletter.' Wes McCullough '65, Secretary of the Association, will be editor.

Financial Report: Presently the Alumni Association has three major notes outstanding. The mortgages of Stevens Institute and Hudston Trust will be paid up by the beginning of 1972. The loan from the National Fraternity will be paid up by the beginning of 1967. Seeing that the notes were taken late in 1961, the notes have been paid up during the past four years. Since the mortgages comprise 90% of our initial debt, the payments will continue for another six years. In addition, money for principal and interest for the Alpha Sigma Phi debenture bonds currently held by our Alumni is being set aside so that they can be paid in full in 1972."

"CAUSA LATET VIS EST NOTISSIMA" "The Cause Is Hidden; The Results Well Known"

Brother Bill Hutchinson— At Bat Against Cancer

THE BIG NEWS had broken a few days earlier. The Fred Hutchinson Cancer Research Center had received a \$5 million construction grant through the Regional Medical Program.

It means that Seattle will be a major cancer-research center, the best in the West.

"Yes, we're pleased," said Dr. William Hutchinson, Mu '28, who will be director of the center. "A lot of people worked very hard."

Dr. Hutchinson sat in his little office in the Pacific Northwest Research Foundation, 1102 Columbia St.

Behind him was an oil painting of a baseball player, "Rainiers" emblazoned across the front of his uniform.

One didn't need to be Sherlock Holmes to detect a relationship between the graying, broad-shouldered surgeon and the tall, husky ball player.

The big guy in the painting was "Dr. Bill's" brother, Fred Hutchinson.

THE BALL PLAYER called "Hutch" and latter "The Big Bear" by broadcasters was the biggest authentic sports hero ever produced in these parts. He came out of Franklin High School, the pride of Garlic Gulch, to pitch his way into the hearts of all Seattleites.

That memorable summer night — August 12, 1938 — when he hurled his 19th victory on his 19th birthday in Sicks' Stadium. His solid big-league pitching for Detroit. His service as player representative. His managerial career, with Detroit, St. Louis, Seattle and Cincinnati, the latter going to the World Series in 1961. Never mind that Cincy lost to the New York Yankees, when the Yankees were still the Yankees.

It's all in the record books.

Hutch died of cancer in 1964. He was 45. The man who treated him was his brother, "Dr. Bill."

"I've never been a cancer researcher per se," Dr. Hutchinson said. "But I've operated on many persons with cancer. To see these poor devils die year after year, while you do your best — and it isn't good enough makes you vitally aware of what a monstrous thing cancer is."

DR. HUTCHINSON infuses cancer statistics with the emotion born of personal knowledge.

Cancer is the No. 1 health concern of the American people.

Of the 200 million persons in this country, one fourth will contract cancer at some time if present rates hold true. One fifth of the population will die of cancer.

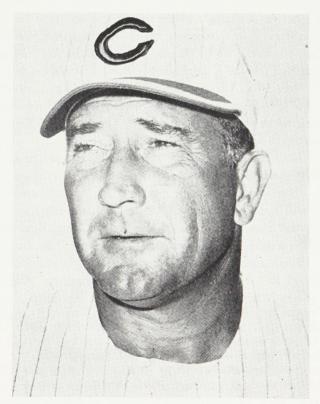

Cancer is the No. 1 killer of youngsters below age 15.

No single "magic bullet" is going to cure all forms of cancer.

Research expenditures to date have been penny ante — 89 cents per capita in 1969, compared with \$410 on national defense, \$125 on the Vietnam war, \$19 on the space program, \$19 on foreign aid.

Still, the cure rates go up — from about one in five cases 40 years ago to one in three today.

DR. HUTCHINSON was no mean baseball player himself. He was a brilliant third baseman at Franklin High, before brother Fred came on the scene, and a star at the University of Washington in the days when the Husky coach, Tubby Graves, played an annual billiards game in Pullman with Buck Bailey, coach of the Washington State University Cougars.

BROTHER FRED HUTCHINSON Washington '31

"It was a laugh a minute," Dr. Hutchinson said. "I remember one time in Pullman when I hit a screaming, rising line drive six feet over the centerfielder's head to break up a game in the late innings. Buck yelled to his centerfielder in disgust, 'I could have caught it in the web of my glove standing on my head.' The stands exploded with laughter. Tubby was convulsed, rolling on the ground."

Dr. Hutchinson's big bat and strong arm enabled him to play one season for the old San Francisco Missions in the Pacific Coast League before going on to medical school. His dream was to be a surgeon, like his father, Dr. Joseph Hutchinson.

"When I boxed in school I was always afraid of breaking my hands and wrecking my surgical career," he said.

THE FRED HUTCHINSON Cancer Research Center was born a few months after Hutch died. There were many private gifts, including one for \$250,000. Organizations like The Washington Teamsters Union and The Variety Club embarked on long-range fundraising campaigns. The Fred Hutchinson pro-am golf tournament was spawned.

Big-league baseball, seldom given to much sentiment, instituted the Hutch Award, for the ball player who best typified the competitive desire and spirit of the late manager.

The center grew out of the Pacific Northwest Research Foundation, founded here in 1956 by physicians and surgeons, including Dr. Hutchinson, to do research into heart, cancer and metabolic diseases.

Two things — President Nixon's declared "war" on cancer and the tireless efforts of Senator Warren G. Magnuson — brought about the \$5 million grant for the three-story research center that will rise near Swedish Hospital. Some \$500,000 must be raised locally to complete the job. It is unthinkable that it won't be.

When the bricks and mortar are in place, hopefully by 1974, the highly skilled research teams will move in. Their work will be supported by the National Cancer Institute.

DR. HUTCHINSON will keep his private practice while serving as director.

"We want it to be a model," Dr. Hutchinson said. "It will not be a treatment center, not like the Swedish Hospital Tumor Institute or the Mayo Clinic. But there will be a bed unit for patients under specific study."

The center will be so designed that it can be expanded to 10 floors. It will serve Washington, Alaska, Western Montana, Idaho and Oregon. An initial staff of 120 will grow to 150 when the center is fully operative.

Research will fall into three broad categories:

Basic — immunology, molecular biology, microbiology, virology, carcinogenesis, experimental surgery.

Clinical — medical onocology, radiation biology, cryobiology and molecular biology.

Statistical — epidemiology, bio-statistics and an automated tumor registry.

"We want to study the native populations of this area and see what types of cancers occur here most frequently and why," Dr. Hutchinson said. "We want to know what ethnic backgrounds are most susceptible to certain cancers and why."

DR. HUTCHINSON emphasized that whatever the research center does will be a part of a massive cooperative effort with Virginia Mason Clinic, the University of Washington, Swedish Hospital Tumor Institute, Children's Orthopedic Hospital, the University of Oregon and other hospitals with research-oriented facilities.

Cancer research is too big, too important to be hogged by anyone.

"We bought some time for Fred," Dr. Hutchinson said, looking up at the painting. "That's the best we could do."

Fred Hutchinson:

The name is still synonymous with success. May the center that bears the name help strike out the disease of cancer. (This article originally appeared in the *Seattle Times*)

Editor's Note: ... a great project for a great Alpha Sig! This brings to mind suggestions made by a number of chapters—that Alpha Sigma Phi adopt a national project. This subject will be discussed at the National Convention in Ann Arbor this August.

Cancer claims the lives of many and just today, word was received in the Fraternity Office of the death from cancer of a young Brother, Paul Garofalo, Tulane '67. Do we wish to adopt the above Fred Hutchinson Cancer Research Center as a national project? One Brother, associated with a major philanthropic foundation, lists a number of health causes —heart, crippled children and adults, multiple schlerosis, the Kidney Foundation and some dozen others—all of which might benefit from the efforts of our Chapters.

Many Chapters give leadership to a project of their own choice. May I have your comments or ideas on the adoption of a specific project by your Fraternity.

1971 Honor Roll

The Brothers listed on these pages realize that our Fraternity's ideals transpire the erosion of time. It is the interest and devotion of such men as these that has preserved the name of Alpha Sigma Phi for 127 years.

"To think that all of our college labor in the arduous task of founding a Society has not proved vain, but on the contrary, that Alpha Sigma Phi Fraternity still stands with her glorious and mystical insignia untarnished. I pray God she may yet survive to transmit to future generations her reknown." —Louis Manigualt in a letter to Horace Spangler Weiser, 1849

"It is difficult for many of us as undergraduates to realize that next year or the year after, we too may be alumni. We'll be alumni for 40, 50, or 60 years as compared with the short sojourn through academic halls and through the privileges of undergraduate membership in our Fraternity.

Our purposes are too vital, our teachings are too necessary and our friendships are too firmly cemented to have the influence of membership in our Fraternity terminate with our graduation. Instead it is merely the commencement of a broader and more understanding opportunity of service to each other and to the fraternity world and to society as a whole. —Lloyd S. Cochran in an address to the 1952 Convention

NORTH CAROLINA STATE J.H. Lindstrom, Jr.

"In doing so we must tap our greatest resource, the college graduates who wear the fraternity badge. This is where we have failed miserably. We have projected an im-age of fraternities as being solely an under-graduate activity. It is not. Once a fraterni-ty man, always a fraternity man." —Hon. Tom C. Clark (DTD) in an address

before national representatives of the fraternity system, 1964

"Two years ago! Such a little time and yet how different! The things which seemed so all-important, so utterly worth while then seem insignificant now. Just, we suppose, as two years hence the things which now dominate must give way to bigger things. We hope so, for that is a sign of healthy progress. And progress is a law of nature. And what a sorry thing is life to him who does not progress.

When this is read the class of 1914 will be only a memory on the campuses of the country. Their members will have put aside their caps and gowns and sheepskins to meet life face to face; to give and take; to learn in the universal school of experience, where education is cheap at any price. To the sons of the Old Gal who are

To the sons of the Old Gal who are thus starting out we want to say just a word. Have faith in yourself.

-Editorial in the Tomahawk of 1914

"I almost hope you will be shocked when I tell you that the first time I heard the expression 'The Old Gal' was forty-one years ago, in October of 1872. I like those words... Such terms are the spontaneous language of the heart, and as such 'The Old Gal' expresses the affectionate attitude of every Sig toward his fraternity."

"We pledge anew our loyalty to the purposes and principles of our fraternity. The Pinnacle of Fame takes on new meaning to us as year by year our brothers advance to new heights of daring and achievement. We invite you to share with us in the glorious adventure of bringing an organization such as this into the lives of future generations of college men who will be known to us and loved by us as Brothers of Alpha Sigma Phi.

Gary Gunderman and Dave Remy Ohio Northern University

Gamma Alpha chapter has had a long and glorious history at Ohio Northern University. Throughout most of that history, Brother Von Spellman has played an active and important part. For his long and devoted service and to mark his retirement as Grand Chapter Advisor, a banquet was held in his honor March 5, 1972. To better understand the service Von has given to the Brotherhood, it is necessary to know the chapter's history.

In 1903, Dr. Thomas J. Smull founded the first chapter of a national fraternity, Theta Nu Epsilon, at Ohio Northern University. When it first came to

H.S.P. Martin Young presenting Brother Von Spellman commemorative plaque.

campus Theta Nu Epsilon, nationally, was a very loosely yet highly spirited organization. Attempting to stabilize their national identity, the "informal" fraternity reorganized and incorporated in New York in 1907. During the same period the fraternity was having national trouble, the new president of ONU, Albert Smith, banned all Greek societies calling them "detrimental to the welfare of the school." Despite president Smith's ban, fraternal life continued to flourish throughout the 25 years he served as president. Under the leadership of charter member, and faculty adviser, Dr. Smull, the Omicron Omicron chapter became a strong leader in campus activities in the course of, and beyond, president Smith's tenure.

The '20's and '30's were prosperous years for Ohio Northern as the campus reached its greatest total enrollment. In 1925-1926 Theta Nu Epsilon attempted to completely revise itself into a general fraternity for the purpose of exclusive membership. While successful for a time, the task proved too great an undertaking and all the charters were withdrawn, lapsed or outlawed on different campuses. However, due to the prosperity and tradition of good Greek life at ONU, the Omicron Omicron chapter held on and was the last TNE chapter to fold.

Realizing the weakness of not being affiliated with a national fraternity, the active Brothers applied for membership to Alpha Kappa Pi national fraternity. On January 17, 1942 the Omicron Omicron chapter became the Alpha Lambda chapter of AKPi. Decimated by the Second World War, Alpha Kappa Pi was short lived at ONU and on September 6, 1946 AKPi merged nationally with Alpha Sigma Phi. After the war the chapter was reactivated under its new name of Gamma Alpha of Alpha Sigma Phi. Our chapter has continued to carry on the Brotherhood and traditions of our Theta Nu Epsilon Brothers while adhering to expounding the principles of Alpha Sigma Phi.

This enduring loyalty to the traditions and principles of three national fraternities became evident in 1968 when under the leadership of our alumni, the Brotherhood moved out of our old house, which the chapter had occupied for 35 years, and into a new house on fraternity circle.

Our alumni constitute an unusual and very unique organization. Recognizing the possible inability of TNE and AKPi alumni to associate with an active chapter at ONU, it became apparent that an alumni association needed to be formed. Therefore, in order to reorganize and better establish the active chapter and its alumni, Marvin English, Thomas J. Smull and Harry J. Sousley incorporated the Triangular Alumni Association of ONU under the laws of Ohio on September 6, 1952. Composed of alumni from our three affiliations, this association is a good example of the intense fraternal spirit which has carried on through this chapter for nearly 70 years. While the organization has only existed since Alpha Sigma Phi has been on campus, its most important officers have been older alumni who were TNE's.

An individual example of the intense spirit embodied in the association can be seen in one of our alumni, Von Spellman, who began his affiliation with the fraternity when he was initiated into Theta Nu Epsilon in 1919. An active member of the campus, Von lettered in three sports each year he was at ONU as well as being coach of freshman athletics in 1923. Upon graduating with a law degree in 1924, Spellman coached high school athletics and played on several semi-professional athletic teams. Later he became a public servant in city and county government until he retired as Ada's postmaster in 1960.

Brother Spellman has played a part in the Triangular Alumni Association since its inception. He was most active as the association's treasurer prior to the building of the new house. In addition to being a very active member of the alumni association, Von became our Grand Chapter Advisor in 1957 and served in that capacity until this year. For his already long and faithful service to the brotherhood, he received this

L. to R.: Brothers James Stahl, Grand Chapter Adviser, and Delta Beta Xi recipient; George E. Lord, Grand Marshal, and Delta Beta Xi recipient; Von Spellman; Alfred B. Wise, Grand Councilor; and Martin Young, HSP Gamma Alpha Chapter.

chapter's second Delta Beta Xi Award in 1963. Equally active in local affairs, the citizens of Ada honored his service to the community by naming him Ada's Distinguished Citizen in 1965. In 1969 the university further recognized his contribution to the school by inducting him into ONU's Hall of Fame.

At the age of 77, upon his request, Von Spellman relinquished his office as Grand Chapter Advisor. In order to honor one of our brothers who has exemplified the ideals of a good fraternity man, the chapter and alumni held a testimonial banquet for him in McIntosh Center on the ONU campus. During the dinner, Von's devotion and service to the chapter were attested to by two fellow Brothers who described his early life as an active member and his more recent work through the alumni association.

Attended by university president Samuel L. Meyer, national executive secretary Ralph F. Burns, Grand Councillor Alfred Wise and Grand Marshall George E. Lord, the banquet also afforded the opportunity to recognize the services of two other brothers. In the past year, Gamma Alpha made two applications for Delta Xi Awards. Acted upon favorably by the Grand Council in January, the brotherhood decided to use the banquet as an occasion to present them to Brother George Lord, a member of the Grand Council and former Grand Province Chief; and James Oran Stahl, who became the new Grand Chapter Advisor.

At the end of the dinner, a large plaque testifying to his devotion to the chapter was given to Brother Spellman by the active Brothers. Thus, culminated a long and colorful period of active service to the chapter and fraternity by a man whose lasting devotion will hopefully further Gamma Alpha's belief in our open motto, "Causa Latet Vis Est Notissima". The cause is hidden, the results well-known".

Recommend a Rushee

To assist the undergraduate chapters, the Fraternity Office is serving as a clearing house for recommendations from you. If you know of a young man about to enter college won't you please take time to fill out the form and send it to: Alpha Sigma Phi, 24 West William Street, Delaware, Ohio 43015.

Name :	
Home address:	
College:	
Remarks:	

Dear Brother Burns:

- Q. Who sets the cost of pledge and initiation fees?
- A. Undergraduate delegates at the biennial convention.
- **Q.** How many executive secretaries have we had and how many are still living?
- A. Seven, including myself. The only former secretary still living is A. Vernon Bowen, Marietta '24 of Old Greenwich, Connecticut whose son, Brother Patrick H. Bowen, Marietta '59, is Chairman of the National Committee on Awards.
- **Q.** What is the position of the undergraduate advisers to the Grand Council?
- The position of "Undergraduate Adviser to the A. Grand Council" was authorized by the 1970 Convention. Three advisers and an alternate are elected for a one-year term. In the odd year between conventions, the undergraduate advisers are elected to serve for one year by the delegates in attendance at the Educational Conference. They attend meetings of the Grand Council and receive all communications from the Fraternity going to the Grand Council. They serve as advisers and do not have a vote in the Grand Council. The undergraduate advisers' function is to inform and to keep the Grand Council abreast of problems facing undergraduate chapters on the ever-changing campus scene and to recommend assistance and solutions to these problems.
- **Q.** Which chapter has the largest number of undergraduate Brothers?
- A. Illinois with 86 Brothers, followed by Indiana and Baldwin Wallace.
- **Q.** Who elects the Grand Council, and do they receive any remuneration?
- **A.** The Grand Council is elected by the Convention and serve without remuneration.
- Q. What is the legislative body of the Fraternity?
- A. The National Convention, composed of undergraduate delegates representing various chapters throughout the country, and specified alumni. The Constitution provides that the undergraduate delegates have the majority vote at conventions.

- **Q.** When is the Fraternity Office open, and is it o.k. to visit it?
- A. The Fraternity Office is open five days a week, twelve months a year. Office hours: September through May, 8:30-5:30, closed for lunch 12:00-1:00; June-August, 8:00-4:00, closed for lunch 12-12:30. It is not only o.k. to visit but we welcome visitors who are going through central Ohio. Delaware is 7 miles west of Interstate 71, and 23 miles north of Columbus on U.S. 23.
- **Q.** How many are on the staff at the Fraternity Office?
- A. Three ladies, Field Representative Gary Forney and myself.
- Q. Can a non-delegate attend the Convention?
- A. All Brothers, undergraduate and alumni, are welcome to the Convention and have the privilege of the floor.

If you have any questions about the Fraternity or its operation, please submit them and we will attempt to give the answers in succeeding issues of *Tomahawk*. DIRECTORY
