

Winter 1992

Refining the Fraternity's mission of Brotherhood; Growth as a family; In Alpha, Sigma and Phi

In many ways, Alpha Sigma Phi is at a crossroads.

The pool of potential new members is dwindling. The composition of college populations is changing. American society is fragmented.

Yet undergraduate chapters are increasing in size and number. More alumni are participating in the Fraternity at a variety of levels. And for the first time in the history of Alpha Sigma Phi, Alpha Kappa Pi or Phi Pi Phi, we enjoy a sizable endowment that makes planning the future direction of our brotherhood do-able, not wishful thinking.

Since taking office at the National Convention in August, 1990, Grand Senior President **Charles J. Vohs, Penn State '75** has steered Alpha Sigma Phi on a course designed to bring Alpha Sigma Phi back to its roots and create a new legacy for our future.

A strategic planning conference in January, 1991, brought together undergraduates, alumni, Grand Council members, Fraternity staff and Educational Foundation board members for a critical examination of the state of Alpha Sigma Phi, its mission in today's society, and its ability to meet members' needs in the future.

"For the first time in our history—because of the generous gift of **Howard L. Kleinoeder**,

Washington '35, Omega '90—the Fraternity's income outstrips our level of service," Vohs says. "This has given us an opportunity to look at the mission of the Fraternity and determine the needs of our members and set priorities."

Seven key areas were identified as needing close examination and ad hoc committees were formed to study how each relates to the general mission of Alpha Sigma Phi. The committees included: Scholarship; Provinces and Volunteers; Service; Expansion; National Alumni Programs; Sesquicentennial Anniversary; and, Housing.

For almost 10 months, some fifty alumni and undergraduate members participated in forming recommendations from each committee. Final reports were presented this past August.

"We carefully explored our credo 'To Better The Man' and what relevance it has today," GSP Vohs explains. "Several dynamics have impact on what we are trying to accomplish. The ad hoc committees were charged with examining how external pressures such as campus environment and social changes affect our mission; and how internal issues like the diverse nature of our undergraduate membership and alumni needs influence our mission. Our goal was to recommend how Alpha Sigma Phi can best respond."

There is little doubt that college and university life is rapidly changing. More minority students—traditionally non-fraternity members—are enrolling; freshman classes are shrinking; community colleges are becoming more popular for the first two years; and, student populations are gradually aging.

But there are even greater dynamics that GSP Vohs and committee members recognized as having tremendous impact on the role that Alpha Sigma Phi can play in the future.

More than 40% of today's undergraduates come from families that have experienced marital divorce or separation. Studies have shown that entering freshmen frequently have little meaningful adult interaction that takes place before arriving on campus. Much of their social values and judgment are being formed by observing their peers.

Vohs sees this as an opportunity for Alpha Sigma Phi to return to its base roots and deal with the whole man.

"We're like any other fraternity in that we have social and responsible behavior policies in place," he says. "We all know why problems exist. But we can't just develop policies and try to enforce

(please turn to page 2)

Refining Alpha Sig Brotherhood: We are family

(continued from page 1)

them like a police force. That's not what Fraternity is about.

"Alpha Sigma Phi is a family. And we can offer a lot more to our brothers in terms of personal growth, values, morals, ethics and standards. Our diverse membership gives us the opportunity to encourage open debate and discussion about different backgrounds and lifestyles. And, at the same time, create an environment—particularly for undergraduates—that fosters a code by which to live.

"Our greatest charge as a fraternity is to help form people into dedicated, productive members of society. People who are not afraid of commitment and who have the confidence to successfully interact with other people at all levels of society."

In short, Alpha Sigma Phi is moving back to the basics of Fraternity membership. And forward to a point where diversity and differences are accepted and the human needs of individual members are met.

National Advisory Committees have been formed from the seven ad hoc committees that took part in the strategic planning process for the Fraternity and are now charged with development of policies and programming that will guide Alpha Sigma Phi to its refined mission.

"We can really give an undergraduate member a well-rounded experience so that when he leaves school," Vohs says, "he will have a strong

sense of self and a firm foundation upon which to build a successful adult life."

But the key to accomplish this goal of character development and atmosphere of lifelong family is the intensive, extensive involvement of alumni. Alumni at all levels; with all interests. Alumni who can expose undergraduate members to different ideas and perceptions and guide them to understand how to deal in the real world.

Alpha Sigma Phi's successful future depends on alumni becoming involved at the chapter, province and national levels.

And with each other.

"If we are truly a brotherhood for life," GSP Vohs says, "then we need to be tuned into the concerns and needs of our alumni members as well."

By mid-1992, the Fraternity's professional staff will expand to include a Director of Alumni Services. And more opportunities for alumni participation and networking will be created.

And while funding the mission of Alpha Sigma Phi will continue to be a priority, alumni participation is being sought not only for dollars but for ideas, and interests, and time.

"Alpha Sigma Phi is taking a pro-active leadership role in the area of character

formation," Vohs says. "We already have a good reputation as being a socially responsible organization that provides positive leadership to our undergraduate members. But together as a family—undergraduates and alumni alike—we have a lot of strength to draw upon. We can confront our weaknesses and respond to them in a responsible manner—while capitalizing on our strengths. Our alumni can play the most important role in accomplishing that."

The Grand Council is working hard to ensure that planning and implementing the goals of Alpha Sigma Phi's future is a process of inclusion with every member's input welcomed.

"We're a strong organization," GSP Vohs says. "Our growth will continue. This planning process—and involving our members in implementation—will ensure that we'll continue to grow at rate unprecedented in our history."

Growth as a family. In Alpha, Sigma and Phi. □

N.C. State '76

(Editor's Note: Brother Hoffman is a frequent contributing reporter for The Tomahawk. He is Marketing Writer and Consultant for Hoffman Marketing Communications in Jacksonville, FL.)

National advisory committees established; Develop five year strategic plans

Seven National Advisory Committees were formed as result of a year-long strategic planning process for Alpha Sigma Phi. Each is charged with developing policy and programs that help create an atmosphere of personal development and interaction among undergraduate and alumni members. The committees are in the process of formalizing five-year plans for their issue areas.

Here's a brief synopsis of each:

Scholarship—Alpha Sigma Phi has long maintained its commitment to academic achievement. This role is being expanded with provision for faculty and community scholarships to brothers and encouragement of increased attendance at national and province meetings. An additional \$1 million in endowment to fund these efforts is planned.

Provinces and Volunteers—The old province system has served Alpha Sigma Phi for years, but there is a need to revise its structure to create more direct chapter integration, better management capabilities of the system, and programming aimed at the personal growth and development of undergraduate brothers.

Service—With recognition of the fraternity's role in the greater community, there is consideration to adopt a national philanthropy and encourage direct involvement by undergraduate chapters. A national position statement is being developed.

Expansion—Growth goals and a formalized growth management process are important to the fraternity's health. This committee will review expansion plans and policies and develop new ways to market Alpha Sigma Phi. Of particular interest is maintaining a Chapter Leadership Consultant ratio of one for every 20 undergraduate groups.

National Alumni Programs—Alumni involvement is key to many of Alpha Sigma Phi's goals. Expanded involvement is planned through better programming and recognition. The Grand Council recommended that the Educational Foundation fund a position of Director of Alumni Services. The position will be activated July 1, 1992.

Housing—Housing resource manuals and development of a national housing steering committee are goals of this committee. The committee has recommended hiring a staff member to direct housing efforts and to work more closely with the National Interfraternity Conference to develop a collective approach to housing.

Sesquicentennial Anniversary—Alpha Sigma Phi is 150 years old in 1995. Official commemoration and a history of Alpha Sigma Phi are planned. □

THE TOMAHAWK

An Educational Journal

Vol. 90, No. 2

Winter 1992

Member, College Fraternity Editors Association

The **Tomahawk** is the oldest college fraternity publication. It first appeared in November 1847 at Yale College and continued until the college suspended it in 1852. Since its revival in April 1909, it has been continuously published.

The **Tomahawk** is published quarterly by the Citizen's Publishing & Printing Company, Ellwood City, PA U.S.A. for Alpha Sigma Phi Fraternity. One dollar a copy. Seven-year subscriptions \$30.00. All remittances should be made payable to Alpha Sigma Phi Fraternity, P.O. Box 838, Delaware, Ohio 43015 (614) 363-1911. Second class postage pending at Delaware, OH, and at additional mailing offices. Produced by Maury Boyd & Associates, Inc., Indianapolis, Indiana.

Postmaster: Change of address form No. 3579 should be sent to Alpha Sigma Phi, P.O. Box 838, Delaware, Ohio 43015-0838.

Spisak heads committee on alumni programs

Mention Alpha Sigma Phi to the majority of our 45,000 alumni and they're more than likely to recall only a few good times while in college, *The Tomahawk* and an occasional solicitation for money.

Stuart A. Spisak, Westminster '78 wants to change all that.

"Far too many alumni do not participate in Fraternity activities—or feel there is no place for their involvement," he says. "It's time that we create an environment that encourages what we all pledged to be—brothers for life."

Spisak has been named by the Grand Council as chairman of Alpha Sigma Phi's permanent National Committee on Alumni Programs. And it's a committee that is charged with mapping out an aggressive program for alumni development and involvement during the next five years.

"Our primary goal is to provide substantial reason for alumni to become involved in the Fraternity. Not only to assist with the growth and development of undergraduate chapters, but to interact with each other and individually benefit from continued involvement," Spisak says.

That's no small challenge. And it hasn't been approached lightly.

The National Committee on Alumni Programs is an outgrowth of the ad hoc committee on alumni formed in the September, 1990 long-range strategic planning retreat held by Alpha Sigma Phi's Grand Council. Permanent status was granted to the committee more than one year later after it identified increased alumni participation as vital to the continued health of the Fraternity.

Spisak points out that while the committee's goals appear fundamental, all aspects of alumni involvement were considered.

"We had to answer the question—what's in it for the Fraternity and what's in it for the alumni," he said. "Developing realistic goals wasn't easy. Our mission is to perpetuate the continued sense of belonging and personal fulfillment for brothers of Alpha Sigma Phi. I believe the key is personal fulfillment. That's what makes involvement worthwhile."

Three basic goals have carried from ad hoc committee to the permanent National Committee and guide development of the committee's objectives for the next five years. These goals are:

- *To instill in brothers a sense of lifelong belonging.

- *To establish and to promote opportunities for involvement in the Fraternity.

- *To strengthen communications within the brotherhood.

Spisak says his committee is already making a difference in shaping Alpha Sigma Phi's future.

"We believed that two issues needed to be addressed immediately," he says. "First, we recommended that a staff position be created with specific responsibility for alumni affairs. And second, that we begin developing active alumni while they are undergraduate members. Both are now underway."

The Grand Council has recommended hiring a Director of Alumni Services and anticipates filling the position by July 1, 1992.

An updated alumni section for *To Better The Man*, Alpha Sigma Phi's membership manual, and alumni certificates for graduating seniors are scheduled for completion during the coming months.

"Instilling in undergraduates the importance of lifelong commitment—and fulfillment—of Fraternity membership is one of the best ways to ensure that we produce active alumni in our future," Spisak says. "That's why we need to do a better job of educating our members early. Plus, it's important to give alumni status a special meaning. That's why we're recommending that graduation and other membership milestones be formally recognized."

Mention **Ralph F. Burns, Ohio Wesleyan '32**, to our 45,000 alumni and you'll likely hear "Mr. Alpha Sig!" Brother Burns is shown here addressing the Columbus, Ohio gathering for our 146th Anniversary Celebration of Founders' Day. Shown at left is Brother **William F. (Biff) Matthews, Marshall '65**, co-organizer of this event along with Brother **Mark A. Williams, Rio Grande '79**. Featured speaker for the event was Brother **Damon F. Asbury, Ohio State '61**, currently Superintendent of the Worthington, Ohio School System.

The Alumni Relations Committee's five-year goals include a time and talent survey of alumni members and a special brochure that identifies volunteer needs throughout the brotherhood.

Both initiatives are designed not only to help Alpha Sigma Phi better target interested alumni—but to detect what alumni desire from continued involvement.

And therein lies the biggest challenge, Spisak indicates.

"Alumni are the Fraternity's best resources," he says. "We need to create attractive programs that meet the needs of the membership and devise a way that matches a brother's interest or capabilities to a certain level of involvement."

Better alumni events planning, chapter involvement, alumni clubs, career networking and a speakers bureau are all part of the committee's aspiring programs. The intent of each is to engender and foster Alpha Sigma Phi's philosophy of lifelong brotherhood.

"Our Fraternity has always been one of inclusion—not exclusion. We want to develop programs in which all brothers can share," Spisak says. And by starting at the undergraduate level, we believe that the long-range health of the Fraternity will be strong—and vital to our membership."

Spisak doesn't see the committee ever disbanding. Instead he believes that it should grow in importance as Alpha Sigma Phi grows and support the efforts and goals of our Fraternity in our fragmented society.

"Bettering ourselves—and our Fraternity—doesn't end," he says. "There is no end in our efforts *To Better The Man*."

The National Committee on Alumni Programs welcomes all ideas and input from alumni and undergraduates on how to keep the Alpha Sigma Phi experience alive through life. Input can be sent in care of the committee to Fraternity Headquarters. □

L.G. Balfour: ΑΣΦ's official jeweler

You will find the official Alpha Sigma Phi jewelry by Balfour insert included in this issue of *The Tomahawk*. L.G. Balfour Company has been endorsed as official jewelers for ΑΣΦ for more than 75 years.

Balfour enjoys an outstanding reputation and is noted for their absolute guarantee and full lifetime warranty. You may rely on their quality and service.

In addition to the merchandise included on the insert, Balfour also is the manufacturer and supplier of the Alpha Sigma Phi Badge. Unlike other merchandise from Balfour, the Badge must be ordered directly through Fraternity Headquarters.

THE TOMAHAWK

From The Tommy Archives

From time to time *The Tomahawk* will take a look back at some of the interesting features done by previous editors. This is the first of that series.

February 1917

The administration of college president **Homer B. Sprague, Yale '53**, was featured. An inside article was on the installation of "daughter" Sigma Chapter at the University of Kentucky, an institution of 100 faculty members and "over 900 males." This was stated to be first time the Fraternity had crossed the "Mason and Dixon's line."

In the "Hellenica" section was advice to "Get some men that the chapter can help as well as some that can help the chapter" from *The Record*, Sigma Alpha Epsilon. "Why are upperclassmen overlooked? We have never yet been able to learn of any reasonable and satisfactory explanation of the actual fact that they are. Some chapters say it would violate custom and tradition. How silly such a custom or tradition is! There must be, and are all the time, men who are developing and growing in the course of their progress from one class to the next and who while in the lower class did not show up with qualities attractive to the fraternity chapter, yet later attain them all" from *The Scroll* of Phi Delta Theta.

Our editorial section commended the official organ of Epsilon Chapter, *The Epsilon News*. The editorial went on to state, "the advantages accruing from a well-conducted chapter organ are so obvious that it is to be hoped these publications will become more general in our fraternity." The new Sister Pin, stated to be a miniature of our enamel shield of the official badge was available for distribution.

The chapter wrap-up feature, entitled the Mystic Circle, listed numerous interesting facts from the chapters. These included standard meeting night and time and location for visiting brothers to assemble along with reports of past and future chapter activities. Interestingly, all 18 chapters of the fraternity, Alpha through Sigma, submitted lengthy reports for inclusion. As was custom, individual member alumni news was provided as well as reports of engagement and marriages. Also included was news from the Alumni Councils.

February 1942

The cover and feature story was a tribute to Brother **Philip G. Johnson, Washington '14**, a member of the Grand Council and President of Boeing Aircraft. On the frontispiece, was **Benjamin F. Young, Ohio Wesleyan '13**, new member of the Grand Council and one of three Tomahawk trustees. Announcement was made of

the ten Delta Beta Xi award winners—among these were **John M. Coffee, Washington '15**, a Congressman from Portland, **Maitland McKenzie, California '22**, and **W. A. Pittenger, Harvard '11**, also a member of Congress.

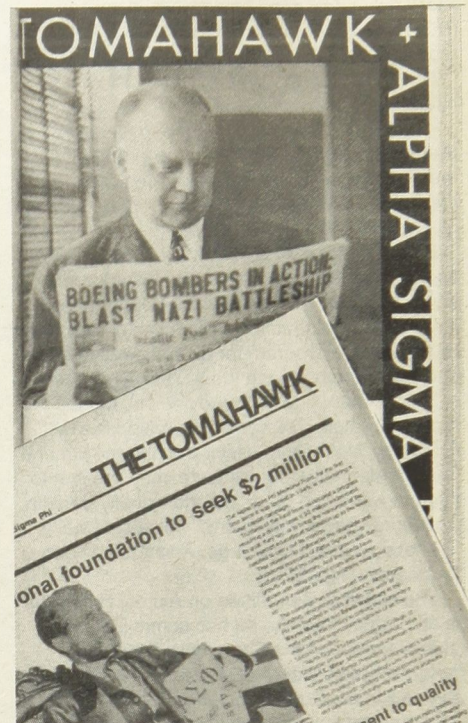

January 1967

Newly installed Grand Senior President **Raymond E. Glos, Illinois '22**, was featured on the cover celebrating the dedication of Alpha Pi Chapter's new chapter house at Purdue University. Gamma Phi Chapter at Eastern Michigan, a former chapter of Alpha Gamma Upsilon, was installed. The Alpha Gamma Upsilon Memorial Award was established to be awarded annually to the chapter having achieved the greatest degree of progress in the fields of chapter management, membership and service.

Brother **Arthur S. Flemming, Ohio Wesleyan '24**, former president of his alma mater, Secretary of Health, Education and Welfare, and President at the University of Oregon was featured as the incoming leader of the National Council on Churches.

The official Alpha Sigma Phi necktie was being offered for \$3.23, an Alpha Sig rocker chair with arms for \$28.00 and the official gold filled Badge for \$8.75. It was noted that you can now design and build a new 50 man fraternity chapter house for approximately \$250,000.

Winter 1982

The special edition banner headline reported that the first major capital campaign since the Memorial Fund was founded in 1946 was announced as the "Third Founding." The goals were: to strengthen the chapter leadership consultant program, expand the national educational conference, improve regional leadership workshops, create leadership director position, endow opportunities to learn and teach and increase scholar support.

The Northern Michigan chapter hosted Brother **Vincent Price, Yale '30**, who performed on the campus.

The quiz department requested the names of the three Alpha Sig chapters who were once part of another fraternity, other than those merged with Alpha Sigma Phi.

Alpha Theta Chapter at Missouri was set to move into "the Castle."

Delta Beta Xi award winners included **James I. Reid, Missouri '36**; **Robert W. Kutz, California '67**; and **James R. Hammond, Washington '66**.

Two chapters were added to the fraternity's rolls with the addition of Alpha Rho, New Jersey Institute of Technology, and Nu, University of California-Berkeley, rejoining the Old Gal, after periods of darkness.

Our heroes!!! ΑΣΦ Volunteers!!!

The true heroes of Alpha Sigma Phi are the men who volunteer their time away from home and family to serve the Fraternity. Our strength today is a tribute to volunteerism, our strength tomorrow depends on it! The winter issue of *The Tomahawk* will carry the "Volunteer Census" of Alpha Sigma Phi on an annual basis. If you are not listed, and should be, let us know! If you are not listed, and want to be, see top of Page 9!

Charlotte, NC is site of '92 Leadership Conference and Convention

Consider these remarks from the evaluations of the 1991 National Leadership Conference at Penn State University:

"Fantastic!"

"The whole conference showed why Alpha Sig is #1"

"I had a great time and came away with a great feeling."

"I have never had such an impact on my life. I love Alpha Sigma Phi. Thank you for starting the fire. It will never die."

"See you next year!"

"Grrrreat!!!"

"This has been an experience. I could never have imagined how great it's been. I love Alpha Sigma Phi and can't wait to share what I've learned with the rest of my chapter."

It's comments like these year after year that prove that Alpha Sigma Phi has one of the premier annual conferences for undergraduates and alumni. The conference consistently provides top-notch educational speakers, presenters, and workshop facilitators, most of whom are Alpha Sigs!! The conference also provides the setting for undergraduates and alumni to come from all parts of the nation to meet, talk, and form new friendships. Many brothers reported that they have made some of their best friends through the National Leadership Conference & Convention experience.

For all these reasons and many more, we hope that you will not miss out on what these brothers experienced last year at Penn State. Plan now to attend this year's NATIONAL LEADERSHIP CONFERENCE & CONVENTION at the ADAM'S MARK HOTEL in Charlotte, NC from AUGUST 5-9, 1992 or the VOLUNTEER ALUMNI CONFERENCE from August 7-9, 1992. All Alpha Sigs and their families are welcome! For more information, please feel free to contact the Fraternity Headquarters, P.O. Box 838, Delaware, OH 43015-0838, 614/363-1911.

Alpha Sigma Phi needs to fill these critical advisor positions. We seek dedicated volunteers who are willing to act as role models and significantly impact chapter leadership!

Contact Jeff Owens, Director of Chapter Services/Expansion at 614-363-1911 for more information.

Ω Omega Chapter

(The TOMAHAWK does not assume responsibility for the accuracy of Omega listings. Information from various sources is printed as it is reported to the National Headquarters for record-keeping purposes. On-going efforts to locate brothers without mailable addresses often reveal names of those who have entered Omega. Some listings therefore are of brothers who have been deceased for some time, but are included for informational purposes and in tribute.)

Assistance program for Brothers established: Alpha Sig Connections

Alpha Sigma Phi Fraternity is proud to announce a new program to assist brothers in seeking employment opportunities. *Alpha Sig Connections* uses the Fraternity Headquarters as a clearinghouse of information for those brothers seeking employment and those brothers wishing to fill available positions.

Those brothers who have elected to participate in the program have sent copies of their resume to the Headquarters. Below is a listing of each of those brothers with his respective initiation year, school, graduation date, degree and position he is seeking. Any brother reading *The Tomahawk* who is interested in finding out more about one of the job candidates can contact the Fraternity Headquarters directly for a copy of the brother's resume, without obligation. If further information is desired, the alumnus should then contact the brother directly using the information on the resume.

There is no fee for participating or using the program. The Fraternity provides this program as a clearinghouse of information and makes no recommendations, guarantees, or promises. Brothers wishing to participate in the listings of *Alpha Sig Connections* should contact the Headquarters.

Position: Corporate relations, marketing, or advertising

THE TOMAHAWK SIG-POSIUM

Dear

Alpha
Sigma
Phi . . .

From time to time brothers write to Headquarters to express the impact Alpha Sigma Phi has made on their lives. Some letters have been edited due to space limitations. All letters are personally answered by the editor. We welcome hearing from our Brothers and encourage you to write.

November 4, 1991

Dear Brothers of Alpha Sigma Phi,

This is not a plea for a donation to the "Old Gal . . ." nor a request for a pledge to Morris Harvey College/University of Charleston (the latter sounds sooo much better). This letter is far more important.

On September 14 our friend and brother, Matthew "Jo-Jo" Moore, sustained a severe injury to his cervical spine. The rugby playing accident has left "Jo-Jo" paralyzed from the shoulders down. To add to the severity of this accident, he still needs the use of a respirator for 18–20 hours a day and is fighting off a high fever and infection. In short, a once physically vibrant friend is now fighting a serious battle! His mind is still sharp as a tack! In fact, his full head of black hair and his great smile made me feel inadequate. Through his cervical collar and tracheotomy tubes he still was able to be the same witty, wonderful person we all know. He is a hell of a man!

Jo-Jo has a wonderful wife, Peggy, and four beautiful daughters (age 8–13) and all of the responsibilities that go along with raising a family. His church friends, teachers union, and volunteer fire department are helping him. *It is now our turn!*

Donations can be sent to:

Matthew Moore Trust Fund
c/o Bob Smalt
Peekskill City Schools
1032 Elm Street
Peekskill, NY 10566

Cards can be sent to:

Gaylord Hospital
Box 400
Wallingford, CT 06492

It has been a long time for all of us. Let's think back to the "glory days" of Alpha Sigma Phi . . . dances, Greek Week, intramurals, spaghetti dinner, Coonskin, Frank Krebs and on and on. Let's not forget that he's an Alpha Sig. Please call me for further information.

Yours truly,

Pat Amendola
Charleston '65

THE TOMAHAWK SIG-POSIUM

DEPARTMENT OF MUSIC & THEATRE
PLYMOUTH STATE COLLEGE
of the University System of New Hampshire
Plymouth, New Hampshire 03264-1600

December 4, 1991

Mr. John R. Chaney, Editor
THE TOMAHAWK

Dear John:

The Fall '91 issue of The Tomahawk arrived this past week, and I'm writing to commend you on a very fine number. The National Leadership Conference must have been indeed one of the best ever. The lead-off article was superb, and the information presented in the rest of the 28 page issue confirmed it. I am delighted to read that we're to have four publications a year again. I also will be writing my contribution checks with a better sense of confidence that money is to be well spent.

The one professional disappointment I had in reading the coverage was the apparent lack of much singing at the event. The foto on page 26 was gratifying. My own memories of the three plus years at Beta Xi (Hartwick College) include serenading sweethearts of the month (4-part a cappella singing!), and competing in the college-wide Sinfonia Sing, for which we even won first place in competition with other Greek and independent ensembles. The thrill of male chorus singing is unique, as perhaps you're aware. A pre-dinner songfest (or post-dinner) at the Conference could be thrilling and could also encourage development of more local chapter singing. (Evin Varner asked me to do a series of articles in this area some years ago for The Tomahawk.)

In any event, thanks for your great work. I look forward to future issues. Have a good holiday season.

Sincerely and fraternally,

Robert Swift, Hartwick '59

October 29, 1991

Mr. John Chaney
Executive Vice President

Dear John,

I want to thank you and Brother Ralph Burns for affording me an opportunity to attend the Alpha Sigma Phi program on October 19. I enjoyed the brief time that we all spent together and particularly enjoyed seeing David Post and his wife. Dave and I were contemporaries in the Epsilon Chapter in the 1960s. Dave was excited enough about the afternoon to drive all the way to Delaware from Harrisburg, Pennsylvania.

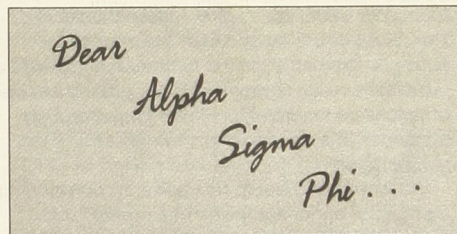

The discussions and various remarks concerning reactivation of the Epsilon Chapter really hit home with me, John. I would like to meet with you as soon as possible to discuss reactivation of the chapter and volunteer my services for the initiation of whatever steps are necessary to move toward this goal. I hope, for example, that we will be able to form a steering committee so that all Epsilon brothers will have a contact point to centralize their efforts at reactivating Epsilon. I also hope that reactivation of Epsilon is a very high priority with the national organization.

It has been 21 years since I graduated from Ohio Wesleyan. On the 19th after our meeting, I walked up on the hill as I always do when returning to Ohio Wesleyan. I went inside our old fraternity house and couldn't help but feel a mixture of sadness/disappointment to see our old fraternity house currently housing Alpha Tau Omega. I think the time has long passed to change the situation, reactivate Epsilon Chapter, and find a suitable housing facility on the Hill for our fraternity.

I will call shortly to discuss the letter and see if a meeting would be appropriate.

Sincerely,

Richard Epps
Ohio Wesleyan '65

November 11, 1991

Dear Headquarters,

Thank you so much for your concern and willingness to help your senior brothers. The fraternity has done so much for me during my college career, and the "Old Gal" has been there for me when I've most needed the help. This is with no exception.

My only hope is that in the future, I will be in a position to give back some of what Alpha Sigma Phi has given to me and to help other undergraduates following me.

Again, thank you for your efforts.

Fraternally,

James C. Jones
Westminster '89

October 25, 1991

Jeff Owens
Director of Chapter Services/Expansion

Dear Jeff,

I thought I'd send you a note to let you know what happened at the Province I & II—"West Coast Conclave" this weekend.

For starters, Tom Crino did an outstanding job putting the schedule together, and following up on all of the details. John DeRaevae was also a great host, and between the two of them, they made sure everyone was taken care of. If there was an "Alpha Sig Commendation Medal" they would both get one.

Friday was mostly a travel day, but our Psi Chapter hosts were ready for us. There were brothers and pledges there from all four Chapters, and as usual, most everybody was up until the "wee hours" having fun and getting to know each other.

Saturday morning started off with brunch, and a spontaneous magic show. I still can't figure out how Ben (UCLA Chapter) tore the dollar bill up, then burned it, but then pulled it out of a fresh grapefruit. Ben says that magicians never tell their secrets, but he could tell us... but then he'd have to kill us.

Our guest speaker Saturday was Norm Hamilton, who was introduced by Bob Kutz (Grand Historian). Norm's presentation was exceptional! I think he really left an impression on the whole group. (I thought he was fantastic!) Norm spoke up until kick-off for the UW vs. Berkeley game, and since the Oregon State vs. UCLA game was at 7:00 p.m. that night, the meetings were over for the day. Quite a few of the brothers and pledges got together after the night game, though.

Sunday started off with a continental breakfast, and Larry Philippi as our closing speaker. (I'm sure you know the impact Larry can have on a group, and just his presence at the Conclave was a positive influence.) I had to leave for a meeting in Seattle, but I did leave two letters (with John DeRaevae) that Chuck Vohs and John Chaney wrote for me to read to the group. Both letters were very well written, and I'm sure they served as excellent closing words.

A number of guys mentioned what a good time they were having throughout the weekend, and there was a little discussion of a Spring Conclave. (Maybe at UW.) I'll be sure to keep you posted on that.

In the Brotherhood,

Mark R. Arend
Washington '81

You can assist as a volunteer in the Fraternity's Province Program. Write Alpha Sigma Phi, P.O. Box 838, Delaware, Ohio 43015-0838 for more information. 614/363-1911. FAX: 369-1845.

Our alumni have been playing a key role in the strengthening of our budget, and have been helping tremendously in our collection and payment system. We also had a fairly good showing for Homecoming this year, and are

The Success... The Best...

the St. Francis Yacht Club in San Francisco. After we recovered from our festivities during Presents, the pledges had dinner over at Alpha Delta Chi and once again had a great time. December 8th we planned a couples only outing seeing Charles Dickens' "A Christmas Carol" at the A.C.T. Theater in the city. And I predict that this coming spring is going to be even better than the fall!

Hello alumni! I have one question for one class: Class of 1956, How Are You Doing? Please write to me so I can include your latest tales in our next newsletter.

The efforts that were put towards rush paid off. We pledged five men on August 25th. The ceremony went very well and Brother **Garrett F. Riegg '66** was able to attend. Hopefully, we will be able to pledge another group of quality men in the spring.

On Saturday, November the second, we hosted an Alumni BBQ. It was a smash hit. The Dixieland Jazz Band was in full swing. So was Cal Football that day when we put USC in its place, i.e., in the dirt. We had twenty-five Nu alumni attend the event: **Bob Kutz '67; Don Ginsti '50; Erle Brown '53; Bob De John '51; Doug Mooers '53; Milton Morrison '37; Rick Edwards '65; Ted Edwards '61; Chin Pham '84; Bob Wells '58; Rick Eschenburg '60; Cary Petzel '82; Shelby King '54; Dana Wemple '52; Dave Bush '63; Jeff Brehmer '84; Bob Kratter '51; Dave Merenbach '82; Ted Moriarty '51; John Wickenden '54; Garrett Riegg '66; George Perham '51; Gray Drohan '81; Mike McClure '87; and Mike Colwell '84.** Also attending from the State University of New York at Buffalo was **Bruce Thiel '66**. All of the brothers of Nu want to thank you for attending our Homecoming BBQ and for making it a successful event.

On November 10th, we initiated seven new brothers into the chapter. We are now up to fourteen brothers. The really exciting part of our rush program is how we are positioning ourselves for the future. We already have one new pledge for the spring; his name is **John Moisan**. He is a freshman and a graduate of San Rafael High School which is a Berkeley feeder school. With his help and support we should be able to attract a number of quality guys. We are currently rushing and expect to pledge **Steve Ulrich** as well in the spring; he is an upperclassman and a member of the Cal Rugby Team, another source of potential new brothers. Aside from these two, we also have three other guys who want to pledge in the spring. This gives the spring rush program momentum which can only attract more potential members.

**Alpha Zeta Chapter
University of California at Los Angeles**

This semester marks one of the biggest leaps that Alpha Zeta Chapter has taken in quite a while: we have acquired a new house right next

door to our current location of 525 Landfair! We have moved into the old Fiji house and have increased our live-in capacity tremendously!

Last summer many of the brothers spent hours repainting our new house to match the main house—we now have two Cardinal and Stone residences next to each other. We also put a lot of time into repairing and rebuilding much of the house, and now boast more deck space and parking than any other fraternity on the UCLA campus!

Because of the increase in room available to us, we also now have two more brotherhood rooms for our chapter members to enjoy. Two of the main rooms at the new house have been turned into a pool room and a television room respectively.

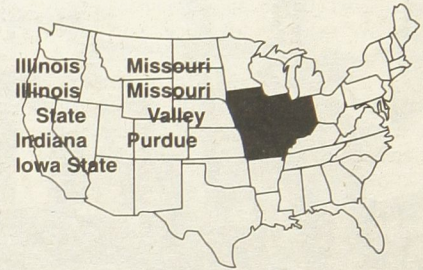

Rush has also been going tremendously for us, and we are quite happily increasing the strength of our brotherhood, and are recruiting the top men on campus to join Alpha Sigma Phi. We have had great success with attracting rushees, and we are the talk of campus with our matching residences!

Province III

**Eta Chapter
University of Illinois**

The men of Eta Chapter have been having a tremendous year, and are proud to say we are working to keep Alpha Sigma Phi Fraternity #1 on the University of Illinois campus! As always, we have been striving to challenge ourselves and always looking towards excellence. We have been working hard to continue our improvements, and are looking once again to hopefully capture

Province III

the Grand Senior President's award for the third time in a row!

Earlier this semester, we were able to meet one of the men instrumental in the second founding of Eta Chapter, **James C. McMahon, Illinois Tech '78**. While on a trip to Illinois, he was able to stop by the chapter house and talk with many of the brothers. He shared with us many insights about being in a fraternity and especially what it really means to be an Alpha Sig!

We have been working hard to strengthen our ties with our alumni and are looking forward to the continued strengthening of our alumni programs. Be looking for more issues of *The Etagram* in your mailbox and be sure to send in

(Please turn to page 14)

Undergraduates at Eta Chapter returned to the University of Illinois campus this year and found a beautiful new sign, compliments of the Parents Association. The brass name plate and brick foundation should last another 84 years in the chapter's future.

Chapter Reports Chapter Reports Chapter Reports

Phi Chapter undergraduates are shown with their cannon. In years past, the Brothers shot off the cannon when the Iowa State Cyclone football team scored. A new tradition began recently which sees the cannon being fired with every first down!

the news notes cards to let us know what you are doing. Until then . . . I-L-L . . . I-N-I!

Phi Chapter Iowa State University

Greetings from Phi Chapter! We are very excited about the things that have been happening here at Iowa State University. After a few setbacks last year we are looking to have a great 1991-92 year. Our house has recently undergone numerous renovations after last year's fire, and the third floor and sleeping dorm have been completely renovated. Thanks to the hard work of many, our third floor lounge has earned the nickname of "The Museum." This name came about due to the fine look of our new furniture and the care we take in assuring it remains beautiful.

As we rolled into the fall term, we have been striving for excellence in numerous ways. We have taken on a pledge class of 13 men. They are working very hard towards initiation and the future of Phi Chapter will be in excellent hands with men such as these.

As with tradition we have enjoyed another great year of operating our cannon at the Cyclone home football games. Thanks to all of the alumni that stopped by for homecoming this year! As is always the case, if you are ever in the area please stop by the house!

Alpha Theta Chapter University of Missouri

Alpha Theta Chapter has been working very hard to improve the condition of our home. The chapter has recently varnished the floors and

stairs on the first floor and are working very hard on numerous other improvements.

Recent rush efforts have yielded five quality men and we are continuing our rush efforts through the term. A recent change in our organization is the use of one year terms of office for our officers. It is hoped that this will yield to more continuity in our direction and better performance in the long term.

During a recent work weekend Brother **James S. Reid, Tulane '68**, was injured when he fell from a ladder while working on a window. We are happy to report that Brother Jim is fine now. We are very thankful for his efforts to help the chapter.

Alpha Omicron Chapter Missouri Valley College

This past year has seen a tremendous amount of improvements to the internal organization of Alpha Sigma Phi. We are working to make our fraternity the best thing that can happen to someone! In addition to our improved internal organization, we are also putting a great amount of effort into contacting our alumni and putting together a "Pledge Class Network." It is a system set up so that individual pledge classes keep closer ties with each other through a phone network and also with our chapter newsletter.

We would like to thank the alumni who turned out for this year's homecoming celebration, and we hope you all enjoyed the Alpha Omicron Timeline/Yearbook display. Also, with our increased efforts of strengthening our alumni system, we are looking forward to even more alumni attending next year's homecoming!

Missouri Valley College has also recently expanded the campus, and is looking to attract

even more students with the now completed Athletic Center. All of the brothers have been enjoying the new facility and we are looking forward to winning many games in it!

Alpha Pi Chapter Purdue University

Alpha Pi has been doing very well. We are happy to say that we are attracting the top men on the Purdue campus through our rush efforts. We are constantly looking for ways to improve our chapter and remain one of the top fraternities on the Purdue campus.

The improvements made to the house during the past year have really helped to motivate our brothers and the alumni support we have been getting really shows our brotherhood that Alpha Sigma Phi really is for life! The Housebill Rebate Program that the alumni have been supporting is really motivating our members to work even harder for their grades and has been attracting interest from both rushees and other Alpha Sig chapters alike.

The organization of our chapter continues to be top notch and the involvement of the entire brotherhood has been one of the biggest keys to Alpha Pi's success on the Purdue campus. One of the goals that our chapter has set is to win the coveted Grand Senior President's award at this year's National Leadership Conference and Convention being held in Charlotte, North Carolina. It is an award that exemplifies chapter excellence which is the goal of our brotherhood.

Gamma Chi Chapter Indiana University

During this past fall, Alpha Sigma Phi has been the talk of I.U. with the building of our new house on 1968 North Jordan. The building of the new house, which was completed December 1st, has helped tremendously with our rushing efforts on campus and has been a rallying point in motivating our brotherhood to strive for excellence.

We had a tremendously successful homecoming celebration with brothers from all years attending a luncheon held at the new house. We were fortunate to have **Gary Sergianni '67**, the first initiate of Gamma Chi, as well as Executive Vice President of Alpha Sigma Phi Fraternity, **John R. Chaney '67**, present for the day's celebrations.

One of the highlights of the luncheon was also the presentation of the Delta Beta Xi Award to **John B. Gibson, Jr. '85** for his continued efforts to help make Gamma Chi the strongest fraternity on the Indiana University campus.

Co-Rush Chairmen **Mark Ruppert '90** and **Tony Geller '90** recruited a high quality 32-man pledge class for the fall. This was a good accomplishment because the brotherhood has been living together this semester at Dunnhill Apartments, far away from Greek Row, until the completion of our new home. The visibility of the new house during its construction and the combined efforts of many brothers helped attract rushees.

Chapter Reports

Chapter Reports

Chapter Reports

We have paired with Phi Mu for I.U. Sing, the annual campus musical to be held in February. The pair was the culmination of intensive efforts in serenades, which included a live house band tapping the talents of musicians in the chapter. Brothers are very excited about the pair. Song leaders **Steve Esmaili '91** and **Mark Herscovitz '91** are working diligently to lead another award-winning show.

We held the first annual Alpha Sigma Phi Street Hockey Tournament at Memorial Stadium on November 9th. Proceeds from the tournament were donated to the Kidney Foundation.

We paired with Sigma Sigma Sigma for homecoming and finished second overall in the competitions.

Initiation was held on September 22nd for five new Brothers.

We finished third in Greekfest, the annual "Olympics" of the Greek community. In individual events, we finished first in volleyball and the slam dunk competitions.

Training has begun for our bicycle team, in preparation for the annual Little 500 Race in late April.

We have elected **James Wilson '90** as president for the coming year, beginning in December. The chapter gave James the formal status of President-Elect to allow for a better transition; since, just after changing officers, we will move into the new house. We felt that the move could bring "settling-in" problems and that we didn't need an abrupt change in leadership at the same time.

We are currently working on second semester rush. As of November 14, seven men had signed with Alpha Sigma Phi for the spring pledge class. With a great deal of time between this date and Formal Rush in January, we feel that this class should be one of the biggest spring classes in Gamma Chi's history.

Rehearsals will begin for I.U. Sing before the end of the semester and will continue until the show in February.

We are all looking forward to seeing many alumni present at the dedication ceremony which will be held Saturday, February 22nd, at the new house. It will be an excellent opportunity to see the new house, as well as catch up with many alumni brothers of Gamma Chi Chapter. See you there!

Delta Omicron Chapter Illinois State University

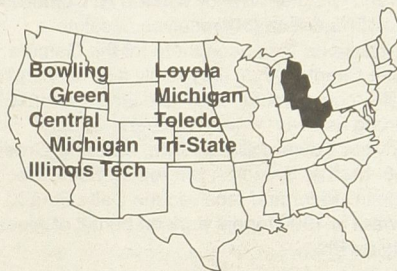

As we return to another exciting year here at Illinois State University, we are proud to announce the initiation of five pledges into the Mystic Circle. Our chapter currently is composed of 23 men and we are working diligently to insure a successful spring rush.

As we approach the winter break so do elections. We are very proud and thankful of this year's officers for their commitment to the "Old Gal" and wish the incoming officers great success in the next year. We were very excited to celebrate Founders' Day on December 6th. Our special guest speaker for this event was Brother

Robert G. Cabello, Eastern Michigan '70, an instrumental participant in our founding and member of the Grand Council.

Delta Omicron Chapter is working diligently on numerous goals to continue our success. Among these goals are plans to sustain membership involvement and further our positive contributions to campus life. Alpha Sigma Phi is no doubt on the move here at Delta Omicron and we are excited to be a part of America's Premier Fraternity!

Province IV

Province IV

Theta Chapter University of Michigan

This term has been busy for Theta. Brother **Keith Ward** represented Alpha Sigma Phi in the annual Car-Bash, contributing to the winning team in the campus wide car demolition contest to benefit Mott Children's Hospital. For Homecoming, we hosted an event for all Alpha Sigs before the football game against Indiana University.

Just prior to Halloween we had the first Sig Hayride in many years at a nearby orchard with a bonfire afterward. October 31st saw the 3rd Annual Costume Party with characters in attendance ranging from Fred Flintstone to a crash-test dummy. Right now we are looking into the Adopt-a-Highway Program as well as other philanthropic activities.

Many thanks to the Sigs at Purdue for a great weekend we spent there during this term's road trip. Seventy-five percent of our chapter made the trip and 100% enjoyed it!

The chapter donated blood as an organized effort to contribute to the annual University of Michigan vs. Ohio State Blood Battle. The idea of doing a public collection drive again this year is being tentatively planned as last year we raised over \$300 for the American Red Cross in just 12 hours!

Initiation fell, again, on Founders' Day. The Black and White Semi-Formal was the following night once more as a first public celebration for the new initiates.

Our Alumni Board has been invited to sit in on chapter meetings and an event for our alumni is in the works for late February. See you there!

Alpha Xi Chapter Illinois Institute of Technology

The brothers of Alpha Xi Chapter are very excited about the coming year at Illinois Institute of Technology. The chapter is working hard on improving the house and bettering our chapter. Numerous plans are being undertaken as we work on the latter of these two important objectives.

Our improvements to the chapter include plans to redefine some of our officers' job descriptions in an attempt to make them more productive and allow for more members to get directly involved in the day to day operations of the chapter. We are working hard, as well, to be leaders in the area of risk management on the I.I.T. campus and recently held our first BYOB party. While the event was not as successful as we would have liked, we are very optimistic about future parties. Risk management is an important part of our operation and we are working hard to protect the interests of ourselves and our alumni.

After a very successful alumni board meeting plans are underway to make some major improvements to the physical structure of Alpha Xi. Some of these plans required the chapter to acquire numerous estimates from contractors and we are working to finish up this process now. Major refurbishment includes new tile in the bathrooms, new windows that should save us money on heating costs, and numerous other projects.

Beta Omicron Chapter Tri-State University

On Halloween Night, the brothers of Beta Omicron transformed the "Old Gal" into a haunted house for the youngsters of the community of Angola. This was the second year in a row that we have performed this project, with a great deal of success. By next Halloween, new ideas will be developed to make it more frightening.

The brothers finished second in the Fall Greek Games Week, narrowly missing first place.

We also had competitive records in the fall football and softball interfraternity leagues, and are looking forward to winter basketball season, where we will be a dominant force.

House improvements continue. More insulation and several new doors have been added to beat old man winter.

Rush is looking good for the remaining quarters of the year. We are hoping to bust the seams of the house.

Beta Rho Chapter University of Toledo

For the second consecutive year, we had a summer rush retreat and party this past summer. We started the day off at a campground north of Toledo. At this location, the brotherhood went over rush skills and role playing. Obviously, it was worth the effort. After fall rush was over, we had taken 22 new men into pledging the fraternity. After the retreat was over, we all traveled to brother Chad Felgner's farm where we had a cookout and a brotherhood to close the festivities.

(please turn to page 16)

Chapter Reports

Chapter Reports

Chapter Reports

(Continued from page 15)

Many other things are also taking place here in Toledo. One of our main goals is to improve our image on U.T.'s campus. Consequently, we are launching a full scale public relations campaign. During this campaign, we have been serenading sororities. This has gone over extremely well, because now the women also see us as classy gentlemen who can dress up but yet can also dominate in intramurals.

Along with the Public Relations Campaign, we are also trying to fill our new house. We are hoping that with this outstanding pledge class that we have, filling the house will no longer be a concern. Everything is going great and we are looking forward to next quarter.

Gamma Zeta Chapter Bowling Green State University

To begin the 1991-92 school year, we held a Welcome Back cookout with all of the brothers. A good time was had by all.

We took a pledge class of 13 with several different dry rush events. The rush committee purchased rush cups with our rush slogan as well as the Phoenix. A cup was given to every prospective pledge that came through the house during rush. Rush shirts were also given to every brother and new pledge. All the new pledges attended formal desserts with all of the brothers. Everyone had an excellent time.

The 1991 B.G.S.U. Homecoming was a great success. Many Alpha Sigma Phi alumni returned to visit the chapter. Many undergraduate and alumni brothers attended the football game, followed by a dinner and dance at the Elks Club. The weekend provided fun for everyone who attended.

The annual Alpha Sigma Phi/Alpha Phi Shootout took place to raise money for SAMS. The Gamma Zeta Chapter raised \$590 alone. Many businesses around town donated gifts, which were raffled off at the end of the event. A good time was had by all.

For the rest of the year, we plan to have another great Spring Rush, with all of our current pledges going active. We also plan to visit Zeta Chapter at Ohio State to see another chapter house and meet other brothers. Winter Wedding Date Party and Alpha Sigma Phi Bowlathon for SAMS are also being planned for the spring term.

We encourage all alumni to stop by the house if you are in the area!

Delta Alpha Chapter Loyola University of Chicago

We have currently pledged eight men and are working on our spring rush. The chapter is looking forward to a strong year in this area so that we may further fill our house.

The chapter is working on numerous fundraising events in hopes of raising money to finish paying off our mortgage. We have been doing so in hopes of doing some remodeling when it is paid off.

At the current time, we are making the best of it and looking forward to an exciting spring term. We are very thankful for the continued support of

our alumni and are very optimistic about the future.

We sponsored our 7th Annual Halloween Costume party, and co-sponsored the clean up of Rogers Park with Greek Council. All Greeks showed up to help clean our neighborhood.

Sig Salute! Charter member and long time Grand Chapter Advisor **William A. Cameron, Bowling Green '50**, receives a "salute" because he "has been there for the Gamma Zeta Chapter when they really needed him." Bill's "commitment to the 'Old Gal' continues as strong as ever," writes Co-Grand Chapter Advisor **Edward G. Leedom, Bowling Green '86**. Brother Cameron is a retired Social Security administrator and received the Delta Beta Xi Award in 1990 for his work on behalf of Alpha Sigma Phi.

Phi Kappa Colony Central Michigan University

We have acquired a new house that is absorbing a great deal of our time, effort and enthusiasm. Having a house has strengthened our brotherhood immeasurably, as has our latest rush during which we welcomed several high quality associates who will help us immensely, as we charge toward our charter. We had a very successful Colonization Banquet on October 12, at which time we had the great pleasure of having Grand Senior President **Charles J. Vohs, Penn State '75**; Grand Secretary **Dr. Robert G. Cabello, Eastern Michigan '70**; and Director of Chapter Services/Expansion **Jeffery S. Owens, Illinois '87**, attend our ceremony.

In our attempt to establish ties with alumni, we sent out over 200 invitations for our colonization banquet. We have also sent our first Alpha Sig newsletter to area alumni.

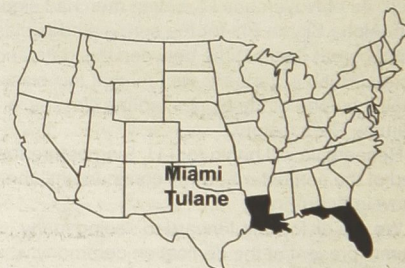

Much of our time this year has been spent getting our name out on C.M.U.'s campus. The

Members of the Delta Alpha Chapter at Loyola University often donate their time to spend with a neighbor stricken with polio. Here **Dennis Nessinger, Loyola '90**, is shown with him after a stroll near Lake Michigan.

efforts that we have put forth thus far have been very rewarding and as a result, we have received IFC recognition. We are all excited and waiting for the chance when we can become an official chapter of America's Premier Fraternity. We are tentatively planning our Chartering Banquet for April 11, 1992.

Province V

Members of Phi Kappa Colony at Central Michigan University proudly display the new sign in front of their new house.

Chapter Reports

Chapter Reports

Chapter Reports

Province V

Gamma Theta Chapter University of Miami

This past fall term, we are proud to announce that we successfully pledged 21 men to the seven points. These men have done an outstanding job with all of the activities that they have completed. Part of the homecoming festivities that the pledges took part in were building a float and meeting alumni at the annual barbecue.

Homecoming this year was a success all the way around. Many distinguished alumni were able to make it back and watch as the Hurricanes easily defeated West Virginia, 27-6.

Some of the other activities that we have participated in as a chapter have been very enjoyable and successful. When Florida State came into Hurricane territory, many of us were able to attend the game as we watched the University of Miami beat Florida State and assume the number one ranking in football. On Tuesday, November 26th, we held our annual Thanksgiving dinner. All of the brothers, both undergrads and alumni, and pledges were able to meet at a fine local restaurant to celebrate the holiday.

Finally, we ended the semester's festivities with a Founders' Day celebration. All of the brothers and pledges celebrated the occasion by dressing up for the entire day and then meeting the alumni at a restaurant in town to commemorate our founding.

Gamma Omicron Chapter Tulane University

This year has been a regrouping and rebuilding year for Gamma Omicron Chapter. Fortunately, two brothers, **Jeff Olson '89** and **Jacques LeBlanc '91**, attended the National Leadership Conference at Penn State over the summer and

Brothers and guests of Gamma Theta Chapter at the University of Miami enjoying Formal Rush Week. Gamma Theta Chapter welcomed 21 new pledges into their chapter in Fall '91.

brought back many great ideas.

We are actively trying to recruit men to become future brothers of our fraternity. With deferred rush at Tulane, we will be looking hard at many freshmen during Spring Formal Rush. We have set a goal of 15 total brothers and pledges by the end of the Formal Rush period.

We would love to hear from any Gamma Omicron alumni or any Alpha Sig alumni in the New Orleans area!

Province VI

Delta Chapter Marietta College

The Phoenix is up and flying high once again here at Marietta College! The brotherhood is

Province VI

Miami brothers getting psyched for another Intramural Football victory!

currently as strong as it has ever been after returning to the house this September. We are entering a year of change here at Marietta and the future looks very bright. This summer we had three brothers attend the National Leadership Conference. In addition to this, the brotherhood spent a lot of time cleaning and preparing the house for the new year and the return of our 30 plus members.

The year started out with the chapter undertaking an excellent rush effort and acquiring 12 pledges. We are very proud of these men as they work toward experiencing the enrichment of brotherhood in which Alpha Sigma Phi brings to all of us.

We recently conducted a Black Lantern Processional at the college to coincide with the pinning of our pledge class. We are optimistic about the future and invite all chapters and individuals to stop by and share in the heritage of Alpha Sigma Phi in our museum.

(please turn to page 18)

Chapter Reports

Chapter Reports

Chapter Reports

(continued from page 17)

Zeta Chapter The Ohio State University

After getting back to school this past fall, we had many items to accomplish. The first of those was to prepare the entire brotherhood for rush. Consequently, we met with our Grand Chapter Advisor, Brother **Bob Wade, Bowling Green '83**, and went over some goals and ideas that needed to be stressed.

The next item of concern was to prepare the house for formal rush. We all spent a large amount of time working as a brotherhood preparing "The Old Gal," and after our efforts were completed, the old structure looked as good as new.

Socially, this semester couldn't have been better. We were paired up with Phi Mu Sorority for homecoming. We spent a great deal of time with them working on the float and just doing mixers together. We also had several Date Parties this year. One of the most successful ones was a "Crush Date Party."

Finally, we would like to congratulate Brother Wade on receiving the Delta Beta Xi Award. He is very deserving of this and we appreciate all of the time and effort he has put into the chapter. Because of his efforts and those of our alumni, Zeta Chapter is flying high once again.

Sig Salute! The Fraternity Headquarters wants to salute Brother **Art Jahn, Ohio State '27**, and his lovely bride. Brother Jahn donated valuable records to the Fraternity for the archives.

Beta Gamma Chapter Bethany College

This semester has been very exciting for us at Bethany. In October we held our Annual Haunted House. This year we completely changed the decor of the house to enhance the atmosphere. We worked in conjunction with Phi Mu Sorority to create a place that was open to the community to bring family and friends and celebrate the Halloween season. We raised over \$1200 this year, to aid in setting up a scholarship fund.

We are also very proud of the fact that we were very instrumental in getting a risk management policy adopted by the IFC. This has been a real struggle to get passed here at Bethany, but it is definitely going to help the Greek system as a whole.

We also held an alumni event at the "Harvard-Yale-Princeton Club" in Pittsburgh on December 7th. The event was quite a success. Everyone in attendance had a terrific time.

For the upcoming semester, we plan to do many community service events, as well as having one of the best rushes that Bethany has

ever had. We have already begun to rush by having informal events at our house. One event that went over really well this past semester was Sunday afternoon football. We basically invited all of the freshman over to watch football and have some snacks. Hopefully, we sparked some curiosity and many of the men will want to join.

Beta Delta Chapter Marshall University

Fall rush was very successful and the chapter has pledged 20 great men. Their initiation took place on November 15th. We are very proud of our new members and are looking forward to their increased involvement in the day to day operations of Beta Delta!

Our social program has been "safe and enjoyable" this year and the chapter is working feverishly on implementing the fraternity's risk management policies. These policies include the establishment of BYOB parties. As always, we are doing the best we can to keep the "Old Gal" a leader in all aspects of fraternity life on the Marshall University campus.

The chapter's service program has flourished this term as we have set a goal of at least one event per week. We have done numerous events this year such as the Haunted Trails, the Red Cross Blood Drive, as well as spending time at the Boys Club entertaining the youth. In addition to this, we have worked building homes for Habitat for Humanity on two different occasions!

On November 2nd, we held our annual homecoming formal. We were proud to have many alumni in attendance and are working very hard on our next event. Plans are underway for the gala Black and White to be held in April. Look for details in upcoming mailings!

Gamma Alpha Chapter Ohio Northern University

We have been working very hard this term and are very excited as the fall quarter comes to a close. We have made major strides this year and are working very hard with the support of some very dedicated alumni.

Jack West '69 and Randy Van Dyne '72 through their untiring efforts with the headquarters staff, the chapter held a retreat this summer to outline our goals for the coming year. This retreat set the tone for some excellent achievements by the chapter.

We are all proud of the current upgrades to our kitchen and dining facilities. Special thanks to all those alumni who worked so hard and donated toward making this project such a success! The Sigs are very proud to have such fine alumni and such a fine kitchen. We are currently planning to repair the front porch roof in the spring. It has fallen victim to some rotting wood. Other projects include repairing or replacing the flag pole and cleaning the carpet in the living room.

Homecoming was a huge success and we were proud to welcome back all those alumni who attended. The day included a pig roast and barbecue and, of course, the football game! All in all, a great time was had by all and we are looking forward to our next event!

Gamma Delta Chapter Davis & Elkins College

Greetings from the mountains of beautiful West Virginia! As the fall semester closes we are looking back on a semester of great strides and plans here at Gamma Delta.

This summer, three representatives attended the National Leadership Conference at Penn State. Among them was our Grand Chapter Advisor, **Max Morgan '52**. We have been working hard to improve our rush skills and have set a goal of fifteen men for the year. This goal is going to require a concentrated effort from the entire chapter as we have had difficulties during past rushes.

We worked very hard the first weekend back cleaning and preparing the hall for the new year. Future plans include replacing the carpet in the lounge and adding a deck to our patio. Fundraising efforts are beginning and the chapter is working on some excellent events.

Homecoming was a success this fall and we wish to thank all those brothers who attended. Special thanks to those brothers whose gracious donations have been helping the "Old Gal" at Davis and Elkins and we look forward to seeing you again next fall!

Gamma Pi Colony University of Findlay

What a semester this has been for us. Not only did we achieve colony status this semester, but we have become the best fraternity at the University of Findlay. As a colony, we are very proud of the strides we have made so far. We have acquired a house right next to campus that the university owns and maintains for us. We have also conducted our second Black Lantern Processional this year.

We conducted the Black Lantern in coordination with the Pledging Ceremony. All of the brothers wore robes as we marched to pick up the pledges. One of the best events that we attended, was one sponsored by the alumni. It was a reunion held in Michigan at one of our alumnus's cabins. Many alumni and undergraduates were able to attend and a great time was had by all.

We hope to continue keeping the progress of our colony on track. With much effort by our alumni and by the undergraduates, we hope to receive chapter status by the end of the year. We have truly realized that Alpha Sigma Phi is a National Brotherhood, as this was exhibited by **Stuart Spisak, Westminster '78**, who came to our homecoming. The game was played against Westminster, and it was a pleasure having an Alpha Sig from another chapter visit us. Best of luck to everyone.

Delta Epsilon Chapter University of Rio Grande

Delta Epsilon is off to an excellent start this year! After being placed in temporary housing in Gallipolis the chapter now resides in the campus's newest and most modern residence hall.

As we approach our 20th anniversary celebration the brotherhood is experiencing great

Chapter Reports

Chapter Reports

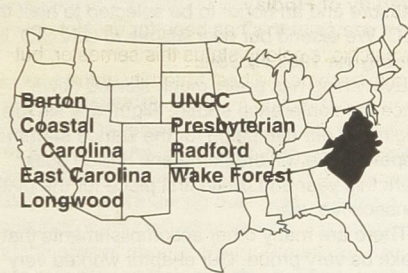

Chapter Reports

success all around. This spring we had an excellent rush and are currently pledging 16 of the best men on the Rio Grande campus. Thanks to our alumni advisors, **Dr. Larry Spees, Ohio Wesleyan '57**, and **Jeff Lewis '77**, for the time they spent with us at our Greek Council rush open house functions. As the spring term approaches, we are working hard in hopes of an even larger pledge class.

Much of our current success can be attributed to the chapter having three members in attendance at the 1991 National Leadership Conference. During the conference a member of our chapter, Brother **Eric Autenrieth '90** was elected Co-Province President. The chapter is most proud of Eric and we will be working hard to help him with all province activities this year.

As we mentioned above, we are working very hard with our alumni to make our twentieth anniversary celebration an extraordinary event. At a recent meeting Brother Jeff Lewis presented the chapter with a tentative schedule of events. The events are to take place on April 24th & 25th at the Radisson North in Columbus, Ohio.

Province VII

Province VII

Alpha Psi Chapter Presbyterian College

With so many changes within our chapter in the past few years, we are happy to say that our brotherhood is strong again and we are looking for great things to happen!

Rush has been our biggest goal of the year and we are using some new ideas to attract the best men on campus. We have quite a few men living in the house now, and it is functioning as our "Rush Central."

This year, our membership has been more motivated towards improvements than any other year. Each brother has really taken to the idea that the fraternity is a 365 day a year project, and that it takes every person's efforts to truly have a strong brotherhood. Guiding us, and helping us with many new ideas has been our Grand Chapter Advisor, **Willie Prickett '62**. He has been putting in time and effort to help Alpha Psi Chapter to become one of the strongest fraternities on the Presbyterian College campus.

One of the biggest changes in the rush system at Presbyterian College has just happened this year. The Greeks adopted a "Deferred Rush" program where freshmen pledge during the winter instead of during the fall. This is so they have a better idea of what fraternities are about, and it also gave us all fall to contact them and rush them.

Beta Mu Chapter Wake Forest University

We experienced a tremendous rush this year with 20 men pledging Beta Mu in the fall—*before rush began!* They were part of an interest group on campus that was looking for a fraternity and when we approached them, they agreed that Alpha Sigma Phi Fraternity was the right choice for them!

Thanks to the sudden growth of our chapter with this tremendous group of men, Alpha Sigma Phi has experienced a real feeling of revitalization. We are working hard to make this a feeling that will carry us to the top here at Wake Forest. Some of our biggest projects have been continued rush efforts and the strengthening of our brotherhood as a whole.

In addition to setting up a busy calendar with the sororities and societies on campus, we are also planning a number of "Brotherhood Events" to help pull us together even more as a brotherhood. We realize that brotherhood, like any other aspect of a fraternity, requires work. And after all, Brotherhood is what Alpha Sigma Phi Fraternity is all about!

Gamma Lambda Chapter Barton College (Formerly Atlantic Christian College)

Due to some excellent efforts put out by our brotherhood, our house is now full to capacity, and with the best men on campus! We have been looking to slowly increase our size and strengthen our brotherhood with the addition of the finest men on campus. We are still very selective about who we want to have as a brother since we feel that the strength of our brotherhood is not in numbers, but in the men themselves.

Some great improvements have been made to the house over the summer and we would like to give special thanks to **Robbie Gurganus '83** for the improvements that he headed up. We now have a house that the brothers can comfortably enjoy and be proud of, with the work that has been done on the main rooms of the house. Due to the increased attention that is being placed on improvements, many of the brothers living in have contributed much of their time and efforts to improving their own rooms.

Another point that we have improved tremendously upon is our academic standing on campus. We have made tremendous strides here and are looking to be one of the top fraternities on campus in grades for the year.

We have also been working hard to improve our alumni relations and are looking for more ways to host events for all of our alumni. Be sure to check your mail for our newsletter and mark your calendars for the upcoming events listed in them. We are looking forward to seeing all of you!

Delta Zeta Chapter University of North Carolina at Charlotte

Due to the continued success of our rush efforts we have been in a decided growth mode for the past two years and are looking to make that a standard for ourselves. Also, because of the amount of growth we have gone through, we have not had any trouble filling the house this year and we are even looking for a new place to call home!

We have been making great improvements to our current house on Sugar Creek Road, and are working to make it a home for all of our brothers to come hang out. Many of the brothers have put in a considerable amount of time in cleaning up and repairing the house to make it more liveable and more of an attractive asset to our fraternity.

Of course, one of the most exciting events coming up for us, will be this summer's National Leadership Conference and Convention which will be held this summer, August 5–9, at the

(please turn to page 20)

Barton College's Gamma Lambda Chapter Alumni President **Robert E. (Robbie) Gurganus, Jr.**, left, and Vice President **Mike Sledge**, right, both Barton '83, are shown with Executive Vice President **John R. Chaney, Indiana '67**. Brother Chaney was the speaker at the chapter's Homecoming celebration in November.

Adam's Mark Hotel here in Charlotte. We are proud that our city will be hosting Alpha Sigs from all across the nation and are looking forward to being "Ambassadors" for our fine city. Hopefully, it will also mean that many alumni will be able to attend, since it is so close this year and we will be able to catch up with many of them.

Delta Eta Chapter East Carolina University

The chapter is having a good year and we have pledged five of the best men on the E.C.U. campus. Spring term should bring an excellent rush and the chapter is already planning events.

We have worked very hard to strengthen the chapter this year. Our officers have been reaching new heights and we are setting some great goals for the next year. Among them are improving our rush and getting more men to the chapter, increased fundraising, and more alumni activities. We will be attempting these and many other projects this term.

As always we were very excited about homecoming and thank all those who made it. We are proud of our alumni support over the years and hope to continue the great relationship we have with all of you.

With the election of new officers who will take the helm as the term closes we are very much looking forward to continued improvement and striving to be leaders in all we do. The Phoenix is flying high and as strong as ever at Delta Eta and we look forward to any alumni stopping in to visit really soon, so stop by!

Delta Theta Chapter Radford University

This year we have been living in what is being called "Temporary Greek Housing" in a development called Hunter's Ridge. We have quite a few men living in good sized apartments all in the same building, and we are currently looking toward a more permanent housing situation.

Our rush efforts have been well rewarded this year. We are looking to take another strong class this winter when the freshmen will be able to pledge fraternities. We have been consistently growing and are looking to continue this as one of our goals.

We have been very active in the area of service and are looking to break our own records with the March of Dimes Dime Roll this year. Many of our members have been quite involved with the university and with the National Fraternity as well. We were well represented at last year's National Leadership Conference at Penn State with one of our brothers, **Bernie Schulz '89**, being selected from among undergraduates across the nation to be a Conference Coordinator.

With the number of alumni brothers growing more and more every year, we are looking to implement a system to keep everybody more informed as to the chapter's activities. We have been looking at putting together a "Pledge Class Network" with a representative from each pledge

class acting as a contact for his year. Any interested alumni should call us at (703) 731-1740 or (703) 633-1277.

Sig Salute! Brother **Rick Tambellini, Radford '83**, receives a salute from his chapter. Brother Rick served as Alumni Corporation/Association President from 1988-91 and currently serves as Alumni Vice President. He is a very active member of the Delta Theta Chapter and initiates and promotes annual/alumni summer "gatherings". "Rick is a dedicated alumni brother that cares for the future of the chapter and the continuation of the Brotherhood. Thanks for making the Alpha Sigs #1."

Delta Iota Chapter Longwood University

Currently we are involved in many activities. Members of the chapter can be found in all facets of campus leadership positions. Some of these include resident assistants, Greek Council and Order of Omega.

We are working to become more involved in campus activities. This year we produced an excellent effort, only to fall just short of winning Greek Weekend. The brothers are excited for next year and we will hopefully take the top honors.

Our five current pledges will soon be brothers and we will be working hard toward a large spring pledge class. Graduation will see us lose many faces to alumni status but we look forward to the continued involvement of these "new alumni" as well as all of our past alumni. Stay tuned for future events and if you are ever in Farmville, please stop by Frazer Hall and say hello!

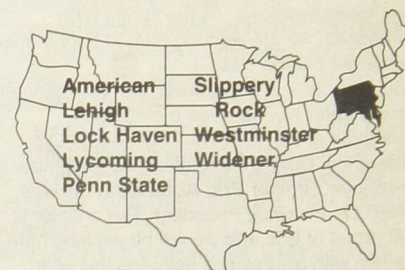

Phi Lambda Interest Group
University of South Carolina-Coastal Carolina
Hello to all Alpha Sigs! We are a brand new fraternity on the Coastal Carolina campus in Conway, and are delighted to now be a part of the Alpha Sigma Phi family!

We have been working hard to put together the organization of our fraternity, and are striving towards excellence, as is the Alpha Sig way. We wanted to start a fraternity to begin something new and to hopefully create a brotherhood that will carry on for future generations of Alpha Sigs on our campus. We have been lucky to find a brother from Alpha Sigma Phi on our faculty at Coastal, **Eric Koepfler, Toledo '78**, to help us with our efforts in making Alpha Sigma Phi a strong fraternity on our campus.

We currently have a couple of houses that brothers are living in around the campus area, but would welcome any calls or visitors from brothers that come by the Myrtle Beach, South

Carolina area. Our number is (803) 347-2713 or (803) 248-3365.

Province VIII

Province VIII

Upsilon Chapter Pennsylvania State University

Greetings to everyone from the host chapter of the 1991 National Leadership Conference. We hope everyone enjoyed their stay here at State College and at Penn State University. It was a pleasure and an honor to be selected to host the NLC. We extend our best wishes to U.N.C.C. in hosting the 1992 NLC&C.

Everything has pretty much slowed down since the conference ended. Right now we are beginning our campaign for the Dance Marathon. Hopefully, we will break the one million dollar mark this year and retain first place for the ninth consecutive year.

There are many other accomplishments that make us very proud. Our chapter worked very hard to get an alcohol policy adopted by the IFC. Consequently, our efforts paid off and on September 23, 1991, an alcohol policy was adopted. This will definitely help the Greek system as a whole and will force all fraternities to play by the same rules.

Another accomplishment that we are proud of is our academic standing. We finished 11th out of 56 organizations with a GPA of 2.84, which is also higher than the all university average. Good things continue to happen at Penn State and we are doing all we can to keep the tradition alive.

Sig Salute! The **Upsilon Chapter at Penn State** sends a salute to the "Class of '58 for their undying, continual, generous support!"

Chapter Reports

Chapter Reports

Chapter Reports

Alpha Nu Chapter Westminster College

The improvements the alumni have been making to the house have been a tremendous boost to our brotherhood. We have been working hard to ensure that Alpha Nu does not ever slip from our #1 position on the Westminster campus. Our rush numbers are very strong and we have been attracting the right men on campus for our fraternity.

Through the continued use of our rushee file system, we have developed our techniques to a virtual science. Every brother takes part in the rush effort to pledge only the best men to Alpha Sigma Phi Fraternity.

In the past year we have been striving to make our fraternity run more smoothly than ever. With "Committee Night" being held each Wednesday, our Vice President has been kept very busy with the amount of activities happening for our brotherhood. We have been striving to maintain the bonds of our brotherhood, both in the chapter, and with our alumni as well. With the continued strong support of our alumni, we are sure to be winning our fair share of awards every year at the national conferences.

Keep an eye out for our upcoming editions of our chapter newsletter and be sure to send in any comments or information you would like to have printed in it. We are looking forward to hearing from you all! Alpha Nu baby!

Beta Epsilon Chapter Lehigh University

Despite a slow rush campus-wide, we were still able to obtain nine fine young men who accepted bids to Alpha Sigma Phi. And we plan to increase that number to 16 during post rush. The main highlights of the rush season were a scrimmage and the always popular Viking Dinner, at which there was a good time had by all. The accepted bids mentioned above were welcome to the fraternity in one of the best Black Lantern Processions in years. We do plan however to increase alumni participation in this and other traditional rituals.

Parents weekend was again a great success. There was a small breakfast held in the morning followed by a tailgate and a great battle between the Engineers and the Tribe of William and Mary. The Engineers prevailed in the end 41-37. Also, due to changes in the duration of the pledge program we have had to shorten it to eight weeks as has everyone else on the Hill. We also helped Tau Epsilon Phi in their annual "Good Scholar Election" raise \$6,274 for the American Cancer Society.

Alumni relations are better than ever and there are plans to improve them even more. The Alumni Golf Tournament will again be held in the spring (more information will be forthcoming).

After last semester's improvement to sixth on the Hill academically we are looking to break into the top five.

Beta Chi Chapter American University

Beta Chi Chapter is off to a successful start. The chapter is working toward the purchase of a new

Alpha Sigs at Westminster College show their perception of the dress code in the 1960's before a recent exchange with a sorority.

residence at the present time. Our current facility is on land leased from the university. This lease is set to expire in July of 1993. We are currently researching our options and working hard to secure interim housing.

Currently, we have pledged 25 men to the chapter in the fall term. The pledges recently went on a retreat to Camp Friendship where they participated in the ropes course. In addition, the pledges joined the brothers on our fall war games in Leesburg. We are very excited about our new members as they will help keep the "Old Gal" leading the way here at American.

In the area of community service, Beta Chi is proud to claim second place in the Delta Gamma Anchor Clankor, an event which raises money for Washington D.C.'s Sight Preservation. We held a very successful annual food drive at Thanksgiving and look forward to more of these events.

Gamma Xi Chapter Widener University

This past summer some major changes were made around the house. Due to fire code requirements, the main stairway was enclosed with dry wall and steel doors on the top and bottom landings. In addition, many other steel doors were installed throughout the house.

Presently we are still working to purchase the house from Headquarters. A recent meeting was held and we have begun to make progress toward this end. The chapter has been working to raise funds and a raffle was held this summer that yielded \$300 toward our cause. Homecoming was a huge success and we were happy to welcome back our alumni. Special thanks to all those who took the time to stop by and chat, as well as those who contributed to our efforts.

Fall rush was a success and we welcomed seven new men into our pledge program. Our rush events were exciting for all and were highlighted by our "Safe Sex Poker Night." We continue to spread the good name of Alpha

Sigma Phi on the Widener campus as the term comes to a close. Events such as our volleyball tournament, our Christmas party and our participation in the Special Olympics Bowling Tournament continue to give us excellent publicity to further our spring rush efforts.

Gamma Rho Chapter Lycoming College

This year has been very exciting. We have really been concentrating on our academics. Consequently, we have instituted several new changes. We have elected an individual to make sure that everyone is up for classes and every individual is also responsible for turning in their midterm grades to the HSP. We are hoping that by emphasizing these particular items, that our chapter GPA will increase.

Another area that we are gearing up for is winter rush. Rush at Lycoming is deferred, consequently, we are hoping to have a rather large class in the winter. Currently, we are holding several informal rush events this semester. A rush event that went over really well, was our Tie-Dye party. The entire campus was invited to come over and we furnished the Tie-Dye.

We also had a very successful homecoming this year. Many alumni showed up in the morning and reminisced with many of their friends on the good times that they had as undergraduates. We would like to take this time to thank all of the alumni who returned and to let you know that you are always welcome.

Delta Delta Chapter Slippery Rock University

Rush proved to be very successful for us this semester. We took five rushees to a Pittsburgh Pirates baseball game as a rush event. A good time was had by all who attended. We presently have six great pledges.

This year for Halloween the chapter sponsored a trick or treat safety project at the Slippery Rock Elementary School. The brothers made reflective

(please turn to page 22)

Chapter Reports

Chapter Reports

Chapter Reports

Several men of the Delta Delta Chapter at Slippery Rock University show how close their brotherhood is by getting together for this photograph.

(continued from page 21)

arm bands for the children and created a list of trick or treat do's and don'ts. Brothers **Edwin Cleary '88** and **Jim Signoriello '89** delivered the arm bands and gave a small presentation on the do's and don'ts list. Halloween night all the brothers went to the Slippery Rock Fire Station and handed out candy to the local children.

This spring we are planning to have a picnic/golf outing for the alumni when the weather warms up. This event is still in the planning stages and no date has been set. Information will be sent to the alumni when a date is known and all the details have been worked out.

Delta Nu Chapter Lock Haven University

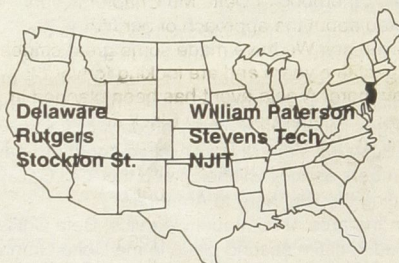

This semester in central Pennsylvania has been very interesting and productive for us here at Delta Nu. Our rush events proved to be very successful. We gave out ten bids and had seven outstanding young men accept the invitation to join our brotherhood. We have very high expectations for these gentlemen as they will soon be leaders in our chapter.

One of the main things we, at Delta Nu, are proud of is our community service record. The semester began with an event where we were asked to set up a rock concert at Lock Haven High School. The second event was raking leaves for a couple in the community. These are only a few of the events that we have completed so far this year. At this point, we have logged over 124 campus/community service project hours, with more to come.

Although we have been keeping busy with community service events and our individual studies, we are doing something different here at Lock Haven. We threw together some ideas for early Rush functions for this past semester. No other fraternities hold Rush functions at the end of the fall term. We hope by doing this, that we will have an advantage over the other fraternities. Consequently, the first event was held Monday, November 10th, as a Monday Night Football party. It was very successful as we had 10 interested

men show up. That about wraps it up for us at Delta Nu. May the good news always be yours.

Province IX

Province IX

Alpha Rho Chapter New Jersey Institute of Technology

This semester started with a bang! The brothers at Alpha Rho had set a goal of 25 pledges. The brotherhood worked in unison to achieve that goal. We introduced 22 very fine young men as pledges this fall. In compliance with our policies, all social and rush events were either dry or BYOB. We relied more on our values and the fraternity beliefs, rather than on alcohol to rush. Brother **Kevin Ruta '90** did a tremendous job along with the help of the brotherhood to put together a terrific rush in spite of numerous setbacks.

Pledge Education is one aspect of our chapter which has experienced numerous changes every semester. However big or small the pledge class is, the pledge educator has an overwhelming job to see that the pledges become good brothers. The belief here at Alpha Rho is to make them good brothers not great pledges. Brother **Nick DeRobertis '90** had an immense task this

semester with 22 pledges. With the help of his committee, it seems that he has done a wonderful job so far. The Phi pledge class has been very enthusiastic so far and we hope that they will do Alpha Sigma Phi proud once they get initiated.

As the old saying goes, "All work and no play makes Jack a dull boy." It is of the utmost importance that a fraternity not remain an entirely serious organization. To introduce some frolic into the ever so monotonous life in a technological school, we have a social committee. The social chairman is Brother **Michael Mitarotonda '87**, and he has constantly given us some fabulous social evenings with some really funky themes. Brother Michael is graduating this semester and his presence will be dearly missed.

In service this semester we organized a 24 hour See-Saw marathon with the sisters of Alpha Sigma Tau. The event went very well under the leadership of **Tim Holcomb '91**. We raised nearly \$1300 for babies with AIDS, at our local Babyland.

Scholarship was probably the toughest task this semester. Brother **Tony Parsio '88** has been constantly putting forth new ideas to improve the chapter GPA. Scholarship, with the help of the House committee, converted the old walk-in cooler into a study with a fully functional computer. A tutoring program has been set up to help brothers in certain subjects.

Alumni relations are getting better and better. Brother **A. J. Griglak '89**, who is also the Corresponding Secretary, has organized many events with the alumni. Football, basketball, poker-smoker and a Founding Father's social party are just a few.

This semester has also put the Alpha Rho Chapter into the limelight. We have clearly emerged as the leaders on this campus. Seven brothers hold positions in the student government. The members of Alpha Sigma Phi are participating in various campus activities. The campus newspaper, the yearbook, the radio station, the student activities council, soccer team, baseball team, chess club and the hockey club are only a few organizations where Alpha Sigs are zealously involved. Last semester we came in third in Greek Week activities. Brother **Humberto Baquerizo '91** won the most active freshman award and Alpha Sigma Phi won the Greek volleyball championship. The colors of Alpha Sigma Phi were glorified by all its sons seeking "To Better The Man."

A great alumni idea

Just when you thought you knew all the ways to involve your alumni, another great one rolls your way. The Alpha Rho Chapter undergraduates keep the N.J.I.T. alumni informed of various activities via a telephone "hotline." Alumni (and other chapters) can dial (201) 623-7777 anytime and get a quick run down of chapter activities. Kudos are in order for this ingenious way to keep in touch with your alumni!

**Alpha Tau Chapter
Stevens Institute of Technology**

So far this year, we have accomplished many things. We started off with a relatively successful rush. After having two formal rush events at our house, we concluded the formal rush with an all sports night. Included in the activities were pool, cards and darts. This night turned out to be one of the most successful rush nights on campus. When formal rush came to a close, we ended up pledging five men to the seven points. What we lack in quantity with this pledge class, we made up for in quality.

One of our main goals this semester is to finish on top in sports points. We advanced into the finals of Bombardment, and we are preparing to do the same in volleyball and basketball. One of the other goals we have for the semester is to increase our community service efforts. Consequently, we will be holding our annual Thanksgiving food drive for the homeless, as well as raising money from the soda fund to give to charity.

As far as the condition for our urban domicile goes, we are continuing to work to keep the condition of the house very attractive and one of the nicer homes at Stevens. Consequently, we have put in a great amount of time and money into fixing the roof, as so that we no longer get wet while sitting on the inside. One other project that we hope to start very soon is to upgrade the third floor. We hope to see all of you soon and you are always welcome to come and visit us in Hoboken.

**Beta Theta Chapter
Rutgers University**

After beginning the fall semester, many brothers set their sights on retaining the Chapter Excellence Award. Only four chapters on Rutgers campus received this award last year and it is one of our goals to retain this award for yet another year. We also received several other awards this past year: Excellence in Membership Recruitment, Excellence in Public Relations, Excellence in Educational Programming, Excellence in Campus Involvement, and Brother **Steve Marcinek '89** won the Outstanding Greek Award.

To maintain these awards we are continuing in the progress that was made last year. For example, we held a Date Rape Awareness workshop that was open to the entire campus. The event was very informative and well received by everyone.

We have also done something interesting in our pledge program. We find selected inspirational readings like "The Bridge Builder," gather all of the brothers together, who are dressed in black, and read these to the pledges by candlelight, similar to the event that was shown in the movie *Dead Poets Society*. This event has been very popular and educational for all.

We would also like to take this time and congratulate Brother **Howard Kidd '54**, on receiving the Delta Beta Xi Award. Brother Kidd has been very active in this chapter immediately

following graduation. All his time and effort are greatly appreciated.

**Delta Lambda Chapter
Stockton State College**

We are working very hard at Delta Lambda Chapter and are very excited about the next few months. The chapter had an excellent fall rush and pledged a great group of men to the seven points.

We are proud to be the first group given the opportunity to "Adopt-a-Highway" for Atlantic County. Our stretch of highway borders the Stockton State College Campus and we have been working very hard to keep it looking great. The chapter recently participated in alcohol awareness week activities and supplied a wrecked car that was placed in sight of all to remind them of the hazards of drinking and driving.

As the spring approaches we have numerous events planned and look forward to once again competing in the Greek Week activities. If you are in the area please stop in to G-Court and visit the chapter!

**Delta Mu Chapter
William Paterson College**

The brotherhood of Delta Mu Chapter is very excited about the approach of our fifth anniversary. We have made some great strides in the past five years and are looking forward to many more! A gala event has been planned in lieu of our usual December Black and White. The Black & White will be held instead in the spring this year. Look for details in the near future.

Last year we initiated our 100th member and will be initiating 17 more this term to bring our total number of initiates up to 123 total initiates. We are looking forward to another strong rush this spring and have set a goal of 14 men, a goal that we feel is easily attainable given our performance in the fall.

To date the chapter has logged more than 100 man hours of community service. Events included our annual work with Big Brothers/Big Sisters of Bergen/Passaic County, visits to an area nursing home and working at a Paterson soup kitchen. Our fundraising event for the fall semester is a Donkey Basketball game with proceeds to support the Student Government Association Toys for the Needy Program.

Homecoming yielded a phenomenal turnout from our alumni. A luncheon was held and plans are in the works to develop an alumni board for the chapter. The alumni seemed very enthusiastic and a mailing is planned, so stay tuned for further developments.

**Delta Pi Chapter
University of Delaware**

The Phi Iota Interest Group is proud to announce our long awaited chartering on December 14, 1991. The event was held at the Wilmington Radisson Hotel at six o'clock. We have worked very hard toward this gala event and were pleased to welcome all who attended.

Current efforts of the chapter have been directed toward fulfilling the requirements of chartering and receiving full recognition on the

Chapter Reports

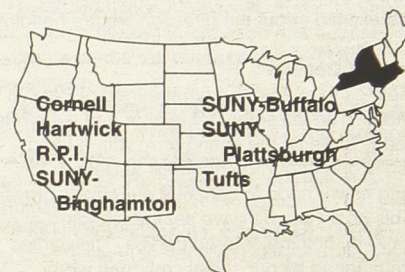

Chapter Reports

Chapter Reports

University of Delaware campus. We are enthusiastic about our future and our next project will be the acquisition of some form of housing suitable for fraternity life. Fundraising has been a vital part of this and we are continuing our efforts in this area. Recently the chapter held a very successful car wash.

Special thanks to all those who have been so helpful to us in our continuing efforts to reach chartered status. While it has been a long and hard process, it has truly served "To Better The Man!"

Province X

Province X

**Iota Chapter
Cornell University**

At Rockledge this year, nothing but good news abounds. After rush had taken place last year, we found ourselves being the second most preferred fraternity at Cornell. We believe this to be a compliment not only to ourselves but to Alpha Sigma Phi nationally. Currently, there are 45 fraternities at Cornell.

We also did something new this year. We held a retreat away from the house where the main focus was on the ritual. We thought that if we went through certain aspects of the ritual and reflected on the meaning, that we would find answers to most of our problems. We also had a few alumni in attendance and their assistance was greatly appreciated.

We are also proud of our academic record. We currently have a chapter GPA of 3.1 with the university GPA being a 2.89. Hopefully, we can improve in this area as well, as we hope to get some assistance from our alumni into setting up an awards program.

**Beta Iota Chapter
Tufts University**

For us, the men of Beta Iota, the fall term has been one of preparation. This fall we have set our sights on having an outstanding rush in the spring. We have set a goal for ourselves of obtaining 12 quality men. Right now we have planned for several events to draw many young men who are interested in Greek life to give us a look.

(please turn to page 24)

Chapter Reports

Chapter Reports

Chapter Reports

(continued from page 23)

One of the things that we accomplished this year, was to have the administration bestow upon us a first-class rating. Only three other fraternities at Tufts were selected to meet the criteria for this rating. Also this semester, we held our annual Sig Bust. This year it was held on Homecoming. The event was kicked off with a tailgate party before the Tufts/Amherst game, of which Tufts came out victorious. Many distinguished alumni were able to return and everyone had an enjoyable time.

Finally, we held a wilderness survival game on the 17th of November. The event was quite a success as the men from Beta Iota fought relentlessly to defeat our opponents. We are very proud of our accomplishments this year and even more excited about the direction we are heading.

Beta Xi Chapter Hartwick College

Greetings to everyone from the men of Beta Xi Chapter. The fall semester is over and everyone is ready to begin the spring term with a bang. Rush is one of our top priorities at Beta Xi this spring as we hope to continue our strong growth.

This past year we have set the standard at Beta Xi by holding catered parties. The parties were planned by our social chairman who contacted a caterer. The caterer was in charge of carding at the door and making sure that each individual was buying beer only for themselves. The new procedures have been very successful and we are hoping that other fraternities at Hartwick will follow our lead.

We are also extremely proud to have had a member from Beta Xi Chapter receive the $\Lambda\Sigma\Phi$ National Scholar of the Year award for two consecutive years. Consequently, it is one of our chapter's goals to win it again this year. Along with that, we hope to improve our academics all the way around.

Beginning in 1993, the city of Oneonta will have the right to vote on our existence at 71 Spruce Street. So as you can see, one of our other main concerns is to keep our community relations optimum.

Beta Psi Chapter Rensselaer Polytechnic Institute

As spring approaches, we at Beta Psi have accomplished many things. Many of our accomplishments have come from the refurbishment of our two houses. Last year, construction was begun on the main bathroom in the main house. Consequently, the contractor has moved out and the project is completed. The next project was to fix the lower bathroom in the annex. Construction was also completed on that and we now have very up to date facilities.

Some of our other accomplishments deal with the success of our rush. We changed some of our themes this year. One of the themes that many of the rushees enjoyed as well as the brothers, was a spelunking expedition just south of Albany. Many brothers and rushees loaded up in cars to find a cave and began what has now become a tradition.

Looking ahead into the future, we hope to fill both houses. This can only happen through the efforts of an effective rush by the entire brotherhood. We also hope that we can get together with the other chapters in our province to once again share the brotherhood that we experience through being a member in Alpha Sigma Phi, America's Premier Fraternity.

Sig Salute! **David Kaiser, R.P.I. '75**, President of the Beta Psi Chapter Alumni Corporation salutes chapter alumni brothers "**Neil**" **Murphy, R.P.I. '66**, **Jeff Wright, R.P.I. '78**, and Co-Grand Chapter Advisor **Paul Stockert, R.P.I. '80**. Brother Kaiser stated "all three made valuable contributions of time or money that greatly assisted in the refurbishment of our houses' bathrooms."

Gamma Epsilon Colony State University of New York at Buffalo

At the beginning of this year, we were put to the task of placing together a rush plan by the entire brotherhood. Part of the plan consisted of acquiring a mailing list from the university for all eligible males who could rush. From this, we disseminated 1600 letters. We are hoping to get a decent response from these letters as we pushed the Greek system as a whole, rather than Alpha Sigma Phi. We also realize that the main focus of our rush has to rely on follow-up and personal contact. Hopefully by taking this approach, we will be able to meet our goal of having 25 men pledged to the colony by February.

We also held a successful homecoming event this year. The event started off with a tailgate party before the football game. Many undergraduates and alumni were able to attend as we watched Buffalo win the homecoming contest.

One of our other accomplishments this past year has been acquiring a house. The house is located just a few blocks from campus and is giving us a place to call home for our brotherhood. We look forward to joining Alpha Sigma Phi as a chapter very soon.

Delta Xi Chapter State University of New York at Plattsburgh

This year many great things have happened to us up here in "The Great White North." The Alpha Sig football team has done the best in the entire history of our chapter, under the leadership of Brother **Derek Averell '90**.

Also this year, we launched a "no holds bar" rush campaign. Over 45 men turned out to see what makes Alpha Sigma Phi the premier

fraternity on Plattsburgh's campus. Consequently, we took nine outstanding pledges.

One of the best events that we held this year, was the "2nd Annual Pig Roast." Many alumni returned to Plattsburgh for the college homecoming weekend and were treated hopefully to one of the best welcomes in the history of Delta Xi. The 135 pound pig was roasted in our front yard under the supervision of Brother **Mark Sortman '88** and the feast was enjoyed by all. All brothers and alumni are looking forward to next year's pig roast.

Many activities are planned for us this spring semester. Some of those are: an alcohol and drug abuse prevention program, building a new playground for the children of Project Head Start, moving the city museum to a new location, as well as many social activities. We welcome and encourage all Alpha Sigs to attend any of these events. Hope to see all of you soon in Charlotte, North Carolina.

Phi Theta Colony State University of New York at Binghamton

Greetings to everyone from Phi Theta Colony. We hope everyone has had an outstanding semester. Just as we are sure everyone else is having a great year in the "Old Gal," so are we. One of our main accomplishments was acquiring an apartment that acts as our fraternity house. The place holds fifteen members with a large common area consisting of a large screen TV and a pool table. The facility has enabled us to host quite a few parties with other Greeks from Binghamton.

One event that went over extremely well was our Annual Halloween Bash. This is an event that is put on by the pledges as part of their pledge program. They did an exceptionally fine job, right down to the printing of invitations.

While coming to a close of another semester, we are getting geared up for winter rush. This year we took three outstanding pledges and we hope to get 15 more in the spring. We currently have planned many events for the winter rush, including many informal events such as dinners and just going out with the guys type stuff. See you soon in the next issue of *The Tomahawk*. □

ALPHA SIGMA PHI NEWS & NOTES

AUNIVERSITY OF ALABAMA

William Boyle '40, Panama City, FL, is retired. He is the recipient of the Outstanding Senior Citizen Award, presented by the Jaycees in Bay County.
