

To the Executive Council of the Alpha Sigma Phi Fraternity

E, the undersigned members of the IOTA SIGMA DELTA, a local social fraternity at the Carnegie Institute of Technology, do hereby petition for admittance as a Chapter to Alpha Sigma Phi Fraternity, pledging ourselves to uphold and maintain its high standard and reputation, if accepted.

Respectfully submitted for approval,

COLLEGE OF FINE ARTS

Carnegie Institute of Technology

Historical Sketch

The Carnegie Institute of Technology, formerly the Carnegie Technical Schools, was founded by Mr. Andrew Carnegie. In a letter to the Mayor, dated November 15, 1900, Mr. Carnegie tendered to the City of Pittsburgh the money to establish a technical institute upon the condition that the city would provide a suitable location of ample size for future extensions.

On November 26, the Mayor transmitted the communication from Mr. Carnegie to the members of the Select and Common Councils of the city. On December 15, 1900, Mr. Carnegie placed the Technical Schools under the direction of the Board of Trustees of the Carnegie Institute, and on January 28, 1901, the City of Pittsburgh accepted Mr. Carnegie's gift.

In the course of the year 1902 a site was selected, and in February, 1903, the Trustees, meeting with a committee of the Councils, approved a tract of thirty-two acres of land adjoining Schenley Park near the Carnegie Institute building, as the home of the new institution. This was acquired by the city in September of the same year and tendered to the Carnegie Technical Schools. Mr. Carnegie then agreed to place at the disposal of the Trustees of Carnegie Institute a sufficient fund with which to erect the necessary buildings.

In April, 1905, ground was broken, and in October of the same year the Schools opened their doors to students. As new structures were made ready for occupancy, additional departments were inaugurated. The demand upon the Schools for technical training has been such as to make constant extensions necessary, and Mr. Carnegie, therefore, has not only provided funds for new buildings, but has increased his original gift one million dollars to the present endowment of approximately nine millions, with an additional expenditure of five millions, for buildings and equipment.

In June, 1908, the Institute awarded its first diplomas, graduating students in chemical, civil, electrical, mechanical and metallurgical engineering from the Division of Science and Engineering and students in architecture from the Division of the Arts.

On April 20, 1912, the name "Carnegie Technical Schools" was changed officially to the "Carnegie Institute of Technology," and the institution received from the State of Pennsylvania a charter of incorporation, with the power to confer degrees. The first degrees were given at the fifth commencement in June, 1912.

Buildings

The Carnegie Institute of Technology, which is situated in close proximity to the Carnegie Institute, is made up of four groups of buildings, which house the College of Science and Engineering, the College of Industries, the College of Arts, and the Margaret Morrison College for women. The style of architecture adopted for these buildings is simple, dignified and serviceable. The construction throughout is fire-proof. On the grounds of the Institute of Technology are also Machinery Hall, which contains the laboratories for the Electrical and Mechanical Engineering Departments, and the Power Plant for the Institution; the Central Building, which houses the executive offices, the Students Club-room and Restaurant; the Athletic Field House with the Gymnasium; and the Langley Laboratory of Aeronautics.

The following is a list of buildings in the order of their construction:

- April, 1905—First buildings for the College of Industries.
- November, 1905—Power Plant.
- December, 1906—Portion of Machinery Hall.
- September, 1907—Group of buildings for Carnegie College for Women.
- December, 1908—Two buildings for College of Science and Engineering.
- October, 1910—The Athletic Field House.
- September, 1912—A large portion of the building for the College of Fine Arts.
- November, 1913—Machinery Hall completed.
- September, 1914—Central Building.

October, 1914—West wing of Carnegie College for Women.
 September, 1915—Two dormitories for men and an extension to the College of Industries.
 February, 1916—Two wings to the building of the College of Fine Arts.
 April, 1917—Three dormitories for men.
 April, 1918—The Langley Laboratory of Aeronautics.
 March, 1918—Two dormitories for men.

Method of Support

The demands upon the school for technical education were so great as to make early and frequent extensions necessary. The founder in consequence provided funds as needed, for new buildings, equipment, and endowment, until his original gift of \$1,000,000 had grown in 1920 to an investment of approximately \$14,750,000.

In the early summer of 1921, however, more money was needed and the Carnegie Corporation of New York added \$6,590,000 to the funds of the Carnegie Institute of Technology. The new appropriation is to be used as follows:

For expenses over a period of twenty-five years	\$5,640,000
For repairs and replacement of equipment.....	350,000
For a new gymnasium.....	600,000

Another large item is the \$8,000,000.00 conditionally given. For every dollar given by friends the Carnegie Corporation will give two dollars. The time limit for this is July 1, 1946, and if the plan goes through \$12,000,000.00 will be added to the endowment of Carnegie Institute of Technology.

Statistics of the Growth of Carnegie Institute of Technology

	1905-1906	1922-1923
Number of Students.....	765	4736
Faculty.....	61	350
Graduates.....	0000	2700
Number of Departments.....	12	27

Number of Buildings.....	2	23
Annual Expenditures.....	\$ 72,540	\$ 934,000
Endowment.....	\$2,000,000	\$9,500,000
Grounds.....	\$ 350,000	\$ 350,000
Buildings.....	\$ 800,000	\$4,000,000
Equipment.....	\$ 60,000	\$ 900,000

The above figures do not include the appropriation made by the Carnegie Corporation during the early summer of 1921.

Scope of the Work

The Carnegie Institute of Technology is concerned primarily with technical education. It offers courses in engineering for men (the College of Science and Engineering); courses in the fine and applied arts for men and women (the College of Fine Arts); courses in the industries for men (the College of Industries); courses for women which combine the training for the home and for a profession (the Margaret Morrison Carnegie College for Women). The Division of Applied Psychology offers courses in Psychology and education to undergraduate students in all the Colleges and to postgraduate students, opportunities for research which lead to advanced degrees.

The Schools

College of Engineering

The College of Engineering offers courses of study leading to a degree of Bachelor of Science, in preparation for the principal fields of engineering and research work in applied science. The courses require attendance for four school years, during which the student follows a schedule of approximately fifty-four hours of work per week, variously divided, according to the subjects, between class room or laboratory and home study. In some courses the student is also scheduled for a short session of summer school, devoted to field work at Camp Louise Carnegie.

The work for the first year is the same for all courses, the time being devoted to instruction in those studies which form the basis of a technical education. After completion of the work of the first year, the effort of the student is generally concentrated upon preparation for a

COLLEGE OF INDUSTRIES

MARGARET MORRISON COLLEGE FOR WOMEN

particular profession. The following courses leading to the degree of Bachelor of Science are offered by the College of Engineering.

- 1—Chemical Engineering
- 2—Commercial Engineering
- 3—Mechanical Engineering
- 4—Metallurgical Engineering
- 5—Civil Engineering
- 6—Electrical Engineering
- 7—Mining Engineering

College of Industries

The College of Industries prepares men for executive positions in the manufacturing, building, electrical and printing industries. The courses in these various fields are for four years and lead to the degree of Bachelor of Science; they are designed to give the student a thorough technical knowledge combined with a sound business training. A unique feature is the shop work, which approximates as nearly as possible actual working conditions. The subject matter of instruction is a combination of technical and economic subjects so balanced as to furnish a thorough foundation for the various executive positions. Each student is required to do about fifty-four hours of work per week; this includes class room recitation, laboratory and shop exercises, and outside preparation.

Candidates for admission must be high school graduates, or they must have had equivalent training.

The following courses leading to the degree of Bachelor of Science are offered by the College of Industries.

- 1—Building Construction
- 2—Electric Equipment and Construction
- 3—Industrial Engineering
- 4—Power Plant Operation and Management
- 5—Graphic Arts
- 6—Teachers Course in Industrial Education
- 8—Sanitary Engineering
- 9—General Science
- 10—Training for Teachers in Science.

College of Fine Arts

The College of Fine Arts is located on the crest of the campus, and represents the most important architectural contribution to the Institute.

Courses open to both men and women are offered in Architecture, Painting, Decoration, Illustration, Normal Art, Music, Dramatic Arts, and Sculpture. Courses given by the Division of Academic Studies make it possible for the student to acquire a general education co-incident with technical experience.

The degree of Bachelor of Arts, Architecture, or Music is awarded to students who complete the regular day course. The length of time required to secure a degree varies with individuals, but a minimum of four years is necessary for a degree.

Margaret Morrison Carnegie College for Women

The Carnegie College for Women is located at the east end of the campus near the College of Fine Arts. The college offers four-year courses leading to a degree of Bachelor of Science in the following courses:

- 1—Household Economics
- 2—Costume Economics
- 3—Arts and Crafts
- 4—Secretarial Studies
- 5—Social Work
- 6—General Science

Teachers' courses in all of the above departments are also offered, with the exception of Social Work.

Camp Louise Carnegie

In connection with the Carnegie Institute of Technology is operated Camp Louise Carnegie, which is situated near Pittsburgh, on the Allegheny River. It is a tract of 750 acres, used as an engineering camp and experimental station, where students in certain courses are stationed for scheduled periods of the year for their field work. The large house on the property provides suitable instructional and living quarters.

The camp is also used as a training camp for the football team, the members of the squad reporting there about two weeks before the opening of the regular school term.

Entrance Requirements

Applicants to the degree courses are admitted, (a) upon presenting a certificate which indicates the completion of an approved preparatory course; (b) upon passing examinations prescribed by the College which they wish to enter; (c) by the combination of (a) and (b).

As the Institute does not maintain a list of accredited schools, each applicant for admission is considered individually. Well-prepared graduates of approved high or preparatory school courses may be granted exemption from some or all of the entrance examinations provided an interval of less than one and one-half years shall have elapsed between their graduation and their entrance. This time limit may be extended for applicants who have been in the Government service or have been engaged in scholastic work.

The exemption from entrance examinations by the ability and preparation of the individual student does not apply necessarily to all graduates of any given preparatory school. To take advantage of this privilege, detailed information and specific recommendations from the principal of the school are necessary.

Prospects for National Chapters at Carnegie Institute of Technology

Statistics show that only twenty per cent. of the students of the Carnegie Institute of Technology are fraternity men. This is due to the extraordinary growth of a young school. The proportion of fraternities to the size of the student body is smaller than in many other colleges, thus giving the opportunity for a more careful selection of prospective members. Until 1916 only one National Fraternity was represented on the campus. Since then seven others have made their appearance. It is obvious that these fraternities have enjoyed their greatest progress

after receiving National Charters. It is also an apparent fact that the unusual conditions at this Institution make it a suitable field for expansion of National Fraternities.

Athletics at the Carnegie Institute of Technology

With the appointment of a Graduate Manager and the adoption of the Freshman eligibility rules, Carnegie Tech has placed its athletic status on a par with the best colleges and universities in the country. The 1922 Football team completed one of the hardest schedules in the history of the school and came through with a record of five victories, one tie and three defeats. Such teams as Yale, Washington and Jefferson, Penn State and Notre Dame were played. Coach Walter P. Steffen, a former All-American quarterback, who played under the tutelage of the famous Alonzo Stagg (whose Maroons, by the way, will play Tech in Chicago, in 1923), is the Plaid Mentor.

The Cross-Country squad has made an enviable record the past two seasons, taking the Tri-State Championship in 1921 and the Allegheny Mountain Association Championship this Fall. The Baseball team, under the efficient tutelage of that old National League Baseball idol, Honus Wagner, has proved its ability to cope successfully with the best college teams in this section. In Basketball, Carnegie Tech has made great strides and the future for this sport looks promising. Track has always proved a strong major sport at Tech. In 1920 the team participated in five dual meets, winning them all. At the Penn Relays last spring, Tech took the one mile relay championship for Technical Schools. Carnegie Tech has held the Tri-State Tennis Championship for three years and the outlook for another crack court team this spring is promising in view of the fact that Charles Garland, former member of the Davis Cup Team, is taking over the coaching of the team. With the completion of the new gymnasium in the Fall of 1923, it is likely that some of the minor sports, such as wrestling, swimming and boxing, will become more prominent.

IOTA SIGMA DELTA HOUSE

ENGINEERING BUILDING

History of the Fraternity

Up until the school year 1915-1916 the relationship between the students of the various schools on the Carnegie Tech Campus was more or less divided, each group catering to its own division and tending thus to destroy the general school spirit. This condition was in a large measure aided by the fact that the fraternities on the campus at that time chose their men from one particular school. It was with the idea of bringing about a more harmonious relationship that a representative group of ten men came together on Thanksgiving Day of 1915 to discuss the organization of a fraternity that would be representative of Carnegie Tech.

At this meeting a temporary chairman was elected who appointed a committee to draw up a constitution and make definite plans for organization. At the same time an appropriate name was discussed and adopted as follows; Iota Sigma Delta, Iota signifying Industries, Sigma signifying Science and Delta signifying Design. The fraternity pin in the form of a triangle made its appearance on the campus the following Christmas Day. By June of that same school year the fraternity had established itself on a firm foundation with a total membership of twenty-four. During the following summer a house committee arranged to rent a furnished home and, when school was resumed the following Fall, the returning members enjoyed a prosperous year, up until April, 1917, when all activities in a normal way were discontinued, the school having been put under control of military authority with the declaration of war. Shortly afterward the fraternity ceased to function—all its members having enlisted in some branch of the service.

In the Fall of 1919 only four of the original members of Iota Sigma Delta returned to school, who set about to reorganize. Eight men were initiated in May, 1920, and six were pledged before the end of the year, all of the new men being Freshmen. Twenty-four students were made active members during 1920-21 in which year the fraternity regained much of its former standing. The faculty advisers Professor C. J. Taylor and Dr. J. H. James were initiated as active members, and during Campus Week (Alumni homecoming week), Iota Sigma Delta won the Inter-Fraternity Pushmobile Sweepstakes trophy cup. In the fall of 1921 a furnished house large enough to accommodate the whole membership was obtained, and now, with the fraternity on a firm basis, more interest was given to school activities and the scholastic standing of the members.

As a result of these combined efforts the scholastic standing was raised from thirteenth place among sixteen fraternities to fourth place among nineteen fraternities. The 1921-22 Inter-Fraternity Basket Ball Cup was also won by the Iota Sigma Delta team. During the year a voting membership was granted in the Inter-Fraternity Council giving the Iota Sigma Delta the distinction of being one of the few local fraternities having a vote in the council. The significance of this is brought out when it is considered that there is one national fraternity on the campus at the time of writing that does not have a vote in the council. At about this time all the fraternities on the campus with one exception changed their policies by initiating men from all three colleges thus adopting the original plan of the Iota Sigma Delta.

Economic Situation

With the fraternity thus firmly established the next step to be considered was that of making some provision for the building and furnishing of a permanent home. To this end the fraternity finally decided to adopt a plan whereby each active member and alumnus, who wished to be considered in good standing in the event of nationalization, take out a five hundred dollar (\$500) twenty year endowment life insurance policy from the Travellers Insurance Company; or if not considered eligible for such insurance by the company pay to a sinking fund the amount of twenty dollars (\$20) per annum, that being the average value of the annual premiums paid on each policy. This plan is to be continued until the total investment has reached one hundred thousand dollars (\$100,000). At the present time the total number of policies taken amounts to fourteen thousand five hundred dollars (\$14,500) and a Sinking Fund of two hundred dollars (\$200). It might be added that the Sinking Fund may be used to carry along temporarily any policy, should the person insured find it inconvenient to pay the premium at the stated time. This of course is limited as to time and amount by a set of by-laws covering the plan. These by-laws state definitely that the proceeds from the investments shall be used for no other purpose than to build and furnish a home for the fraternity and that no action may be taken whatsoever without the sanction of three-fourths of all members of the fraternity, both active and alumni.

During the summer of 1922 the House Committee set about to locate a more attractive and a larger home and as a result of their efforts

the present house was secured. The committee also purchased complete furnishings and equipment necessary for operating a modern fraternity house, with total valuation of twenty-five hundred dollars (\$2,500). The total indebtedness involved in this transaction amounts to one thousand dollars (\$1,000) in the form of a note, and a sinking fund is being set up which will amount to one thousand dollars (\$1,000) in five years, at which time the note matures. It might be mentioned at this point that this note is the only item of indebtedness with which the fraternity is burdened.

Social Situation

Each year the Iota Sigma Delta Fraternity holds its annual formal dance at one of the local hotels. Another affair held outside of the house is the annual banquet to which all of the alumni are invited. About six informal house dances are held during the school year, which representatives of other fraternities attend. An active part is taken in all inter-fraternity functions. The fraternity invites outside students to smokers and dinners, in this way keeping in touch with the student body.

Policy of Iota Sigma Delta

It is the policy of Iota Sigma Delta to choose its men from the three colleges upon the campus, it being felt that in so doing the fraternity will be broadened and strengthened. All members are encouraged to take a part in both athletic and non-athletic activities, and the keenest of rivalry is maintained between the members of the different classes to secure the highest scholastic standing, thus tending to keep the rating of the fraternity in general as high as possible.

Iota Sigma Delta adheres strictly to the rushing rules laid down by the Inter-Fraternity Council at the Carnegie Institute of Technology. It requires that a student must have completed satisfactorily one term of the regular school year, must be registered in a degree course, and must be in good standing as interpreted by the Institute eligibility rules, in order to be a candidate for initiation into the fraternity. A list of prospective initiates is submitted to the Dean of Men to be passed on for scholastic standing. A candidate must be of white birth and a professed Christian, as well as of a high and clean moral character. Before any name is submitted for consideration by the fraternity, the pledging committee investigates the general desirability and qualifications of the prospective candidate. If the finding of the committee shows a prospective pledge not qualified, his name is not submitted for chapter vote. If the finding of the committee is favorable the name of the prospective

pledge is submitted at a regular business meeting and after careful consideration a unanimous vote of all active members is necessary to pledge the man. Two initiations are held each year.

In order to have a well-balanced organization the number of men from each of the four classes is kept as nearly equal as possible. At the present time the number of seniors is greatly in the majority, due to the fact that with the reorganization in 1919-20 only Freshmen were pledged. However, the other classes are about evenly divided, so that with the graduation of the present seniors, the fraternity will have a membership of about thirty, which includes the men that will be initiated this year.

A Summary of Administration with Officers and Members

Faculty Members

PROF. CHARLES J. TAYLOR

Head of Department of Painting and Illustration, College of Fine Arts, C. I. T. L. L. B. Columbia University 1875; A. M. Middlebury College 1909. Professor Taylor was born in New York City in 1855. Much of his art training was obtained under the tutelage of Eastman Johnson and Emanuel Lentze. His work has been exhibited at the

National Academy of Design, the Society of American Artists, Pennsylvania Academy of Fine Arts, the Art Institute of Chicago, the Paris Salon, the Chicago World's Fair, and the Paris Exposition. In 1901 he was awarded a medal for work shown at the Pan-American Exposition at Buffalo and in 1907 was awarded a medal for work shown at the Carnegie Institute. He is a member of the American Federation of Artists, the National Geographical Society, Pittsburgh Artists Association, Pittsburgh Architectural Club, Society of Illustrators, Art Club of Philadelphia, and the Players Club of New York. Professor Taylor has worked in collaboration with Mark Twain, Albert Bigelow Paine, Brander Matthews, Edmund Clarence Stedman, Edwin Abbey, Phil May, Edward Redfield and Robert Henri. He has done illustrating for "Life," "Puck," "Judge," London "Punch" and other periodicals. He has illustrated numerous novels and books.

DR. JOSEPH HIDY JAMES

Head of Department of Chemical Engineering, College of Engineering, C. I. T. B. S., Buchtel College 1894; Ph. D., University of Pennsylvania, 1899. Tau Beta Pi. Dr. James has been at various times teacher, industrial chemist, and inventor. He is best known for his research work and patents on acetylene storage. He is a member of Iota Sigma Delta, but has indicated that he does not wish to be included should the fraternity be granted a charter from a national fraternity.

The active members of Iota Sigma Delta Fraternity desire that the Alpha Sigma Phi Fraternity consider the following alumni members to be included in this petition.

ROBERT C. BOWERS

York, Pa.

Age 28. Prep. School: York High School. College of Fine Arts, C. I. T. College Activities: President Tech Architectural Club 3; Tau Sigma Delta Honorary Fraternity 3, 4. Junior member of firm: A. T. Link, Architect, Pittsburgh, Pa.

SANTFORD R. WILSON
Allegheny, Pa.

Age 21. Prep. School: Bellevue High School. Prep. School Activities: Philomath Literary Society 1, 2, 3, 4; Cheer Leader 3, 4; Asst. Football Manager 4. College of Fine Arts C. I. T. College Activities: Class Secretary 3, 4; Cheer-Leader 4; School Y. M. C. A. 3, 4.

Hagerstown, Ind.

Age 26. Prep. School: Hagerstown High School. College of Fine Arts, C. I. T. College Activities: Freshman Basketball; Baseball 2; Glee Club 2, 3; Orchestra 2, 3, 4. Served in U. S. Army in World War. Member of Firm: Werking and Son, Architects, Richmond, Ind.

A CAMPUS SCENE

Recommendations

PITTSBURGH ALUMNI COUNCIL ALPHA SIGMA PHI FRATERNITY

We, the undersigned members of the Pittsburgh Council of Alpha Sigma Phi Fraternity, heartily recommend that the Iota Sigma Delta, a local fraternity at Carnegie Institute of Technology, Pittsburgh, Penna., be elected into the membership of active chapters of Alpha Sigma Phi.

Members of the Council have personally investigated the above mentioned fraternity and are of the opinion that they are well qualified for membership in Alpha Sigma Phi for the following reasons:

- | | | |
|-------------------------------------|--------------------------|-----------------------------------|
| 1. Scholarship | 2. Fellowship | 3. Interest in College Activities |
| 4. Quality of the Associated School | 5. Geographical Location | |

DAVID DIBBELL, Alpha, '22

J. S. MALOY, Upsilon, '17

BENTON H. JAMES, Omicron, '17

Executive Council, Alpha Sigma Phi Fraternity,
47 West 42nd Street, New York City.

December 20, 1922.

Gentlemen:

In connection with the application one of our local fraternities, the Iota Sigma Delta, is making for nationalization with the Alpha Sigma Phi, I wish to convey to you not only my endorsement of the application, but a word of recommendation in behalf of the Iota Sigma Delta. It is one of our two strongest local organizations, and by a well-sustained effort over a period of something like five years, it has brought itself into a position of strength that provides a good foundation for a national chapter.

Those in charge of the petition will doubtless submit to you such information about the Institute as you may need. I believe we possess adequately those qualifications as to faculty, endowment, buildings, equipment, pitch of courses, and character of student body, to which you give careful scrutiny in considering petitions. It would hardly be appropriate for me, in any event, to praise too generously my own institution. I should prefer that information as to our relative standing with similar colleges should come from other sources. I will, however, add that we are doing sound and conscientious work, equivalent in standard and scope to that done in leading engineering schools.

Yours very truly,

THOMAS S. BAKER,
Acting President,
Carnegie Institute of Technology.

Mr. Charles E. Hall, Ex. Secy.,
Alpha Sigma Phi Fraternity,
47 West 42nd Street, New York City.

December 13, 1922.

Dear Mr. Hall:

I am informed by a representative of the Iota Sigma Delta Fraternity, a local fraternity at this institution, that it is about to make application for a charter as a chapter of the Alpha Sigma Phi Fraternity.

My endorsement is readily given in this instance, for the following reasons:

1. The relations between the Iota Sigma Delta Fraternity and the administration of the Carnegie Institute of Technology have been most satisfactory.
2. With regard to scholarship, it is gratifying to know that this Fraternity raised its position from thirteenth place out of sixteen fraternities in 1920-21 to fourth place out of nineteen fraternities in 1921-22.
3. Its members, as I have observed them, have taken their fraternity obligations seriously, have developed consistently and conscientiously, and are now in a position to warrant petitioning for a national affiliation.
4. From the angles of standards of conduct, participation in activities, loyalty to the school, and in selection of new members, they have not been found wanting.
5. The present group is a sound one on which to found a chapter, and the time is propitious as regards conditions at this institution.

I sincerely hope that the Iota Sigma Delta will be favorably considered in your deliberations.

Yours very truly,
A. W. TARBELL,
Dean of Men.

December 8, 1922.

To the Executive Council, Alpha Sigma Phi Fraternity:

The members of the Iota Sigma Delta Fraternity inform me that they are now petitioning to be granted a chapter of the Alpha Sigma Phi Fraternity in this institution.

It gives me pleasure to recommend the Iota Sigma Delta men heartily for your consideration. This fraternity has an excellent reputation both for scholarship and for school spirit. Being a member of the Psi Upsilon Fraternity myself and remembering the many advantages that I derived from its membership not only during my college course, but afterwards, I am anxious to have the local fraternities of this institution become chapters of national organizations.

I hope very much indeed that your committee will favorably consider the petition of the Iota Sigma Delta Fraternity. I am confident that this little group will contribute to your prestige and that their association with you will result in their attaining even higher standards.

I shall be glad to furnish you with any further information that you may desire.

E. R. BOSSANGE,
Director of College of Fine Arts.

The Executive Council,
Alpha Sigma Phi Fraternity.

December 15, 1922.

Gentlemen:

I am pleased to comply with the request of a representative of our local fraternity, Iota Sigma Delta, that I write you a letter with reference to their application for a charter.

My personal acquaintance with the members of this fraternity is limited to the period since their reorganization in 1919. Their membership is drawn from three colleges of this Institution and in my official capacity I am acquainted with the work of only those men who are registered in the College of Engineering.

The scholarship record of the entire group is excellent and they have rapidly come to the front as one of the leading fraternities (both national and local) which comprise our Inter-Fraternity Council. Their members are active in Institute affairs, both athletic and social, as well as in other general student activities.

The attitude of the administration of the Carnegie Institute of Technology is favorable to fraternities as a part of the development of student life and I feel that the Institute is a place where any national fraternity may confidently establish one of its chapters. I do not hesitate to state that my own experience at several institutions has put me in a position to judge of the merits of student groups and I am glad to assure you that the members of Iota Sigma Delta are worthy of the confidence of your national organization. I therefore heartily endorse their application for a charter from the Alpha Sigma Phi Fraternity.

Yours respectfully,
WM. E. MOTT.
Director, College of Engineering.

To the Executive Council, Alpha Sigma Phi:

December 6, 1922

Dear Sirs:

It is a great pleasure to be able to recommend Iota Sigma Delta to you as a prospective Chapter of Alpha Sigma Phi. It has been my fortune to have been in personal contact with a large percentage of the members of that local organization during the last three years here at Tech, and I can truthfully say that they conform to my idea of what a local organization should be when they petition for a charter in a National Fraternity. I came to this school from Lehigh, where I was a member of Theta Delta Chi, and so as a stray Greek on the campus of Carnegie, my opinion is absolutely impartial and unbiased. Socially, I have visited the Iota Sigma Delta House several times and have always been treated with the utmost hospitality and greatest possible courtesy.

Carnegie Tech is a young school but it is rapidly coming to the fore as an educational institution. Due to the small number of National Fraternities on the campus and also to the advancing reputation, the conditions are most favorable for the installation of a Chapter of your Fraternity at Carnegie Tech.

Hoping that you will consider the petition of Iota Sigma Delta favorably and that we will soon be able to welcome Alpha Sigma Phi to Carnegie Tech, I am,

Sincerely,
CHAS. W. JEFFERS,
President, Student Activities Board.

To Alpha Sigma Phi National Fraternity:

December 13, 1922.

I am very glad to add a word of commendation on behalf of the members of the Iota Sigma Delta Fraternity. I am personally acquainted with their faculty members and with a number of student members. I am unqualified in my belief that you will make no mistake in accepting them into the membership of your honorable Fraternity.

The scholarship standing of the students during the past year is noteworthy and their good fellowship is of the highest order.

Yours very sincerely,
JOHN T. MORRIS,
Director of College of Industries.

Gentlemen:

December 12, 1922.

I, Basil Norman Greenlaw, of the Gamma Omicron chapter of the Delta Tau Delta Fraternity, have been a guest at the home of the Iota Sigma Delta Fraternity for the past half year and have been acquainted with most of the members of the fraternity for the past three years. I have found the men of this fraternity to be of excellent character, studious, and most hospitable. Their one big aim seems to be to make their already excellent fraternity a better and stronger one in every way, and I believe that it is an organization that any National Fraternity would be fortunate in accepting.

Signed,
BASIL NORMAN GREENLAW.

To Whom it May Concern:

December 14, 1922.

Iota Sigma Delta, a local Fraternity at the Carnegie Institute of Technology, is an organization which we take pleasure in recommending that it be granted a charter in Alpha Sigma Phi.

Iota Sigma Delta has taken an active part in campus affairs for a number of years and has always stood for the advancement and betterment of the Institution. It has proved itself capable of managing its affairs successfully, and many of its members have attained prominence about the school in scholastic and non-scholastic activities.

We feel that they would reflect credit on Alpha Sigma Phi, and we wish them early success in their endeavor to obtain a charter.

Sincerely,
DAVID C. PORTERFIELD,
President, Carnegie Chapter,
Delta Upsilon.

To Alpha Sigma Phi Fraternity:

December 12, 1922.

It is indeed a pleasure to have the opportunity to recommend for your consideration, the Iota Sigma Delta Fraternity located at the Carnegie Institute of Technology, Pittsburgh, Pennsylvania. I feel sure that I voice the sentiment of our chapter when I give my hearty endorsement to this fraternity and feel that they would be a credit to your organization should they be installed here under your name. They stand very high in scholarship, activities, and morals and should be given every consideration when the time comes for your decision.

Sincerely yours,
ALLEN E. WIERMAN,
President, Gamma Iota of Beta Theta Pi.

To the Executive Council,
Alpha Sigma Phi Fraternity:

December 15, 1922.

Gentlemen:

It was with great pleasure that the General Inter-Fraternity Council of Carnegie Institute of Technology learned that Iota Sigma Delta Fraternity is about to petition Alpha Sigma Phi.

Iota Sigma Delta has proven itself through scholastic standing, school activities, and type of men to be worthy of favorable consideration by your fraternity.

This group of young men have shown through their work in this council that they are in a position to carry on the work of a national fraternity.

It is the hope of the members of the council that Alpha Sigma Phi will see fit to act favorably on their petition.

Very truly yours,
General Inter-Fraternity Council,
RALPH H. HUMBERT,
President.

Executive Council,
Alpha Sigma Phi Fraternity:
Gentlemen:

December 15, 1922.

We, the members of Pennsylvania Phi Chapter of Sigma Alpha Epsilon Fraternity, know the Iota Sigma Delta Fraternity to maintain a high scholastic standing as well as being active on the campus. Therefore, we heartily recommend their organization in their efforts for your recognition.

Very sincerely yours,
LOUIS R. TURCOTTE,
Eminent Archon.

Executive Council, Alpha Sigma Phi,
New York, N. Y.

Gentlemen:

It gives me much pleasure to recommend most highly the Iota Sigma Delta Fraternity, a local fraternity which has proved itself during its existence here to be an unusually excellent social organization.

Each member is a regular degree student pursuing a degree course, the standards of which are second to none in this country. The fraternity has maintained very high scholastic standing, ranking fourth among the nineteen fraternities here which competed for the scholarship trophy given by the Faculty Club.

Fully seventy-five percent of the members of this fraternity are taking an active part in the activities on the campus.

The Iota Sigma Delta Fraternity is, without a doubt, one of the strongest and most active fraternities on the campus.

Very respectfully yours,
ROLLIN V. DAVIS,
Executive Secretary of Y. M. C. A.

Executive Council,
Alpha Sigma Phi Fraternity:
Dear Brother Greeks:

December 14, 1922.

It gives me great pleasure to recommend the Iota Sigma Delta Fraternity, a local organization at the Carnegie Institute of Technology.

As an organization, they stand very high at the Institute, being fourth in scholarship with nineteen competing fraternities, and among the first in athletics and activities. And since their founding have given increasing opposition in all branches of academic life to other fraternities on the campus. Their keen interest in every activity, and their increasing prominence is indicative of their internal organization, and their worth.

As men, they are each gentlemen, and no higher esteem can be given any group of men.

I feel that there is no college in the country, that has better possibilities for expansion, and which is gaining prominence more rapidly than Carnegie Institute of Technology.

Therefore, I recommend the Iota Sigma Delta Fraternity, as being a real active organization, and hope that the Alpha Sigma Phi Fraternity will reward them for their past efforts.

Fraternally and sincerely,
HOWARD A. BOWMAN,
Commander, Sigma Nu.

To the Executive Council,
Alpha Sigma Phi Fraternity:

December 15, 1922.

Gentlemen:

It has come to our notice that Iota Sigma Delta Fraternity is about to petition for a chapter of Alpha Sigma Phi.

We, the Pi Chapter of Theta Xi, through constant association with the members of Iota Sigma Delta feel in a position to highly recommend their members as ideal men to carry on the work of a national fraternity at the Carnegie Institute of Technology, and we know they would be an asset to any national organization.

We would welcome a chapter of your fraternity on the campus and hope that Iota Sigma Delta will receive favorable consideration.

Very truly yours,
C. N. HARWOOD, President

December 14, 1922.

Alpha Sigma Phi Fraternity:

It is very easy to say a few words of recommendation for the members of the Iota Sigma Delta Fraternity.

I am well acquainted with most of their members and can say that they are worthy men and that they are very active in school.

As a fraternity they stand well with all those represented on the campus.

Very truly yours,
A. C. IRWIN,
President, Delta Alpha of Kappa Sigma.

ALPHA SIGMA PHI FRATERNITY

47 WEST 42ND STREET

NEW YORK, N. Y.

OFFICE OF THE
EXECUTIVE PRESIDENT

May 15, 1924.

From: The Grand Prudential Committee.
To: The Active Chapters, Alpha Sigma Phi.
Subject: Petition of Iota Sigma Delta at Carnegie ; Letter of Transmittal.

1. We are glad to transmit to the Active Chapters of Alpha Sigma Phi, for action thereon, under Seal of the Fraternity, the petition for a charter to Alpha Sigma Phi Fraternity from Iota Sigma Delta of the Carnegie Institute of Technology of Pittsburgh, Pa.

2. The Grand Prudential Committee endorses this petition unan-
imously, and trusts that it will receive your favorable consideration at
an early date and that you may render a similar decision.

3. Accompanying this petition is the official report of the
Grand Junior President, together with reports from two investigating com-
mittees appointed by him. You will note that one committee is composed
of alumni while the other is made up of active members from nearby chap-
ters of our fraternity. These committees recommend Iota Sigma Delta most
heartily as an organization deserving recognition, as does also our Grand
Junior President, Brother Clarke.

4. Our Pittsburgh Alumni Council has known Iota Sigma Delta
for several years. The recommendation of that council, composed of rep-
resentative alumni from many of our chapters, and also the commendatory
letters from the President, the Dean of Men, and the Directors of several
of the Schools at the Carnegie Institute are attached to the petition.

5. In addition, you will find among others favorable letters
from the "Tech" chapters of Delta Upsilon, Beta Theta Pi, Sigma Alpha
Epsilon, Sigma Nu, Theta Xi, and Kappa Sigma. There is also a letter
from the General Interfraternity Council at Carnegie Tech.

6. Your chapter is requested to take action on this petition
at as early a date as may be convenient; to record your vote on the Of-
ficial Ballot provided; and to return the same to this office. A majority
vote of the active members present at the meeting at which action is taken
will be favorable to the petition; less than a majority will reject it.

Yours in the Mystic Circle,
THE GRAND PRUDENTIAL COMMITTEE,

Harris F. Mac Neish

Harris F. Mac Neish
Executive President.

ALPHA SIGMA PHI FRATERNITY

47 WEST 42ND STREET

NEW YORK, N. Y.

OFFICE OF THE
GRAND JUNIOR PRESIDENT
1056 FIRST NATIONAL BANK BUILDING
CHICAGO, ILL.

May 10
1924

Grand Prudential Committee
Chapters and Members of
Alpha Sigma Phi

Gentlemen:

I have the pleasure to transmit to you the enclosed original petition of Iota Sigma Delta of Carnegie Institute of Technology with its recommendations and the reports of the investigating committees.

I believe that as indicated from the reports of these committees, we certainly have an opportunity of establishing a chapter which will be a credit to our organization. It seems to me that the reports of the committees cover everything which you may desire to know, and there is really nothing that I feel I can add to these reports.

However, I had the good fortune of finding it necessary to make a business trip to Pittsburgh in the early part of April and had an opportunity of visiting this group, and spent a short time with them. From my observation of this body of men in this short period of time, I can only say that I could not do anything else but recommend them to you as a very fine body of young men and assure you that they measure up in all respects to the requirements of our organization. My inspection of the campus and the institution generally was only superficial, and for a more thorough and intelligent report as to this phase of the matter, I can only refer you to the committees' reports. I might add that my impressions received from my casual observations were, however, nothing but favorable. The personnel of the committees is such that I place every confidence in their report and feel that you can do the same.

Trusting that you may act favorably on this petition, I am

Yours sincerely,

(SIGNED) BENJAMIN CLARKE.

BC:L

Pittsburgh, Pa.

April 26th, 1924.

Mr. Benjamin Clarke,
Grand Junior President,
Alpha Sigma Phi Fraternity,
38 South Dearborn Street,
Chicago, Illinois.

Dear Brother Clarke:-

The committee of Active Men appointed by you to investigate Iota Sigma Delta, the petitioning local at Carnegie Tech have completed their work and hereby submit their report after an actual survey of conditions on the Carnegie Campus.

The Carnegie Institute of Technology covers a much broader field along educational lines than was our belief before investigation. Our impressions were that it was more or less of a technical school only, but we found that such opinions were entirely in error. The Institute covers practically all lines of undergraduate education, and degrees are given in all these various departments.

Fraternities play a very important place in the life of the school. We have our authority for such a statement not only from personal observations on the Campus but from talking with such men as Dr. Tarbell, Dean of Men, Mr. E. K. Collins, Assistant Registrar and an old Amherst man and Mr. Howard Bowman, Sigma Nu, who is President of the Inter-Fraternity Council. There is no doubt in the minds of this Committee but that Carnegie is a school of the same high calibre that at present support chapters of our fraternity and that fraternities there justify their existence.

College spirit is good, and growing and relations between various fraternities are most exceptionally cordial. There are numerous inter-fraternity contests on the campus that undoubtedly aid in maintaining such relations.

Carnegie, although relatively a young school has already developed a host of traditions and traditional doings. Chief amongst these may be mentioned:

Campus Week
Poverty Day
Gambol of the Guilds
Arts Ball
Science Stag Smoker

Her alumni are returning more and more each year to their Alma Mater for these gatherings.

The student government, inter-fraternity council, and other forms of student control are very firmly and efficiently organized.

Also the general type of the men in this institution compares very favorably with that of other schools in which we have chapters. This we ascertained from personal observation on the campus, in campus buildings and in fraternity houses.

The Schedule ("A") appended hereto indicates that the majority of the students are not from the Pittsburgh district. Almost half of the total enrollment is drawn from outside of the state of Pennsylvania and nearly every state in the union is represented. Taken as a whole the school is very cosmopolitan.

The percentage of Jews is very small and has not shown a tendency to increase. At present it approximates 7%.

The general attitude of the fraternities here seems to be against taking in very many men from the Pittsburgh district. Iota Sigma Delta limits their Pittsburgh membership to about four or five. Their chapter roll this year includes three active members and two pledges from Pittsburgh.

The history and record of this group corresponds to that stated in the petition of the local.

Their scholastic standing has been very good for the past few years. In the school year '21-'22, they ranked fifth, and in the year '22-'23 fourth. We find that the first semester of this year they dropped to sixteenth place. However, we are sure that this is merely a temporary condition. It is undoubtedly due to the fact that they were quarantined for scarlet fever during this semester, and because of this, three men dropped out of school which caused the group to receive failures for all the honors carried by their men. This will also affect this semester's standing as these failures will be counted in on the year's work. We find that their freshman class standing for the past semester has been excellent, but their rating was not counted in on the general average. Their scholastic standing for the coming year should place them among the first eight of the various groups, if not a trifle higher.

Their reputation with the faculty is of the very highest esteem.

Secretary Davis, of the Y.M.C.A. states that; "they are very helpful to him in his work and help in all the work suggested by the school".

E. K. Collins, Assistant Registrar, says that: "not only is the general fraternity outlook itself very good, but he recommends this particular group".

Dean Tarbell speaks very favorably of the group and states that all his dealings with Iota Sigma Delta have been very satisfactory and that the office has never received any complaints against this local fraternity.

Their reputation on the campus is also high. In talking to a few freshmen on the Tech grounds, we found that this group was known and stood very favorably among the various groups.

Howard Bowman, Sigma Nu, President of the Inter-Fraternity Council, states that they are represented in that body by having a vote in the council regarding group affairs. He speaks very highly for them and firmly believes that they are entitled to a national fraternity and will be a credit to such a body.

On the evening of Friday, April 25th, your committee enjoyed dinner at the Iota Sigma Delta house.

We were very favorably impressed with the personnel of the petitioning group. They have the real Alpha Sig spirit and a very good method of treating visitors.

At present they are located in a house held under lease and are planning to build as soon as possible. The building fund is handled through an insurance company in the form of 20 year endowment policies. Each member, before initiation, is required to take out a \$500.00 policy with the fraternity as beneficiary. In case the candidate is refused a policy he is required to pay \$20.00 a year into a sinking fund. This fund is used to keep the policies intact in case any one fails to make a payment. So far there has not been a single case of failure along this line. At the present time the insurance in force amounts to approximately \$25,000.00.

The chapter moved into their present quarters in the fall of 1922 and incurred an indebtedness of \$2,500.00 at that time. This has been reduced to one note of \$500.00, held by one of the members. Last year the house cleared \$1,400.00 over and above current expenses. All in all the fraternity's financial condition is excellent.

The Committee desires to express its thanks for this permission to serve the fraternity. In closing our mission we cannot urge too strongly upon the Active Chapters the advisability of admitting Iota Sigma Delta, as a sister Chapter within the circle of Alpha Sigma Phi.

Fraternally submitted,

The Active Investigation Committee
For Iota Sigma Delta,

(SIGNED)

Mr. Benjamin Clarke
G.J.P. Alpha Sigma Phi
38 South Dearborn Street
Chicago, Illinois

Dear Brother Clarke:

Your committee after having made careful investigation of the Iota Sigma Delta of Carnegie Tech, is pleased to submit the following report.

1.- At the very beginning it should be understood that Carnegie Tech has experienced a phenomenal growth which can be accounted for by the large endowment provided by its founder, Andrew Carnegie. Courses are offered in a number of colleges and the institution has rapidly taken its place among the leading American universities largely because of the scope and thoroughness of its courses. The somewhat general impression that it is exclusively a Technical School is in error. In addition to its high grade Engineering School, it occupies a high place with its college of Industry and also its college of Fine Arts. A degree from this institution in any branch is now held in very high honor and receives universal respect. The petition prepared by Iota Sigma Delta covers this information in a straightforward manner without exaggeration. From the standpoint of general scope your committee is of the opinion that Carnegie Tech measures up to the qualifications very well as compared with other universities where Alpha Sigma Phi already has active chapters.

2.- Carnegie Tech draws a student body of a very fine type. There are about five thousand (5,000) students, as the petition shows. One third of these are women, leaving over three thousand (3,000) men from which to recruit Fraternity membership. It has a very high percentage of its student body coming from outside the local territory. All the Northern, New England and many states from the West are represented in the student body. In this it is a more desirable field than the University of Pittsburgh, whose student body is very largely made up from the local territory. Picked men come to Carnegie Tech seeking its special advantages. The petitioning group is representative of what we can always expect for the appeal of Carnegie Tech is making an ever wider range.

3.- The petition gives a good account of the history of Iota Sigma Delta. Your committee has found such recommendations as those of President Baker and Dean Tarbell entirely within the facts. Their scholastic standing and general reputation with the faculty and on the campus is entirely satisfactory.

From the standpoint of finances, the organization is in splendid condition. The petition stated they are in debt for a note of one thousand (\$1,000.00) dollars. Since the petition was written this has been reduced to five hundred (\$500.00) dollars and very likely will be paid off in full by the end of this year. Their finances have been very carefully supervised and are conducted in a most business-like and orderly manner. Several men of the group come from families of some means and we find they have a very deep interest in the welfare of their organization. The house is well equipped with attractive furniture and accessories. Their plan of establishing a building fund is a very wise one and is receiving splendid support from the members of the organization. Their outlook from a financial standpoint is very encouraging and we feel is better than is generally to be found in a local group making a petition.

We are pleased to report that the time spent with these men has been altogether pleasant. We found them a very wholesome bunch, characterized by very good manners and with an ability to receive and entertain guests in a gracious manner. We find they have always conducted all their negotiations with the Pittsburgh Alumni Council in an entirely frank and dignified manner.

Your committee is in full sympathy with the endorsement which this petition has already received from the Pittsburgh Alumni Council. This council is made up of representatives of over half the chapters of our Fraternity and as an organization is unanimously in favor of admitting the petitioning group into the Mystic Circle of Alpha Sigma Phi. In our judgment we have also found these men entirely worthy of membership in our Fraternity. We have conducted this investigation with full appreciation of our responsibility to you and to the Fraternity, doing this work in a careful and serious manner and we do not therefore hesitate to give this petition our unqualified recommendation. We urge that it be submitted at once to the chapters with a recommendation for immediately favorable action.

Thanking you for the honor which you have conferred upon us in asking us to act in this capacity, we are

Yours with the kindest regards and best wishes,

(SIGNED)

IRA M. SMITH, Epsilon, '13.
NORMAN C. LUCAS, Kappa, '13.
CHARLES J. FOX, Iota, '09.

September 26, 1924.

Mr. Robert W. Smith,
6573 North Woodstock St.,
Germantown, Philadelphia, Pa.

Dear Bob:

Since I saw you last I have resigned from the office of Executive Secretary, and am no longer officially connected with headquarters. As soon as I can get out the August TOMAHAWK, I shall give up the office of Editor also.

I thought I had better communicate this to you right away so that in case you do not hear anything from headquarters about the Carnegie matter, which we were discussing, that you would know the reason why. I presume it is the intention of the new Executive Secretary, Brother Mitchell whom you met while here, to follow out my suggestion as to getting in the balance of the votes still out. I cannot say, however, whether that plan will be followed or not, or whether the matter will be left up to Brother Clarke to handle.

At any rate, I suggest that you keep closely in touch with the matter and if at any time I can be of service, please do not fail to call on me. Although out of office, I still hope to keep up correspondence with you (You know, I am a rather poor writer, however), as I hope to do with my many friends with whom I have been in close touch during the last five years. My address, for the present at least, is 524 West 114th Street. My plans for the future are uncertain. It is quite possible I shall be able to get to Philadelphia in the near future, and if so I shall try and look you up.

Kindest regards.

Fraternally yours,

Chas. E. Hall.
