The Report of the Grand Junior President

ALPHA SIGMA PHI FRATERNITY

OFFICE OF THE
GRAND JUNIOR PRESIDENT
51 CHAMBERS STREET
NEW YORK

New York, December 15th, 1919.

To The Chapters of Alpha Sigma Phi Fraternity.

Gentlemen and Brethren:-

The enthusiastic reports of the men who were appointed to investigate the Palisades Fraternity at Iowa State College, Ames, Iowa is handed herewith to you. I cannot but endorse the recommendations therein contained.

The standing of the college is above question and therefore has met our first requirement.

The fraternity situation there seems to point to success for the new Chapter if our consent is given and the fact that it has existed as a successful local for eight years is evidence that it must be in a good environment and also composed of the right type of men.

But the third and last requirement that after the first two are met the men who compose the petitioning body must be of proper calibre to be worthy members of this Fraternity is undoubtedly met. I purposely appointed on this investigating committee men who represented both the alumni and active membership of this organization. I feel that I was very fortunate in my selection. The only regret that I have is that Brother Van Stone could not also have been present. But Winslow is a man of sterling worth and good judgment and what he says is 100% in value to me. His opinion also speaks for itself.

On the side of the actives we have the reports of three whose judgment, interest, and fairness I have always found trustworthy. Their words are also favorable and speak for themselves. Thus we have the views of both actives and alumni favorable and I cannot see what more we can demand. Winslow, Pierce, Pinther, and Lucas all agree the petition should be acted ^{upon} favorably and I am glad to add my indorsement to their's. I have investigated all the conditions from other sources as well as from the petition itself and I heartily recommend that this petition be granted.

Fraternally yours in A.S.P.,

(SIGNED) WAYNE MONTGOMERY MUSGRAVE.

ort History of the Iowa State College

HISTORY OF THE INSTITUTION.

This should give the name, date of founding, location, endowment, method of support, names of departments maintained and degrees conferred, and if located at different places this fact should be noted, number of students, male and female, equipment of the institution, names of fraternities represented, prospects for a new chapter if located there as your petitioners see it, etc.

"IOWA STATE COLLEGE OF AGRICULTURE AND MECHANIC ARTS"

An act establishing "A State Agricultural College and Model Farm" to be connected with the entire agricultural interests of the state was passed by the Iowa Legislature in 1858. This legislature also appointed a board of commissioners to buy a farm and erect a college building, and selected a board of trustees to secure a faculty and organize a college. In 1859 a farm of six hundred forty acres situated near Ames was purchased.

In 1862 Congress enacted, and President Lincoln signed a bill entitled, "An act donating public lands to the several states and territories, which may provide colleges for the benefit of agriculture and the mechanic arts".

The General Assembly of Iowa, September 11, 1862, accepted the grant upon the conditions and under the restrictions contained in the act of congress, and by so doing entered into contract with the general government to erect and keep in repair all buildings necessary for the use of the college. By action of the General Assembly the college was changed from an agricultural institution into a college of Agriculture and Mechanic Arts with a broad and liberal course of study, in which the leading branches of learning should relate to Agriculture and the Mechanic Arts, and which should also embrace such other branches of learning as would most practically and liberally educate the agricultural and industrial classes in the several pursuits and professions of life, including military tactics. Iowa State College of Agriculture and Mechanic Arts conducts work in five major lines, - Agriculture, Engineering, Home Economics, Industrial Science, and Veterinary Medicine.

It offers a degree of bachelor of science in the following departments: Agricultural Education, Animal Husbandry, Bacteriology, Botany, Chemistry, Dairying, Economics, Engineering, Farm Crops and Soils, Farm Management, Forestry, Geology, Horticulture, Mathematics, Physics, Veterinary Anatomy, Veterinary Pathology, Veterinary Physiology and Zoology. The higher degrees are the Master of Science and Doctor of Philosophy for advanced work in the technical fields, especially developed at the college; and the professional degree of Civil Engineer (C.E.), Electrical Engineer (E.E.), Mechanical Engineer (M.E.), Engineer of Mines (E.M.), Ceramic Engineer (Cer.E.), Chemical Engineer (Ch.E.), Agricultural

Engineer (A.E.), Master of Agriculture (M.Agri.), and Master of Forestry (M.F).

The college occupies a delightful location upon high rolling land a mile west of Ames, Story County. Situated at the junction of the north and south branches and the main double track line of the Chicago and Northwestern railroad, and connected with all the trunk lines of Iowa, Ames is easily accessible from all parts of the state. Street car service is at hand from Ames to the College Campus.

Of the entire college domain 1,342 acres valued at \$3,973,570.67 one hundred eighty-five acres are set apart for college grounds. These includes the experimental plots, the young forestry plantations, the surroundings of professors' dwellings, and the central campus with its beautiful walks, drives, and its trees, shrubbery and flower gardens, and its large and stately buildings. The true principles of landscape gardening have been so faithfully observed in the gardening and in the location of buildings and drives as to make the entire campus a large and beautiful park. The income of the College from National and State sources is therefore expended in instruction, experimentation and illustration in Agriculture and in the Mechanic Arts and in the underlying and related sciences and literature.

Fifty commodious buildings besides the dwelling house and buildings for farm stock, machinery and work have been erected by the State for the exclusive use of the various departments. Some of these buildings are the best in the country and valued from \$400,000 to \$500,000.

The war affected the attendance at all schools, and consequently the attendance is practically cut in two at the present time. Now there are 1100 men and 400 women attending, while previous to the war the enrollment was about 2200 men with 500 or 600 women, making a total for the nine month school somewhere between 2800 or 2900 students, and then adding summer school student attendance, it neared the 5,000 mark.

There are nineteen fraternities represented at Iowa State College, including Sigma Nu, Sigma Alpha Epsilon, Beta Theta Pi, Phi Gamma Delta, Alpha Tau Omega, Kappa Sigma, Theta Xi, Acacia, Delta Tau Delta, Phi Sigma Kappa, Pi Kappa Alpha, Phi Delta Theta, Phi Kappa Psi, Delta Upsilon, Alpha Gamma Rho, Tau Kappa Epsilon, Sigma Phi Epsilon, Sigma Chi, Lambda Chi Alpha.

Also eleven honorary fraternities are represented namely: Alpha Zeta, Tau Beta Pi, Phi Kappa Phi, Phi Lambda Upsilon, Gamma Sigma Delta, Delta Sigma Rho, Omricon Nu, Sigma Delta Chi, Scabard and Blade, Jack-o-Lantern, Theta Sigma Phi.

In athletics Iowa State College has ranked well with the Western schools. It has always had a strong football team, and at the present time Charles W. Maysen, a Yale man, is Athletic director and coach in football, baseball and wrestling. In wrestling, Iowa State College has held the Western Championship for two succeeding years. The track and basketball squad always makes an enviable record, all which draw strong athletes to this school.

The prospects for a new chapter, as seen by the petitioners, are indeed promising for the war has brought back many new students who have seen the value of education, and there is promising material for making a new chapter strong in a short time with the nucleus it now has to build upon. The enrollment is going to increase at an enormous pace, and will consist of students that are here for a purpose who will be an asset to any organization.

History of the "PALISADES" Club.

HISTORY OF PETITIONING BODY.

This should give a full history of the petitioning body from its foundation, with names of officers, number of alumni, social status of the organization, its economic situation, i. e. its property, such as a house, furnishings, etc. and all information that will show the collective results of the associated efforts of the individuals composing the unit.

Feeling the need of closer association and organization to better cultivate their social, moral and intellectual abilities, a group of students at the Iowa State College in the spring of 1911 organized a local social fraternity which on April 12th of that year was incorporated under the name "PALISADES". During the eight years since that date this organization has steadily grown in membership and influence.

Now in the spring of 1919 the affairs of the Palisades are conducted under the leadership of the following officers and executive committee:

President: F. G. Thornton
Vice President: P. N. Robson
Secretary: E. Thayer
Treasurer: S. E. Penney
Steward: W. A. Lockling
Executive Committee:
Active Members: P. N. Robson, B. F. Schroeder
Ingwal Horgem
Alumni Members: S. M. Dietz, R. E. Woodford

The alumni list of this organization includes the names of twenty-six men, all of whom are regularly contributing to the house building fund account. As shown by the individual records, this number includes seven men who are in the employ of the United States Department of Agriculture, two employed by the Iowa State College, and three who are still in military service.

The members of the Palisades are proud to say that this organization in social standing ranks among the best fraternities at Ames. It has also emphasized the development of the social abilities of each and every one. Previous to the war a policy of having three dances and one dinner party each semester was followed; and now that the college work is on the quarter basis two dances and a dinner party are being given each quarter. These are all given in the chapter house, as this has a dining hall and dancing parlors which for size and arrangement are unexcelled in

any fraternity house at the Iowa State College.

The Palisades has been growing stronger financially each year. At the present time the chapter owns all the house furnishings except those in the dining room and kitchen. The parlor is well equipped with a piano, davenport, six large rockers, reading table and "Brunswick". A building fund account was started in the fall of 1915, which now includes on deposit at the Ames National Bank about six hundred and fifty dollars. This fund will be used in the near future in buying a building site following which shares of stock will be issued to build a new chapter house.

During its history this organization has passed successfully through several crises. One of these in particular showed what could be accomplished through the closely associated efforts of its members. A chance opened in the late spring of 1916 to lease a better chapter house. In order not to lose this opportunity a contract was drawn up for the new house even though it was practically certain that the old house could not at that late date be released or sub-leased. In the fall of that year sixteen Palisades members returned to College, and because of their unity of purpose and spirit pledged a strong group of new men and thus filled up the new house, while on the other hand rooms were rented and a boarding club established in the old house, which made that a paying business proposition until January first when the owner took active charge. Meanwhile the members and pledges took an active and leading part in college activities.

Because it has encouraged both individual and cooperative efforts among its members and pledges, and has upheld the best ideals of leadership, Palisades now counts among its active members three members of Alpha Zeta, the honorary agricultural fraternity of the Senior class, the honor student of the Agricultural division, two members of the college debating team, an ex-president of the College Y.M.C.A., the champion tennis player of the school and captain of the tennis team, the captain of the Cross Country Team which for three years has been champion of the Missouri Valley Conference, two track stars, a member of the College baseball team, a member of the Cardinal Guild which is the student governing body, the president of Agronomy Club, and the captain-elect of the wrestling team, who for two years has been champion one hundred thirty-five pound collegiate wrestler of the middle western states.

Communications and Letters of Recommendation

(Copy)

Omaha, Nebraska,
November 24, 1919.

Mr. Wayne M. Musgrave,
51 Chambers Street,
New York City,

Dear Brother Musgrave:-

Your committee met in Ames, Iowa, November 22, 1919 to conduct an investigation of the Pallisades Fraternity; Brother Van Stone being absent and Brother James A. Lucas substituting for Brother Jones, of Nebraska. Brother Lucas arrived November 21st, Brothers Pinther, Pierce and myself arriving the morning of November 22nd.

Saturday morning we devoted to meeting and investigating the personnel of the Club. They all proved to be fine fellows, clean cut, enthusiastic, and generally speaking, men who would be rushed and pledged by our own chapters.

We also took a trip around their campus which is very fine, and in the afternoon we interviewed some of the faculty, all of whom spoke highly of the organization as one which took an active part in all campus activities and always worked in harmony with the faculty and the various student organizations. Mr. Knapp, the registrar, showed us the statements which he had prepared on the various Fraternities and Clubs, which showed that the Pallisades had an average grade of 85.69, the highest grade being 88.01. There were twenty two organizations with lower standing and eight with higher standing, which I think shows that they are good material from a scholastic point of view.

In athletics, they have two men on the Ames Cross Country Team which won first place at Columbus, Ohio in the big ten meet the day we were at Ames. They also have the Captain of the wrestling team and two other men who are generally expected to make the team. In this connection, I would say that cross country and wrestling are two big sports at Ames, wrestling ranking next to foot-ball. They also have a number of men on class teams.

W. M. M. continued.

They have men belonging to the various honorary Fraternities and Clubs, also the Business Manager of the Ag. paper. They also have a man on the Cardinal Guide, which is the organization governing student affairs at Ames and from the Ames student's point of view is super honorary.

Socially, they stand very well as Brother Pinther and Pierce will testify since they made dates for the Cardinal Guild dance given Saturday evening, for these brothers, the girls being according to Brothers Pinther and Pierce's phraseology "the class of the campus". The conditions under which these dates were made being most adverse since there are about three thousand men at Ames and only eight hundred girls, and further than this, all arrangements were made late in the afternoon. Brother Lucas having interests at Ames did not need any hand to guide his course. As for myself I spent a very enjoyable evening with some of the Alumni and members who did not wish to attend the dance.

Financially, we found that they own all of their furniture, have no outstanding bills and have something over \$700.00 in their building fund. They are renting their present house but are now about to close a deal for the purchase of a lot on which they expect to build in the near future.

The house which they now occupy is well arranged and very commodious. At present they have about thirty men living there and three or four men living at home in Ames.

The writer being compelled to leave Ames at 9:40 Sunday morning, your committee held a meeting late Saturday night or rather early Sunday morning, it being about one thirty, at which time we unanimously agreed to make a favorable report and to highly recommend to you and to the various Chapters that the petition of the Pallisades Fraternity of Ames, Iowa be granted as soon as is consistent with our methods of procedure. All of the committee feel that they would make a very good addition to our present chapter roll.

W. M. M. continued.

Acting as Chairman of the Committee, I instructed each of the members to turn in an individual report which should reach you about the same time this does. Brothers Pinther, Pierce and Lucus planned to spend all day Sunday there and will probably have some additional information for your consideration in their reports.

I might add that while waiting for my train I met and talked with the President of the Fraternity Pan Hellenic Council of Ames (which does not take in local Fraternities). He informed me that the Pallisades Fraternity had petitioned the Pan Hellenic Council for approval to petition Alpha Sigma Phi, which approval had been granted before they sent us their petition so that in all probability the Pallisades Fraternity would be taken into the Council on becoming a national, this being his personal opinion since he could not say for the Council. My reasons for getting this information was that one national was not taken into the Council for a couple of years after they got their charter, but this was largely due to irregularities in procedure. It seems they did not ask permission of the Council before petitioning, but since the Pallisades have complied with all the formalities and ^{that} have a good organization, I personally am satisfied ^{that} they will have no trouble on this ground?

Yours in Alpha Sigma Phi,

(Signed) IRVING D. WINSLOW (Mu 1913)

Chairman, Investigation Committee

Madison, Wis.

November 26, 1919.

Alpha Sigma Phi Fraternity:

Dear Brothers:-

As a member of the committee, appointed by Brother Musgrave, to visit Area Iowa and look over the Palisades Club, I wish to make the following report.

The Palisades Club stands exceedingly high in my opinion. They have been established long enough, since 1911, to have an excellent standing on the campus. They have a number of strong athletic letter men in the house and have men in practically every activity. Their scholastic grades are better than the average and several honor men are included in their number. They stand well in the estimation of the faculty. Socially they stand very well as was evident by the entertainment shown the committee.

The school is a good one and is growing rapidly. With eleven local fraternities on the campus prospects of more nationals coming in are good. It would pay this fraternity, if they intend to go there to go with least possible delay.

After living with the members of the Palisades Club for two days, interviewing faculty members, other fraternity men and sorority women I am firmly convinced that this fraternity can make no mistake by granting a charter to the Palisades Club, and I recommend it be done with all possible speed.

Fraternally,

(Signed) H. O. DINTBERG (Kappa 1911)

~~Mr. Wayne M. Musgrave, continued.~~

The charerone at the Gamma Phi Beta sorority has a son who is an Alpha Sig from Marietta. Her husband and her brother are Alpha Sigs from the same chapter. She knew several of the men from the Palisades Club and recommended them to us very highly.

We tried to see the President of the Pan-Hellenic Council, but he was out of town. I understand that Tinslow saw him on the way to the train Sunday morning though, so he probably will report to you as to what he learned from that person. From what we gathered from other sources though they will have no trouble in being admitted to Pan-Hell at once if we grant them a charter. They secured the approval of that body and of the University fraternity committee before they petitioned us.

They seem to be well represented in athletics. They have the man on the cross country team that won first at Chic last Saturday. The captain of the wrestling team is a member of this local. And they have at least one man on the base-ball team.

They follow our policy of pushing men out for various activities, and seem to be on the look out all the time for rushees.

The general opinion seemed to be that the Palisades rank ~~second~~ second among the locals. The Colonial Club seems to rank first. It is an older organization with a large alumni and a house of its own. However, the Palisades Club is composed of such a bunch of men that with a national charter I believe that within a very short time they would take their place among the leading fraternities on the campus.

Ames is a school in which we should have a charter. If I am not mistaken, their enrollment is about 3700 this year. The National fraternities there are not sufficient in number to take care of all the available fraternity material. There is a large campus and they have several fine groups of buildings. As a state institution it is bound to grow.

The bunch of men that we met there is one that Alpha Sigs Phi could be proud of. I certainly am glad to have had the opportunity of meeting them all.

I recommend that the petition of the Palisades Club be submitted to the various chapters as soon as possible for a vote.

If anything is unclear in your mind in regard to this local I will be glad to try to clear it up for you.

Fraternally,

Dear Brother Musgrave:-

As regards the Ames trip, I arrived there Friday, the 22nd and was met at the train by some of the Palisades and taken out to the house. Pinther, Pierce and Winslow arrived the next day but Brother Van Stone was unable to be present on account of urgent business calling him east. So we made Brother Winslow chairman of the committee and decided that it would be best for each man to send in his own individual report.

The Palisades, in my opinion, is a very fine bunch of men and we can't go wrong if we take them into the Mystic Circle. I am from Iowa and know several students at Ames. They all spoke voluntarily of the Palisades as being a very fine bunch and they certainly demonstrated it to us. At the table they are perfect in manners and demeanor and on the campus they are popular, with the sororities as well as the fraternities. Their financial standing is A1, they have the captain of the college wrestling team, which by the way is one of their popular sports at Ames. They have two men on the track team, several assistants in the departments, several who are out on extension and research work and members in the different professional fraternities.

They have a mighty nice home there and have been established since 1911. They had 24 men in the house at the time of our visit. These are only a few of the facts that we gathered while there and I can certainly assure you that these men, if admitted to Alpha Sigma Phi, will be a credit to us.

Fraternally yours,
