PETITION

OF

AZTEC FRATERNITY.

NAME OF PETITIONING BODY

OF

OREGON AGRICULTURE COLLEGE.

NAME OF EDUCATIONAL INSTITUTION

TO

Alpha Sigma Phi Fraternity

INSTRUCTIONS TO PETITIONERS

Petitions are prepared on paper furnished at cost by Alpha Sigma Phi Fraternity to bodies desiring to make application to it for a Charter.

In preparing the following petition observe the directions carefully.

1. Make up one petition for each of our Chapters, one for our Grand Corresponding Secretary one for our Grand Secretary, one for our Grand Junior President. Send all to our Grand Junior President.

2. Have all the data furnished filled in on the typewriter, with black record ribbon. These directions must be followed very carefully. Do not use carbon or different colored ribbons.

3. Bind with silk cord or tape in order that they may be opened, reports inserted, and recommendations attached.

4. Individual statements should be on original, not carbon copies.

5. Arrange every copy of the petition in the same manner.

6. Alumni members of the petitioning body should be set forth in that part of the petition reserved for such in the form of a "Who's Who," giving the surname first and Christian and middle name, together with all information as to what he did in college, when he graduated, degrees, honors, and positions held since leaving college.

7. Assemble the petition in the following order:

A short history of the educational institution.

A history of the organization petitioning.

Individual statements.

Alumni lists.

A petition signed by every member of the petitioning body with his full name.

Pictures of the campus, house group, etc. in their proper places.

FUNDS

The following sums should accompany the petitions when sent in:

Charter fees	- - - - -	\$40.00,
Pins for members	- - - - -	4.25 each,
Plaques for members,	- - - - -	3.15 each,
Paraphernalia for members,-	- - - - -	2.00 each,
Paraphernalia for chapter,	- - - - -	48.00,
Initiation fees for members,	- - - - -	10.00 each,
Investigation expenses,	- - - - -	50.00, indemnity

The investigation expenses may be larger than is actually required, but in any event it will not exceed the actual traveling and hotel expenses of the investigating committee and any sum in excess thereof will be refunded.

If the charter is not granted all sums in excess of actual expenses of investigation will be refunded.

ALPHA SIGMA PHI FRATERNITY

51 CHAMBERS STREET

NEW YORK

OFFICE OF THE
EXECUTIVE SECRETARY

Sent to all other chapters also

January 15th, 1920

Alpha Chapter, A Σ Φ,
1845 Yale Station,
New Haven, Conn.

Dear Brothers:-

By order of the Grand Prudential Committee I am transmitting to you the third and last petition now under consideration by our Fraternity.

This petition has been received from the AZTEC FRATERNITY, a local existing at the Oregon State College of Corvallis, Oregon.

The Grand Prudential Committee asks that you give this your early consideration, and recommends that you cast your vote in the affirmative. Our chapters on the Pacific coast are, to the best of our knowledge, heartily in favor of granting a charter to their neighboring college.

Your attention is again called to the printed "Instructions to Chapters" on the inside cover (back) of this petition and also to Section 4 of Article XIV of the Constitution in regard to voting upon petitions for charters.

Use the "official ballot" attached upon which to record your vote and forward to the undersigned.

Fraternaly yours in the M.C.,

Chas. E. Hall
Executive Secretary.

The Report of the Grand Junior President

ALPHA SIGMA PHI FRATERNITY

OFFICE OF THE
GRAND JUNIOR PRESIDENT
51 CHAMBERS STREET
NEW YORK

forward over 2 pp

New York, December 19, 1919.

To the Chapters and Members of A. S. P.,

Gentlemen and Brothers:- I have the pleasure to transmit to you through the kindness of the Grand Prudential Committee the petitions and recommendations from the Aztec Club, Oregon Agricultural College at Corvallis, Oregon.

The distances out there are so great that we have been somewhat handicapped in making our investigations and in some respects I would prefer to improve them were the conditions different. As it is I have an overwhelming endorsement from various alumni who are more or less familiar with the conditions and only one active. The active sentiment among the boys of Mu is more institutional than personal, however. But notwithstanding these defects I feel that we can safely proceed to pass upon the conditions underlying these petitions.

Our first consideration is met in that Oregon Agricultural College is now of the academic grade we demand.

Our second that the institution should be a good environment for the new chapter also seems completely met. The club as such has existed as a local and held its organization in spite of the war. That it is made up of the right types of men is shown that during the war its membership drifted into patriotic support of the nation and left but a handful of boys to hold down the place. This experience appeals strongly to me in favor of the organization as such as well as the membership as individuals.

Our third condition seems to have met with the approval of Brother John Main Coffee who is the only active man that has visited them. I am willing to abide by his judgment in their favor and to add my endorsement to his. I trust that the fact that hundreds of miles divides them from Seattle will impress itself upon your minds as the reason I did not send more active men to investigate the petitioning group. ✓

The facts seem to warrant the granting of this charter and I trust that we will all unite in adding this group to our membership as another Pacific coast chapter. I am not in favor of granting it because of their location but because of their qualifications to be with us and of us. I shall be glad to be instructed by you to direct their initiation and installation.

Yours very truly,

Wayne M. Musgrave

The Petition with Signatures Thereto

PETITION.

We, the undersigned, students in good standing in the Aztec Fraternity,
located at Oregon Agricultural College,
having hereunto attached our individual and class records, a history of our alma mater, and our organization,
do hereby petition Alpha Sigma Phi Fraternity to grant to us and to our successors a Charter for a Chapter of
the Fraternity at this institution and to assign us a Chapter Letter.

Should this Charter be granted we agree to support the Constitution and By-Laws, Rules and Regulations, Customs, Laws and Traditions of Alpha Sigma Phi Fraternity, to perform its rituals, and to perform our part in the government and support of the Fraternity as such, and, under its laws govern ourselves as a Chapter in harmony and good fellowship, and that we and our successors shall work for the best interests and advancement of the Fraternity wherever and whenever we may, it being understood that nothing in this pledge shall in any way conflict with our religious or political scruples, or our duties and obligations to our college, our family, ourselves, our country, or our God.

IN TESTIMONY WHEREOF we have hereunto set our hands and seals the **twenty-sixth**
day of **April**, 19**19**.

A Short History of the Oregon State College

HISTORY OF THE INSTITUTION

This should give the name, date of founding, location, endowment, method of support, names of departments maintained and degrees conferred, and if located at different places this fact should be noted, number of students, male and female, equipment of the institution, names of fraternities represented, prospects for a new chapter if located there as your petitioners see it, etc.

The Oregon Agricultural College, located at Corvallis, Oregon, was founded in 1865 as a State College. At that time it comprised but one or two frame buildings and only thirty-five acres of land. Since then the College has steadily grown, until now it occupies and controls three hundred and forty-nine acres of land and thirty-six buildings most of which are of either brick or stone construction. The registration has also grown from ninety-seven students in 1865 to over three thousand, the exact number for the year of 1918-19 being 3450 of which 2300 were men, and 1150 women. The faculty has correspondingly increased from five to over two hundred.

The College receives funds for its support from the National Government, from the State of Oregon, and from gifts, to the sum of approximately \$600,000 a year.

At present the institution offers courses in the following Schools, each course extending over four years, and leading to the degree of Bachelor of Science; Agriculture, Commerce, Engineering, Forestry, Home Economics, Mining, Pharmacy, Vocational Education, and Chemical Engineering. In addition to the above, provision has been made for a two-years course in the School of Pharmacy, leading to the degree of Ph. G. A course in the School of Music, and vocational courses varying in length from six months to three years are also available. Master's degrees may be received in any one of the Schools giving the Bachelor's degree, except the School of Commerce, by a post-graduate course of two years. A Master's degree is not given in the School of Commerce because it may be gotten at the University of Oregon.

The standard for graduation was raised in 1910 to a full four year course, and has been rigidly maintained. Other Colleges and Universities have recognized the Oregon Agricultural College as one of the standard institutions of the country.

The War Department recently designated O.A.C. as the Field Artillery Officer's Training School for Oregon, Washington, Idaho and Montana. A special staff of twenty-five officers and an appropriation of \$250,000 will be assigned here by September. Material consisting of a number of field pieces, and an assignment of one hundred horses will be included in the equipment.

HISTORY OF THE INSTITUTION

This should give the name, date of founding, location, endowment, method of support, names of departments maintained and degrees conferred, and if located at different places this fact should be noted, number of students, male and female, equipment of the institution, names of fraternities represented, prospects for a new chapter if located there as your petitioners see it, etc.

The growth of fraternities on the campus in the last two or three years has been very rapid. At present there are ten national and seven local fraternities, and seven national and five local sororities. The national fraternities represented, with the dates of installation are as follows: Kappa Psi, 1910; Sigma Alpha Epsilon, 1915; Kappa Sigma, 1915; Alpha Tau Omega, 1915; Theta Chi, 1916; Sigma Chi, 1916; Lambda Chi Alpha, 1917; Sigma Nu, 1917; Phi Delta Theta, 1918; and Sigma Phi Epsilon, 1918. The national sororities with the year in which they were installed are: Alpha Chi Omega, 1915; Pi Beta Phi, 1917; Chi Omega, 1917; Kappa Alpha Theta, 1917; Delta Delta Delta, 1918; Gamma Phi Beta, 1918; Sigma Kappa, 1918; and Delta Zeta, 1919.

The national honorary fraternities on the campus are: Gamma Sigma Delta, agricultural, installed in 1909; Sigma Tau, engineering, installed in 1912; and Alpha Zeta, agricultural, installed in 1918. Two professional fraternities are also represented: Kappa Psi, pharmaceutical, installed in 1910, and Alpha Kappa Psi, commercial, installed in 1914.

The prospects for a new fraternity on the campus are now very bright. Only about thirty-three percent of the male registrants are in fraternities at present, solely because the existing organizations have all the men they can care for. The sentiment here is in favor of the fraternities, because they have been so regulated and governed, and have shown so commendable and democratic a spirit that their influence has been a great factor in building up the institution. The President of the College and the faculty strongly favor their continued growth and development, and are encouraging worthy local organizations to petition the best national fraternities.

History of the Aztec Fraternity

HISTORY OF PETITIONING BODY.

This should give a full history of the petitioning body from its foundation, with names of officers, number of alumni, social status of the organization, its economic situation, i. e. its property, such as a house, furnishings, etc. and all information that will show the collective results of the associated efforts of the individuals composing the unit.

The Aztec Club was founded in January, 1913, by a group of Master Masons, with the original intention of petitioning Acacia. It developed, however, that the College did not have enough Masons to support a chapter; consequently in the fall of 1915, the Club decided to go Greek, eliminating Masonic requirements for membership and immediately chose the Alpha Sigma Phi as the fraternity for which they would work, and finally petition. The plans for petitioning, however, were interrupted by the War, and nothing could be accomplished until the present year. Nevertheless, the goal was constantly kept in mind, and nothing left undone that could further the aims of the organization in this respect.

In February, 1917, the Student Affairs Committee granted the organization a local fraternity charter, and the Club was installed the same month as the Aztec Fraternity.

At present the organization is located in a comfortable house, a block from the campus. The quarters, however, are only temporary as we expect to build in the spring of 1920, when we will have a chapter house as good as any on the campus. The present officers of the Fraternity are: President, John D. Jenkins; Vice-President, Joseph F. Holmes; Secretary, Frank Bullard; and Treasurer-Manager, Vincent F. Buttervich.

The organization has from the first made scholarship one of its primary aims although social activities and participation in student affairs have been an important part of the life of its members. The average scholarship of our members for the five year period has been 85.1, nearly two points above the average fraternity standing of the college, 83.2, for the same period. This standing is also several points above the general student body average since at the Oregon Agricultural College scholarship record of fraternity members is above the general average for all students. The extent of participation in student affairs on the part of members is evidenced by the appended summary obtained from alumni records and by the personal record blanks of undergraduate members enclosed as a part of this petition.

The fraternity owns furniture to the value of \$800, and has no outstanding debts.

The following is a summary of the most important student body activities participated in by the Alumni of the Aztec Fraternity.

OREGON AGRICULTURAL COLLEGE

School of Agriculture and Experiment Station

Corvallis

April 22, 1919.

Professor J. W. Gregg,
University of California,
Berkeley, Calif.

My dear Gregg:-

Professor Peck showed me a recent communication from you concerning the possibility of establishing a chapter of Alpha Sigma Phi on this campus. I did not know about this movement until comparatively recently and of course Peck and I are interested in helping to secure this chapter. We have not become affiliated with the fraternity because we have not had the opportunity since we have been in Oregon, to join the fraternity and have been looking forward to such an opportunity. The Aztec Club has always been looked upon as a good organization. Formerly they were a Masonic organization and a student had to be 21 years of age before he could become a member, and this brought them rather the more mature and on the whole, very strong men. They have had a very high scholarship rating in the institution and were congratulated by the Professor in charge of fraternity scholarships because of the fine showing which they made. They have always been very prominent in the honor societies such as the Engineering and Agricultural societies, and such an organization as the Forum which in this institution stands for leadership and scholarship. Should the chapter be established here, they would have the honor of having the largest faculty membership of any fraternity on the campus. In addition to myself and Professor Peck, they would have Professor Beaty who is in the Mathematical Department and has been for a number of years the official freshman advisor, Mr. L. J. Allen who is in charge of the Pig Club work in the state, Mr. Dale Richards, Assistant in Animal Husbandry, and Mr. D. V. Stewart, Assistant in Electrical Engineering. Among some of the men who have graduated and are making good is Mr. Frank L. Ballard now of the Bureau of Standards. Ballard was a leader and as a student was editor of a college publication. Mr. Bob Fowler who is superintendent of perhaps the best known farm in the state and owned by one of the wealthiest men; two other young men known as Mr. Koons and Mr. Hill, the first is a County Agent and the second Superintendent of the substation in the State of Washington; Mr. Noren now of the Commission of Agriculture of the State of Washington; and Mr. Sibley who has been for some time and is now working for the Nicaragua Department of Agriculture; Ralph Lowry of the Hercules Produce Company; Mr. Arthur

Wilkins, Mitchell, B.S., '15, Agriculture.

Cauthorn Hall Club, Agricultural Club, Captain Company B.
Occupation since graduation:
U. S. Department of Agriculture, Ranch Owner.

Communications and Letters of Recommendation

REPORT OF THE COMMITTEE ON INVESTIGATION
OF THE AZTEC CLUB, OREGON AGRICULTURAL
COLLEGE, CORVALLIS, OREGON.

From May 13th to 15th I visited with the members and pledges of the Aztec Club at Corvallis, I found the organization to be composed of mature young men representative of all branches of college activity. While they major in athletics, they do not slight the scholastic side of college life. Everyone of the men with whom I conversed, had some special field of activity in which he was particularly interested, two on the wrestling team, two on the basketball team and members of the track, football and the basketball squads. They were represented in college debate, oratory, music, dramatics and in the scholastic honorary societies.

They have a fairly good house and will have a larger one shortly. They were somewhat handicapped by the war, but have now returned to their former status.

The boys extended to me a cordial welcome and outdid themselves in showing me a good time.

Brother Arthur Clarke, Theta ('09), in a conversation with me, told me that he heartily indorsed their petition to Alpha Sigma Phi Fraternity.

In closing I would heartily recommend favorable action on the petition of the Aztec Club for admission to our Brotherhood.

(SIGNED) JOHN M. COFFEE

51 Chambers street,
New York, N.Y.

My dear Musgrave:

I have been wanting to write to you for some time with reference to the organization of a chapter at the Oregon Agricultural College, located here. There were a lot of fellows who originally intended to apply for Acacia and subsequently were compelled to give up the idea owing to the fact that sufficient Masons were not available. They talked with me last spring at considerable length about the matter and were fully determined to petition. About that time the war broke out, took several of their leading members, since which time nothing has been done.

I am frank to say that I do not know what the attitude of the fraternity might be just now or whether it would be advisable from the standpoint of these fellows to petition under the present uncertain circumstances but I do feel that sooner or later I should like to see a chapter established here if the right lot of fellows petition.

You will remember Kittredge, who went to Oxford some three or four years ago from the California chapter and has since been serving in relief work in Belgium. Kittredge was very anxious to have a chapter established here before he went but the institution was at that time on a two year preparatory basis disqualifying it for A.S.P.

The institution now has in the neighborhood of 1800 students, requires a regular four year preparatory course and I believe has very high standing in the branches in which it specializes. It has no general arts course but does have engineering, agriculture, horticulture, forestry and other courses of a vocational nature.

Among the fraternities already here are Sigma Chi, S.A.E., Kappa Sigma, Sigma Nu.

If time permits I should be deeply interested to hear something from you concerning yourself and some suggestions with reference to the organization of a chapter here.

It is a long time since I climbed the pinnacle of fame under you directing eye at Marietta, Ohio, when I discovered as I ran blindfolded that a tree was somewhat harder than the top of my head. And do you know that to this day I have only the haziest recollection of what took place afterward during the initiation and at the banquet, though I am certain that some of the fellows thought I was feinting to secure release from Delta's ambitious Sigs. I have often sighed thankfully for your protection on that memorable occasion.

Fraternally yours in A. S. P.,

Mr. Wayne Musgrave,
51 Chambers street,
New York City.

Dear Brother:

You will recall three years ago, I wrote you about the establishment of a Chapter at O.A.C., at Corvallis, Oregon, but due to my absence in the service, the matter was then dropped.

You will also doubtless recall my visit to you in New York recently, at which time I took up this subject with you; and now, as you know, the matter is up again.

Brother Clarke, who was sponsoring the Aztec Club, is the District Attorney for the county in which the college is situated, and the leading attorney of that city. He is responsible and level-headed, and it was at his invitation that I went to Corvallis to look over the bunch.

The Chapter is composed of a nice bunch of fellows, and very congenial, and they have a nice house. It may be a little bit weak just at present, but is constantly being strengthened by members returning from the service, where they have been for the past year or two. Practically every member of the Chapter, except the Freshmen, has been in service during the past emergency.

At present they rent a house, which is a trifle small, but this was necessary because of the Officers' Training Camp which was there. Brother Clarke owns some fine property there, near the campus, in the new fraternal house district, and in my presence he pledged them the sale of this land upon their own terms, and they are planning to build, whether they get our National or not.

They are particularly fortunate in their local alumni. First, they have two pledges of Gamma Chapter, who are the leading horticulture experts at the college. They have one alumnus who has charge of all the Extension work of the college, in which capacity he travels all over the state, and has been of great help to them in the past, and will be in the future. The mathematics professor who has been for sometime, and still is, official advisor for all the Freshmen, has sent much valuable material to them in

the past year, takes a very active interest in the Chapter, is Master of the local Masonic Lodge, and will be able to help them financially.

The boys in the Alumni are of the right type, and are backed by strong faculty grouping. I consider that there is a very strong need for a Chapter at Corvallis, as I do not want, under any circumstances, to see one go into the University of Oregon at the present time. You know we have a ~~coast~~ Conference of the colleges, up and down the coast, and we need a Chapter at Corvallis to complete the chain.

Your old objection to the scholarship of the college has been absolutely removed, and it is on as high a standard as any of the other colleges on the coast, and has been since 1910.

O . A . C . is bound to grow, being a Military Land Grant School. While it is not a matter of public information, the War Department is going to establish an Artillery School for officers there, to serve the entire coast. (Officially announced since this was dictated). Twenty-five regular Army officers and over \$300,000.00 worth of equipment will be kept there permanently, together with an appropriation of \$250,000.00 annually to carry on this branch of the work. The State of Oregon, as part of its re-construction program, will give every returned soldier who was a resident of this state before the war, the sum of \$200.00 per year to help him complete his college education, so you see that in addition to the regular funds, practically every member of the local Chapter will have this extra \$200.00 to carry him on, which will make the Chapter very strong financially.

I am the only local alumnus who is taking any interest in the matter, Brothers Fleidner and Warner being married and working for the Railroad Company, and being unable to get away, and all the rest of the bunch being in the service. I am very heartily in favor of seeing the Chapter go in.

Will you kindly let me know if I can be of any use in helping to instal the new Chapter, investigating, etc.

Yours in A.Σ.Φ.,

Mr. Wayne M. Musgrave,
51 Chambers Street,
New York City.

My dear Brother Musgrave:-

May I take the liberty of addressing you relative to an application for a charter in Alpha Sigma Phi which has been, or is about to be made, by a local organization known as the Aztec Club at the Oregon Agricultural College, Corvallis.

As you can well imagine, both chapters here in California are extremely interested in any reasonable proposition which will result in another chapter of the fraternity being located here on the Pacific Coast. I do not mean by this that either one or both of the California chapters would approve putting a chapter into every small college from which a local might make an application. There are no chapters which guard more jealously the high standard to be desired in institutions or local clubs than do the two here in California. Realizing, therefore, what more chapters here on the Coast means to us, and particularly to the Washington chapter, and that our other chapters in the east may not appreciate conditions as we know them to exist at the Oregon institution, I am taking the liberty of writing you to present in a brief way my opinion concerning what ought to be done in this matter.

In the first place I wish to say that we people here on the Pacific Coast know the Oregon institution thoroughly and recognize it as one of the best educational institutions in this section, and one with a very high collegiate standing. It is not alone an Agricultural College but an Engineering one as well, and there are no more any reasonable arguments existing today against putting our fraternity into an agricultural institution. Those arguments are now old and out-of-date. The question then concerns the status of the local organization which makes application for a charter, and I want to advise you that I happen to have a classmate who is now professor of Landscape Gardening at O.A.C., as well as a college acquaintance, Professor C.I. Lewis, who is Chief of the Department of Horticulture at the same institution. Both of these men were members of the

old local C.S.C. in the Massachusetts Agricultural College, but since being in Oregon they have never had the opportunity of affiliating themselves with Alpha Sigma Phi. They are extremely interested in this proposition and Professor Lewis, at my request, has written me a letter, a copy of which I attach for your information.

Fraternally yours,

(SIGNED)

(C O P Y)

OREGON AGRICULTURE COLLEGE

School of Agriculture and Experiment Station

Corvallis

April 22, 1919.

Professor J.W.Gregg,
University of California,
Berkeley, Calif.

My dear Gregg:-

Professor Peck showed me a recent communication from you concerning the possibility of establishing a chapter of Alpha Sigma Phi on this campus. I did not know about this movement until recently and of course Peck and I are interested in helping to secure this chapter. We have not become affiliated with the fraternity because we have not had the opportunity since we have been in Oregon, to be initiated and have been looking forward to such.

The Aztec Club has always been a good organization. Formerly they were a Masonic organization and a student had to be 21 years of age before he could become a member, and this brought them rather the more mature and on the whole, very strong men. They have had a very high scholarship rating in the institution and were congratulated by the Professor in charge of fraternity scholarships because of the fine showing they made. They have always been very prominent in the honor societies such as the Engineering and Agricultural fraternities, and such an organization as the Forum which in this institution stands for leadership and scholarship.

Should the chapter be established here, they would have the honor of having the largest faculty membership of any fraternity on the campus. In addition to myself and Professor Peck, they would have Professor Beaty who is in the Mathematical Department and has been for a number of years the official freshman advisor, Mr. L.J. Allen who is in charge of the Pig Club work in the state, Mr. Dale Richards, Assistant in Animal Husbandry, and Mr. D. V. Stewart, Assistant in Electrical Engineering.

49

Among some of the men who have graduated and are making good is Mr. Frank L. Ballard now of the Bureau of Standards. Ballard was a leader and as a student was editor of a college publication. Mr. Bob Fowler who is superintendent of perhaps the best known farm in the state and owned by one of the wealthiest men; two other young men known as Mr. Knoons and Mr. Hill, the first is a County Agent and the second Superintendent of the Substation in the State of Washington; and Mr. Sibley who has been for some time and is now working for the Nicaragua Department of Agriculture; Ralph Lowry of the Hercules Produce Company; Mr. Arthur Leech who was one of the three men chosen by the faculty to be sent to an engineering camp and the only one securing a commission; Mr. O.P. Hoff of a Portland Bank; quite a number of boys who were just getting into work at the time the war broke out and who are now in France; Mr. J.C. Hawkins who was prominent as a wrestler while in college and who is now superintendent of a very large wheat ranch, and Mr. J.W. Bones who is associated with the Geological Survey and is now located in the state of Wyoming, and Mr. Arnold E. Clausen an engineer in France at the present time. This happens to be just a few of the boys. There is also a leading attorney here known as Mr. Arthur Clarke who is a member of the Michigan chapter. Mr. Clarke is considered one of the best lawyers and is at the present time Prosecuting Attorney for this district.

In all probability the boys will build a house in the very near future; perhaps by fall. This matter is being considered at the present time. I hope they will get the chapter as I think it will mean a great deal of good to the institution and I think it will reflect great credit on the fraternity.

Yours very truly,

(SIGNED) C.I. LEWIS
Chief, Division of Horticulture.

(C O P Y)

Manhattan, Kansas,
June 5, 1919.

Dear Mr. Musgrave:-

When I was in Berkeley, Calif. recently I learned from Alpha Sigma Phi men that the Aztec Club at Oregon Agricultural College was seeking admission to the fraternity. Since then one of my friends on the faculty has written me about the matter.

I am quite familiar with the college and its standing. I spent several days there last summer. It is the leading institution in the state, and has made splendid progress the past few years under its present president. Its standard has been elevated, its plant and state support have been enlarged, and its attendance has steadily increased. It is an institution of much influence in the state and is well thought of among the colleges on the coast.

The Aztec Club is evidently one of high standing in the college and has many alumni members who have become men of prominence.

Two strong Massachusetts Agricultural College men are on the college faculty and would join of a chapter were installed. They were members of C.S.C. (College Shakespearean Club) at Massachusetts Agricultural College but have not had the opportunity to take membership in the fraternity since the Amherst chapter was established.

I believe the college is up to the standard set by Alpha Sigma Phi and that it would be an advantageous place for a chapter. I found the Berkeley chapter was much interested in having a charter given the Aztec Club.

Very truly yours,

Mr. Charles Hall,
51 Chambers Street,
New York City.

Dear Charles:

In reference to the advisability of installing a chapter of Alpha Sigma Phi at the Oregon State Agricultural College in Corvallis, Ore., let me say that as far as the school is concerned it ought to be an advantageous step.

The school is held in very high repute all thru the state and is considered a more excellent institution than the State University at Eugene. The state's industry being very largely agricultural, it is to be expected that the school specializing in that education and kindred studies should be the more prominent.

The day that I visited the campus there was an intercollegiate baseball game. The enthusiasm was marked and from the conversations that I had with several students, the college spirit seemed to be strong.

The campus is very prettily laid out with the main building situated centrally upon a hill. The buildings appeared up to date. The fraternity houses were good looking. If the local which is petitioning is up to the grad of the rest of the school, I am heartily in favor of their admission.

Very sincerely and fraternally yours,
