NUMBER 3

FRATERNITY EXPANSION

By THOMAS ARKLE CLARK, A T Ω

Worthy Grand Chief of the Fraternity

(Reprinted from *Banta's Greek Exchange*)

THE question of expansion is probably one of the most vital and regularly discussed questions before the general fraternity world today. It has been discussed freely at meetings of the Interfraternity Conference, and, the consensus of opinion has been in favor of it. The reasons are quite obvious.

The attendance at colleges is increasing by leaps and bounds. At the University of Illinois, for illustration, the attendance last year was fifty per cent greater than it had ever been before, and similar conditions existed in many other institutions. The effect of this increase has been to reduce the percentage of undergraduates who could belong to fraternities, for the increase in the number of fraternities has not, in any way, kept pace with the increase in the number of students.

Most young men like to belong to a college organization. A good many of them feel, perhaps, like the freshman did to whom I was talking not long ago. "I don't give a damn to belong", he said, "but I would like to be asked". And with the increasing number of students in our colleges the percentage of men who will be asked is growing smaller and smaller.

It is interesting to note that the opposition to fraternities which has sprang up all over the country and the talk against

fraternities is not led by men who have belonged to fraternities, in any case, so far as I know; but by men who have been outside of the membership, and this is likely to continue to be so. As we increase the number of chapters of fraternities we reduce the strength of the opposition to them.

The Interfraternity Conference has recognized all these facts. At its last meeting, in November, it appointed a special committee, whose work should be to encourage expansion in fraternities already organized, to investigate institutions where it would be advantageous to have more fraternities, and to encourage the organization of new national fraternities. All this is to be done with the hope that it will result in benefit to fraternities now existing.

Echoes have come to me from the various fraternity conventions held at Christmas time, through the reports of delegates from chapters at the University of Illinois, of the discussions which took place at these meetings concerning expansion. There was much said that was unfavorable. Judging from the remarks which took place in my own convention upon this pertinent topic, I infer that what was said was often both interesting and personal. Many undergraduates oppose expansion, and it is the undergraduate who largely decided fraternity policies.

But the undergraduate seldom keeps himself informed upon general fraternity conditions. His vision is limited; he sees very little beyond his own chapter. He usually knows little about his own fraternity chapters, and he knows still less about others. The larger fraternity problems he seldom grasps or considers seriously, and his arguments are superficial and not always based on facts.

He calls attention to the rapidity with which the roll of chapters has increased within the last ten years; he enumerates the chapters which have been installed since he awoke to the fact that Greek letter fraternities existed; and he begs with all the dramatic art and fervor gained in a college class of Public Speaking (I taught Public Speaking once) that we give our serious attention to internal development and build up the chapters we now have before we add further to our list. "Strengthen those we have", he says, "before adding more". His inference is that as we add to our list of chapters we weaken those we already

have and that the increase in numbers is likely to result in less efficient internal organization.

This sounds well and it is in favor with the boys, but it is bunk. Internal organization of fraternities is better now than it ever was before. It is only within recent years that there has been anything worthy of the name of internal organization in fraternity management. Traveling secretaries, district or province managers, the regular visitation and supervision of chapters, was a thing unheard of or thought of until long after I became a member of a fraternity. While the number of chapters in each fraternity was kept small there was little or nothing to hold them together. There was no supervision and no unity. Fraternity organization was of the loosest kind. The effort to build up individual chapters and the binding together of each fraternity into a unified whole has come much faster than has expansion, and our newest chapters are the most influenced by it. It is very difficult to get the oldest chapters in any fraternity to realize that their organization is a national one and that they must conform to national regulations, that they must submit reports, that they must yield to control and obey regulations; it has not been the tradition for them to do so. Newly organized chapters do not feel so. It cannot, therefore, be shown that increase in numbers has weakened organization or is likely to weaken it. Quite the opposite effect has resulted. If the fraternity roll has increased in numbers fraternities generally have developed closer supervision, better organization and control, and a closer unification.

The statement is made that our newest chapters are our weakest chapters. From what I know of Alpha Tau Omega and from what I have observed of other fraternities, this is not true. It is more often the oldest chapter which has developed the least business sense, which fits the least easily into the organization, which most often fails to appreciate the fact that the fraternity is a national organization and not a local club, which knows the least about the fraternity as a whole. My experience has been that our new chapters have got to a wonderful degree the spirit of the fraternity. They understand its organization, they appreciate its ideals. I have only to go back to the last two Congresses of Alpha Tau Omega to find abundant illustration of these facts. What is true of my own fraternity is true of others. The Secre-

tary of Delta Kappa Epsilon admitted to me not long ago that next to his own chapter the strongest chapter was one organized only recently. I have had the same admissions from the officers of other conservative fraternities. They agree with me that their new chapters are not their weak ones, either in the institutions in which they exist or in the fraternity at large.

It is argued also, by those who plead for culture, that when we expand into the West, especially into the agricultural colleges in the West, we leave culture and refinement behind us. We take into our brotherhood, they argue, "The uncouth, barbaristic, low-browed, denizens of the mountains and manicurists of the corral". I suppose it was once true that we were justified in thinking that those who came from the farm might be expected to be crude and uncultivated, with little appreciation of the finer things of life. I myself came from the farm. But it is not so today. The farmer travels, he reads, he has all the accessories of civilization, as he once did not have, and he takes advantage of them. The crudest, most bucolic hayseed in college today does not come from the farm, but from New York, and Boston, and St. Louis, and Chicago. It is the city and not the country that breeds crudity and bad manners. If you will study your own college community and your own fraternity, you will agree with me.

I have visited within the past year a considerable number of western colleges and I have seen the agricultural students of Washington and Oregon and Iowa and other states on either side of the Rocky Mountains. The student in the Liberal Arts colleges has nothing on these men either in good manners or refinement, or knowledge of the world, and these men have in addition a force and a power of initiative which wins our respect. They have learned to work and to respect labor. They know why they have come to college and they make the most of their opportunities. Their clothes are well tailored, an important fact in the mind of the fraternity man, their speech is careful, their ideals are as high as any man's in the oldest chapter in the oldest fraternity in the country. Only yesterday I read to one of our students uncertain as to the wisdom of expansion into such institutions as I have referred to, a letter from one of these supposedly illtrained and illmannered westerners. It was well phrased, well

written, refined, in thoroughly good form and good taste and showed a cultivation and a courtesy not ordinarily met with.

"I don't know how many men in my chapter could write such a letter or would do so", the man said when I was through, "but I know one who couldn't." And the man who wrote the letter was born on a ranch in a far western state and is a student in his own state university.

The westerner and the agricultural student, these antiexpansionists say, are crude and uncultivated. Perhaps, but I have always thought the opposite. His life in the open brings the farmer into the closest relationship with the grandest and the most beautiful things in the world—flowers and birds and growing things; sunshine and fierce storms, the earth under his feet and the great sky over head. What tends more than these things to refinement and cultivation?

David, I hope his name is not an unfamiliar one, farmer, sheep herder, hunter of wild beasts, musician and poet, watched the stars at night and the clouds by day and wrote of them as no man before or since has done, but I presume that if David and his friends had applied for a charter of some national fraternity they would have been turned down as not worthy to be known as brothers by the more scholarly and refined city dwellers because of their lack of cultivation. And yet it was David who became King.

There is one way of keeping down the number of chapters, which I believe every fraternity might with profit occasionally employ, and that is the elimination of worthless chapters. Every fraternity has a number of chapters which have little spirit, little vitality, little appreciation of fraternity progress. They are as loosely organized as a high school club and have no understanding of what it means to belong to a great national organization. Their connection with the grand officers and with the central office is remote. Their main interest lies in their own local problems and pleasures. They are often behind in their taxes, careless in the observance of regulations, and ignorant of general fraternity matters. They should be labored with, they should be given opportunity to pull themselves together, they should be shown wherein they are failing, but if they do not change, their charters should be withdrawn.

At the last two Congresses of Alpha Tau Omega the representatives of our newer chapters have been the most active and aggressive. They have shown themselves capable of taking and holding their places in discussion and in social affairs. They have been the outstanding men of Congress. The Wyoming chapter put on the cleanest, cleverest and most acceptable show we have had at Congress and proved to the gratification of every clean minded, sensible delegate that it is possible, even at a fraternity convention, to have a smoker which holds the attention, which is amusing, and which is neither dirty nor vulgar. The members of the Wyoming and the Simpson College Chapters showed every one that expansion is a good thing if it can bring such men as they are into any fraternity.

The arguments against expansion are not tenable. Fraternities are taking care of the individual chapters better now than they have ever done before. Internal development is strengthening and will continue to do so. Fraternities are spending more money for the supervision of the various chapters than they have ever done in the history of these organizations. The new chapters that are going in everywhere are made up of men of character, of purpose, and of possibilities. It is not true that there is not cultivation in the agricultural college. Every curriculum in the agricultural colleges of the country gives wide opportunity for elections in science, in language, in literature and in the humanities in general. National fraternity officers recognize more than ever before the necessity of increasing the number of chapters of every fraternity. Our future is dependent upon it.

I am for expansion, conservative, intelligent expansion. I believe in fresh new blood. If any fraternity feels the necessity of controlling or reducing the number of its chapters it should begin with the dead ones. It should either resuscitate them or bury them. As they now are, they are incubus and a handicap to the best interests of fraternity life.

There was a day when only the elect went to college. In those good old days the fraternities could afford to be exclusive. Conditions have changed completely now and the group of men who make up the attendance at the average college is the most cosmopolitan in the world. It represents every class of society and almost every nationality extant. If the Greek Letter Fraternities

are to hold their place they must meet the changing conditions in college. They must carry the gospel of brotherhood and good fellowship to the whole college world. They have no more right to be exclusive than has the Christian church. The undergraduate members must recognize this fact as the alumni members and grand officers of most fraternities have done for some time. It is a choice between expansion and extermination.

One of the most important questions now confronting the fraternity world is that of expansion. The question of adopting a definite policy of expansion will undoubtedly come up before the Chicago Convention in September. Keeping this in mind, the Grand Prudential Committee thought it a wise plan to publish in *THE TOMAHAWK* the foregoing article by a man well known throughout the Greeks.

We hope all will read and profit by the many truths expounded by Dean Clark of the University of Illinois.

ROBERT L. JAGOCKI,
Executive President.

THE "WHY" OF CONVENTION

ARTHUR LOOMIS KIRKPATRICK

Michigan '18, Theta '15

Member of the Grand Prudential Committee

IT is not my purpose to discredit the work of past conventions or even to imply that they were not all they should have been. But I want rather, to suggest means whereby we may derive the greatest possible benefit from future conventions.

The minutes of past conventions sound more like a special session of Congress, called to meet an emergency, than the biennial meeting of delegates from chapters of a national fraternity. They consist largely of constitutional amendments and resolutions, transacting business of one form or another. In short they have been legislative sessions. Should our conventions be purely or primarily for the transaction of routine business? My answer to this question is "NO".

The fundamental reason for having a fraternity is that man is naturally a social being. He loves company and so it was that men conceived the idea of banding together not only for companionship but also for mutual good. College men have followed the same course, in this respect, as men out of college, business men and professional men. Men of like ideas, aims and habits organized for a single purpose; afterward it was found that there were men in other colleges, perhaps already organized, who are like minded and they were added to the group. Why? Not for the increased length of the chapter roll, but for the strength that they added to the organization. It wasn't their numbers, their weight or their brawn that counted but it was their ideas. But what good is such a national organization if the members of separate chapters haven't some means of meeting, mingling and exchanging views? And yet, it is not physically possible for an entire chapter to visit all of the other chapters for this purpose. The next best thing is to have each chapter choose its most representative man to go to convention and meet delegates similarly chosen from the other chapters, not for the transaction of routine business but for the purpose of finding out first hand what the other chapters are doing, how they are doing it and why, with a view to the solution of the problems which every man must face.

It is true that the convention is found to be a convenient place for such things as election of officers and voting on necessary business, but it should be clearly understood long in advance of the convention just exactly what business is to be presented and every delegate should come fully instructed on every question. It frequently happens that the delegate is a man who will return to the active chapter the following year, that is, a Junior with practically two years in the fraternity. He may have held minor offices in his chapter but he has not been at the head of it and really felt the responsibility involved in running a fraternity. Much less has he had an insight into the workings of the national organization. He needs the advice of the older men in his chapter, even the older delegates should bring with them the counsel of the other men in their chapters. Every proposal should be fully discussed in chapter meeting and its conclusions reached. Each chapter knows its own mind better than any delegate can interpret it after he arrives on the convention floor. With every measure fully discussed and digested, it is a matter of only a few minutes to dispose of the proposition. All necessary routine can be cared for in short order and without any hurry or half-baked decisions.

Heretofore, it has been the custom for each chapter to make its report from the floor of the convention. And such a report is a necessity of the convention. But unfortunately, many of them have not contributed their full value to the assembly. Every delegate should be given an opportunity to be heard even though he does nothing more than rise and give his name and chapter. But at any rate his report should be confined to subjects other than those reported through THE TOMAHAWK. But there need be nothing official or formal about his remarks. They need not even be made to a regular meeting of the convention. In fact it would probably be preferable to have each man say a few words at a banquet or smoker held on the first evening of the convention or the evening before the formal opening. Every man has a chance to make himself known and to see every other man "in action". At the same time it does away with the necessity of listening to the too frequent "cut and dried" reports which take up so much valuable time of the convention.

A certain amount of business must be transacted. This is essential and cannot be eliminated. But there is a much more fundamental reason for the convention. How can the delegates, the chapters and the fraternity as a whole derive the greatest possible good from such a meeting? It goes without saying that whatever benefits one, will be to the advantage of all three in the same degree. To answer this we must keep in mind the real purpose of the convention. Every chapter has its own problems to meet. Many of them are common to all chapters while still others are presented to only one or to a few. There are problems which confront us as a national organization. Still others, we have to face in common with all college men. In short, we have individual chapter problems, fraternity problems and those which concern all colleges or universities. Why shouldn't we discuss such things at our conventions? What better purpose could a fraternity convention serve? We all have our ideas on these subjects and yet each chapter gets a different view of the situation. Every locality can furnish new ideas. The man who enters into and listens to a discussion of some common problem cannot help but benefit from it. He cannot help but get some ideas that will lead to a better solution in his chapter, should they face the same problem.

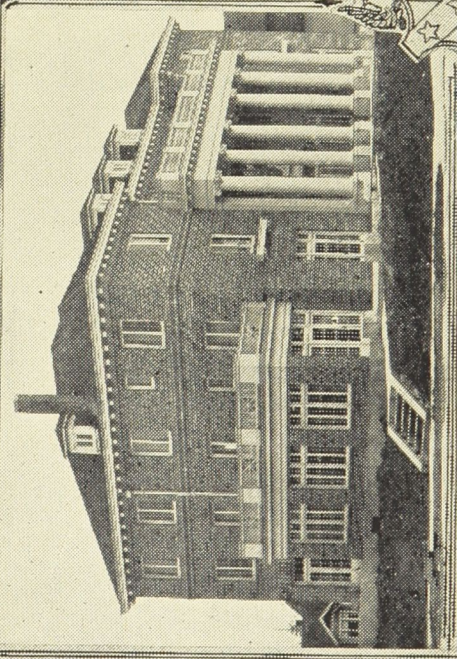

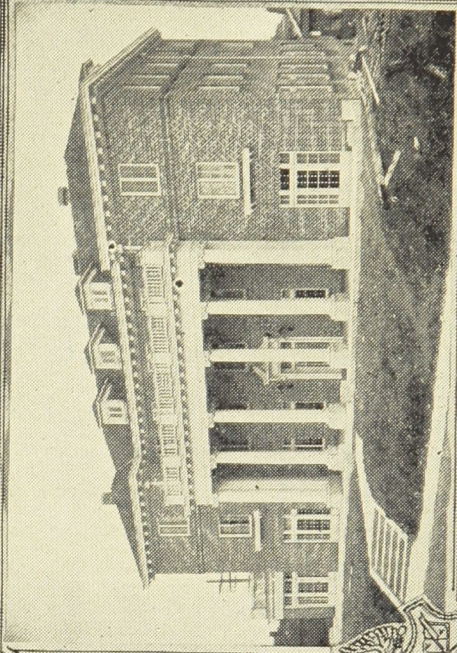

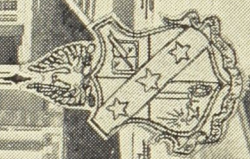

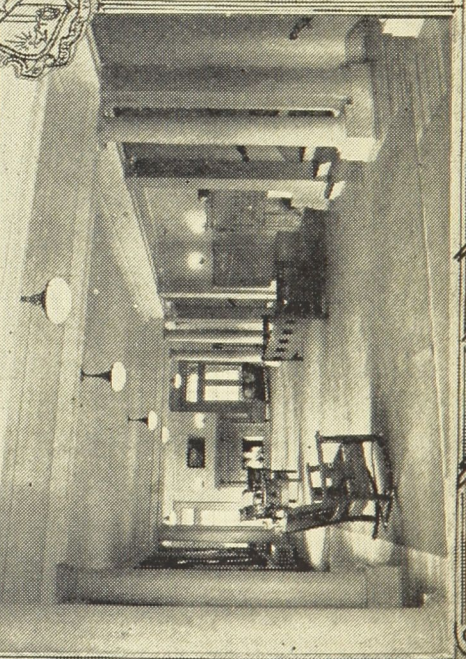

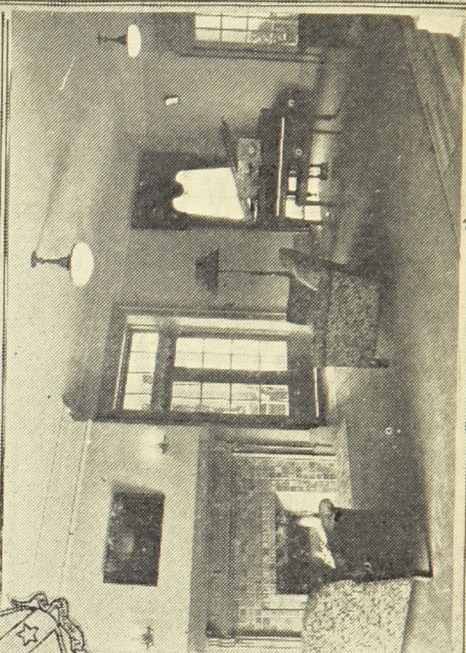

But more important even than this, he has a chance not only to see how others think but it teaches him to think for himself. Right here let me quote President Burton of the University of Michigan. "Perhaps the most solemn question that can be put to a person today is 'can you think'? The test of individual efficiency and usefulness to society centers in a man's ability to use his mind. Emerson never erected a more arresting danger signal than when he exclaimed: 'Beware when the great God lets loose a thinker on the planet'. If we could only harness the mental power of America today we could solve the gigantic problems of the world. Not by appeals to prejudice and class interest, not by hurling of epithets, not by the ready acceptance of half truths, not by superficial, but by careful, painstaking, scientific, scholarly thought combined with wise and timely action will civilization be rescued and human freedom made secure. Upon education depends the future of Democracy. Therefore, every loyal citizen, every self-respecting person, must utilize his opportunities, to

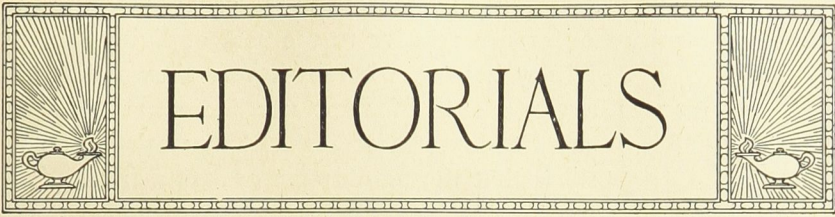

strengthen his grip on knowledge and to stimulate his mind. The truth has always made men free, and truth is available only for him who thinks".

There are numerous problems of common interest which should be taken up. Perhaps such subjects as chapter accounting systems, methods of house management, ways and means of getting members into various lines of activities, are worn out subjects, but some of the following might be valuable: The movement on the part of some State legislatures to bar fraternities from state universities; ways and means of financing new chapter houses; means of bringing the national headquarters closer to the individual chapters. Another question may appear at first thought to require little or no discussion, viz.: What can college fraternities show to justify their existence to the public at large? To a fraternity man, no doubt exists on this point, but in the minds of a large part of the public and more particularly those who have never attended college, a fraternity is nothing more than an incubator for snobs and highbrows. What purpose or results can you point to, to show that kind of a person that fraternities are really invaluable in colleges?

Every man has his own ideas on these subjects although many of them may be still in the development stage. But all of these are problems which fraternity men are facing, or will face, and our chapters should benefit by the experience of other chapters. Conditions differ in different schools and chapters, but every chapter needs the counsel of every other chapter if we are to get the best results from our fraternity as a national organization.

The means of following this program is more or less a matter of detail but the principal I have tried to lay down should be plain. Our delegates should be thinkers, men who know how best to meet real problems and the convention should be a concentrated attack on our biggest problems.

EDITORIALS

The next Convention has been called for September 12th, and the time is at hand when preparations should be made by the different chapters. It is hardly necessary, we suppose, to remind them that matters of far-reaching importance come before every Convention, and the coming one is no exception. Matters will be under consideration that will call for the best and maturest judgment, and the chapters should select their strongest men as their representatives. Simply because John is very popular and an all-round "good fellow" is not a good reason for sending him as a delegate. If he combines with these qualities marked ability and splendid judgment, by all means send him along; if not, keep him at home. Neither is it the part of wisdom to select a delegate simply because he happens to pass through Chicago on his way to college. By such an arrangement far greater benefit would be likely to accrue to the delegate than to the chapter. If, however, he possesses all the necessary qualifications, then his chapter can make no mistake in naming him as its official delegate. We want a Convention that will redound to the credit of the Fraternity, and it is to be borne in mind that this will be largely in the hands of the chapters themselves.

Chicago is so favorably located that it is to be hoped an unusually large number of visiting brothers will be in attendance. The Conference is to be no secret conclave; and we believe that it is the duty of all brothers who can conveniently do so to attend at least some of the sessions.

The Chicago Alumni Council and Chi Chapter will give the delegates a royal welcome, and they can be depended upon to see that every one shall have a good time. Chicago offers splendid opportunities for the entertainment of delegates, and certain hours will be set apart for that purpose, as in the past.

The *Delta* of Sigma Nu in referring to the report made to the Inter-Fraternity Conference relative to the cost of living in fraternity houses, wherein it was shown that the average cost of food per individual was 88 cents a day, declares that "all statistics go to show that the actual cost of living in the fraternity houses is not only not excessive, but provides the cheapest possible way of living when the entire returns are considered".

**COST OF FOOD
AT THE
CHAPTER
HOUSE**

Whether it is desirable for the chapters to maintain boarding establishments depends, of course, upon the existing conditions in the institutions where they are located. If provision has been made by the college for a commons where all the student body can secure satisfactory food at as low a cost as it would be possible for the fraternity houses to furnish it, which may be true of some of the smaller colleges, then it would seem hardly wise for the chapters to enter upon such an undertaking. But in a very large number of colleges and universities such a situation does not exist, and under such circumstances the furnishing of meals in the fraternity houses is to be encouraged. In many cases, indeed, it would seem the actual duty of the chapter to board its members, but at a moderate cost. This duty should be entrusted to members who will reduce the indulgence in luxuries to the minimum. As the *Delta* puts it, "The fraternities should unitedly stand for the now very ancient ideal and practice of the American College of 'plain living and high thinking'." This is a good deal to expect these days, but it is by no means an unattainable ideal.

* * * *

It is interesting to note that the Publicity Committee of the Inter-Fraternity Conference has recommended that the time devoted to the consideration of the many matters that will come before it be materially extended, and that there shall be two sessions instead of one as heretofore. It is proposed that the first session be opened at 3 o'clock P. M. on the last Friday in November and the second session on the following day at 9.30 A. M. All purely routine matters would, by this plan, be disposed of, as far as possible, the first session; and this would leave the second day free for the discussion and disposition of all reports, for the

**THE INTER-
FRATERNITY
CONFERENCE**

transaction of any new business, and "for any matters that any fraternity may desire to bring before the Conference".

Delegates and visitors who were present at the twelfth annual session of the Conference, and especially those who partook of the buffet luncheon, will appreciate the recommendation that the University Club be abandoned as a place of meeting for the Conference. It is proposed that the new Town Hall on West 43rd street be secured for this purpose, and it now seems probable that this will be the next place of meeting.

The University Club has hospitably opened its doors to the Conference year after year, and it will not be without regret on the part of the delegates and visitors who have been in attendance upon the annual sessions of the Conference that a change is to be made. But the need of more ample quarters is imperative, and it is hoped that satisfactory arrangements can be made for holding the sessions of the Conference at the place now under consideration.

* * * *

Banta's Greek Exchange has announced an advance in the annual subscription price to two dollars, although the price for **BANTA'S GREEK
EXCHANGE** mass subscription by fraternities will remain at the old rate.

To know the *Greek Exchange* is to admire it. The magazine is of inestimable help to the Greeks, and is eagerly read by alumni and undergraduates. The fraternity editor knows its value—though not in dollars and cents. It is worth far more than the present cost, and we feel confident that Banta has not heard any "kicks" on the modest advance in price. None of us want to see it published at a loss. More and more the fraternities have been realizing the importance of placing it in every chapter house; and many, including Alpha Sigma Phi, by this method are bringing their active members in closer touch with the fraternity world.

Mr. Banta is a veteran fraternity man himself, loyal to his own fraternity, but so thoroughly imbued with the spirit of inter-fraternalism that he has continued to publish the magazine year after year at a financial sacrifice. This has been real missionary work, and now it is only right that we help lighten the burden by cheerfully adding to our subscriptions the modest increase deemed necessary to insure the continuance of this publication which all of us so much admire.

The MYSTIC CIRCLE

YALE UNIVERSITY

ALPHA CHAPTER

Since Alpha's last conversation with other chapters through the medium of a chapter letter, she has pledged and initiated two new members who are now introduced to all Alpha Sigs. The new brothers are: Joseph Allen Wakeman, '22, of Fairfield, Conn., and Francis Kelliher, '22, of Albany, N. Y. Brother Wakeman transferred to Yale from Williams College where he was a pitcher on the college baseball team. Brother Kelliher, during his freshman year at Yale, won the Barge Math Prize.

On April 9th, Alpha Chapter held its annual banquet at the Hotel Taft and it was in every way a success. Delegates were present from five sister chapters, Beta, Gamma, Iota, Lambda and Omicron. Many alumni were also present. There was the usual supply of wit mixed with good sound stuff that makes such an occasion worth while. The feature of the affair was the great impetus that was given to the new house proposition which the Chapter is considering.

The advent of spring has brought with it a burst of activity on the part of those who are athletically inclined. Brother Head is on the 'Varsity lacrosse team and Brother Beckwith is on the 'Varsity track team. Brother Hendrick is on the third 'Varsity crew, Brother McKaig on the 'Varsity baseball squad, Brother Gilchrist on the 'Varsity tennis squad, and Brothers Jennings and Dibbell are both on the first Junior crew, the former being coxswain of the crew. Brother Dial is competing for a place on the track team as a pole vaulter. Brothers Gantt and Richardson were on the class '22 Sheff basketball team and Brother Stoner on the tennis team of the same class.

Thinking he might demonstrate the thesis that brain and brawn can be found in one and the same individual, Brother George Barnes, who had already secured his letter in soccer, went into the chess contests and, together with Brother "Rod" Bouck, secured a place on the 'Varsity chess team. Ahem—the thesis is demonstrated.

Brother Willis Ballinger brought honor to himself and to Alpha by securing a place on the 'Varsity Debating Team which defeated Princeton in the annual triangular debates. He was the only sophomore to make the team, a fact which is much to his credit as a debater.

Along literary lines must be mentioned that Brother John Eliot is an editor of the Yale *Graphic*. Brother Al Phillips recently entered the competition to secure a place on this same editorial board.

Alpha managed to be represented again in the list of elections to the honorary scientific society, Sigma Xi, the 1921 list containing the name of Brother George R. Cowgill.

A vigorous campaign for a new house has started. A definite proposition has been under consideration and the campaign for funds has already been put under way to the satisfaction of all. Some future chapter correspondent will be able, we trust, to discourse at length concerning the consummation of what is now the distant objective of all Alpha men.

GEORGE R. COWGILL, C. C.

HARVARD UNIVERSITY

BETA CHAPTER

At this time of year there is little startling news to report. Tales of achievement of Alpha Sigma Phi men have become an old story, and Beta has kept up her reputation about the Harvard Yard. It seems unnecessary to again recount the fact that Brother this or Brother that is rowing, running or jumping; they are all carrying on just as they were when last proclaimed in the February number.

Of special note to Beta, however, are the pursuits of several new men who have been enrolled since the new year. Brother

Hollis Wyman, '23, is second assistant manager of the lacrosse team, assuring us of the managerial end of this activity for two more years. Brother Charles Dexter, '23, was one of the best runners on the Freshman track team last year and is scheduled to compete against Yale this spring. Brother Burke Boyce, '22, is an actor of ability and an editorial writer of the *Crimson*. He is also a letter man on the fencing team, having aided Harvard in placing third in the Intercollegiate fencing meet held in New York and in defeating Yale. He has been elected Captain of the 1922 team.

A successful graduates night rally was staged at the house on April 13th, and the older brothers were made to feel their presence and co-operation were desired and required in all our doings. It is active co-operation that brings pleasure and prosperity to a chapter in the long run.

A formal dance to be held at the house and a formal banquet in Boston scheduled for the spring are annual events which always prove successful and which, when over, remain a source of cheerful memories which make undergraduate life ever bright.

S. H. ORDWAY, JR., C. C.

MASSACHUSETTS AGRICULTURAL COLLEGE

GAMMA CHAPTER

Not so long ago, Gamma surprised the "Aggie" Campus by pledging one of M. A. C.'s most influential faculty men, Dr. A. E. Cance of the Agricultural Economics Department. He is widely known in this country and in Europe as an economist of merit. This addition will make Gamma's faculty far stronger than that of any other fraternity on the campus and brings the total Fraternes in Faculte up to twelve. Gamma also wishes to announce the pledging of John Reed, '24.

As for campus activities, Gamma is holding her own. Brothers Mosely and Harrington are on the baseball squad, the former being an "M" man in his sophomore year and now playing 2nd base regularly on the 'Varsity. In the managerial line, Brothers Tucker, Carpenter, Bliss, Pearson and Pledge Reed are respect-

ively manager of 'Varsity hockey, and on the managerial staffs of football, basketball, freshman baseball and track, all of which sports, with the exception of hockey are holding spring practice. Brothers Lewandowski and Smith, who are already on the Senate, the student governing body, have been elected to Adelpia, the senior honorary society. Only eight new elections to Adelpia were made. "Larry" Martin had previously been elected to this society. Brother Bliss is on the staff of the *Collegian*, the college weekly, of which Brother Martin is the retiring editor-in-chief. Brothers Mosely and Smith served on the Junior Prom Committee and Brother Gaskill is on the Informal, or college, dance committee.

This year, M. A. C. celebrates the 50th Anniversary of the graduation of her first class. Commencement is "The Big Time". Gamma is planning to make as big a time of it for the college and for the Fraternity as possible. The slogan is "Every alumnus back in 1921". Gamma is to have a special initiation of all the men who belonged to C. S. C., the local which went Alpha Sigma Phi and who can be taken in at this time. We want to see every Alpha Sig and C. S. C. back for commencement. Let's make it a true Alpha Sig celebration.

F. S. TUCKER, C. C.

MARIETTA COLLEGE

DELTA CHAPTER

With only three more months of college remaining, and the history of Delta Chapter practically completed for this year, the brothers are not satisfied with the showing they have made for the "Old Gal", and are making vows and plans for next year which will be on us before we realize it. Not that Delta has not had one of the most successful years in its history, but we are looking forward to a bigger and better "Delta Chapter".

With basketball a thing of the past, the baseball and track season still looms ahead. J. S. Kellison was recently relieved as coach of the Marietta baseball team and he has been succeeded by Brother Frank R. Sutton, '15. Brother Sutton has been coach-

ing at Marietta High School and is considered one of the best coaches in Ohio. He was the only man in the history of the college who ever had the honor of being captain of baseball, football and basketball the same year. On the baseball squad we are represented by Brothers Mayfield and Nevada.

Brothers Bush and Johnson have both made the track team. Brother Johnson looks like the best half miler Marietta has ever had.

The annual Mothers Day entertainment was held on February 22nd at the chapter house. There were about forty mothers present. Brother Bush acted as toastmaster of the banquet and several of the mothers responded to toasts.

The P. C. has been making arrangements for the June "Bust" and dance which will be the largest in history if present plans are carried out. Brother A. H. Savenye, '20, has been assisting in the arrangements. Brother Savenye, with Brothers Bosworth, '19, and Brennan, '96, are planning for the organization of a Marietta Council of Alpha Sigma Phi.

Since the last letter, two men have assumed the responsibility of wearing a badge, Howard L. Appelgarth, '24, of Martins Ferry, O., and Charles J. Nevada, Jr., '24, of Bridgeport, O. This brings the number of actives in Delta up to twenty-three.

HAYES CLARK, C. C.

OHIO WESLEYAN UNIVERSITY

EPSILON CHAPTER

The present writing finds Epsilon Chapter with a membership of but twenty-seven, but the small number is made up for by the perfect harmony which we enjoy. Factionalism is unknown and we may well feel proud of the spirit of brotherhood which is evident here. Meanwhile, every brother is exerting himself to the utmost to keep Alpha Sigma Phi in her position of leadership on the campus.

Brother Ruopp, who is President of Delta Sigma Rho, honorary debating fraternity, has recently been elected President of

the Civic Oratorical League, which includes Colgate, Allegheny, Oberlin, Wooster, and Ohio Wesleyan Universities. He will represent Ohio Wesleyan in the contest between these colleges, to be held in the near future, and left on April 21st, to compete in a twenty-four hour debate with Princeton.

This year saw the Phi Beta Kappa key extended to seven men at O. W. U. Brothers Ruopp and Hass were included in this seven, so that Epsilon's unbroken record of at least one Phi Bet' a year has been maintained.

In athletics, Epsilon is well represented, for Brother Bell has already won his "W" in track, having broken the 'Varsity indoor mile record this year. He also holds the two mile record from last year. Brothers Perry, Byers and Wallace are also on the 'Varsity squad, while Brothers Kale and Spriggs are certain to win their numerals as members of freshman track team. Brother Longworth is busy helping the coaches drill the football team in spring practice. He is captain of the 'Varsity football team.

Feeling the need of a little diversion, several of the men took up a collection and purchased quoits, which they have been busy pitching in back of the chapter house. Strange as it may seem, we were followed immediately by five or six other fraternities, and a tournament seems imminent. This game seemed too plebian for "Duke" Hughes. He thereupon procured foils from some place or other and has been having a grand and glorious time with any one nerry enough to risk an eye in combat. To date there have been no casualties. Not to be outdone, Brother Porterfield framed a golf course around the house and proceeded to instruct the rest of us in the fine points of the game. If some of the "rookies" had not played havoc with the lawn, our four hole course might still be in operation.

The Alpha Sigs inaugurated a new species of party at Wesleyan when we recently entertained the faculty at an afternoon reception. Almost all the professors and their wives braved the stormy weather and enjoyed a delightful program arranged by Brother McLean of the School of Music.

Epsilon is planning one of the finest "Sig Busts" in her history. It will take place during Commencement Week. Invitations will include our mothers and sisters. A large showing of alumni is confidently expected.

The following men have been elected officers for the second semester:—Harold W. Ruopp, H. S. P.; Kirk A. Thomas, H. J. P.; Henry B. Hass, H. C. S.; W. Reed Hadsel, H. S.; Linden White, H. M.; T. Irving Bell, H. C., and Hershel F. Byers, H. E.

HENRY HASS, C. C.

OHIO STATE UNIVERSITY

ZETA CHAPTER

Zeta's basketball team lost the deciding game of her league by one point in a hard fought game. The victors became champions of the Interfraternity League. Zeta received a cup, however, for winning the foul shooting contest which was held in conjunction with the basketball games.

The intramural baseball season has opened and the race for the championship is on in full swing. With the veterans of last year's team and several new recruits, Zeta has a strong team and has visions of winning a cup this season. The first game was with Alpha Epsilon Pi and resulted in a victory for Alpha Sigma Phi, score 6-3.

The remainder of the semester finds our calendar filled with the important social events of the year, including four dances, Parents' Day, Sisters' Day and the annual Nut Fest.

Brothers Moorehead, Pollman, Everitt and Blakeslee are on the 'Varsity track squad. Brother Everitt won the 440 in the Chicago meet, his first experience as a 'Varsity track man.

Zeta's quartet, composed of Brothers Eynon, Jenkins, Keen and Davis is springing into prominence and has given several concerts.

An attempt is being made to raise the scholastic standing of the Chapter and a Scholarship Committee has been appointed, which committee has issued cards to all of the instructors in courses in which our men are enrolled. Brother Webb of Beta, who takes a keen interest in the welfare of Zeta, has offered a trophy cup to be engraved on one side with the name of the man having the highest scholastic standing and on the opposite side

with the name of the man making the most improvement in his standing over that of the previous semester.

Zeta will lose the following men through graduation. All have been active in the interests of the Fraternity and their loss will be felt more than is now generally appreciated. Their names and the degrees with which each will be graduated are as follows:—W. M. Beeghly, B. C. E.; G. T. Keen, B. E. E.; C. S. Case, B. Ph.; C. H. Chase, B. Ch. E.; E. H. Adkins, B. Ch. E.; W. J. Bach, B. S.; L. C. Biery, B. Met. E.; A. J. Nemecek, B. S.; and R. D. Roehm, A. B.

G. B. BOWYER, C. C.

UNIVERSITY OF ILLINOIS

ETA CHAPTER

With the closing of this college year, eleven men of Eta Chapter will be graduated from the University. This is the largest number of Seniors that we have ever had graduate in any one year. The active chapter will miss the help of these men but hopes they will make efficient alumni.

The plans for Interscholastic are well under way and we are to entertain a number of alumni and also some of the high school athletes the week-end of May 21st.

Brother Paul Stewart made the Southern trip with the Varsity baseball team and is now playing third base regularly. Brother "Sam" Wallace is showing up in good form on the track team in the hurdles and dashes. Brother "Hal" Yeager was recently initiated into Phi Beta Kappa. Brother Bristol has been elected to Beta Alpha Psi, honorary accountancy fraternity, and Brother Payton to Beta Gamma Sigma, honorary commercial fraternity.

The chapter has entered a team in the Interfraternity Baseball League. At this time, we have played three games, winning two and losing one.

Four men have been pledged within the last few weeks. They are Glenn Shutts, '24, Joliet, Ill.; Bufford Gill, '24, Paris, Ill.; Donald L. Donnan, '22, Idlewood, Fla., and D. A. Snyder, '24, Mt. Pulaski, Ill.

The Chapter wishes at this time to extend a hearty invitation to brothers from other chapters to visit us when coming to the Chicago Convention. We will be in our own home September 1st, and it will be a real pleasure to have you with us.

P. L. PAYTON, C. C.

UNIVERSITY OF MICHIGAN

THETA CHAPTER

Dame Nature has at last thrown off her dull and sombre garb of winter and arrayed herself in spring's brightest and sunniest costumes and those who are acquainted with it know that in Ann Arbor she always shows herself to the best advantage. The coming of spring, with its attendant trips on the Huron and strolls on the boulevard, has brought home to us of Theta, the realization that another year is about ended and makes us look back over the past college months to see what we have accomplished since we started in October. It also brings a sadder thought for there are many among us who will soon leave the walls of Alpha Sigma Phi never to return as actives again. This number is exceedingly large, for according to present plans 14 to 16 of this year's actives will either be graduated or will go into professional fraternities at the end of the year.

Viewed as a whole, the year 1920-21 may be said to have been a successful one for Theta. We are on a well organized basis and command the respect of the campus. More than that, however, the chapter has developed a strong sense of unity and harmony in itself and it is of this fact that we are the proudest. Our results from rushing have been highly satisfactory and we believe that we have picked a bunch of men capable of carrying on the work of the Fraternity at Michigan in a manner that will do it honor. We are well represented in activities and we have reason to believe that when next year rolls around we will be better represented.

The annual Michigan Union opera "Top o' th' Mornin'" has just been presented in Ann Arbor and in other Michigan cities and has been universally proclaimed the best that has ever

been produced. This fact is especially significant to Alpha Sigs, for Brother E. A. Krueger was General Chairman and Brother F. L. McPhail was next in rank, being the Stage Manager. Brother D. W. Hunter and R. G. Burchell were also on its Committees.

Brother William E. Bandemer was recently elected to Tau Beta Pi, honorary scholastic engineering fraternity, and Brother H. R. Smith to Order of the Coif, honorary scholastic legal fraternity. In addition to this honor, Brother Smith has also been a member of the Michigan Law Review board for the past two years and was a member of Woolsack, junior honorary law fraternity.

Initiation was held March 4th and 5th, when seven neophytes were introduced to the Mystic Circle. The initiates are: John Logan Stephens, '24, of Coffeyville, Kans., Hugh Archie McGreggor, '24, of Ann Arbor, Mich., Irvin Gruen Bieser, '24, of Dayton, O., William Christian Kratz, Jr., '24E, of Buffalo, N. Y., Arthur Byron McWood, '24, of Detroit, Mich., Owen Sebastine Erhard, '24, of Royal Oak, Mich., and Hugh Kirkwood Duffield, '24, of Oak Park, Ill.

We have pledged three men since that time, namely Robert Moriority, '24, of Waterbury, Conn., Ralph Baker, '23, who entered college this semester as a sophomore from Kansas Normal, and Chas. J. Dresbach, '24, of Circleville, O. These men, together with Pledge Carl Boswell will be initiated in the near future. Pledges Myers, Alexander, and Holt will be initiated later.

Theta had the pleasure of meeting Brother Vermilye, Iota, a member of the Cornell 'Varsity track team, at the recent Cornell-Michigan track meet.

A house party was held the week-end of April 1-3, when many of the more socially inclined brothers held sway.

Theta wishes the Brothers of the sister chapters a happy vacation and hopes to see them all at the Convention in Chicago.

WILLIAM H. RILEY, JR., C. C.

CORNELL UNIVERSITY

IOTA CHAPTER

Spring brings with it an awakening of plant life and all that sort of thing but quite often it brings an additional awakening of so-called "spirit", which is more or less dormant during the winter season. This renewed "spirit" is noticeable to a marked degree in Iota. "Gus" Fisher, Rudyard Kipling or anybody else would be capable of noting this influx of "camaraderie" without any special effort.

"Sher" Vermilye, the latest recipient of the coveted 'Varsity "C", gained this distinction by winning the 120-yard high hurdles at the Michigan meet. Brother Wright has been awarded the "C" for his work on the wrestling team. Brothers "Mike" Cilloniz, Kaye Hunter and "Jack" Bell have landed berths on their respective college crews.

On Friday evening, April 29th, Iota initiated five new members, Larry Barnes of Washington, D. C., Arthur Emerich of Syracuse, N. Y., Ellsworth Hart of Cleveland, O., Arthur Megill of Tidioute, Pa., and Paul Moore, of Auburn, N. Y.

On the Monday following, new officers were elected: Robert G. Clark, H. S. P.; H. Bernhard Glathe, H. J. P.; Francis L. Casey, H. E.; Jerry S. Dorsey, H. S.; Harry Schenck, H. C. S.; Robert M. Bell, H. M., and Harry Reynolds, H. C. James Robnett will be the new chapter correspondent.

Brothers Schade and Apthorpe as delegates to the Alpha and Omicron banquets are loud in their praise of these chapters of the Fraternity. "Al" and "Bill" were royally received by their brethren across the way.

Cornell's annual Spring Day looms up in the near future. It is hoped that as many alumni and delegates as possible will be here for the Initiation Banquet to be held at the Dutch Kitchen on the eve of the traditional celebration in order that they may avail themselves of an early start for the hilarity which Spring Day, because of its inherent characteristics, is sure to produce.

JERRY S. DORSEY, C. C.

UNIVERSITY OF WISCONSIN**KAPPA CHAPTER**

Big things are happening about the Wisconsin campus nowadays, and Kappa is contributing to their success in every possible way.

The University Exposition, April 21, 22 and 23, was the feature of the spring. Its purpose was to show the public, in as condensed form as possible, just what the University is doing. Every department and activity in college was represented by booths in the armory and gym. Three Alpha Sigs took leading parts in the promotion of this huge undertaking, and practically the whole chapter turned to and worked one way or another. Brother Perrin was chairman of the Service Committee, Brother Schubert had charge of the entire Medical exhibit, and Brother Scott was in charge of the Forest Products booth.

In spring athletics we are represented by Brother George Sanderson on the 'Varsity crew, rowing having been reinstated at Wisconsin this year. Brother Forrest Paddock is the pitching sensation of the 'Varsity nine. Pledges Campbell and Bonnell are rowing on their respective college crews, and Brothers Hance, Eagleburger and Bidwell are playing Freshman baseball.

Brother "Cop" Taylor is to be congratulated for leading the Wisconsin basketball team to a tie for first place in the Conference League, as well as for his splendid individual record.

It is too early to predict what Kappa's chances will be in interfraternity baseball, but Captain Hance is confident that we will give them all some trouble. In the interfraternity basketball league, Alpha Sigma Phi was fourth out of thirty-two teams entered.

The gala events of Kappa's social season will be a formal dance May 20th at the Park Hotel, and the annual Sig Bust June 4th, which we expect the alumni to attend in force.

The following seven men have entered the Mystic Circle so far this year: Earl Goeltz, '23, and Hersey Hansen, '23, both of Ashland, Wis., John Roe, '24 of Oshkosh, Wis., Mars Madsen, '21, of Viborg, S. D., John Lahman, '22, of Franklin Grove, Ill., Max Reinhold, '24, and Bruno Rohde, both class of '23 and both of Milwaukee, Wis.

LINCOLN A. SOLLITT, C. C.

COLUMBIA UNIVERSITY**LAMBDA CHAPTER**

Lambda is just passing through a very busy period. On the evening of Monday, March 14th, we initiated the seven following men into the Mystic Circle: Richard Webb Fairbanks '24, New York, N. Y., George Henry Buckley '24, Afton, N. Y., Marcel Edward Conrad '24, New York, N. Y., William Edward Collin, '24, St. Louis, Mo., William Henry Lester '24, Rochester, N. Y., Gilmer Sherwood Atkins '24, Kernersville, N. C., and Francis Carlyle Osborne '22, Syracuse, N. Y.

After the men had been taken into the brotherhood, the chapter held a dinner at the house in their honor. There was much convivial jollity, and this social get-together of the chapter was one of the year's brightest spots in fraternity fellowship. "Tubby" Hartzler was on hand with a great line of jokes, while the "pome" written for the occasion by "Dick" Fairbanks, one of the initiates, brought down the house.

On the evening of the 23rd of March, just before the Easter vacation, the chapter gave an unusually successful informal dance at the house. Our Junior Week Tea, on the afternoon of April 4th, was well attended and visitors from most of the other fraternities on the campus were present. The big social event of the year, however, was Lambda's annual formal dance, given at the Hotel Astor on April 15th. This affair was, to quote Brother "Dick" Young, a "regular humdinger"; everything about it was planned and carried out splendidly and the sincerest thanks of the chapter are due the Social Committee for the fine work.

The next event on our calendar is Lambda's annual banquet, to be held at the Hotel Astor on May 14th, the last Saturday before final exams begin. Brother "Dick" Rogers is the Chairman of the Banquet Committee.

During the week of April 18th, the Columbia "Varsity Show" was held at the Hotel Astor. On Fraternity Night Alpha Sigma Phi was present en masse both in the audience and on the stage, as there are four Alpha Sigs in the show, Brothers LaForge, Gilman, Rickenbacher and Cooper. Brother Hartzler is taking part in a saxophone sextette specialty.

The elections held just before Easter vacation resulted as follows: H. S. P., Earle Scovil; H. J. P., Kess Scovil; H. E., Lloyd Hartzler; H. C. S., Rufus Rickenbacher; H. S., Dick Young; H. M., Frank Thomas; H. C., Chester LaForge.

The officers-elect were installed immediately after vacation. Brother Hartzler was elected official delegate to the Chicago Convention with Brother Thomas as alternate. Brothers Murray, Hall and Hawkins were elected to be the unofficial delegates to the Convention.

Brother Earle Scovil is playing on the 'Varsity Tennis Team this year and Brother "Art" Andrews plays on the Freshman team. Brother Kess Scovil has again earned a seat in the first boat of Columbia University 'Varsity Crew, while Brother Jack Thompson has a safe berth in the Junior 'Varsity. Brother Brush is coxswain of the 'Varsity Crew for the second year. Both crews defeated Yale on April 30th. Lambda has two men on *Spectator*, four men on the *Columbian* and six men on the Glee and Mandolin Clubs. Since the last initiation Albert Dumbshot '24, a likely candidate for the track team, in weights, has been pledged.

Brother "Dick" Rogers was the chapter's official representative at the annual Omicron Banquet on April 30th.

F. E. COOPER, C. C.

UNIVERSITY OF WASHINGTON

MU CHAPTER

During the past two months, Mu Chapter has been busily engaged in landscape gardening, and by the end of the quarter, the grounds about the house, a picture of which appears in this number, will be in the best of condition.

Plans have been completed for an extremely novel formal dance to be given in our new chapter house in the near future. Instead of the regular dress formal, usually given outside the house, we are giving what is termed an Hawaiian formal. It will be the first of its kind at Washington and promises to be a great

success. Credit for the idea goes to our new Social Committee, of which Brother Charles Hill is the Chairman.

We all feel very fortunate in having with us again, Brothers Sanders and Pinkerton. Ensign Sanders has just returned from a six months cruise around the continent. Brother Pinkerton is back at his old position on the University *Daily Staff* as assistant editor.

At a recent election, Brother "Jack" Janeck was elected Senior Representative on the Business Administration Council. Brother Roy Paris Turner has been elected President of the Officers' Club of the R. O. T. C. and also President of Scabbord and Blade, national military fraternity. Brother Harvey Vaughn was recently honored by being pledged to Pan-Xenia, honorary foreign trade fraternity.

Although Washington's 'Varsity crew lost its race with California at Berkeley by a scant five feet, Brother Fred Henricksen, captain of the freshman crew, saved the day by stroking his crew to a victory over the California freshman crew by two and a half lengths. Brother "Skin" Johnson was practically assured of his "W" in track when he came in third in the recent try-out for the rapidly approaching Relay Carnival. Brothers McMahon and Gardner are performing brilliantly on the 'Varsity baseball team. The former has led the batting list to date with an average of .400 while the latter is rapidly attaining the same average. There is an unusually large turn-out from the house for spring football practice and from all indications, we will be represented by some of them on next year's football squad. The rest of the athletes in the house, not being of 'Varsity calibre, are consistently turning out for house baseball with one point in mind, the capture of the Fraternity baseball pennant.

We are pleased to announce at this time the pledging of three new men, Amos Christie, late of Tau Chapter where he was also a pledgee, Walter Mitchell of Seattle, and Mack Carter of Portland, Oregon. Pledge Christie made his numerals in freshman football at Stanford and has reported for spring football here. Pledge Mitchell has just entered college from Annapolis where he spent more than a year. Pledge Carter won his "W" on the 'Varsity wrestling team.

JOHN B. LOUGHARY, JR., C. C.

UNIVERSITY OF NEBRASKA

XI CHAPTER

Two initiations have been held since the last issue of *THE TOMAHAWK*, one on March 18th and the other on April 14th. In the first, the following men were put through: Harold Felton '23, of Neola, Iowa, Rodney Gillette '22, of Atwood Kansas, Charles Mitchell '24, Harry Pecha '24, of Omaha, Neb., Harold Schrader '23, of Schuyler, Neb., Alfred Sorensen '23, of Ord, Neb., and Harold Sumption '23, of Schuyler, Neb. In the second initiation, John Pucelik '22, of Spencer, Neb., and Harry Jacobs '23, of Havelock, Neb. We are pleased to be able to introduce these men as brothers and feel that each one is made of the stuff that makes for good Alpha Sigs. We might mention that Brother Pucelik was given honorable mention on Walter Camp's All-American football team last season.

Xi has held several parties which have gone off with the usual success but to account for them would be but to duplicate what has been said in previous numbers. Mothers' Day has been decided upon for May 1st. On that day we give our entire attention to our mothers and show them who we are and what we are. It is a great day for both of us as we get in closer contact with each other and it develops a mutual love which is about the greatest thing in the world.

With the opening of spring football, Xi has five men in training, Hoy, Nixon, Pucelik, Sorensen and Ogden. Pucelik is a veteran and we expect the others to place on the team next fall. Brother Crandall is out for baseball and promises us a letter for the season's work. On the track, Brothers Diers, Paul and "Jack" Adams and Pledge Haskel are doing good work and should win their numerals by the end of the season. The University has just recently added thirty tennis courts to the campus and Xi is keeping them fairly well filled. In bowling, we took second place after a hard fought contest. Brother Fred I. Herman has made Sigma Xi, honorary engineering fraternity.

Xi Chapter wishes one and all a profitable vacation and hopes to see as many as possible at the Chicago Convention.

ARTHUR M. HERRING, C. C.

UNIVERSITY OF PENNSYLVANIA

OMICRON CHAPTER

Reinforced by our recently initiated freshmen and stimulated by the interest and help of our alumni, Omicron is continuing the good work of the first part of the year. A survey of the activities and attainments of our men is very encouraging.

The sixteen men who were announced as pledges in the last issue of *THE TOMAHAWK* were initiated on the evenings of March 17th and 19th. These men have entered into the spirit of fraternity life with all the enthusiasm and vigor which characterizes the men of Alpha Sigma Phi; nearly every one of them has entered some competition on the campus.

Recent elections gave us the following offices: Brother Maxwell Eaton was elected by popular vote of the entire student body to be President of the Christian Association. Brother Charles Perry to be Managing Editor, Brother Sharick, Advertising Manager and Brother Brunner to the board of *Punch Bowl*, the college humorous monthly. Brother Perry has been elected to the board of *Red and Blue*, the college literary magazine. Brother Heurich was awarded his "P. A. A." insignia for his work on the Junior 'Varsity basketball team. Brothers Conwell and Klauder are on the Rifle Team. Brothers Boag, Heselbarth and Little starred in the annual "Mask and Wig" Club's production, "Somebody's Lion". In addition to the three Mask and Wiggers, we have Brothers Fitts, Cochran, Hill and Curtis on the Glee Club.

Brothers Kenneth Eaton, Heselbarth, Taylor, Cochran, J. P. Jones, and Maryott are holding responsible positions on committees of their respective classes. Brother Lindsay, a Lieutenant in the Pennsylvania National Guard, has been a big factor in recruiting men to establish an all student artillery unit at the University. Brother Perry was elected President and Brother Judson, Secretary, of the Central New York Club at annual election held recently. Brother Budd is a member of the Freshman Crew. Brother Maryott is on the Freshman Baseball squad.

Omicron does not confine herself to campus activities, however, but turns frequently to social diversions. During Ivy Week, the Seniors' week of pleasure, a dance was held at the house.

On the evening of April 1st, the active chapter attended *en masse* the Interfraternity Ball at the Bellevue-Stratford Hotel. This was the second affair of this nature staged by the Greeks at Pennsylvania. It has become an annual occurrence. Breakfast was served at the house after the dance.

We have been honored by the visits of brothers from other chapters this semester. Among these were Brothers Baird (Theta), Lucas (Kappa); Thomas and Thompson (Lambda); Vickers (Upsilon), and Graham (Phi) who ran for Ames at the Relays. Brother Hugh Mackay, an alumnus of this chapter paid us an all-too-short visit recently.

The officers for the ensuing term are: A. Millard Taylor, H. S. P.; Maxwell T. Eaton, H. J. P.; B. Browe Stone, H. S.; William A. Boag, H. C. S.; Benton H. James, H. E.; Henry L. Stoddart, H. M.; Louis A. Brunner, Jr., H. C., and J. P. Jones, A. C. The Prudential Committee is composed of Maxwell T. Eaton, W. Kenneth Eaton and T. Kirk Heselbarth.

The Chapter wishes to thank Alpha for the hospitality shown to Brother James, Beta for that shown Brother Taylor and Nu for that shown to Brother Wagner.

B. BROWE STONE, C. C.

UNIVERSITY OF COLORADO

PI CHAPTER

Interfraternity contests excite much interest among the students at Colorado, and the intermural track meet held on April 9th was no exception. Pi finished fourth being nosed out for third place by one point. All fraternities with the exception of three entered teams and the points were widely distributed. The final point score showed Beta Theta Pi with 40, Sigma Phi Epsilon with 28, Independents with $20\frac{1}{4}$ and Alpha Sigma Phi with $19\frac{1}{4}$. Brothers Moore, Nessaman, Kitch, Stubbs and Pledge Austin were the point winners for Pi.

In interfraternity baseball, Pi has broken even on the first two games played, winning from Phi Kappa Psi 15-10 and losing to Sigma Phi Epsilon 6-2.

Brother Moore, one of this year's initiates and a freshman in the College of Liberal Arts has made the 'Varsity track team and will compete in the first triangular meet of the season on April 23rd. Brother C. Lewis, freshman engineer, is competing for a place on the 'Varsity relay team.

The wrestling season is over, and the Coleman brothers and Pledge Tom McGlashen have been recommended for letters. Glen Coleman was All-Conference champion in the 145 lb. class. He had an excellent record, throwing one of his men in 30 seconds and another in less than 3 minutes. Roy Coleman promised to have the same success in the 158 lb. class but was injured in the second meet and forced to remain out of the game for the balance of the season. McGlashen is a freshman in the Engineering College and won his letter in the 115 lb. class. This was his first year of wrestling.

Brothers Reid Williams and Howard Nicholas both made the 'Varsity debating team, and the former was a member of the team which recently defeated Kansas University.

Brothers Noll and Nessaman have reported for Spring football practice. The two Colemans, and Brother Moore will report later.

The chapter will hold a "Sig Bust" on May 20th, the day of the May Fete and the biggest day of the year for the University, and a formal dance at the Boulderade will be held that night.

The following are the new officers of the chapter:—Henri Vidal, H. S. P., Warren Shobert, H. J. P., Robert Nessaman, H. E., John Lenihan, H. S., Roy Coleman, H. M., Perley M. Lewis, H. C. S., and Roy Moore, H. C. Reid Williams is the Steward.

PERLEY M. LEWIS, C. C.

UNIVERSITY OF MINNESOTA

RHO CHAPTER

At this opportune time we are glad to announce the pledging of Howard Redin, of Rockford, Ill.; Alvin R. Johansen, Wheaton, Minn., and Samuel J. Sutherland, Minneapolis, Minn.

Two of Rho's men were graduated at the end of the winter quarter. Brother Gerhard Neils received his degree in the School

of Business, and is now engaged in the lumber business at Cass Lake, Minnesota. Brother Clarence J. Iverson has been admitted to the bar, and is busy practising law in the city of Minneapolis.

We have fourteen more seniors who will be graduating at the close of the present quarter. This will compel us to do considerable spring pledging, so as to keep the active chapter up to standard.

In inter-fraternity athletics, our boys have run up against a streak of bad luck. The basketball quintet was defeated in the semi-finals by the Sigma Phi Ep's, by a margin of one point, 12 to 11. We put up our usual hard fight, allowing the Sig Ep's only one point in the second half of the game. Our baseball team has been defeated twice this season. The first game was lost to the Phi Psi's, 11 to 8 in a ten inning game; in the other, we were beaten by the A. T. O.'s, 6 to 4. Pledge Redin is the individual star on our baseball team. His great work behind the bat, combined with his hitting capacity, are worthy of mention. Brothers Sims and Peck will represent the chapter in the inter-fraternity tennis tournament. They are already in mid-season form, and Rho's chances for another trophy this year seem bright.

During the last quarter Rho men have added several more campus honors to their credit. Peter Swanish is the moving spirit in the University Golf Club. Lawrence Clark has been elected president of Sigma Delta Chi, journalistic fraternity; he has also been elected to Beta Gamma Sigma, honorary commercial; Carl Fribley to Pi Delta Epsilon, honorary dramatic, and Owen Wangenstein to Incus, honorary senior medical fraternity. George Schurr made the senior requirements in Sigma Delta Psi, honorary athletic fraternity. Leighton Smith was recently elected to the Minnesota Union Board of Governors from the Academic college. Pledge Sam Sutherland is on the Minnesota Daily Board of Publishers, representing the engineering college.

The social activities of the fraternity have not been overlooked, to be sure. A Musicale was given at the house on March 12, at which a large number of the university faculty, alumni, and parents of the brothers were present. An informal dance, also held at the house, was made a "gala" affair by the large number of actives who attended. There has been a good representation of "Sigs" at every great social event this year. Four of the brothers

attended the Military Ball on April 15, and eleven men comprised the Alpha Sig delegation to the Senior "Prom".

The following men were elected to fill the fraternity offices for the coming year: Brother George A. Schurr succeeds Paul Jaroscak as H. S. P.; Lawrence S. Clark is the new H. J. P.; Richard L. Sullivan, H. S.; Theodore H. Wangensteen, H. C. S.; Leighton P. Smith, H. E.; Lloyd A. Peck, H. M., and Carl E. Fribley, H. C.

Brothers Lucas, Meyer, and Pinther of Kappa paid us a very pleasant visit not long ago. We welcome and urge all brothers who may incidentally visit Minneapolis, to come and see us.

THEODORE H. WANGENSTEEN, C. C.

UNIVERSITY OF KENTUCKY

SIGMA CHAPTER

The stereotyped form of the usual chapter letter which appeared in the December, 1920, number of *THE TOMAHAWK* evidently hit the C. C. such a blow that he wasn't able to recover in time to get the February letter across. However, here's how we stack up now with the following officers steering the boat: Earl S. Winter, '22, H. S. P.; George A. Hillsman, '21, H. J. P.; William K. Stokes, '22, H. S.; Otis L. Jones, '23, H. C. S.; Harold F. Waits, '23, H. E.; Fred Fest, '23, H. M.; Lawrence A. Soper, '22, H. C.

Our Mystic Circle has been enlarged by the initiation of Brothers Heavrin, Young, Riggs, Sahlie, Loftus, Wallace and Gibson. The second semester brought us two mighty good pledges: James Bedford, '25, and Raymond Craig, '22, both of Lexington. Bedford was one of Lexington Hi's best athletes and he looks like 'Varsity football material. Craig is a member of the Glee Club, Sigma Tau, an honorary musical, and Pi Sigma, a local honorary mechanical engineering fraternity.

By throwing the spotlight about the campus we find Brother Dahringer, '24, wearing a Sigma Tau, honorary musical emblem, which he acquired just before he played the leading role in

"The Amazons", a recent dramatic production. Brother Waits, '23, is wearing a Delta Sigma Pi, honorary commercial, pledge button. Brothers Hillsman, '21, and Slomer, '22, are members of Pi Sigma, honorary mechanical engineering fraternity. Brothers Heavrin, Jones, and Brown are pledges of the "Keyes", "Mystic Thirteen", and "Lamp and Cross", honorary Sophomore, Junior and Senior Clubs, respectively.

According to form Sigma is supplying her usual quota to the 'Varsity baseball team with Brother Brown (Captain) at first base, Brother Propps at shortstop, Brother Slomer, at third base and pitcher, Brother McKinney, pitcher, and Brother Jones, outfield.

Brother Hillsman, while on his recent trip to Chicago with the Senior engineers, had the pleasure of visiting Chi Chapter. He was greatly impressed by the fraternal spirit shown by its members and their efficiency in handling business of the fraternity.

We enjoyed a short visit from Brother Genebach, Theta, while on his southern baseball trip.

Sigma cordially invites all members of Alpha Sigma Phi to be present at their annual "Bust" June 4, 1921.

OTIS L. JONES, C. C.

LELAND STANFORD UNIVERSITY

TAU CHAPTER

Nineteen men returned to the house after the spring vacation.

The following two men were recently initiated—Nelson Valjean, '24, of Breckinridge, Tex., and Ross Stearns, '24, of Bakersfield, Cal. Brothers Valjean and Stearns have left college temporarily but both expect to return in the fall.

Dramatics seems to be the strong suit this year. Brother Myron Higby wrote most of the songs and is now directing the music of the Junior Opera. Brothers Ed Frost and Pledge Morris are in the cast. The latter had a good part in the English Club's play in March. Brother Valjean carried a character role in the Ram's Head play and has also entertained on the campus several times.

Pledge Greppin has been doing excellent work in Freshman tennis and swimming. He was in charge of the lighting effects which contributed so materially to the success of the English Club's production. He is now working out the lighting for the Spring Carnival. The Chapter will take part in this carnival, which is to be in the nature of a Spanish fiesta.

Brothers Higby, Goddard, Valjean and Pledge Morris made the tour of the southern part of California with the Glee Club during the spring vacation.

Brothers Young and Rowell have reported for spring football practice.

Pledge Amos Christie, after winning his numerals in Freshman football last fall, transferred to the University of Washington and was pledged by Mu.

Brother Frank Cowgill has been elected president of the Economics Club, into which Brother D. E. Palmer was recently initiated.

Brothers Simpson, Brown and Walter were graduated in March.

KENNETH N. STEWART, C. C.

PENNSYLVANIA STATE COLLEGE

UPSILON CHAPTER

At an initiation held on April 22nd and 23rd, the following men entered the Mystic Circle: Benjamin Franklin Leaman, '22, of Lititz, Pa., Norton Henry Reichenbach, '22 of Allentown, Pa., Roy Steele Fisher, '23 of Wilmington, Del., George Bernard Rose, '24 of Williamsport, Pa., George Percy Foreman, '24 of Saxton, Pa., and Winston Allen Brecht, '22 of Erie, Pa.

The social side of life has been well taken care of. We recently held our formal dance, attended the Junior Prom, and the same evening held a dance at the house for the under-classmen. The following night a regular house dance was held. Plans are now being made for the Commencement Party.

Brothers Hierns and Smith are in the cast of the Thespians Show at Commencement. Brother Fisher was recently elected to the *Froth* Board, the college comic magazine. Brother Brecht was initiated into Tau Beta Pi, honorary engineering fraternity.

Brothers Rose, Reimer and Bast are on the Freshman baseball squad. Brother Morris made the *Collegian* Staff, semi-weekly college paper. Brother Richardson is on the track squad. He has also been advanced to Captain in the Cadet Regiment.

Penn State will try something new when a Fathers' Day is held on April 30th. Arrangements have been made to entertain Dad by the college and fraternities.

Our new President, Dr. John Martin Thomas, arrived April 15th and was formally welcomed at a huge mass meeting held by the entire student body. He will take up the duties of his office immediately although formal inauguration will not take place until the fall.

After a successful season of winter sports, Penn State has started brilliantly upon her spring activities. The baseball team has won its first eight games to date. The track team has been undefeated in the three meets held to date and triumphed over Harvard on April 19th.

The following are the new officers of the chapter: P. H. Engstrom, H. S. P., E. G. Richardson, H. J. P., P. L. Knepper, H. M., L. H. Hierns, H. C. S., G. Morris, H. S., and R. M. Swift, H. E.

CLYDE R. LENHERT, C. C.

IOWA STATE COLLEGE

PHI CHAPTER

To say that Phi has been active since the last issue of THE TOMAHAWK is putting the expression mildly. The slogan which was adopted after the holidays "Every Man Out for Something", has served as a stimulus to some of the dormant qualities of many of our brothers and prospectives. The result is that all of the men in the house are doing active work on the campus, and are daily gaining new recognition for Alpha Sigma Phi.

Brother Graham, captain of last year's cross-country team which won the "Big Ten" championship, has been performing wonderfully in all the indoor meets this spring. "Stan" won first place in the mile at the State Triangular, first in the mile at the Kansas City meet, negotiating the distance in 4:30 $\frac{4}{5}$, was a member of the two-mile relay team which beat Kansas U. the

same evening, helped defeat Notre Dame in another two mile relay race, and last but not least, he outran Furnas of Purdue, 1920 Olympic star, as anchor man on the medley relay team which took first place at the Illinois relays. Medals are piled high in his room and before the season is over, he is sure to have more. He ran on the 'Varsity two-mile relay team which broke the record at the Drake Relays on April 23rd and ran in the distance medley and two-mile relay at the Penn Relays on April 29-30. In both of these races Ames finished second.

The record of Brother Groth in the 158 pound class on the wrestling team is four bouts won, one a draw and two lost. Just recently, the wrestling team lost to Penn State, national collegiate champions, by the score of 28 to 18. This is "Hollie's" last year of competition. Brother Brenizer has been on the wrestling squad all season and he met the middleweights from Nebraska and Wisconsin.

Pledge Sharpe went as far as the semi-finals in the collegiate boxing tournament, winning his other matches with ease. Brother Laughlin is competing on the track team in the quarter and half. Pledge Keating is showing up well as a low hurdler, shot putter and quarter miler. We believe Frank will soon be wearing the coveted "A".

Intramural baseball has started and our first opponents will be the Theta Delta Chi's. We believe we will win the loving cup, which is offered to the baseball champions by the Athletic Association.

Other activities include: Brothers Cloys and Helmrich in the Junior Class play, Porter and Helmrich as members of the college Glee Club, Graham on the Cardinal Guild, student governing body, Horgen as a member of the "Ag" Council. Brother Cloys also takes part in the Dixie Club's minstrel show which is to be put on in the near future.

At the recent election these Brothers were elected: Edward Thayer, H. S. P., Drexel Winkler, H. J. P., Harold Chace, H. M., Felix Helmrich, H. E., Donald Porter, H. C. S., Karl Graf, H. S., and Harold Brenizer, H. C.

The big dance of the season will be held on May 28th, and all Alpha Sigs in the vicinity are urged to be present.

DONALD R. PORTER, C. C.

UNIVERSITY OF CHICAGO

CHI CHAPTER

With less than a year's existence behind her, Chi Chapter has come to recognize a few principles which cannot be overlooked in the climb to the top in the fraternity world. She has determined to have a new abode. In order to be recognized here at Chicago, where a good front and first appearances count so much, Chi early realized the need of a good looking dwelling. With nearly ten thousand dollars already pledged for a first payment, the Chapter hopes to reside in one of the "castles" along Woodlawn before the end of this college year.

Though a high class fraternity house is almost an essential element to get high class pledges, through hard work and a horse-shoe, Chi recently pledged ten real men. Without an exception, they have fallen in with true Alpha Sig spirit and a finer group of workers has never been seen. The H. M. is having the easiest time of his career with them and still manages to get his full sleep. The pledging of these men represents the second step in the Chapter's program to build up.

In regard to activities, we have little to say, we will frankly expound that we have not bloomed forth into the greatest fraternity represented at Chicago. For us to think it, for me to write it, or for you to believe it, would be sheer folly for all of us. Right now, Chi has practically dropped everything in order to make preparations for the Convention this fall. Everything is being done to make it the biggest, the most original, and the most impressive convention in the history of the national organization. Nothing will be spared in endeavoring to accomplish this result.

Brother Wood will probably get his "C" as a member of Chicago's championship Big Ten gym. team.

Our bowling team finished fourth in the inter-fraternity tournament and was the best supported team entered.

As to the Convention, we want to see every chapter simply flood us with guests, both actives and alumni, for we have a Noah's Ark here that refuses to go down, no matter how big the flood.

LA FOREST DIZOTELL, C. C.

OREGON AGRICULTURAL COLLEGE**PSI CHAPTER**

With the advent of spring, Psi looks back upon a successful year with a feeling of satisfaction upon the accomplishments of the men and the Chapter as a unit. In intramural athletics, Psi established a record by winning first place in the National Fraternity cross-country runs, second in basketball, and is now developing promising teams in track, baseball and tennis. As for intercollegiate activities since our last letter, we have been well represented.

At the close of the wrestling season, we came into possession of three new 'Varsity sweaters which will be worn by the following brothers, "Sam" Armstrong, who has concluded his third year on the 'Varsity, "Bud" Fish, who has thrown all comers at 145 pounds, winning the championship of the Pacific Northwest in his weight, and Pledge "Bob" Fulton, who, although a new man, showed remarkable skill at the game. Both Brother Fish and Pledge Fulton will be with us for two years more and great things are expected of them.

Brother "Tex" Hartmann is back on the baseball squad with the same spirit he has displayed in the past two years and will no doubt enjoy several fine trips with the team. Brothers Powell and Tousey are indulging in spring football practice and will return next fall to fight for positions on a winning "Aggie" team. Brothers Baker and Faucett reported for the track team. Brother Condit has just returned from a successful trip with the Glee Club.

Spring initiation was held April 2nd, at which time the following men were taken into the Mystic Circle, Professor W. L. Powers of Corvallis, Ore., as a faculty member, C. A. Henderson, '16, of Reedsport, Ore., an alumnus of the old Aztec tribe, and L. W. Patton, '23, of Corvallis, Ore.

Brother Taylor completed his college course at the end of the winter session and has left for Medford, Oregon, where he will have charge of the College experimental station. Brothers Mende, O'Rourke and Glossop have left to accept positions offered them.

The Portland Alumni Council has given several good parties for Alpha Sigs living or visiting in Portland and is doing big things to further the cause of our Fraternity.

D. F. PALMER, C. C.

ALUMNI COUNCILS OF ALPHA SIGMA PHI

NEW YORK

The New York Alumni Council started 1921 activities with a banquet at Murray's Restaurant on January 25th, followed by a stag party at the Central Theatre where two rows of presumably unsophisticated Alpha Sigs learned of the ways of the world of women as revealed by the popular French actress Alice Delysia in "Afgar". During the "feed" at Murray's, Brother "Bob" Murray (Λ) secured the floor long enough to get a vote on a new member of the Executive Committee to succeed Brother Walter P. Boos (O) who has left the city. Brother "Ken" Fisher (I) was elected.

Luncheons at Davidson's Restaurant have continued to be held every other Tuesday. Brother C. R. Lane (A) reports a good lunch and intentions to continue the luncheons throughout the year. Send him your address, he is at 15 Dey Street, if you want to receive notices.

The Council held its second meeting at Lambda Chapter House on Tuesday evening, April 19th. The usual routine passed quickly but the first mention of the coming Convention brought out a great deal of interest and enthusiasm that continued until midnight. The Council elected Brother A. Loomis Kirkpatrick (Θ) as its delegate, equipped him with full instructions and general expressions of opinion on propositions to be brought up at the Convention, and displayed its interest and good faith by voting to pay his entire expenses.

Another meeting before the summer and the regular spring dance at Lambda Chapter House will probably be matters of history before long.

M. A. TAYLOR,
Secretary.

PHILADELPHIA

The Philadelphia Council held its first meeting of the year on December 15th, 1920, at the Omicron Chapter House. Twenty-five members were present, Omicron, Iota, Pi and Kappa being represented.

The following officers were elected: President, J. R. Magnus (O '17), Vice-President, E. Tourison (O '19), Secretary-Treasurer, R. van der Bie (K '17).

A social committee consisting of Brothers Tourison, Westing and Warner was appointed to arrange for dinners, dances, theatre parties and other social functions, the intention being to promote this line of activity. The committee acted quickly and wisely, a dinner at the Omicron House was enjoyed by the alumni on January 27th, a dance which inaugurated the rushing program for Omicron was held February 3rd, and a theatre party attended the Mask and Wig performance of "Somebody's Lion" on March 31st.

This Council is striving to become a most efficient power for good in the Fraternity. There is excellent spirit among the sixty members, who individually and as a Council intend to do all in their power to further the interests of Alpha Sigma Phi.

Meetings are held on the third Thursday of the month at the Omicron Chapter House. All alumni will receive a hearty welcome if they attend any of these meetings.

R. VAN DER BIE,
Secretary.

MILWAUKEE

Our last news letter was written when we were looking forward to our annual Homecoming at Madison and Kappa Chapter. That event proved to be memorable in every respect. Whether or not our impression of last fall will be heightened by our impending visit in June for the "Bust" remains to be seen. As in former years, the Milwaukee delegation plans to go out in force.

At our last two meetings, the September Convention came in for considerable discussion. We are sure to send at least one official delegate. In all probability, we will be represented by three or four of our Milwaukee organization. Three of us have already planned definitely to attend our first Alpha Sigma Phi Convention.

On last Christmas Day, one of our members, A. J. ("Dutch") Benner (E '15) was married. Brother Benner is employed as an electro-ceramic engineer in the local plant of the Allen-Bradley Company. Another member has been added to our list in the person of Morrow B. Herner (K ex-'16).

During the month of February, the writer had the opportunity to visit the chapters at Columbia University and the University of Pennsylvania. Both visits left a most favorable impression. Chapter publications from Minnesota, Pennsylvania, Penn State and Yale have been received and appreciated by the Council. No doubt you receive our intermittent Kappa "*Excuse*".

NORMAN C. LUCAS,
Secretary.

HELLENICA

"It is of the opinion of the writer that, because of the multiformity of aims (of what?—Exch. Ed.) no fraternal bonds sufficiently strong to justify an active chapter have ever existed at Harvard."—*The Rainbow* of $\Delta T \Delta$.—We believe there are exceptions to this statement.

From a table of "vital statistics" on National Fraternities in the *Delta* of ΣN we learn the following: $\Delta K E$ has the best score, 75% chapters active and 93% own their chapter houses. $\Sigma A E$ has the largest number of chapters, 74% are active and of these, 48% own their chapter houses. Of the other fraternities, $\Lambda X A$, ΘX , $\Theta \Xi$, $\Phi E \Pi$, and $A \Gamma P$ have 100% active. Houses are owned by 13% of $\Lambda X A$'s chapters, 22% of ΘX 's, 24% of $\Theta \Xi$'s, 21% of $A \Gamma P$ and none of $\Phi E \Pi$. The largest percentage of houses owned by active chapters is in the case of $\Delta \Psi$ or "St. Anthony", in which all active chapters own their own homes. 37% of $\Delta \Psi$'s chapters are active. In $A \Sigma \Phi$, 96% of the chapters are active, or it may be 93%, and 61% own their homes, as corrected to date.

We note from *The $\Delta K E$ Quarterly* that $Z \Psi$ now admits members of college faculties to membership.

Alpha Phi has opened its national office at 17 West 42nd Street, New York City.

"There are ways and means of obtaining the needful coin. After a recent meeting of the ΔY Club of So. California, the watchful treasurer sent around a note to each of the absentees stating that 'three men had promised to be at the dinner and stayed away. We shall be glad to have them pay up'. Eight paid up."—*The ΔY Quarterly*.

Members of $\Sigma A E$, $B \Theta \Pi$ and $\Delta T \Delta$ have recently been victimized by impostors claiming membership in the fraternity. In the case of $\Sigma A E$ the loss amounted to \$2,600 or more.

The large flat form of magazine, adopted by a number of our monthly periodicals in the past few years, is now appearing among fraternity magazines. *Banta's Greek Exchange*, *The Record* of Σ A E, the *Delta* of Σ N, are some of the periodicals having adopted this form.

Σ A E has completed the centralization of all the work of the fraternity at Evanston, Ill. Much of this work was formerly scattered between Detroit, Lynchburg, Minneapolis, Denver and Evanston.

Ψ Υ has revived its magazine, *The Diamond*, after a lapse of twenty-five years. It is issued by the Chicago Alumni Club, under the auspices of the fraternity.—Δ K E *Quarterly*.

"Initiation impressions are lasting. Think twice before pulling the rough stuff".—*Star and Lamp* of H K Φ, by the *Sickle and Sheaf* of A Γ P.

AMONG THE COLLEGES

The fear of a co-ed majority by the men at the University of Pennsylvania causes the *Pennsylvanian*, the students' daily paper, to write an editorial in which the following appears: "Do you realize that if the co-eds keep coming here in such rapidly increasing numbers, in four years there will be 12,000 of them around? Then the few remaining men will be compelled to use the fire escapes while their sisters march up and down the stairs singing 'Come all ye co-eds now from hall and campus too' in celebration of the victory over Smith and Bryn Mawr in the Big Three mandolin contest." *The Pennsylvanian* fears co-education as an institution at Pennsylvania is a thing which will lower the standing of the University.

Ohio State University will operate on the continuous yearly plan after July, 1922. The university year will be divided into four quarters, degrees being issued every quarter to those completing the work. Under this plan, the present four year courses may be completed in three years.

The University of Chicago plans an expenditure of \$15,000,000 in the next five years for new buildings and institutes for scientific

research, President Harry Pratt announced a short time ago. The proposed buildings will include the Rockefeller Chapel, which is to cost \$1,500,000 and which will seat 2,000 persons. The money for the chapel will be taken from a \$10,000,000 gift made by John D. Rockefeller several years ago.

In view of the indifference with which many editorial writers (not excluding some connected with the Greek press) view the growing radical propaganda in colleges and universities, the following, which recently appeared in the daily press, may not be out of place in these columns:

Dr. Daniel Russell Hodgdon, President of Valparaiso University, at Valparaiso, Ind., today sent his resignation to the Board of Trustees, asking that it be effective at once.

"The university is a hotbed of Bolshevism, communism and other cults," Dr. Hodgdon declared in his letter of resignation, "and nothing we could do to thwart their propaganda has been of any avail because of sinister inside influences. There has been fostered by faculty and outsiders Bolshevism, communism and other cults, the practice of which is destructive to American ideas and principles. Unsigned letters have come mysteriously to my desk, warning me against the principle I have preached; namely, loyalty to Americanism and American industrial life as the basis of American citizenship. The stream of propaganda can be traced to the very heart of the Federal Government, so firmly are its protagonists intrenched."

By this last remark Dr. Hodgdon is understood here as referring to the more than 100 former soldiers sent to the university by the Government Board of Vocational Education. It was one of these men, who some time ago began the agitation to oust the President. He charged that the administration of the university was trying to make "the poor man's Harvard" a regular Harvard by paying money to students who were prominent in athletics and in trying to introduce "a lot of new ideas that do not jibe with the traditions of the university". He was head of the Student Council, which had passed a resolution demanding the resignation of the university head. The faculty held a hurried meeting and dissolved the council. The students split into two camps when the news was learned, the Federal Board men backing Pierce solidly and threatening to leave college if he were expelled.

The PINNACLE *of* FAME

ALPHA

Rev. Dr. John P. Peters, '70, delivered the Bross lectures at Lake Forest College this year, his subject being "Spade and Bible". In 1920 Brother Peters traveled extensively in Palestine and that same year gave the Paddock lectures at the General Theological Seminary in New York City. He is now in the chair of New Testament Language and Interpretation at the University of the South.

General Russel Frost, '73, has resigned from the Grievance Committee of the Fairfield County (Conn.) Bar after serving on that committee for twenty years.

J. Louis Reynolds, '17, has been transferred from the Washington, D. C., branch of the American Telegraph and Telephone Company and is now located at the New York office, 195 Broadway, New York City.

W. H. T. Holden, '15, is now in the Physical Laboratory of the Westinghouse Lamp Company, Bloomfield, N. J.

William D. Bishop, '11, is representing the New Haven *Register* at the sessions of the Connecticut Legislature in Hartford. His address is P. O. Box 97, New Haven, Conn.

Paul H. Newcombe, '15, is with the Selas Company of Philadelphia. His address is 208 Iona Avenue, Narbeth, Pa.

Lieut. William Y. Rorer, ex-'13, may be reached by addressing the U. S. S. *Camden*, in care of The Postmaster, New York City.

BETA

Richard F. Boyce, '18, is in the Consular Service of the United States and serving in Jamaica, British West Indies.

GAMMA

C. F. Graves, '17, may now be addressed at Carlisle Tire Corporation, 58 W. 36th Street, New York, N. Y.

H. F. Staples, '93, is a physician in Cleveland and is in charge of the medical inspection of public schools in Cleveland Heights, with 3,500 pupils under his charge.

Milford H. Clark, '07, is assistant city forester for the City of Buffalo, N. Y.

Raymond Borden, '17, is assistant treasurer and office manager of the Sterling Ring Traveler Company of Fall River, Mass. His brother, Ralph, '13, is superintendent of the Agricultural Department of the Kamehameha Schools in Honolulu.

Dr. E. W. Allen, '85, is Director of Experiment Stations, Department of Agriculture, Washington, D. C.

F. S. Merrill, '12, is Vice-President of the Central States Orchards Co., Inc., which operates commercial orchards in Kansas, Missouri, Illinois and Nebraska.

H. C. Brewer, '13, is director of publicity, sales promotion and employee welfare of the Barrett Company of New York. He is also editor of the employees' magazine.

Edwin C. Towne, '15, is assistant dairy engineer for the Sheffield Farms Company, Inc., New York, N. Y.

Charles Rice, '01, is Superintendent of Production of the Western Electric Co., Inc., which company manufactures all the equipment for telephones on the Bell System.

James Day, '13, is a captain in the 9th U. S. Infantry at Camp Travis, Texas.

Paul E. Doherty, ex-'16, was graduated from Bowdoin in the class of 1920, after serving in the Navy. He is now with the Western Electric Co., on Summer Street, Boston, Mass.

DELTA

F. S. Brush, '78, 1929 El Dorado Street, Berkeley, Cal., is pastor of the new Presbyterian Church in Northbrae, Cal.

Brothers Tom Jones, '98, of Columbus, O., Roy B. Naylor, ex-'92, of Wheeling, W. Va., and Thomas H. Kelley, '74, of Cincinnati, O., are members of the Board of Trustees of Marietta College.

Tasker B. Bosworth, '69, is President of the Marietta College Alumni Council.

Hon. Albert B. White, '74, ex-Governor of West Virginia, and a Past Senior President of the Fraternity, has been nominated to be Collector of Internal Revenue, District of West Virginia, by President Harding, and his appointment will probably follow. His home is in Parkersburg, W. Va.

ZETA

Ralph C. Driscoll, '17, who has been attending the Foreign Service School at Georgetown University, recently received an appointment as Secretary of the American Legation at Warsaw, Poland, and has taken up his duties there.

Paul Morgan Herbert, '09, now occupies the position of Police Prosecutor for the City of Columbus, Ohio.

Edgar A. Sprague, '20, has left to take up his position as soloist at the Third Presbyterian Church of Pittsburgh, Pa.

IOTA

Walter B. Balch, '17, is now an instructor in the Horticulture Department of Kansas Agricultural College, Manhattan, Kansas.

John A. Dougherty, '15 (A '19), recently received his LL. B. from Fordham University.

K. D. Fisher, '12, is the sales manager of the Newark, N. J., office of Radon, French & Co., a Chicago investment house. He is also a member of the Executive Committee of the New York Alumni Council.

Rupert C. Kuhn, '16, is now district manager of the Crown Cork and Seal Co., with headquarters at Syracuse, N. Y.

John Small, '10, is a member of the firm of J. H. Small & Sons, florists, Washington, D. C.

George S. Veazie, '11, is now sole owner of the firm of Ingrain and Veazie, architects, Elmira, N. Y.

LAMBDA

Laurence H. Nichols, '14, is representing the Walworth International Company in South Africa. His address is Box 3662, Johannesburg, South Africa.

Harold J. Eckley, '14, is now a member of the firm of Eckley & Brown, 291 Broadway, New York, N. Y.

Allan L. Gurley, '19, has formed a law partnership with Frank L. Cubley and they are practicing at Potsdam, N. Y.

NU

Tracy Barrett Kittredge, '13, Grand Secretary of the Fraternity, whose engagement to Miss Eleanor Hayden, well known in Providence and New York as a writer, was recently announced, is at present in charge of the Hoover relief work in southeastern Europe, with headquarters at Berne, Switzerland, his territory taking in Italy, Serbia, Greece and some of the other smaller countries. His most recent book, "Naval Lessons of the Great War" published by Doubleday, Page and Co., received much favorable criticism from the New York newspapers.

E. J. Best, '13, is practicing medicine at 209 Post Street, San Francisco, Cal. He is President of the San Francisco Alumni Council.

H. B. Liversedge, '15, Quantico, Virginia, is still with the U. S. Marines. He distinguished himself in the Olympic games in Belgium last summer and his picture now graces almost every Marine billboard.

OMICRON

William D. Gordon, '16, was elected National Secretary-Treasurer of Beta Gamma Sigma, honorary commercial fraternity, on April 30th, 1921, at Chicago, Ill.

D. W. Hughes, '16, is now with Brown Brothers, bankers and brokers, 59 Wall Street, New York, N. Y.

Robert J. Flynn, '16, is with Frazar and Co., exporters and importers, 30 Church Street, New York, N. Y.

C. A. Gabeline, ex-'20, is now with the Standard Four Tire Co., Keokuk, Iowa.

J. Russell Umsted, '14, is in the investment securities business and operates in Pennsylvania and New Jersey. He may be reached by addressing him 1735 Diamond St., Philadelphia, Pa.

RHO

Emmeritz Norman, '17, is foreign sales manager for the Champion Spark Plug Co. He is stationed at 83 Pall Mall, London, England.

Charles T. Wangenstein, '20, is practicing law at Chisholm, Minn.

Charles Eldridge, '20, superintends the mail opening department at Montgomery-Ward & Co., St. Paul, Minn.

Floyd M. Friar, '20, is with the State Highway Department, St. Paul, Minn.

Dr. Robert C. Rawson, '20, is practicing dentistry at 654 N. E. Adams St., Minneapolis, Minn.

ENGAGEMENTS

Tracy Barrett Kittridge (N '13) to Miss Eleanor Hayden, of Newport, R. I.

Frederic B. Schell (A '16) to Miss Alice Goodridge, of Montclair, N. J.

Gordon Rogers (M '16) to Miss Beatrice Pierson Howill (A Γ Δ).

Oren C. Leetun (Φ '20) to Miss Ruth Dudley, of Manchester, Iowa.

Lucian A. Spriggs (E '21) to Miss Kathryn Aber, of Washington, Pa.

Lincoln F. White (E '17) to Miss Dessah Cooper, of Freeport, Pa.

Claude Perry (E '20) to Miss Lydia Farrar, of London, Ohio.

Henry B. Hass (E '19) to Miss Georgia Herancourt, of Sidney, Ohio.

Alfred V. Cerney (Ξ '18) to Miss Harriette Ford (A O II) of Bertrand, Neb.

Fred L. Herman (Ξ '16) to Miss Mable McAdams (Δ Z) of Schuyler, Neb.

Arthur M. Herring (Ξ '20) to Miss Hazel Muzzy (Achoth) of Bloomington, Neb.

Archie F. Funk (Ξ '20) to Miss Helen Vanboran, of Lincoln, Neb.

W. A. Kerley (Υ '20) to Miss Nancy G. Wagle, of Pittsburgh, Pa.

E. Ross Wilson (O '15) to Miss Fannie Haley, of Charlottesville, Va.

MARRIAGES

Rev. Herbert Hawthorne Benedict (A '07) to Mlle. Helena de Roppellewska, June 1st, 1920, in Czernowitz, Poland. They are now living in Krakau, Poland, where Brother Benedict is engaged in educational and hospital work among the Polish soldiers.

Lieut. William Y. Rorer (A ex-'13) to Miss Gladys Archbutt Gibbons, of London, England, on August 2nd, 1920.

Miles E. Goodrich (A '17) to Miss Vera J. Logie, at New Haven, Connecticut, on November 6th, 1920.

Rupert Howard Porter (Φ '20) to Miss Hazel Kintzley (A Γ Λ). At home, Ames, Iowa.

J. Ralph Magnus (O '18) to Miss Marion Miller of Philadelphia, Pa., on April 16th, 1921.

BIRTHS

To Claude F. Williams (I '12) and Mrs. Williams, a son, Donald Emerson, March 16th, 1921.

To William B. Lipphard (A '07) and Mrs. Lipphard, a son, Dickinson, October 6th, 1920.

To Harold L. Sullivan (Γ '18) and Mrs. Sullivan, a son, Mitchell C., April 10th, 1921.

To William Edward Byers (Δ '08, Λ '10) and Mrs. Byers, a son, William Edward, Jr., April 11th, 1921.

To Dr. H. H. Lowry (E '18) and Mrs. Lowry, a daughter, Helen Louise, March 26th, 1921.

To C. E. Wigton (E '19) and Mrs. Wigton, a son, William Lowry, March 20, 1921, at Pekin, China.

GRADUATE SCHOOL · YALE UNIVERSITY

1847 1920

WILBUR L. CROSS, DEAN

It is an interesting fact that the first Ph.D. degree conferred for graduate study in this country was given by Yale.

Referring to graduate work, the Carnegie Foundation has officially reported: "Historically, the account should begin with Yale College, where in 1846 graduate courses in Philosophy and the Arts were established The honor of having established the first creditable course of study for the degree of Doctor of Philosophy is due to Yale."

The Yale Graduate School as organized today to meet modern demands for specialized training presents exceptional opportunities for instruction and research leading to the degrees of Doctor of Philosophy, Master of Arts, Master of Science, Doctor of Public Health, Certificate in Public Health, Civil Engineer, Mechanical Engineer, Electrical Engineer and Engineer of Mines.

Yale offers through its Graduate School preparation for leadership in the following fields of national service:

TEACHING: *Degrees*: Master of Arts; Master of Science; Doctor of Philosophy.

SCIENTIFIC RESEARCH: *Degrees*: Master of Science; Doctor of Philosophy.

ENGINEERING: *Degrees*: Mechanical Engineer; Electrical Engineer; Civil Engineer; Metallurgical Engineer; Engineer of Mines.

GOVERNMENT AND PUBLIC SERVICE: *Degrees*: Master of Arts; Master of Science; Doctor of Philosophy; Certificate in Public Health; Doctor of Public Health.

A catalogue describing the equipment and courses in each Department, and giving particulars in regard to admission, requirements for degrees, tuition, and other information, will be sent upon request by the Dean's Office of the Graduate School.

ADDRESS: Dean's Office, Graduate School, Yale University,
New Haven, Conn.
